

traded options on futures contracts by virtue of: (a) Its membership in ISG; or (b) a comprehensive surveillance sharing agreement.

(6) Prior to the commencement of trading, the Exchange will inform its members in an Information Circular (“Circular”) of the special characteristics and risks associated with trading the Shares. Specifically, the Circular will discuss the following: (a) The procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (b) BATS Rule 3.7, which imposes suitability obligations on Exchange members with respect to recommending transactions in the Shares to customers; (c) how information regarding the IIV and the Disclosed Portfolio is disseminated; (d) the risks involved in trading the Shares during the Pre-Opening⁴⁰ and After Hours Trading Sessions⁴¹ when an updated IIV will not be calculated or publicly disseminated; (e) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (f) trading information.

(7) For initial and continued listing, the Fund and the Subsidiary must be in compliance with Rule 10A–3 under the Act.⁴²

(8) The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including securities deemed illiquid by the Adviser under the 1940 Act.

(9) The Fund will invest in Commodities through investments in the Subsidiary and will not invest directly in physical commodities. The Fund’s investment in the Subsidiary may not exceed 25% of the Fund’s total assets. The Fund and the Subsidiary will not invest in any non-U.S. equity securities (other than shares of the Subsidiary).

(10) Investments in non-centrally cleared swaps (through the Subsidiary) will not represent more than 20% of the Fund’s net assets.

(11) At least 75% of corporate debt obligations will have a minimum principal amount outstanding of \$100 million or more. In addition, the exchange-traded investment companies and commodity-linked instruments in which the Fund invests will be listed and traded in the U.S. on registered exchanges.

(12) While the Fund will be permitted to borrow as permitted under the 1940 Act, the Fund’s investments will not be used to seek performance that is the multiple or inverse multiple (*i.e.*, 2X and –3X) of the Benchmark.

(13) A minimum of 100,000 Shares will be outstanding at the commencement of trading on the Exchange.

The Exchange represents that all statements and representations made in the filing regarding (a) the description of the portfolio, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange rules and surveillance procedures constitute continued listing requirements for listing the Shares on the Exchange. In addition, the issuer has represented to the Exchange that it will advise the Exchange of any failure by the Fund to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will surveil for compliance with the continued listing requirements. If the Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under Exchange Rule 14.12. This approval order is based on all of the Exchange’s representations and description of the Fund, including those set forth above and in the Notice. The Commission notes that the Fund and the Shares must comply with the requirements of BATS Rule 14.11(i), including those set forth in this proposed rule change, to be listed and traded on the Exchange on an initial and continuing basis.

For the foregoing reasons, the Commission finds that the proposed rule change, as modified by Amendment Nos. 1, 2, and 3 thereto, is consistent with Section 6(b)(5) of the Act⁴³ and the rules and regulations thereunder applicable to a national securities exchange.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁴⁴ that the proposed rule change (SR–BATS–2015–105), as modified by Amendment Nos. 1, 2, and 3 thereto, be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁴⁵

Robert W. Errett,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–77488; File No. SR–ISEGemini–2016–03]

Self-Regulatory Organizations; ISE Gemini, LLC; Notice of Filing of Proposed Rule Change Related to Market Wide Risk Protection

March 31, 2016.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that, on March 17, 2016, the ISE Gemini, LLC (the “Exchange” or “ISE Gemini”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change, as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to introduce new activity based order protections as described in more detail below. The text of the proposed rule change is available on the Exchange’s Web site (<http://www.ise.com>), at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to introduce new risk protections for orders designed to aid members in their risk management by supplementing current price

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

⁴⁰ The Pre-Opening Session is from 8:00 a.m. to 9:30 a.m. Eastern Time.

⁴¹ The After Hours Trading Session is from 4:00 p.m. to 5:00 p.m. Eastern Time.

⁴² See 17 CFR 240.10A–3.

reasonability checks with activity based order protections.³ In particular, the Exchange proposes to introduce two activity based risk protections that will be mandatory for all members: (1) The “Order Entry Rate Protection,” which protects members against *entering* orders at a rate that exceeds predefined thresholds,⁴ and (2) the “Order Execution Rate Protection,” which protects members against *executing* orders at a rate that exceeds their predefined risk settings. Both of these risk protections are detailed in Proposed Rule 714(d), “Market Wide Risk Protection.”⁵ The Exchange will announce the implementation date of the Market Wide Risk Protection in a circular to be distributed to members prior to implementation.

