1. Text of the Proposed Rule Change

(a) NASDAQ BX, Inc. (“BX” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend Commentary .14 to Rule 4770 (Compliance with Regulation NMS Plan to Implement a Tick Size Pilot) to provide the SEC with notice of its efforts to re-program its systems to eliminate a re-pricing functionality for certain orders in Test Group Three securities in connection with the Regulation NMS Plan to Implement a Tick Size Pilot Program (“Plan” or “Pilot”).³

The Exchange requests that the Commission waive the five-day pre-filing requirement and the 30-day operative delay period contained in Exchange Act Rule 19b-4(f)(6)(iii).⁴

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1.

The text of the proposed rule change is set forth below. Proposed new language is underlined; deleted text is in brackets.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

On September 7, 2016, the Exchange filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change ("Proposal") to adopt paragraph (d) to Exchange Rule 4770 to describe changes to system functionality necessary to implement the Plan. The Exchange also proposed amendments to Rule 4770(a) and (c) to clarify how the Trade-at exception may be satisfied. The SEC published the Proposal in the Federal Register for notice and comment on September 20,

2016.⁵ BX subsequently filed three Partial Amendments to clarify aspects of the Proposal. The Commission approved the Proposal, as amended, on October 7, 2016.⁶

In SR-BX-2016-050, BX had initially proposed a re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group Three securities.⁷ BX subsequently determined that it would not offer this re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group Three securities. As part of Partial Amendment No. 2 to SR-BX-2016-050, BX proposed to delete the relevant language from Rule 4770 related to this re-pricing functionality.

In that amendment, BX noted that this change would only impact the treatment of Price to Comply Orders, Non-Displayed Orders, and Post-Only orders that are submitted through the OUCH and FLITE protocols in Test Group Three Pilot Securities, as these types of Orders that are currently submitted to BX through the RASH or FIX protocols

⁵ See Securities Exchange Act Release No. 78838 (September 14, 2016), 81 FR 64566 (September 20, 2016) (SR-BX-2016-050).

⁶ See Securities Exchange Act Release No. 79076 (October 7, 2016) (SR-BX-2016-050).

⁷ As originally proposed, Rule 4770(d)(2) stated that Price to Comply Orders in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price. Rule 4770(d)(3) stated that, if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price. Rule 4770(d)(4) stated that, if market conditions allow, the Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the BX Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

are already subject to this re-pricing functionality and will remain subject to this functionality under the Pilot.

In the Amendment, BX further noted that its systems are currently programmed so that Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities may be adjusted repeatedly to reflect changes to the NBBO and/or the best price on the BX book. BX stated that it is re-programming its systems to remove this functionality for Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities. In the Amendment, BX stated that it anticipated that this re-programming shall be completed no later than November 30, 2016. If it appears that this functionality will remain operational by October 17, 2016, BX indicated that it would file a proposed rule change with the SEC and will provide notice to market participants sufficiently in advance of that date to provide effective notice. The rule change and the notice to market participants will describe the current operation of the BX systems in this regard, and the timing related to the re-programming.

On October 17, 2016, BX filed a proposal to extend the date by which it would complete the re-programming of its systems to eliminate the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols.⁸ In that proposal, BX stated that it anticipated that this re-programming shall be complete on or before October 31, 2016.⁹

⁸ See Securities Exchange Act Release No. 79154 (October 25, 2016) (SR-BX-2016-054).

At this time, BX is still determining how to modify its systems to eliminate the current re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols. BX is therefore submitting this proposal to extend the date by which the current re-pricing functionality will be eliminated. BX anticipates that the re-programming to eliminate the current re-pricing functionality shall be completed on or before November 14, 2016.

Therefore, the current treatment of Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols in Test Group Three securities shall be as follows:

Following entry, and if market conditions allow, a Price to Comply Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Price to Display Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Display Order is able to be ranked and displayed at its original entered limit price.

Subsequent to the approval of SR-BX-2016-050, BX become aware that this re-pricing functionality also applies to Price to Display Orders that are entered through the OUCH and FLITE protocols in Test Group Three Securities, and included those Orders as part of SR-BX-2016-054 accordingly. Price to Display Orders will be treated in the same manner as Price to Comply Orders under the re-pricing functionality.

⁹ Id.

Following entry, and if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price.

