1. Text of the Proposed Rule Change

(a) Nasdaq ISE, LLC (“ISE” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend the Schedule of Fees at Section II entitled “Complex Orders Fees and Rebates.”

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on August 1, 2018.

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”) on September 19, 2017. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to amend the Schedule of Fees at Section II entitled "Complex Orders Fees and Rebates." Specifically, the Exchange is proposing to lower the qualifying Complex Order Volume in Tiers 4-7, as explained in more detail below, to attract a greater amount of Priority Customer³ Complex Order flow on ISE by paying the same rebates, but requiring less qualifying volume in those tiers.

Currently, the Exchange has a pricing structure in place for Complex Orders that provides rebates to Priority Customer Complex Orders in order to encourage Members to bring that order flow to the Exchange. Specifically, Priority Customer Complex Orders are provided rebates in Select Symbols⁴ and Non-Select Symbols.⁵ Rebates are provided per contract per leg if the order trades with non-Priority Customer orders in the Complex Order Book or trades with quotes and orders on the regular order book. Customer Complex Order rebates are paid a rebate based on a percentage of industry volume. Priority Customer Complex Tiers are based on Total Affiliated Member Complex Order Volume (excluding Crossing Orders and Responses to Crossing Orders) and are

³ A "Priority Customer" is a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s), as defined in Nasdaq ISE Rule 100(a)(37A). Unless otherwise noted, when used in this Schedule of Fees the term "Priority Customer" includes "Retail" as defined below.

⁴ "Select Symbols" are options overlying all symbols listed on the Nasdaq ISE that are in the Penny Pilot Program.

⁵ "Non-Select Symbols" are options overlying all symbols excluding Select Symbols. For Non-Select Symbols, no rebates will be paid for orders in NDX, NQX and MNX

calculated as a percentage of Customer Total Consolidated Volume. All Complex Order volume executed on the Exchange, including volume executed by Affiliated Members, is included in the volume calculation, except for volume executed as Crossing Orders and Responses to Crossing Orders.⁶ Currently, there are nine Priority Customer Complex Order Tiers based on the percentage of industry volume calculation:

Tier 1	0.000% - 0.200%	(\$0.25)	(\$0.40)
Tier 2	Above 0.200% - 0.400%	(\$0.30)	(\$0.55)
Tier 3	Above 0.400% - 0.600%	(\$0.35)	(\$0.70)
Tier 4	Above 0.600% - 0.800%	(\$0.40)	(\$0.75)
Tier 5	Above 0.800% - 1.000%	(\$0.45)	(\$0.80)
Tier 6	Above 1.000% - 1.600%	(\$0.46)	(\$0.80)
Tier 7	Above 1.600% - 2.000%	(\$0.48)	(\$0.80)
Tier 8	Above 2.000% - 3.250%	(\$0.50)	(\$0.85)
Tier 9	Above 3.250%	(\$0.50)	(\$0.85)

At this time the Exchange proposes to amend the Total Affiliated Member Complex Order Volume, which excludes Crossing Orders and Responses to Crossing Orders, that are calculated as a percentage of Customer Total Consolidated Volume in Tiers 4-7. Today, Tier 4 requires Total Affiliated Member Complex Order Volume between 0.600% and 0.800%. The Exchange is amending Tier 4 to require Total

⁶ An “Affiliated Member” is a Member that shares at least 75% common ownership with a particular Member as reflected on the Member’s Form BD, Schedule A. Furthermore, “Customer Total Consolidated Volume” means the total national volume cleared at The Options Clearing Corporation in the Customer range in equity and ETF options in that month.

Affiliated Member Complex Order Volume between 0.600% and 0.750%. Today, Tier 5 requires Total Affiliated Member Complex Order Volume between 0.800% and 1.000%. The Exchange is amending Tier 5 to require Total Affiliated Member Complex Order Volume between 0.750% and 1.000%. So, today a portion of Complex Order volume which qualified for Tier 4 volume would qualify as Tier 5 volume pursuant to this proposal. Today, Tier 6 requires Total Affiliated Member Complex Order Volume between 1.000% - 1.600%. The Exchange is amending Tier 6 to require Total Affiliated Member Complex Order Volume between 1.000% - 1.500%. So, today a portion of Complex Order volume which qualified as Tier 5 volume would qualify for Tier 6 volume pursuant to this proposal. Today, Tier 7 requires Total Affiliated Member Complex Order Volume between 1.600% - 2.000%. The Exchange is amending Tier 7 to require Total Affiliated Member Complex Order Volume between 1.500% - 2.000%. So, today a portion of Complex Order volume which qualified as Tier 6 volume would qualify as Tier 7 volume pursuant to this proposal. Members may earn greater rebates in Select and Non-Select Symbols simply by sending in certain of the same volume in Tiers 4-7 today, provided it would qualify for the higher tier pursuant to this proposal which lowers volume in Tier 4-7. No changes are proposed to Tier 1-3 or Tiers 8 and 9. No changes are proposed to any corresponding rebates in either Select or Non-Select Symbols.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁷ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁸ in