Pursuant to the proposed Market Wide Risk Protection rule, the Exchange’s trading system (the “System”) will maintain one or more counting programs on behalf of each member that will count the number of orders entered, and the number of contracts traded on ISE Gemini or, if chosen by the member,⁶ across both ISE Gemini and ISE Gemini’s affiliate, the International Securities Exchange, LLC (“ISE”), which shares a trading system with ISE Gemini. Members can use multiple counting programs to separate risk protections for different groups established within the member.⁷ The counting programs will maintain separate counts, over rolling time periods specified by the member for each count, of: (1) The total number of orders entered; and (2) the total number of contracts traded.⁸ Contracts executed on the agency and contra-side of a two-sided crossing order will be counted

³ The Exchange provides members with limit order price protections designed to prevent erroneous executions by rejecting orders priced too far through the market. See Rule 714(b)(2).

⁴ The Exchange will determine when to initiate the Order Entry Rate Protection pre-open to allow members time to load their orders without inadvertently triggering the protection. The precise time will be established by the Exchange and communicated to members via circular prior to implementation.

⁵ The term “Market Wide Risk Protection” includes both the “Order Entry Rate Protection” and the “Order Execution Rate Protection.”

⁶ Members will have the option to set different risk parameters for their trading activity on each exchange, or set risk parameters that apply to their trading across both ISE Gemini and ISE, if desired.

⁷ The Exchange will explain how members can go about setting up risk protections for different groups (e.g., business units) in a circular issued to members.

⁸ The member’s allowable order rate for the Order Entry Rate Protection is comprised of the parameter defined in (1), while the allowable contract execution rate for the Order Execution Rate Protection is comprised of the parameter defined in (2).

separately for the Order Execution Rate Protection.

Members will have discretion to establish the applicable time period for each of the counts maintained under the Market Wide Risk Protection, provided that the selected period must be within minimum and maximum parameters established by the Exchange and announced via circular.⁹ While the Market Wide Risk Protection is mandatory for all members, the Exchange is not proposing to establish minimum or maximum values for the order entry and execution parameters described in (1) and (2) above. The Exchange believes that this approach will give members the flexibility needed to appropriately tailor the Market Wide Risk Protection to their respective risk management needs. In this regard, the Exchange notes that each member is in the best position to determine risk settings appropriate for their firm based on the member’s trading activity and business needs. In the interest of maintaining a fair and orderly market, however, the Exchange will establish default values for the applicable time period and order entry and execution parameters in a circular to be distributed to members. Default values established by the Exchange will apply only to members that do not submit their own parameters for the Market Wide Risk Protection.

The System will trigger the Market Wide Risk Protection when the counting program has determined that the member has either (1) entered during the specified time period a number of orders exceeding its designated allowable order rate, or (2) executed during the specified time period a number of contracts exceeding its designated allowable contract execution rate. In particular, after a member enters an order, or a member’s order is executed, the System will look back over the specified time period to determine whether the member has exceeded the threshold that it has set for the total number of orders entered or the total number of contracts traded, as applicable. If the member’s threshold has been exceeded, the Market Wide Risk Protection will be triggered and the System will automatically reject all subsequent incoming orders entered by the member on ISE Gemini or, if applicable, across both ISE Gemini and ISE.¹⁰ In addition, if the member has

⁹ The Exchange anticipates that the minimum and maximum values for the applicable time period will be initially set at one second and a full trading day, respectively.

¹⁰ Members that set different risk parameters for ISE Gemini and ISE will only have their orders

opted in to this functionality, the System will automatically cancel all of the member’s existing orders. The Market Wide Risk Protection will remain engaged until the member manually (e.g., via email) notifies the Exchange to enable the acceptance of new orders; however, the System will still allow members to interact with existing orders entered before the protection was triggered, including sending cancel order messages and receiving trade executions for those orders.

The Exchange believes that the proposed Market Wide Risk Protection will assist members in better managing their risk when trading on ISE Gemini. In particular, the proposed rule change provides functionality that allows members to set risk management thresholds for the number of orders entered or contracts executed on the Exchange during a specified period. This is similar to how other options exchanges have implemented activity-based risk management protections,¹¹ and the Exchange believes this functionality will likewise be beneficial for ISE Gemini members.

