14.11, which relates to ETPs, to those members that have actively participated in the development or funding of such product. This restriction would remain in effect for six months following the initial offering of the ETP on the Exchange after which time there would be no limitation on the members that can be assigned as CLPs for such a product.

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.9 In particular, the proposed change is consistent with Section 6(b)(5) of the Act,10 because it would promote just and equitable principles of trade, and, in general, protect investors and the public interest.11

The Commission believes that the CLP Program may benefit investors because it is reasonably designed to provide greater liquidity for the securities that participate in the CLP Program. The securities eligible for the CLP Program are generally newly listed securities that could particularly benefit from potentially greater liquidity as a result of enhanced quoting obligations.

As proposed by the Exchange, each CLP must comply with a monthly quoting requirement in order to remain a CLP, and must comply with a daily quoting requirement in order to be eligible for the financial incentives of the CLP Program. With respect to the monthly quoting requirement, a CLP must be quoting at the NBB or NBO 10% of the time that the Exchange is conducting SETs. With respect to the daily quoting requirement, the CLP with the greatest aggregate size at the NBB and NBO at each SET would be considered to have the winning SET, with the CLP with the greatest number of winning SETs (and, in some instances, the CLP with second-greatest number of winning SETs) each day receiving the daily rebate. Thus, this proposal would incentivize both quoting frequency at the NBBO and quoted size at the NBBO, potentially improving the market quality of the securities that participate in the CLP Program.

The Commission also finds that this program is reasonably designed to encourage listings on the Exchange. This may promote competition among listing venues, and an issuer seeking to list its securities could benefit from the potential impact such competition has on listing fees or quoting obligations across venues.

The Commission also finds that the proposal is not unfairly discriminatory. Registration as an Exchange market maker is available to all Exchange members that satisfy the requirements of Exchange Rule 11.7, and all Exchange market makers are eligible to apply to become CLPs. The Commission further that the proposal to establish procedures for the registration, withdrawal, and disqualification of CLPs, and the CLP quoting requirements, are consistent with the requirements of Section 6(b)(5) of the Act. The Exchange’s proposed rules provide an objective process by which a member could become a CLP and for appropriate oversight by the Exchange to monitor for continued compliance with the terms of these provisions. The Commission also notes that these provisions, including the CLP quoting requirements, are similar to those of at least one other exchange.12 As a result, the Commission believes that these aspects of the proposal are consistent with the requirements of the Act.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR–BATS–2011–051) be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.

Kevin M. O’Neill, Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Rule 4618

February 2, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”), notice is hereby given that on January 19, 2012, the NASDAQ Stock Market LLC (“NASDAQ”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change described in Items I and II
below, which Items have been prepared primarily by NASDAQ. NASDAQ filed the proposal pursuant to Section 19(b)(3)(A)(iii) of the Act 2 and Rule 19b-4(f)(6) 3 thereunder so that the proposal was effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the rule change from interested parties.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

NASDAQ is filing this proposed rule change to amend Rule 4618. The text of the proposed rule change is shown below. Proposed new language is italicized, and proposed deletions are in brackets.

4618. Clearance and Settlement

(a) All transactions through the facilities of the Nasdaq Market Center shall be cleared and settled through a registered clearing agency using a continuous net settlement system. This requirement may be satisfied by direct participation, use of direct clearing services, [or] by entry into a correspondent clearing arrangement with another member that clears trades through such an [clearing agency(s)], or by use of the services of CDS Clearing and Depository Services, Inc. in its capacity as a member of such a clearing agency.

(b) Notwithstanding paragraph (a), transactions may be settled “ex-clearing” provided that both parties to the transaction agree.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASDAQ included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below.