⁷ 15 U.S.C. 78f(b).

particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposed changes to the Priority Customer Complex Order Tiers are reasonable as these changes are designed to incentivize Members to trade Complex Orders, and, in particular Priority Customer Complex Orders, on the Exchange. The Exchange's proposal, which lowers the qualifying Total Affiliated Member Complex Order Volume in Tiers 4-7, is intended to encourage Members to submit the same or a greater amount of Priority Customer Complex Order flow to obtain a higher rebate.

In addition, the Exchange believes that the proposed changes are equitable and not unfairly discriminatory as these changes are designed to encourage Members to transact more Complex Order flow, and in particular, Priority Customer Complex Orders, on ISE. The Exchange does not believe that it is unfairly discriminatory to provide rebates only to Priority Customer Complex Orders as this type of order flow enhances liquidity on the Exchange for the benefit of all market participants by providing more trading opportunities, which attracts Market Makers. The Exchange believes that the proposed changes to the Priority Customer Complex Tiers will benefit all market participants that trade on ISE by increasing their opportunities to trade and earn rebates.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the

⁸ 15 U.S.C. 78f(b)(4) and (5).

Act. The Exchange believes that the proposed changes will enhance both inter-market and intra-market competition by increasing opportunities for Members to obtain rebates by transacting Priority Customer Complex Orders. The Exchange believes that the proposed fees and rebates remain competitive with those on other options markets, and will continue to attract order flow to the Exchange, thereby encouraging additional volume and liquidity to the benefit of all market participants. Priority Customer Complex Order flow enhances liquidity on the Exchange for the benefit of all market participants by providing more trading opportunities, which attracts Market Makers.

The Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and rebates to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed fee changes reflect this competitive environment.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the Schedule of Fees at Section II entitled "Complex Orders Fees and Rebates." Specifically, the Exchange is proposing to lower the qualifying Complex Order Volume in Tiers 4-7, as explained in more detail below, to attract a greater amount of Priority Customer³ Complex Order flow on ISE by paying the same rebates, but requiring less qualifying volume in those tiers.

Currently, the Exchange has a pricing structure in place for Complex Orders that provides rebates to Priority Customer Complex Orders in order to encourage Members to bring that order flow to the Exchange. Specifically, Priority Customer Complex Orders are provided rebates in Select Symbols⁴ and Non-Select Symbols.⁵ Rebates are provided

³ A "Priority Customer" is a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s), as defined in Nasdaq ISE Rule 100(a)(37A). per contract per leg if the order trades with non-Priority Customer orders in the Complex Order Book or trades with quotes and orders on the regular order book. Customer Complex Order rebates are paid a rebate based on a percentage of industry volume. Priority Customer Complex Tiers are based on Total Affiliated Member Complex Order Volume (excluding Crossing Orders and Responses to Crossing Orders) and are calculated as a percentage of Customer Total Consolidated Volume. All Complex Order volume executed on the Exchange, including volume executed by Affiliated Members, is included in the volume calculation, except for volume executed as Crossing Orders and Responses to Crossing Orders.⁶ Currently, there are nine Priority Customer Complex Order Tiers based on the percentage of industry volume calculation:

Tier 1	0.000% - 0.200%	(\$0.25)	(\$0.40)
Tier 2	Above 0.200% - 0.400%	(\$0.30)	(\$0.55)
Tier 3	Above 0.400% - 0.600%	(\$0.35)	(\$0.70)
Tier 4	Above 0.600% - 0.800%	(\$0.40)	(\$0.75)
Tier 5	Above 0.800% - 1.000%	(\$0.45)	(\$0.80)
Tier 6	Above 1.000% - 1.600%	(\$0.46)	(\$0.80)
Tier 7	Above 1.600% - 2.000%	(\$0.48)	(\$0.80)

