

HTTP Error 404.11 - Not Found

The request filtering module is configured to deny a request that contains a double escape sequence.

Most likely causes:

- The request contained a double escape sequence and request filtering is configured on the Web server to deny double escape sequences.

Things you can try:

- Verify the configuration/system.webServer/security/requestFiltering@allowDoubleEscaping setting in the applicationhost.config or web.config file.

Detailed Error Information:

Module	RequestFilteringModule	Requested URL	https://listingcenter.nasdaq.com:443/InitialListingAgreement.aspx?Preview=LA&Print=N&filem=Listing+Agreement&to=1
Notification	BeginRequest	Physical Path	D:\InetSrv\WWWRoot\ILA\InitialListingAgreement.aspx?Preview=LA&Print=N&filem=Listing+Agreement&to=1
Handler	StaticFile	Logon Method	Not yet determined
Error Code	0x00000000	Logon User	Not yet determined

More Information:

This is a security feature. Do not change this feature unless the scope of the change is fully understood. You should take a network trace before changing this value to confirm that the request is not malicious. If double escape sequences are allowed by the server, modify the configuration/system.webServer/security/requestFiltering@allowDoubleEscaping setting. This could be caused by a malformed URL sent to the server by a malicious user.