The examples below illustrate how the Market Wide Risk Protection would work both for order entry and order execution protections:

Example 1, Order Entry Rate Protection:

Broker Dealer 1 (“BD1”) designates an allowable order rate of 499 orders/1 second.

@0 milliseconds, BD1 enters 200 orders.

(Order total: 200 orders)

@450 milliseconds, BD1 enters 250 orders. (Order total: 450 orders)

@950 milliseconds, BD1 enters 50 orders. (Order total: 500 orders)

Market Wide Risk Protection is triggered on ISE Gemini, and, if applicable, ISE¹² due to exceeding 499 orders in 1 second. All subsequent orders are rejected, and if BD1 has opted in to this functionality, all existing orders are cancelled. BD1 must contact Market Operations to resume trading.

Example 2, Order Execution Rate Protection:

BD1 designates an allowable execution rate of 15,000 contracts/2 seconds.

rejected on the exchange whose threshold was exceeded.

¹¹ See Securities Exchange Act Release Nos. 74118 (January 22, 2015), 80 FR 4605 (January 28, 2015) (Notice); 74496 (March 13, 2015), 80 FR 14421 (March 19, 2015) (Approval) (SR-MIAX-2015-03).

¹² Members that share risk settings across both ISE Gemini and ISE will have the Market Wide Risk Protection triggered on both markets.

@0 milliseconds, BD1 receives executions for 5,000 contracts.

(Execution total: 5,000 contracts)

@600 milliseconds, BD1 receives executions for 10,000 contracts.

(Execution total: 15,000 contracts)

@1550 milliseconds, BD1 receives executions for 2,000 contracts.

(Execution total: 17,000 contracts)

Market Wide Risk Protection is triggered on ISE Gemini, and, if applicable, ISE¹³ due to exceeding 15,000 contracts in 2 seconds. All subsequent orders are rejected, and if BD1 has opted in to this functionality, all existing orders are cancelled. BD1 must contact Market Operations to resume trading.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.¹⁴ Specifically, the proposed rule change is consistent with Section 6(b)(5) of the Act,¹⁵ because it is designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change would assist with the maintenance of a fair and orderly market by establishing new activity based risk protections for orders. The Exchange currently offers a risk protection mechanism for market maker quotes that removes the member's quotes if a specified number of curtailment events occur during a set time period ("Market Wide Speed Bump").¹⁶ The Exchange believes that this Market Wide Speed Bump functionality has been successful in reducing market maker risk and now proposes to adopt risk protections for orders that would allow other members to properly manage their exposure to excessive risk. In particular, the proposed rule change would implement two new risk protections based on the rate of order entry and order execution, respectively. The Exchange believes that both of these new protections, which together encompass the proposed Market Wide Risk Protection, would

enable members to better manage their risk when trading options on the Exchange by limiting the member's risk exposure when systems or other issues result in orders being entered or executed at a rate that exceeds predefined thresholds. In today's market the Exchange believes that robust risk management is becoming increasingly more important for all members. The proposed rule change would provide an additional layer of risk protection for market participants that trade on the Exchange.

The proposed Market Wide Risk Protection is similar to risk management functionality provided by other options exchanges, including, for example, the MIAX Options Exchange ("MIAX"), which recently received Commission approval for its "Risk Protection Monitor" for orders.¹⁷ In particular, the Market Wide Risk Protection is designed to reduce risk associated with system errors or market events that may cause members to send a large number of orders, or receive multiple, automatic executions, before they can adjust their exposure in the market. Without adequate risk management tools, such as those proposed in this filing, members could reduce the amount of order flow and liquidity that they provide. Such actions may undermine the quality of the markets available to customers and other market participants. Accordingly, the proposed rule change is designed to encourage members to submit additional order flow and liquidity to the Exchange, thereby removing impediments to and perfect [sic] the mechanisms of a free and open market and a national market system and, in general, protecting investors and the public interest. In addition, providing members with more tools for managing risk will facilitate transactions in securities because, as noted above, the members will have more confidence that protections are in place that reduce the risks from potential system errors and market events. As a result, the new functionality has the potential to promote just and equitable principles of trade.

