(a) – (f) No change.

(g) Automated Quotation Adjustments.

(1) No change.

(2) A market maker must provide a market wide parameter by which the Exchange will automatically remove a market maker's quotes in all classes when, during a time period established by the market maker, the total number of quote removal events specified in Rule 804(g)(1) exceeds the market wide parameter provided to the Exchange by the market maker. Market makers may request the Exchange to set the market wide parameter to apply to just Nasdaq GEMX or across Nasdaq GEMX and Nasdaq ISE. If a market maker does not provide parameters then the Exchange will apply default parameters announced to members.

(h) No change.

***Supplementary Material [T]to Rule 804***

.01 No change.

.02 The obligation contained in paragraph (e)(2)(iii) of Rule 804 does not include adjusted option series, nor series with a time to expiration of nine (9) months or greater for options on equities and exchange-traded funds or with a time to expiration of twelve (12) months or greater for index options. Competitive Market Makers may choose to quote such series in addition to regular series in the options class, but such quotations will not be considered when determining whether a Competitive Market Maker has met the obligation contained in paragraph (e)(2)(iii). A CMM that chooses to quote adjusted series and/or long-term options must meet all of the quoting obligations applicable to CMMs generally, and may be preferenced in such series and receive enhanced allocations pursuant to Nasdaq ISE Rule 713, Supplementary Material .03, only if it complies with the heightened 90% quoting requirement contained in Rule 804(e)(2)(iii). For purposes of Rule 804, an adjusted options series is an options series wherein, as a result of a corporate action by the issuer of the underlying security, one option contract in the series represents the delivery of other than 100 shares of underlying stock or exchange-traded fund shares.

.03 No change.
