1. Text of the Proposed Rule Change

(a) Nasdaq BX, Inc. (“BX” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend the Exchange’s transaction fees at Equity 7, Section 118(a), as described further below.

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”) on September 26, 2018. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to amend the Exchange's transaction fees at Equity 7, Section 118(a) to adjust the qualifying terms for an existing credit it offers to members with orders that access liquidity on the Exchange.

The Exchange operates on the “taker-maker” model, whereby it pays credits to members that take liquidity and charges fees to members that provide liquidity. Currently, the Exchange offers several different credits for orders that access liquidity on the Exchange. Among these credits, the Exchange offers a \$0.0015 per share executed credit for orders that access liquidity (excluding orders with Midpoint pegging and excluding orders that receive price improvement and execute against an order with a Non-displayed price) that are entered by a member that accesses liquidity equal to or exceeding 0.075% of total Consolidated Volume³ during a month. Because the Exchange has been growing in volume over the past few months, the Exchange recently increased the level of Consolidated Volume required to receive the credit from 0.065% to 0.075% of total Consolidated Volume during a month.⁴ The Exchange believes that a lower volume requirement would help more firms grow as the exchange grows and is therefore proposing to adjust the requirement lower to 0.070%.

³ Pursuant to Equity 7, Section 118(a), the term “Consolidated Volume” means the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot.

⁴ See Securities Exchange Act Release No. 85298 (March 13, 2019), 84 FR 10158 (March 19, 2019) (SR-BX-2019-003).

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁵ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁶ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”⁷

Likewise, in NetCoalition v. Securities and Exchange Commission⁸ (“NetCoalition”) the D.C. Circuit upheld the Commission’s use of a market-based approach in evaluating the fairness of market data fees against a challenge claiming that Congress mandated a cost-based approach.⁹ As the court emphasized, the Commission “intended in Regulation NMS that ‘market forces, rather than regulatory requirements’

play a role in determining the market data . . . to be made available to investors and at what cost.”¹⁰

Further, “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’”¹¹

The Exchange believes that it is reasonable to decrease the Consolidated Volume threshold for orders that access liquidity in securities (excluding orders with Midpoint pegging and excluding orders that receive price improvement and execute against an order with a Non-displayed price) that are entered by a member that accesses liquidity equal to or exceeding 0.075% of total Consolidated Volume during a month from .075% to 0.070% of total Consolidated Volume. The proposal is a modest decrease in the standard, which will ensure that members are providing adequate market participation in return for the credit while also making it more attractive to a greater number of members. The Exchange notes that the credit remains unchanged and therefore continues to be reasonable.

The Exchange believes that decrease to the total Consolidated Volume requirement is an equitable allocation and is not unfairly discriminatory because the Exchange will apply the same credit to all similarly situated members. Again, the

proposed change is a moderate decrease to the Consolidated Volume requirement, which will make the credit more attractive to a greater number of members, any of which may choose to provide the level of Consolidated Volume required to receive the credit.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In this instance, the Exchange's proposed credit amendment does not impose a burden on competition because the Exchange's execution services are completely voluntary and subject to extensive competition both from other exchanges and from off-exchange venues. The proposed modification to the \$0.0015 per share executed credit represents a modest decrease in the criteria required to qualify for the credit. Thus, members will be able to receive the credit by accessing a lower amount of Consolidated Volume during a month. The Exchange believes that lowering the level of Consolidated Volume will incentivize more members to provide the market-improving Consolidated

Volume needed to qualify for the credit. If the proposal is unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposal will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

SECURITIES AND EXCHANGE COMMISSION
(Release No. _____ ; File No. SR-BX-2019-006)

April __, 2019

Self-Regulatory Organizations; Nasdaq BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend Transaction Fees at Equity 7, Section 118(a)

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹, and Rule 19b-4 thereunder,² notice is hereby given that on April 1, 2019, Nasdaq BX, Inc. (“BX” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Exchange’s transaction fees at Equity 7, Section 118(a), as described further below.

The text of the proposed rule change is available on the Exchange’s Website at <http://nasdaqbx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it

received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the Exchange's transaction fees at Equity 7, Section 118(a) to adjust the qualifying terms for an existing credit it offers to members with orders that access liquidity on the Exchange.

The Exchange operates on the "taker-maker" model, whereby it pays credits to members that take liquidity and charges fees to members that provide liquidity. Currently, the Exchange offers several different credits for orders that access liquidity on the Exchange. Among these credits, the Exchange offers a \$0.0015 per share executed credit for orders that access liquidity (excluding orders with Midpoint pegging and excluding orders that receive price improvement and execute against an order with a Non-displayed price) that are entered by a member that accesses liquidity equal to or exceeding 0.075% of total Consolidated Volume³ during a month. Because the Exchange has been growing in volume over the past few months, the Exchange recently increased the level of Consolidated Volume required to receive the credit from 0.065% to 0.075% of total Consolidated Volume during a month.⁴ The Exchange believes that a lower

volume requirement would help more firms grow as the exchange grows and is therefore proposing to adjust the requirement lower to 0.070%.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁵ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁶ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

Congress mandated a cost-based approach.⁹ As the court emphasized, the Commission “intended in Regulation NMS that ‘market forces, rather than regulatory requirements’ play a role in determining the market data . . . to be made available to investors and at what cost.”¹⁰

Further, “[n]o one disputes that competition for order flow is ‘fierce.’ . . . The Exchange believes that decrease to the total Consolidated Volume requirement is an equitable allocation and is not unfairly discriminatory because the Exchange will apply the same credit to all similarly situated members. Again, the proposed change is a moderate decrease to the Consolidated Volume requirement, which will make the credit more attractive to a greater number of members, any of which may choose to provide the level of Consolidated Volume required to receive the credit.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In this instance, the Exchange's proposed credit amendment does not impose a burden on competition because the Exchange's execution services are completely voluntary and subject to extensive competition both from other exchanges and from off-exchange venues. The proposed modification to the \$0.0015 per share executed credit represents a modest decrease in the criteria required to qualify for the credit. Thus,

members will be able to receive the credit by accessing a lower amount of Consolidated Volume during a month. The Exchange believes that lowering the level of Consolidated Volume will incentivize more members to provide the market-improving Consolidated Volume needed to qualify for the credit. If the proposal is unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposal will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹²

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