Following entry, and if market conditions allow, a Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the BX Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The purpose of this filing is to inform the SEC and market participants of the status of BX's attempts to re-program its systems to remove the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, and the current treatment of such orders pending the removal of this functionality. This proposal is consistent with the Act because it provides the SEC and market participants with notice of BX's efforts in this regard, and is being submitted in connection with the statements made by BX in SR-BX-2016-050 and SR-BX-2016-054 in proposing the removal of this functionality.

¹⁰ 15 U.S.C. 78f(b).

¹¹ 15 U.S.C. 78f(b)(5).

BX also believes that the proposal is consistent with the Act because the re-pricing functionality will not significantly impact the data gathered pursuant to the Pilot. BX notes that this re-pricing functionality only affects Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols for Test Group Three securities until the re-pricing functionality is eliminated, and only becomes relevant when an Order in a Test Group Three security would cross a Protected Quotation of another market center. BX has analyzed data relating to the frequency with which Orders in Test Group Three securities are entered with a limit price that would cross a Protected Quotation of another market center, and believes that the re-pricing functionality will be triggered infrequently once Test Group Three becomes fully operational.¹² The Exchange also notes that it is diligently working to eliminate the current re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, and that it anticipates this re-programming to be complete on or before November 14, 2016.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The purpose of this proposal is to provide the SEC and market participants with notice of BX's efforts to remove its re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders,

¹² For example, on October 31, 2016, in the one hundred Test Group Three securities that are currently live, 0.06% of orders that were entered on the NASDAQ Stock Market LLC in those securities were entered at a price that crossed the NBBO.

and Post-Only Orders that are entered through the OUCH or FLITE protocols, consistent with its statements in SR-BX-2016-050 and SR-BX-2016-054.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)¹³ of the Act and Rule 19b-4(f)(6) thereunder¹⁴ in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

BX does not believe that this proposal will significantly affect the protection of investors or the public interest; and does not impose any significant burden on competition. As noted above, the purpose of this proposal is to provide the SEC and market participants with notice of BX's efforts to remove its re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, consistent with its statements in SR-BX-2016-050 and SR-BX-2016-054.

¹³ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁴ 17 CFR 240.19b-4(f)(6).

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. BX requests that the Commission waive the five-day pre-filing requirement, as set forth in Rule 19b-4(f)(6).

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the five-day pre-filing requirement and the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) so that this proposed change will be in operative as of October 31, 2016, which BX had previously specified as the anticipated date by which the process of removing the current re-pricing functionality for certain Test Group Three securities would be complete.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

No applicable.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On September 7, 2016, the Exchange filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change ("Proposal") to adopt paragraph (d) to Exchange Rule 4770 to describe changes to system functionality necessary to implement the Plan. The Exchange also proposed amendments to Rule 4770(a) and (c) to clarify how the Trade-at exception may be satisfied. The SEC published the Proposal in the Federal Register for notice and comment on September 20, 2016.⁴ BX subsequently filed three Partial Amendments to clarify aspects of the Proposal. The Commission approved the Proposal, as amended, on October 7, 2016.⁵

⁴ See Securities Exchange Act Release No. 78838 (September 14, 2016), 81 FR 64566 (September 20, 2016) (SR-BX-2016-050).

⁵ See Securities Exchange Act Release No. 79076 (October 7, 2016) (SR-BX-2016-050).

In SR-BX-2016-050, BX had initially proposed a re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group Three securities.⁶ BX subsequently determined that it would not offer this re-pricing functionality for Price to Comply Orders, Non-Displayed Orders, and Post-Only Orders entered through the OUCH and FLITE protocols in Group Three securities. As part of Partial Amendment No. 2 to SR-BX-2016-050, BX proposed to delete the relevant language from Rule 4770 related to this re-pricing functionality.

In that amendment, BX noted that this change would only impact the treatment of Price to Comply Orders, Non-Displayed Orders, and Post-Only orders that are submitted through the OUCH and FLITE protocols in Test Group Three Pilot Securities, as these types of Orders that are currently submitted to BX through the RASH or FIX protocols are already subject to this re-pricing functionality and will remain subject to this functionality under the Pilot.