NASDAQ has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements. 4

(A) Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ proposes to modify Rule 4618 to clarify that the use of a long-standing arrangement between National Securities Clearing Corporation (“NSCC”) and CDS Clearing and Depository Services, Inc. (“CDS”) 5 for clearing transactions in U.S. securities provides an acceptable method for clearing transactions executed on NASDAQ. Among other things, CDS operates Canada’s national clearance and settlement operations for cash equities trading, performing a role analogous to NSCC in the U.S. CDS is regulated by the Ontario and Quebec securities commissions and the Bank of Canada and has working and reporting relationships with the Canadian Securities Administrators, other Canadian provincial securities commissions, and the Canadian Office of the Superintendent of Financial Institutions. CDS is also a full service member of NSCC and a participant in The Depository Trust Company (“DTC”).

Currently, a Canadian broker-dealer seeking to buy or sell U.S. securities may do so through a U.S. registered broker-dealer with which it establishes a relationship for that purpose. In such a relationship, the US broker-dealer manages the clearance and settlement of the resulting trades, either through direct membership at NSCC or indirectly through a clearing broker with which it has established a relationship. Under the proposed change, a Canadian broker-dealer that is a member of CDS may make use of CDS, and its direct membership in NSCC, to clear and settle the resulting trades. Specifically, the clearing report for the trade will “lock in” CDS, making reference to the CDS membership of the Canadian broker-dealer, as a party to the trade. 6 NSCC will then look to CDS for the satisfaction of the clearance and settlement obligations of the Canadian broker-dealer. NSCC requires CDS to commit collateral to the NSCC clearing fund like any other NSCC member, the amount of which is based on a risk-based margining methodology. In a similar manner, CDS requires its participants to commit collateral to CDS. The sole risk incurred by NASDAQ and then by NSCC in the arrangement is the highly remote risk that CDS itself might default on its obligations to clear and settle on behalf of the Canadian broker-dealer. This risk is conceptually indistinguishable from the risk of a clearing broker default, but because the value of the trades of the Canadian broker-dealers cleared through the mechanism is likely to be small in comparison to the values cleared through many large U.S. clearing brokers, the magnitude of this risk is correspondingly smaller.

The relationship between NSCC and CDS was established more than two decades ago, and various aspects of the relationship have been recognized through several prior filings 7 and no-action letters. 8 A recent description of the parameters of the relationship may be found in NSCC’s Assessment of Compliance with the CPSS/IOSCO Recommendations for Central Counterparties. 9 The most prominent use of the relationship arises under FINRA Rule 7220A, which allows over-the-counter trades executed on behalf of CDS members to be reported through the FINRA/NASDAQ Trade Reporting Facility and cleared through the CDS/NSCC relationship. NASDAQ also understands that the EDGA Exchange and the EDGX Exchange permit clearance of trades executed on behalf of Canadian broker-dealers through this mechanism.

In order to clearly establish that use of the CDS/NSCC relationship is a permissible method of clearing transactions executed on NASDAQ, NASDAQ is proposing to amend Rule

4 The Commission has modified the text of the summaries prepared by NASDAQ.
5 CDS was formerly known as The Canadian Depository for Securities Limited.
6 As an NSCC member, CDS is responsible for the clearing and settling of its participants’ trades conducted with U.S. broker-dealers. For purposes of “locking-in” parties, certain CDS participants have discrete NSCC participant codes that identify the Canadian broker-dealer and its participation in the NSCC/CDS clearing arrangement. On midnight of T+1, NSCC takes on the buyer’s credit risk and the seller’s delivery risk.

