1. Text of Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² The NASDAQ Stock Market LLC (“NASDAQ” or “Exchange”), is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to postpone the implementation of the Dedicated OUCH Port Infrastructure connectivity option and related fees. The Exchange will now implement the new service in the first quarter of 2014, and will provide public notice thereof at least five days prior to the implementation date.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange on July 17, 2013. Exchange staff will advise the Board of Directors of the Exchange of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the rule change. NASDAQ will begin offering the service in mid-first quarter of 2014, and will provide public notice thereof at least five days prior to the implementation date.

Questions regarding this rule filing may be directed to T. Sean Bennett, Associate General Counsel, The NASDAQ OMX Group, Inc., at (301) 978-8499 (telephone) or (301) 978-8472 (fax).

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

On July 23, 2013, the Exchange filed a proposal with the Commission to adopt a new Dedicated OUCH Port Infrastructure connectivity option and related fee.³ At the time of filing, the Exchange anticipated offering the service in October 2013, concurrent with certain hardware upgrades occurring at NASDAQ, including upgrades to the OUCH port infrastructure. NASDAQ is delaying implementation of the updates to the OUCH port infrastructure, which consequently affects the rollout of the Dedicated OUCH Port Infrastructure service making it impossible to implement the service in October 2013.⁴ Accordingly, NASDAQ is proposing to postpone the roll out of the service until mid-first quarter 2014, by which time the Exchange believes the upgrades to the OUCH port infrastructure will be completed. NASDAQ will not begin assessing the subscription fee until the date the service is offered, which NASDAQ will announce at least five days prior to the implementation date. NASDAQ will continue to assess the installation fee for any subscriptions to the service upon installation of the dedicated hardware.⁵

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,⁶ which requires the rules of an exchange to promote just and equitable

principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes that delay of service promotes just and equitable principals of trade in that it postpones implementation of the service until such a time that all users of OUCH port infrastructure would have the same, upgraded hardware. The proposed delay in offering the service is based on a delay to an underlying technical upgrade to certain systems of the Exchange. As a consequence, delaying implementation of the service until a time that such upgraded hardware is available will further the goal of perfecting fair and orderly markets, protecting investors and the public interest.

4. Self-Regulatory Organization's Statement on Burden on Competition

NASDAQ does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. NASDAQ believes that the delay will not impact competition whatsoever as it will maintain the status quo until such time that the OUCH port infrastructure is upgraded, at which time the new service and associated monthly fee will be implemented. In this regard, existing subscribers to shared OUCH port infrastructure will continue to receive the same service, unaffected by the delay in upgrading the OUCH port infrastructure. Once upgraded, both subscribers to the shared infrastructure and Dedicated OUCH Port Infrastructure subscribers will operate on the same type of underlying hardware.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6)⁸ thereunder in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest. The Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing, or such shorter time as designated by the Commission.⁹

The Exchange requests that the Commission waive the 30-day operative delay so that the proposed rule change may become effective and operative upon filing with the Commission pursuant to Rule 19b-4(f)(6)(iii) of the Act.¹⁰ The Exchange requests this waiver because it will allow the Exchange to delay implementation of the service and fee until it is able to offer the service with upgraded hardware, as was the expectation when the Exchange adopted the new service. As noted above, the proposal to delay

implementation of the service and related monthly fee merely acts to maintain the status quo. Because of an underlying delay in upgrading OUCH port infrastructure, NASDAQ is unable to offer the service in October 2013, as noted when it adopted the new service, and therefore must delay implementation until such time such upgrades are complete. Accordingly, the Exchange believes that waiver of the operative delay is consistent with the protection of investors and the public interest.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Delay Implementation of the Dedicated OUCH Port Infrastructure Service

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 4, 2013 The NASDAQ Stock Market LLC (“NASDAQ” or “Exchange”), filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

On July 23, 2013, the Exchange filed a proposal with the Commission to adopt a new Dedicated OUCH Port Infrastructure connectivity option and related fee.³ At the time of filing, the Exchange anticipated offering the service in October 2013, concurrent with certain hardware upgrades occurring at NASDAQ, including upgrades to the OUCH port infrastructure. prior to the implementation date. NASDAQ will continue to assess the installation fee for any subscriptions to the service upon installation of the dedicated hardware.⁵

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b)(5) of the Act,⁶ which requires the rules of an exchange to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes that delay of service promotes just and equitable principals of trade in that it postpones implementation of the service until such a time that all users of OUCH port infrastructure would have the same, upgraded hardware. The proposed delay in offering the service is based on a delay to an underlying technical upgrade to certain systems of the Exchange. As a consequence, delaying implementation of the service until a time that such upgraded hardware is available will further the goal of perfecting fair and orderly markets, protecting investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASDAQ does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. NASDAQ believes that the delay will not impact competition whatsoever as it will maintain the status quo until such time that the OUCH port infrastructure is upgraded, at which time the new service and associated monthly fee will be implemented. In this regard, existing subscribers to shared OUCH port infrastructure

will continue to receive the same service, unaffected by the delay in upgrading the OUCH port infrastructure. Once upgraded, both subscribers to the shared infrastructure and Dedicated OUCH Port Infrastructure subscribers will operate on the same type of underlying hardware.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁷ and subparagraph (f)(6) of Rule 19b-4 thereunder.⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. The Exchange has provided the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change.

⁷ 15 U.S.C. 78s(b)(3)(A).

⁸ 17 CFR 240.19b-4(f)(6).
