3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to include language within the Schedule of Fees at Section IV, E, entitled "Port Fees" to clarify that the port fees in this section are not subject to proration. Today, the Exchange does not prorate the pricing for these ports.

Background

The Exchange previously filed<sup>3</sup> to: (1) establish ports and gateways that members use to connect to the Exchange with the migration of the Exchange's trading system to the Nasdaq INET architecture, and (2) amend the Schedule of Fees to adopt fees for those ports and gateways. The Exchange established fees for the following connectivity options that are available in connection with the Exchange's trading system: Specialized Quote Feed ("SQF"),<sup>4</sup> SQF Purge,<sup>5</sup> Ouch to Trade Options ("OTTO"),<sup>6</sup> Clearing Trade

<sup>4</sup> SQF is an interface that allows market makers to connect and send quotes, sweeps and auction responses into the Exchange. Data includes the following: (1) Options Auction Notifications (e.g., opening imbalance, Flash, PIM, Solicitation and Facilitation or other information); (2) Options Symbol Directory Messages; (3) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (4) Option Trading Action Messages (e.g., halts, resumes); (5) Execution Messages (6) Quote Messages (quote/sweep messages, risk protection triggers or purge notifications).

<sup>5</sup> SQF Purge is a specific port for the SQF interface that only receives and notifies of purge requests from the market maker. Dedicated SQF Purge Ports enable market makers to seamlessly manage their ability to remove their quotes in a swift manner.

<sup>6</sup> OTTO is an interface that allows market participants to connect and send orders, auction orders and auction responses into the Exchange. Data includes the

following: (1) Options Auction Notifications (e.g., Flash, PIM, Solicitation and Facilitation or other information); (2) Options Symbol Directory Messages; (3) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (5) Option Trading Action Messages (e.g., halts, resumes); (6) Execution Messages; (7) Order Messages (order messages, risk protection triggers or purge notifications).

<sup>7</sup> CTI is a real-time clearing trade update message that is sent to a member after an execution has occurred and contains trade details. The message containing the trade details is also simultaneously sent to The Options Clearing Corporation (“OCC”). The information includes, among other things, the following: (i) The Clearing Member Trade Agreement or “CMTA” or “OCC” number; (ii) Exchange badge or house number; (iii) the Exchange internal firm identifier; and (iv) an indicator which will distinguish electronic and non-electronically delivered orders; (v) liquidity indicators and transaction type for billing purposes; (vi) capacity.

<sup>8</sup> FIX is an interface that allows market participants to connect and send orders and auction orders into the Exchange. Data includes the following: (1) Options Symbol Directory Messages; (2) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (3) Option Trading Action Messages (e.g., halts, resumes); (4) Execution Messages; (5) Order Messages (order messages, risk protection triggers or purge notifications).

<sup>9</sup> FIX Drop is a real-time order and execution update message that is sent to a member after an order been received/modified or an execution has occurred and contains trade details. The information includes, among other things, the following: (1) Executions; (2) cancellations; (3) modifications to an existing order (4) busts or post-trade corrections.

<sup>10</sup> Disaster Recovery ports provide connectivity to the exchange’s disaster recovery data center in Chicago to be utilized in the event the exchange has to fail over during the trading day. DR Ports are available for SQF, SQF Purge, Dedicated SQF, CTI, OTTO, FIX and FIX Drop.

<sup>11</sup> Market Data ports provide connectivity to the Exchange’s proprietary market data feeds, including the Nasdaq GEMX Real-time Depth of Market Raw Data Feed (“Depth of Market Feed”), the Nasdaq GEMX Order Feed (“Order Feed”), the Nasdaq GEMX Top Quote Feed (“Top Quote Feed”), the Nasdaq GEMX Trades Feed (“Trades Feed”), and the Nasdaq GEMX Spread Feed (“Spread Feed”). Each of the feeds described above, with the exception of the Trades Feed, have previously been established as market data offerings of the Exchange, and market

to make clear that port fees are assessed in full month increments and are not prorated, to avoid any confusion.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>12</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>13</sup> in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by clearly specifying in Section IV, E that the Exchange's pricing regarding ports is not prorated. The Exchange believes that its decision to not prorate these ports is consistent with the Act because prorating billing results in complexity and increased costs associated with the billing process. The Exchange notes that this proposal does not amend the Exchange's current billing practice.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the

The Trades Feed is a free market data product provided to subscribers of at least one of the fee liable market data products described above. In connection with the adoption of Market Data ports described above, the Exchange further proposes to establish the Trades Feed. Act. The Exchange will uniformly assess the fees in Section IV, E to all GEMX Members in a uniform manner.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)<sup>14</sup> of the Act and Rule 19b-4(f)(6) thereunder<sup>15</sup> in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange believes that adding language to clarify the Exchange will not prorate the Port Fees in Section IV, E does not significantly affect the protection of investors or the public interest because there is no substantive change to the manner in which the Exchange bills these services. The Exchange believes that adding language to clarify the Exchange will not prorate the Port Fees in Section IV, E does not impose any significant burden on competition because the language serves only to clarify an existing

<sup>15</sup> 17 CFR 240.19b-4(f)(6).

practice.

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) so that the Exchange may clarify that the Port Fees in Chapter IV, E will not be prorated to avoid any misunderstanding. The Exchange believes that clarifying that the Port Fees are not subject to proration will serve to protect investors and the public interest.

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>12</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>13</sup> in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by clearly specifying in Section IV, E that the Exchange's pricing regarding ports is not prorated. B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange will uniformly assess the fees in Section IV, E to all GEMX Members in a uniform manner.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act.