8 See, e.g., Letter from Dan W. Schneider, Deputy Associate Director, Commission, to Karen L. Saperstein, Assistant General Counsel, NSCC (November 26, 1984) (available at 1984 WL 47355) (taking no-action position with respect to use of CDS and NSCC with respect to clearing of trades executed on behalf of Canadian broker-dealers on the Boston Stock Exchange); Letter from Dan W. Schneider, Deputy Associate Director, Commission, to Karen L. Saperstein, Assistant General Counsel, NSCC (October 24, 1984) (available at 1984 WL 47356) (taking no-action position with respect to CDS becoming a member of NSCC).
provisions of Section 6 of the Act 10 in
rule change is consistent with the
NSCC in which the parties acknowledge
will sign a short agreement addressed to
NSCC is established, the NASDAQ
making use of CDS's membership in
Whenever a clearing arrangement
rule may be satisfied through “use of the
recognizing the CDS/NSCC relationship
would be enhanced by directly
NASDAQ believes that the clarity of the rule
been construed by NASDAQ in that
manner. Accordingly, NASDAQ
believes that the clarity of the rule
would be enhanced by directly
recognizing the CDS/NSCC relationship
in the rule text. NASDAQ proposes
amending the rule to provide that the
rule may be satisfied through “use of the
services of CDS Clearing and Depository
Services, Inc. in its capacity as a
member of such a clearing agency.”
Whenever a clearing arrangement
making use of CDS’s membership in
NSCC is established, the NASDAQ
member, the Canadian broker on whose
behalf it is acting, CDS, and NASDAQ
will sign a short agreement addressed to
NSCC in which the parties acknowledge
their use of the CDS/NSCC arrangement.

2. Statutory Basis
NASDAQ believes that the proposed
rule change is consistent with the
provisions of Section 6 of the Act 10 in
general and with Section 6(b)(5) of the
Act 11 in particular in that the proposal
is designed to prevent fraudulent and
manipulative acts and practices, to
promote just and equitable practices of
trade, to foster cooperation and
coordination with persons engaged in
regulating, clearing, settling, processing
information with respect to, and
facilitating transactions in securities, to
remove impediments to and perfect the
mechanism of a free and open market
and a national market system and in
general to protect investors and the
public interest. Specifically, by allowing
Canadian broker-dealers whose trades
are executed on NASDAQ to make use of
the long-standing arrangement between NSCC and CDS for clearing
transactions, NASDAQ believes that the
proposed rule change will directly foster
coopera	ion and coordination with the
two primary North American cash
equities clearinghouses and their
respective members and will thereby
promote a free and open market.
Because the arrangement between NSCC
and CDS, which has been in place in
varying forms for over two decades,
includes mechanisms to provide for the
collateralization of the obligations
arising thereunder. NASDAQ believes
that the proposed change is fully
consistent with the protection of
investors and the public interest.

(B) Self-Regulatory Organization’s
Statement on Burden on Competition

NASDAQ does not believe that the
proposed rule change will result in any
burden on competition that is not
necessary or appropriate in furtherance
of the purposes of the Act. The
proposed change will ensure that
Canadian broker-dealers whose trades
are executed on NASDAQ are able to
make use of an additional option for
clearing such transactions, thereby
promoting competition with respect to
the availability of clearing services. The
change will enhance NASDAQ’s ability
to compete in the over-the-counter
market with other exchanges that offer
the ability to clear through the CDS/
NSCC relationship.

(C) Self-Regulatory Organization’s
Statement on Comments on the
Proposed Rule Change Received From
Members, Participants, or Others

Written comments relating to the
proposed rule change have not been
solicited or received. NASDAQ will
notify the Commission of any written
comments received by NASDAQ.

III. Date of Effectiveness of the
Proposed Rule Change and Timing for
Commission Action

Because the foregoing proposed rule
change does not significantly affect the
protection of investors or the public
interest, does not impose any significant
burden on competition, and, by its
terms, does not become operative for 30
days from the date on which it was
filed, or such shorter time as the
Commission may designate, it has
immediately become effective pursuant
to Section 19(b)(3)(A) of the Act 12 and

4(f)(6)(iii) requires the Exchange to give the
Commission written notice of the Exchange’s intent
to file the proposed rule change, along with a brief
description and text of the proposed rule change,
at least five business days prior to the date of filing
of the proposed rule change, or such shorter time
as designated by the Commission. The Exchange
has satisfied the five-day prefiling requirement.

