1. Text of the Proposed Rule Change

(a) Nasdaq ISE, LLC (“ISE” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change to amend the Schedule of Fees to eliminate fees and rebates for trades in iKang Healthcare Group Inc (“KANG”) executed on June 27 – 30, 2017.

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”) on August 15, 2016. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to amend the Schedule of Fees to eliminate fees and rebates for trades in KANG executed on June 27 – 30, 2017.<sup>3</sup> This change is being made in connection with the migration of the Exchange's trading system to the Nasdaq INET technology, which began on June 12, 2017.<sup>4</sup> Earlier this month, the Exchange filed a proposed rule change that eliminated fees and rebates during the initial launch period for trades in FX Options that began trading on INET with the launch of the re-platformed trading system.<sup>5</sup> The Exchange now proposes to similarly eliminate fees and rebates for trades in KANG executed on the INET trading system from June 27 – 30, 2017. With this change, no fees or rebates will be charged for executions on INET during the month of June. Because the Exchange is eliminating fees and rebates for trades in KANG, during this period trades in KANG will not be counted towards a member's tier for June activity. The proposed change would allow the Exchange to bill June fees solely based on activity traded on the current T7 trading system, and is an inducement for members to trade the first symbols launched on the INET trading system as there would be no transaction fees for doing so.

---

<sup>3</sup> KANG will begin trading on INET on June 27, 2017, and is a Non-Select Symbol. "Non-Select Symbols" are options overlying all symbols excluding Select Symbols.

<sup>4</sup> See Securities Exchange Act Release No. 80432 (April 11, 2017), 82 FR 18191 (April 17, 2017) (SR-ISE-2017-03).

<sup>5</sup> See SR-ISE-2017-59 (publication pending).

b. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,<sup>6</sup> in general, and Section 6(b)(4) of the Act,<sup>7</sup> in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities.

The Exchange believes that it is reasonable and equitable to eliminate fees and rebates in KANG during the initial launch of the Exchange's re-platformed trading system. Eliminating fees and rebates in this symbol during the launch will simplify the Exchange's billing and serve as an inducement for members to trade the first symbols migrated to the INET trading system. Because the Exchange is offering free executions in this symbol, volume executed in KANG on June 27 – 30, 2017 will not be counted towards any volume based tiers. Similar treatment was afforded to the first symbol launched on the Nasdaq GEMX, LLC INET trading system,<sup>8</sup> and also to FX Options traded on ISE INET during the launch.<sup>9</sup> The Exchange believes that these two changes will be attractive to members that trade on the new INET trading system. The Exchange also believes that this proposed change is not unfairly discriminatory as it will apply to trades in KANG that are executed by all members. As noted above, KANG was selected for this treatment as this symbol, together with the Exchange's proprietary FX Options, will be the first symbols traded on the INET trading system.

<sup>9</sup> See supra note 5.

4. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,<sup>10</sup> the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed change is intended to ease members' transition to the re-platformed INET trading system and is not designed to have any significant competitive impact. The Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and rebates to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed fee changes reflect this competitive environment.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A)(ii) of the Act,<sup>11</sup> the Exchange has designated this proposal as establishing or changing a due, fee or other charge imposed on any person,

whether or not the person is a member of a self-regulatory organization, which renders the proposed rule change effective upon filing.
