1. Text of the Proposed Rule Change

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”) on September 19, 2017. 3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to include language within the Schedule of Fees at Section V, D, entitled “INET Port Fees” to clarify that the port fees in this section are not subject to proration. Today, the Exchange does not prorate the pricing for these ports.

Background

The Exchange previously filed³ to: (1) establish ports and gateways that members use to connect to the Exchange with the migration of the Exchange’s trading system to the Nasdaq INET architecture, and (2) amend the Schedule of Fees to adopt fees for those ports and gateways. The Exchange established fees for the following connectivity options that are available in connection with the Exchange’s trading system: Specialized Quote Feed (“SQF”),⁴ SQF Purge,⁵ Dedicated SQF Host,⁶ Ouch to Trade Options

³ See Securities and Exchange Act Release No. 81095 (July 13, 2017), 82 FR 32409 (July 7, 2017)(SR-ISE-2017-62).

⁴ SQF is an interface that allows market makers to connect and send quotes, sweeps and auction responses into the Exchange. Data includes the following: (1) Options Auction Notifications (e.g., opening imbalance, Flash, PIM, Solicitation and Facilitation or other information); (2) Options Symbol Directory Messages; (3) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (4) Option Trading Action Messages (e.g., halts, resumes); (5) Execution Messages; (6) Quote Messages (quote/sweep messages, risk protection triggers or purge notifications).

⁵ SQF Purge is a specific port for the SQF interface that only receives and notifies of purge requests from the market maker. Dedicated SQF Purge Ports enable market makers to seamlessly manage their ability to remove their quotes in a swift manner.

⁶ A Dedicated SQF Host is an optional offering available to Market Makers – i.e., Primary Market Makers (“PMMs”) and Competitive Market Makers (“CMMs”) –

(“OTTO”),⁷ Clearing Trade Interface (“CTI”),⁸ Financial Information eXchange (“FIX”),⁹ FIX Drop,¹⁰ Disaster Recovery,¹¹ and Market Data Port.¹² The Exchange

only for their SQF Port & SQF Purge Port connectivity. A Dedicated SQF Host provides the PMM or CMM with assurance that their SQF Port and SQF Purge Port connection to the Exchange resides on a host that is not shared with other PMMs and CMMs.

- ⁷ OTTO is an interface that allows market participants to connect and send orders, auction orders and auction responses into the Exchange. Data includes the following: (1) Options Auction Notifications (e.g., Flash, PIM, Solicitation and Facilitation or other information); (2) Options Symbol Directory Messages; (3) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (5) Option Trading Action Messages (e.g., halts, resumes); (6) Execution Messages; (7) Order Messages (order messages, risk protection triggers or purge notifications).
- ⁸ CTI is a real-time clearing trade update message that is sent to a member after an execution has occurred and contains trade details. The message containing the trade details is also simultaneously sent to The Options Clearing Corporation (“OCC”). The information includes, among other things, the following: (i) The Clearing Member Trade Agreement or “CMTA” or “OCC” number; (ii) Exchange badge or house number; (iii) the Exchange internal firm identifier; and (iv) an indicator which will distinguish electronic and non-electronically delivered orders; (v) liquidity indicators and transaction type for billing purposes; (vi) capacity.
- ⁹ FIX is an interface that allows market participants to connect and send orders and auction orders into the Exchange. Data includes the following: (1) Options Symbol Directory Messages; (2) System Event Messages (e.g., start of messages, start of system hours, start of quoting, start of opening); (3) Option Trading Action Messages (e.g., halts, resumes); (4) Execution Messages; (5) Order Messages (order messages, risk protection triggers or purge notifications).
- ¹⁰ FIX Drop is a real-time order and execution update message that is sent to a member after an order been received/modified or an execution has occurred and contains trade details. The information includes, among other things, the following: (1) Executions; (2) cancellations; (3) modifications to an existing order (4) busts or post-trade corrections.
- ¹¹ Disaster Recovery ports provide connectivity to the exchange’s disaster recovery data center in Chicago to be utilized in the event the exchange has to fail over during the trading day. DR Ports are available for SQF, SQF Purge, Dedicated SQF, CTI, OTTO, FIX and FIX Drop.

proposes to add a clarifying sentence to make clear that port fees are assessed in full month increments and are not prorated, to avoid any confusion.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹³ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁴ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by clearly specifying in Section V, D that the Exchange's pricing regarding INET ports is not prorated. The Exchange believes that its decision to not prorate these ports is consistent with the Act because prorating billing results in complexity and increased costs associated with the billing process. The Exchange notes that this proposal does not amend the Exchange's current billing practice.

¹² Market Data ports provide connectivity to the Exchange's proprietary market data feeds, including the Nasdaq ISE Real-time Depth of Market Raw Data Feed ("Depth of Market Feed"), the Nasdaq ISE Order Feed ("Order Feed"), the Nasdaq ISE Top Quote Feed ("Top Quote Feed"), the Nasdaq ISE Trades Feed ("Trades Feed"), and the Nasdaq ISE Spread Feed ("Spread Feed"). Each of the feeds described above, with the exception of the Trades Feed, have previously been established as market data offerings of the Exchange, and market participants are charged for subscriptions to these products. The Trades Feed is a free market data product provided to subscribers of at least one of the fee liable market data products described above. In connection with the adoption of Market Data ports described above, the Exchange further proposes to establish the Trades Feed. Market Data ports are available via multicast, TCP, or as an intra-day snapshot, except that the intra-day snapshot option is available solely for the Depth of Market Feed, Top Quote Feed, and Spread Feed.

¹³ 15 U.S.C. 78f(b).

¹⁴ 15 U.S.C. 78f(b)(5).

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange will uniformly assess the fees in Section V, D to all ISE Members in a uniform manner.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)¹⁵ of the Act and Rule 19b-4(f)(6) thereunder¹⁶ in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange believes that adding language to clarify the Exchange will not prorate the INET Port Fees in Section V, D does not significantly affect the protection of investors or the public interest because there is no substantive change to the manner in

¹⁵ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁶ 17 CFR 240.19b-4(f)(6).

which the Exchange bills these services. The Exchange believes that adding language to clarify the Exchange will not prorate the INET Port Fees in Section V, D does not impose any significant burden on competition because the language serves only to clarify an existing practice.

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) so that the Exchange may clarify that the INET Port Fees in Chapter V, D will not be prorated to avoid any misunderstanding. The Exchange believes that clarifying that the INET Port Fees are not subject to proration will serve to protect investors and the public interest.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

² 17 CFR 240.19b-4.

received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to include language within the Schedule of Fees at Section V, D, entitled "INET Port Fees" to clarify that the port fees in this section are not subject to proration. Today, the Exchange does not prorate the pricing for these ports.

Background

The Exchange previously filed³ to: (1) establish ports and gateways that members use to connect to the Exchange with the migration of the Exchange's trading system to the Nasdaq INET architecture, and (2) amend the Schedule of Fees to adopt fees for those ports and gateways. with the Act because prorating billing results in complexity and increased costs associated with the billing process. The Exchange notes that this proposal does not amend the Exchange's current billing practice.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange will uniformly assess the fees in Section V, D to all ISE Members in a uniform manner.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁵ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁶

¹⁵ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁶ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