NASDAQ has requested that the
Commission waive the 30-day operative
waiting period contained in Exchange
Commission believes that waiver of the
operative delay is consistent with the
protection of investors and the public
interest because the arrangement
between NSCC and CDS countenanced
by the proposed rule change has been in
place and has been used for over two
decades, includes mechanisms to
provide for the collateralization of the
obligations arising thereunder, and has
long been recognized under FINRA and
NASD rules for use in clearing over-the-
counter transactions. The technology
changes at NASDAQ necessary to allow
implementation of the proposed rule
change have already been made.
Accordingly, the Commission believes
that the change does not significantly
affect the protection of investors or the
public interest and does promote
competition. Conversely, because delay
of implementation would only serve to
delay the availability of a
well-established clearing mechanism
for clearing certain trades executed on
NASDAQ and would thereby inhibit
customer choice and flexibility without
advancing any regulatory goal, it would
be consistent with the protection of
investors and the public interest to
waive the waiting period. Therefore, the
Commission designates the proposed
rule change as operative upon filing.14

At any time within 60 days of the
filing of the proposed rule change, the
Commission summarily may
temporarily suspend such rule change if
it appears to the Commission that such
action is necessary or appropriate in the
public interest, for the protection of
investors, or otherwise in furtherance of
the purposes of the Act. If the
Commission takes such action, the
Commission shall institute proceedings
to determine whether the proposed rule
change should be approved or
disapproved.

IV. Solicitation of Comments

Interested persons are invited to
submit written data, views, and
arguments concerning the foregoing,
including whether the proposed rule
change is consistent with the Act.
Comments may be submitted by any of
the following methods:

comment form (http://www.sec.gov/
rules/sro.shtml); or

14 For purposes only of waiving the 30-day
operative delay, the Commission has considered the
proposed rule’s impact on efficiency, competition,
SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Deleting the Text of NYSE Arca Equities Rule 5.2(b)(1) and Adopting New NYSE Arca Equities Rule 5190 That Is Substantially the Same as Financial Industry Regulatory Authority Rule 5190

February 2, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”) and Rule 19b–4 thereunder, notice is hereby given that, on January 23, 2012, NYSE Arca, Inc. (the “Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to delete the text of NYSE Arca Equities Rule 5.2(b)(1) and adopt new NYSE Arca Equities Rule 5190 that is substantially the same as Financial Industry Regulatory Authority (“FINRA”) Rule 5190. The text of the proposed rule change is available at the Exchange, the Commission’s Public Reference Room, and www.nyse.com.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

1. Purpose

The Exchange proposes to delete the text of NYSE Arca Equities Rule 5.2(b)(1) and adopt new NYSE Arca Equities Rule 5190 that is substantially the same as FINRA Rule 5190. The proposed rule change will further harmonize the Exchange’s rules with the rules of FINRA, NYSE, and NYSE Arca. The Exchange believes the proposed rule change will help reduce duplicative reporting requirements for ETP holders who are also FINRA members and/or NYSE or NYSE Arca members, because ETP Holders will not be required to submit an additional Regulation M notification to the Exchange if they have already provided a notification to FINRA, NYSE, or NYSE Arca pursuant to their respective rules.

Background

NYSE Arca Equities Rule 5.2(b)(1) requires ETP Holders that act as a lead underwriter of an offering to notify the Exchange of such offering in the form and manner as required by the Exchange, including the information specified in the rule. NYSE Arca Equities Rule 5.2(b)(1) covers the same material as FINRA Rule 5190, which was adopted to consolidate certain Regulation M-related notification requirements and applies uniformly to distributions of listed and unlisted securities. FINRA Rule 5190 imposes certain notice requirements on members participating in distributions of listed and unlisted securities, and is designed to ensure that FINRA receives pertinent distribution-related information from its members in a timely fashion to facilitate its Regulation M compliance program. FINRA recently amended FINRA Rule 5190 to clarify members’ notice obligations under the rule, and NYSE and NYSE Arca Equities each adopted a version of FINRA Rule 5190 for their respective markets, which incorporate