The Exchange also believes that it is consistent with the protection of investors and the public interest to offer the Market Wide Risk Protection to members across both ISE Gemini and ISE as this will permit members to more effectively manage their risk simultaneously on both markets if desired. The Exchange already offers cross market risk protections for market

makers [sic] quotes,¹⁸ and is now proposing to similarly offer a cross market risk protection for orders in order to reduce the risk that members face when entering orders on multiple exchanges. The Exchange notes that issues that would trigger the Market Wide Risk Protection are not normally confined to a member's activity on a single exchange. Accordingly, the Exchange believes that offering the Market Wide Risk Protection on a cross-market basis would help members to more effectively manage their risk when trading on multiple markets, and reduce disruptive trading events to the benefit of all members and investors.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,¹⁹ the Exchange does not believe that the proposed rule change would impose any burden on intermarket or intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed Market Wide Risk Protection is similar to risk protections already available on other options exchanges,²⁰ and is designed to be a competitive offering that would mitigate the risk associated with trading on the Exchange. Market makers already benefit from Market Wide Speed Bump functionality available for quotes. The proposed change would extend new risk protections to orders so that additional market participants can benefit from risk mitigating functionality. Like the Exchange's Market Wide Speed Bump, the proposed rule change would also be offered cross-market to members that want to be protected from inadvertent exposure to excessive risk when trading on both ISE Gemini and ISE. Permitting this functionality to be cross-market will not have any impact on competition that is not necessary or appropriate in furtherance of the purposes of the Act. In addition, the proposed functionality would be mandatory for all members, and would be made available on an equal and non-discriminatory basis. As such, the Exchange does not believe that the proposed rule change would impose any unnecessary burden on competition.

¹⁸ See Securities Exchange Act Release Nos. 71758 (March 20, 2014), 79 FR 16846 (March 26, 2014) ("Notice"); 73148 (September 19, 2014), 79 FR 57626 (September 25, 2014) (Approval) (SR-ISE Gemini-2014-09).

¹⁹ 15 U.S.C. 78f(b)(8).

²⁰ See supra notes 10 [sic] and 15 [sic].

¹³ Members that share risk settings across both ISE Gemini and ISE will have the Market Wide Risk Protection triggered on both markets.

¹⁴ 15 U.S.C. 78f(b).

¹⁵ 15 U.S.C. 78f(b)(5).

¹⁶ See Rule 804(g)(2).

¹⁷ See supra note 9 [sic].

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the publication date of this notice or within such longer period (1) as the Commission may designate up to 45 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (2) as to which the self-regulatory organization consents, the Commission will:

- (a) by order approve or disapprove such proposed rule change; or
- (b) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-ISEGemini-2016-03 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090. All submissions should refer to File Number SR-ISEGemini-2016-03. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the

Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-ISEGemini-2016-03 and should be submitted on or before April 27, 2016.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²¹

Robert W. Errett,
Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-77484; File No. SR-NYSEARCA-2016-52]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Adopting Requirements for the Collection and Transmission of Data Pursuant to Appendices B and C of the Regulation NMS Plan To Implement a Tick Size Pilot Program

March 31, 2016.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on March 29, 2016, NYSE Arca, Inc. (the "Exchange" or "NYSE Arca") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

²¹ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to adopt requirements for the collection and transmission of data pursuant to Appendices B and C of the Regulation NMS Plan to Implement a Tick Size Pilot Program ("Plan"). The proposed rule change is available on the Exchange's Web site at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On August 25, 2014, NYSE Group, Inc., on behalf of the Exchange, New York Stock Exchange LLC, NYSE MKT LLC, the Bats BZX Exchange, Inc. f/k/a BATS Exchange, Inc. ("BZX"), BATS BYX Exchange, Inc. f/k/a BATS Y-Exchange, Inc. ("BYX"), Bats EDGA Exchange, Inc., Bats EDGX Exchange, Inc., Chicago Stock Exchange, Inc., Financial Industry Regulatory Authority, Inc. ("FINRA"), NASDAQ OMX BX, Inc., NASDAQ OMX PHLX LLC, and the Nasdaq Stock Market LLC (collectively "Participants"), filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 11A of the Act⁴ and Rule 608 of Regulation NMS thereunder,⁵ the Plan to Implement a Tick Size Pilot Program ("Pilot").⁶ The Participants filed the Plan to comply with an order issued by the Commission on June 24,

⁴ 15 U.S.C. 78k-1.

⁵ 17 CFR 242.608.

⁶ See Letter from Brendon J. Weiss, Vice President, Intercontinental Exchange, Inc., to Secretary, Commission, dated August 25, 2014.
