## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-95708; File No. SR-MRX-2022-14]

### Self-Regulatory Organizations; Nasdaq MRX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend MRX’s Pricing Schedule at Options 7, Section 7

September 8, 2022.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on August 25, 2022, Nasdaq MRX, LLC (“MRX” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend MRX’s Pricing Schedule at Options 7, Section 7.

The text of the proposed rule change is available on the Exchange’s website at <https://listingcenter.nasdaq.com/rulebook/mrx/rules>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

#### II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

#### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

MRX proposes to amend its Pricing Schedule at Options 7, Section 7, to assess market data fees, which are not assessed today, and which have not been assessed since MRX’s inception in 2016.<sup>3</sup> The proposed changes are designed to update data fees to reflect their current value—rather than their value when it was a new exchange six years ago—based on increased market share. Newly-opened exchanges often charge no fees for market data to attract order flow to an exchange, and later amend their fees to reflect the true value of those services.<sup>4</sup> Allowing newly-opened exchanges time to build and sustain market share before charging for their market data encourages market entry and promotes competition.

This Proposal reflects MRX’s assessment that it has gained sufficient market share to compete effectively against other 15 options exchanges without waiving market data fees. Such fees are assessed by options exchanges that compete with MRX—indeed, MRX is the only options exchange (out of the 16 current options exchanges) not to assess them today.

As explained in further detail below, MRX today is in the same position as NYSE National in 2020, when it sought approval for the “NYSE National Integrated Feed.”<sup>5</sup> The Commission approved the NYSE National Integrated Feed based on a finding that it “was subject to significant substitution-based competitive forces” based on “NYSE

<sup>3</sup> The Exchange initially filed the proposed pricing changes on May 2, 2022 (SR-MRX-2022-04) instituting fees for membership, ports and market data. See Securities Exchange Act Release No. 94901 (May 12, 2022), 87 FR 30305 (May 18, 2022) (SR-MRX-2022-04). On June 29, 2022, the Exchange withdrew that filing, and submitted separate filings for membership (SR-MRX-2022-07), market data (SR-MRX-2022-08) and ports (SR-MRX-2022-09). On August 25, 2022, the Exchange withdrew the market data filing (SR-MRX-2022-08) and replaced it with the instant filing.

(initiating market data fees for the NYSE National exchange after initially setting such fees at zero).

<sup>5</sup> NYSE National stated that the proposed integrated feed included depth-of-book order data, last sale data, security status updates, and stock summary messages.
