SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

For complete Form 19b-4 instructions please refer to the EFFF website.

Form 19b-4 Information *

Add Remove View

The self-regulatory organization must provide all required information, presented in a clear and comprehensible manner, to enable the public to provide meaningful comment on the proposal and for the Commission to determine whether the proposal is consistent with the Act and applicable rules and regulations under the Act.

Exhibit 1 - Notice of Proposed Rule Change *

Add Remove View

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

Exhibit 1A- Notice of Proposed Rule Change, Security-Based Swap Submission, or Advance Notice by Clearing Agencies *

Add Remove View

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change, security-based swap submission, or advance notice being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

Exhibit 2 - Notices, Written Comments, Transcripts, Other Communications

Add Remove View

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

Exhibit 3 - Form, Report, or Questionnaire

Add Remove View

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

Exhibit 4 - Marked Copies

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² The NASDAQ Stock Market LLC (“Nasdaq” or the “Exchange”) is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to list and trade the shares of the First Trust Emerging Markets Local Currency Bond ETF (the “Fund”) of First Trust Exchange-Traded Fund III (the “Trust”) under Nasdaq Rule 5735 (“Managed Fund Shares”).³ The shares of the Fund are collectively referred to herein as the “Shares.”

(b) and (c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange (the “Board”) on July 16, 2014. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the rule change.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ The Commission approved Nasdaq Rule 5735 in Securities Exchange Act Release No. 57962 (June 13, 2008), 73 FR 35175 (June 20, 2008) (SR- NASDAQ-2008-039). There are already multiple actively-managed funds listed on the Exchange; *see, e.g.*, Securities Exchange Act Release Nos. 69464 (April 26, 2013), 78 FR 25774 (May 2, 2013) (SR-NASDAQ-2013-036) (order approving listing and trading of First Trust Senior Loan Fund); 68972 (February 22, 2013), 78 FR 13721 (February 28, 2013) (SR-NASDAQ-2012-147) (order approving listing and trading of First Trust High Yield Long/Short ETF); 66489 (February 29, 2012), 77 FR 13379 (March 6, 2012) (SR-NASDAQ-2012-004) (order approving listing and trading of WisdomTree Emerging Markets Corporate Bond Fund). The Exchange believes the proposed rule change raises no significant issues not previously addressed in those prior Commission orders.

Questions regarding this rule filing may be directed to Jonathan F. Cayne, Senior Associate General Counsel, The NASDAQ OMX Group at (301) 978-8493 (telephone) or (301) 978-8472 (fax).

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The Exchange proposes to list and trade the Shares of the Fund under Nasdaq Rule 5735, which governs the listing and trading of Managed Fund Shares⁴ on the Exchange. The Fund will be an actively-managed exchange-traded fund ("ETF"). The Shares will be offered by the Trust, which was established as a Massachusetts business trust on January 9, 2008.⁵ The Trust is registered with the Commission as an investment company and has filed a registration statement on Form N-1A ("Registration Statement") with the Commission.⁶ The Fund will be a series of the Trust.

⁴ A Managed Fund Share is a security that represents an interest in an investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a-1) (the "1940 Act") organized as an open-end investment company or similar entity that invests in a portfolio of securities selected by its investment adviser consistent with its investment objectives and policies. In contrast, an open-end investment company that issues Index Fund Shares, listed and traded on the Exchange under Nasdaq Rule 5705, seeks to provide investment results that correspond generally to the price and yield performance of a specific foreign or domestic stock index, fixed income securities index or combination thereof.

⁵ The Commission has issued an order, upon which the Trust may rely, granting certain exemptive relief under the 1940 Act. See Investment Company Act Release No. 30029 (April 10, 2012) (File No. 812-13795) (the "Exemptive Relief"). In addition, the Commission has issued no-action relief, upon which the Trust may rely, pertaining to the Fund's ability to invest in derivatives notwithstanding certain representations in the application for the Exemptive Relief. See Commission No-Action Letter (December 6, 2012).

⁶ See Post-Effective Amendment No. 10 to Registration Statement on Form N-1A for the Trust, dated July, 8, 2014 (File Nos. 333-176976 and 811-22245). The descriptions of the Fund and the Shares contained herein are based, in part, on information in the Registration Statement.

First Trust Advisors L.P. will be the investment adviser (“Adviser”) to the Fund. First Trust Global Portfolios Ltd will serve as investment sub-adviser (“Sub-Adviser”) to the Fund and provide day-to-day portfolio management. First Trust Portfolios L.P. (the “Distributor”) will be the principal underwriter and distributor of the Fund’s Shares. Brown Brothers Harriman & Co. (“BBH”) will act as the administrator, accounting agent, custodian and transfer agent to the Fund.