In the Amendment, BX further noted that its systems are currently programmed so that Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities may be adjusted

⁶ As originally proposed, Rule 4770(d)(2) stated that Price to Comply Orders in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price. Rule 4770(d)(3) stated that, if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price. Rule 4770(d)(4) stated that, if market conditions allow, the Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the BX Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

repeatedly to reflect changes to the NBBO and/or the best price on the BX book. BX stated that it is re-programming its systems to remove this functionality for Price to Comply Orders, Non-Displayed Orders and Post-Only Orders entered through the OUCH and FLITE protocols in Test Group Three Securities. In the Amendment, BX stated that it anticipated that this re-programming shall be completed no later than November 30, 2016. If it appears that this functionality will remain operational by October 17, 2016, BX indicated that it would file a proposed rule change with the SEC and will provide notice to market participants sufficiently in advance of that date to provide effective notice. The rule change and the notice to market participants will describe the current operation of the BX systems in this regard, and the timing related to the re-programming.

On October 17, 2016, BX filed a proposal to extend the date by which it would complete the re-programming of its systems to eliminate the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols.⁷ In that proposal, BX stated that it anticipated that this re-programming shall be complete on or before October 31, 2016.⁸

At this time, BX is still determining how to modify its systems to eliminate the current re-pricing functionality in Test Group Three securities for Price to Comply

⁷ See Securities Exchange Act Release No. 79154 (October 25, 2016) (SR-BX-2016-054).

Subsequent to the approval of SR-BX-2016-050, BX become aware that this re-pricing functionality also applies to Price to Display Orders that are entered through the OUCH and FLITE protocols in Test Group Three Securities, and included those Orders as part of SR-BX-2016-054 accordingly. Price to Display Orders will be treated in the same manner as Price to Comply Orders under the re-pricing functionality.

⁸ Id.

Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols. BX is therefore submitting this proposal to extend the date by which the current re-pricing functionality will be eliminated. BX anticipates that the re-programming to eliminate the current re-pricing functionality shall be completed on or before November 14, 2016.

Therefore, the current treatment of Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols in Test Group Three securities shall be as follows:

Following entry, and if market conditions allow, a Price to Comply Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Comply Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Price to Display Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO until such time as the Price to Display Order is able to be ranked and displayed at its original entered limit price.

Following entry, and if market conditions allow, a Non-Displayed Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO up (down) to the Order's limit price.

Following entry, and if market conditions allow, a Post-Only Order in a Test Group Three Pilot Security will be adjusted repeatedly in accordance with changes to the NBBO or the best price on the BX Book, as applicable until such time as the Post-Only Order is able to be ranked and displayed at its original entered limit price.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁹ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁰ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The purpose of this filing is to inform the SEC and market participants of the status of BX's attempts to re-program its systems to remove the re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, and the current treatment of such orders pending the removal of this functionality. This proposal is consistent with the Act because it provides the SEC and market participants with notice of BX's efforts in this regard, and is being submitted in connection with the statements made by BX in SR-BX-2016-050 and SR-BX-2016-054 in proposing the removal of this functionality.

BX also believes that the proposal is consistent with the Act because the re-pricing functionality will not significantly impact the data gathered pursuant to the Pilot. BX notes that this re-pricing functionality only affects Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols for Test Group Three securities until the re-pricing functionality is eliminated, and only becomes relevant when an Order in a Test Group Three security would cross a Protected Quotation of another market center. BX has

analyzed data relating to the frequency with which Orders in Test Group Three securities are entered with a limit price that would cross a Protected Quotation of another market center, and believes that the re-pricing functionality will be triggered infrequently once Test Group Three becomes fully operational.¹¹ The Exchange also notes that it is diligently working to eliminate the current re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, and that it anticipates this re-programming to be complete on or before November 14, 2016.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The purpose of this proposal is to provide the SEC and market participants with notice of BX's efforts to remove its re-pricing functionality in Test Group Three securities for Price to Comply Orders, Price to Display Orders, Non-Displayed Orders, and Post-Only Orders that are entered through the OUCH or FLITE protocols, consistent with its statements in SR-BX-2016-050 and SR-BX-2016-054.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

¹¹ For example, on October 31, 2016, in the one hundred Test Group Three securities that are currently live, 0.06% of orders that were entered on the NASDAQ Stock Market LLC in those securities were entered at a price that crossed the NBBO.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹² and subparagraph (f)(6) of Rule 19b-4 thereunder.¹³

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹² 15 U.S.C. 78s(b)(3)(A)(iii).

¹³ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.