⁵ “Non-Select Symbols” are options overlying all symbols excluding Select Symbols. For Non-Select Symbols, no rebates will be paid for orders in NDX, NQX and MNX

⁶ An “Affiliated Member” is a Member that shares at least 75% common ownership with a particular Member as reflected on the Member’s Form BD, Schedule A. Furthermore, “Customer Total Consolidated Volume” means the total national volume cleared at The Options Clearing Corporation in the Customer range in equity and ETF options in that month.

Tier 8	Above 2.000% - 3.250%	(\$0.50)	(\$0.85)
Tier 9	Above 3.250%	(\$0.50)	(\$0.85)

At this time the Exchange proposes to amend the Total Affiliated Member Complex Order Volume, which excludes Crossing Orders and Responses to Crossing Orders, that are calculated as a percentage of Customer Total Consolidated Volume in Tiers 4-7. Today, Tier 4 requires Total Affiliated Member Complex Order Volume between 0.600% and 0.800%. The Exchange is amending Tier 4 to require Total Affiliated Member Complex Order Volume between 0.600% and 0.750%. Today, Tier 5 requires Total Affiliated Member Complex Order Volume between 0.800% and 1.000%. The Exchange is amending Tier 5 to require Total Affiliated Member Complex Order Volume between 0.750% and 1.000%. So, today a portion of Complex Order volume which qualified for Tier 4 volume would qualify as Tier 5 volume pursuant to this proposal. Today, Tier 6 requires Total Affiliated Member Complex Order Volume between 1.000% - 1.600%. The Exchange is amending Tier 6 to require Total Affiliated Member Complex Order Volume between 1.000% - 1.500%. So, today a portion of Complex Order volume which qualified as Tier 5 volume would qualify for Tier 6 volume pursuant to this proposal. Today, Tier 7 requires Total Affiliated Member Complex Order Volume between 1.600% - 2.000%. The Exchange is amending Tier 7 to require Total Affiliated Member Complex Order Volume between 1.500% - 2.000%. So, today a portion of Complex Order volume which qualified as Tier 6 volume would qualify as Tier 7 volume pursuant to this proposal. Members may earn greater rebates in Select and Non-Select Symbols simply by sending in certain of the same volume in Tiers 4-7 today, provided it would qualify for the higher tier pursuant to this proposal which

lowers volume in Tier 4-7. No changes are proposed to Tier 1-3 or Tiers 8 and 9. No changes are proposed to any corresponding rebates in either Select or Non-Select Symbols.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁷ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁸ in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposed changes to the Priority Customer Complex Order Tiers are reasonable as these changes are designed to incentivize Members to trade Complex Orders, and, in particular Priority Customer Complex Orders, on the Exchange. The Exchange's proposal, which lowers the qualifying Total Affiliated Member Complex Order Volume in Tiers 4-7, is intended to encourage Members to submit the same or a greater amount of Priority Customer Complex Order flow to obtain a higher rebate.

In addition, the Exchange believes that the proposed changes are equitable and not unfairly discriminatory as these changes are designed to encourage Members to transact more Complex Order flow, and in particular, Priority Customer Complex Orders, on ISE. The Exchange does not believe that it is unfairly discriminatory to provide rebates only to Priority Customer Complex Orders as this type of order flow enhances

⁸ 15 U.S.C. 78f(b)(4) and (5).

liquidity on the Exchange for the benefit of all market participants by providing more trading opportunities, which attracts Market Makers. The Exchange believes that the proposed changes to the Priority Customer Complex Tiers will benefit all market participants that trade on ISE by increasing their opportunities to trade and earn rebates.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed changes will enhance both inter-market and intra-market competition by increasing opportunities for Members to obtain rebates by transacting Priority Customer Complex Orders. The Exchange believes that the proposed fees and rebates remain competitive with those on other options markets, and will continue to attract order flow to the Exchange, thereby encouraging additional volume and liquidity to the benefit of all market participants. Priority Customer Complex Order flow enhances liquidity on the Exchange for the benefit of all market participants by providing more trading opportunities, which attracts Market Makers.

The Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and rebates to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed fee changes reflect this competitive environment.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.⁹ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
