3. **Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

   a. **Purpose**

   The Exchange proposes to amend NASDAQ Rule 7034 to reduce the monthly recurring cabinet ("MRC") fees assessed for the installation of certain new co-location cabinets. The reduced MRC fees will apply to new cabinets ordered by customers using the CoLo Console\(^3\) during the months of January and February of 2013, provided that such cabinets are fully operational by May 31, 2013. The reduced fee shall apply to any cabinet that increases the number of dedicated cabinets beyond the total number dedicated to that customer as of December 31, 2012 ("Baseline Number"), for so long as the total number of dedicated cabinets exceeds that customer’s Baseline Number. The reduced MRC fees will apply for a period of 24 months from the date the new cabinet becomes fully operational under NASDAQ rules, provided that the customer’s total number of cabinets continues to exceed the Baseline Number.

   The Exchange proposes to reduce the applicable fees as follows:

   New cabinets shall be assessed standard installation fees.

\(^3\) The “CoLo Console” is NASDAQ’s web-based ordering tool, and it is the exclusive means for ordering colocation services.
NASDAQ proposes to reduce colocation cabinet fees by different amounts to maintain a sliding scale of lower fees for higher density cabinets on a per kilowatt basis.

**Statutory Basis**

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,\(^4\) in general, and with Section 6(b)(4) of the Act,\(^5\) in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls. The proposed reduced fee will be assessed equally on all customers that place an order for a new cabinet during the designated period. The proposed amendments will provide an incentive for customers to avail themselves of the designated co-location services.

---

NASDAQ’s proposal to reduce fees by differing amounts is fair and equitable because it reflects the economic efficiency of higher density colocation cabinets. First, the underlying costs for co-location cabinets consists of certain fixed costs for the data center facility (space, amortization, etc.) and certain variable costs (electrical power utilized and cooling required). The variable costs are in total higher for the higher power density cabinets, as reflected in their higher current prices. Second, the higher density cabinets were introduced later than the lower density cabinets (High Density cabinet was introduced in 2009 and the Super High Density cabinet was introduced in 2011). Due to the competitive pressures that existed in 2011 and 2012, the fees for Super High Density cabinets were further reduced in 2012 to be more comparable with the lower fee per kilowatt of the High Density cabinet. As a result of these already-reduced rates on higher density cabinets, NASDAQ has greater flexibility to discount fees for lower density cabinets, on a per kilowatt basis.

NASDAQ operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive. In such an environment, NASDAQ must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. NASDAQ believes that the proposed rule change reflects this competitive environment because it is designed to ensure that the charges for use of the NASDAQ colocation facility remain competitive.

4. **Self-Regulatory Organization’s Statement on Burden on Competition**

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes
of the Act, as amended. To the contrary, the Exchange’s voluntary fee reduction is a response to increased competition for colocation services by other exchanges and trading venues. As more venues offer colocation services, competition drives costs lower. The Exchange, in order to retain existing orders and to attract new orders, is forced to offer a lower effective rate for aggregate cabinet demand. This competition benefits users, members, and investors by lowering the average aggregate cost of trading on the Exchange.

5. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A)(ii) of the Act, the Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the

Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

8. **Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission**

Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NASDAQ Stock Market LLC proposes to reduce the fees assessed under NASDAQ Rule 7034 for certain co-location services. While the changes proposed herein are effective upon filing, the Exchange has designated that the amendments be operative on January 2, 2013.

The text of the proposed rule change is available on the Exchange’s Website at http://nasdaq.cchwallstreet.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend NASDAQ Rule 7034 to reduce the monthly recurring cabinet (“MRC”) fees assessed for the installation of certain new co-location cabinets. The reduced MRC fees will apply to new cabinets ordered by customers using the CoLo Console\(^3\) during the months of January and February of 2013, provided that such cabinets are fully operational by May 31, 2013. The reduced fee shall apply to any cabinet that increases the number of dedicated cabinets beyond the total number dedicated to that customer as of December 31, 2012 (“Baseline Number”), for so long as the total number of dedicated cabinets exceeds that customer’s Baseline Number. The reduced MRC fees will apply for a period of 24 months from the date the new cabinet becomes fully operational under NASDAQ rules, provided that the customer’s total number of cabinets continues to exceed the Baseline Number.

The Exchange proposes to reduce the applicable fees as follows:

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁴ in general, and with Section 6(b)(4) of the Act,⁵ in particular, in that it provides for the equitable allocation of reasonable dues, fees and

---

other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls. The proposed reduced fee will be assessed equally on all customers that place an order for a new cabinet during the designated period. The proposed amendments will provide an incentive for customers to avail themselves of the designated co-location services.

NASDAQ’s proposal to reduce fees by differing amounts is fair and equitable because it reflects the economic efficiency of higher density colocation cabinets. NASDAQ believes that the proposed rule change reflects this competitive environment because it is designed to ensure that the charges for use of the NASDAQ colocation facility remain competitive.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. To the contrary, the Exchange’s voluntary fee reduction is a response to increased competition for colocation services by other exchanges and trading venues. This competition benefits users, members, and investors by lowering the average aggregate cost of trading on the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Pursuant to Section 19(b)(3)(A)(ii) of the Act, NASDAQ has designated this proposal as establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