Paragraph (g) of Rule 5735 provides that if the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio.⁷ In addition, paragraph (g) further requires that personnel who make decisions on the open-end fund’s portfolio composition must be subject to procedures designed to prevent the use and dissemination of material, non-public information regarding the open-end fund’s portfolio. Rule 5735(g) is similar

⁷ An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser, the Sub-Adviser and their related personnel are subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

to Nasdaq Rule 5705(b)(5)(A)(i); however, paragraph (g) in connection with the establishment of a “fire wall” between the investment adviser and the broker-dealer reflects the applicable open-end fund’s portfolio, not an underlying benchmark index, as is the case with index-based funds. Neither the Adviser nor the Sub-Adviser is a broker-dealer, although each is affiliated with the Distributor, a broker-dealer. The Adviser and the Sub-Adviser have each implemented a fire wall with respect to their broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio. In addition, personnel who make decisions on the Fund’s portfolio composition will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the Fund’s portfolio. In the event (a) the Adviser or the Sub-Adviser becomes, or becomes newly affiliated with, a broker-dealer or registers as a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement a fire wall with respect to its relevant personnel and/or such broker-dealer affiliate, as applicable, regarding access to information concerning the composition and/or changes to the portfolio and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

First Trust Emerging Markets Local Currency Bond ETF

Principal Investments

The investment objective of the Fund will be to seek maximum total return and current income. Under normal market conditions,⁸ the Fund will invest at least 80% of

⁸ The term “under normal market conditions” as used herein includes, but is not limited to, the absence of adverse market, economic, political or other conditions, including extreme volatility or trading halts in the fixed income markets or the

its net assets (including investment borrowings) in bonds, notes, bills, certificates of deposit, time deposits, commercial paper and loans issued by issuers in emerging market⁹ countries (“Debt Instruments”) that are denominated in the local currency of the issuer.

Debt Instruments will be issued or guaranteed (as applicable) by: (i) foreign governments (which may be local foreign governments); (ii) instrumentalities, agencies or other political subdivisions of foreign governments (which may be local foreign governments); (iii) central banks, sovereign entities, supranational issuers or development agencies; or (iv) entities or enterprises organized, owned, backed or sponsored by any of the entities set forth in the foregoing clauses (i)-(iii).¹⁰ The Fund will invest in Debt

financial markets generally; operational issues causing dissemination of inaccurate market information; or force majeure type events such as systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

⁹ According to the Adviser and the Sub-Adviser, while there is no universally accepted definition of what constitutes an “emerging market,” in general, emerging market countries are characterized by developing commercial and financial infrastructure with significant potential for economic growth and increased capital market participation by foreign investors. The Adviser and Sub-Adviser will look at a variety of commonly-used factors when determining whether a country is an “emerging” market. In general, the Adviser and Sub-Adviser will consider a country to be an emerging market if it is classified by the World Bank in the lower, lower middle or upper middle income designation for one of the past three years. This definition could be expanded or exceptions could be made depending on the evolution of market and economic conditions.

¹⁰ Debt Instruments include fixed rate, floating rate and index-linked debt obligations. In addition, as a point of clarification, Debt Instruments include inflation-linked bonds. Inflation-linked bonds are fixed income securities that are structured to provide protection against inflation. The value of the inflation-linked bond’s principal or the interest income paid on the bond is adjusted to track changes in an official inflation measure. The value of inflation-linked bonds is expected to change in response to changes in real interest rates. Real interest rates are tied to the relationship between nominal interest rates and the rate of inflation. If nominal interest rates increase at a faster rate than inflation, real interest rates may rise, leading to a decrease in the value of inflation-linked bonds.

Instruments issued by at least 13 non-affiliated issuers.

In implementing the Fund's investment strategy, the Sub-Adviser will seek to provide current income and enhance capital, while minimizing volatility. The Sub-Adviser will continually review fundamental economic and structural themes that impact long and medium term asset returns in emerging markets. The Sub-Adviser will also consider shorter term market drivers such as valuations, liquidity conditions and sentiment to determine the appropriate positioning of the Fund's investments. The Sub-Adviser will adjust the portfolio's country allocations, duration and individual security positioning to reflect the most attractive opportunities on a continuous basis.

The Fund's exposure to any single country generally will be limited to 20% of the Fund's net assets (although this percentage may change from time to time in response to economic events). The percentage of Fund assets invested in a specific region, country or issuer will change from time to time. The Fund intends, initially, to invest in Debt Instruments of issuers in the following countries: Brazil, Chile, Colombia, Hungary, Indonesia, Israel, Malaysia, Mexico, Nigeria, Peru, Philippines, Poland, Romania, Russia, South Africa, South Korea, Thailand, Turkey and Uruguay. This list may change as market developments occur and may include additional issuers. The Fund will invest only in Debt Instruments that, at the time of purchase, are performing, and not in default or distressed; however, the Debt Instruments in which the Fund invests may become non-performing, distressed or defaulted subsequent to purchase and the Fund may continue to hold such Debt Instruments. The Fund may invest in Debt Instruments of any credit

quality,¹¹ including unrated securities, and with effective or final maturities of any length.

Liquidity will be a substantial factor in the Fund's security selection process.¹²

Under normal market conditions, at least 80% of the Fund's net assets that are invested in Debt Instruments will be invested in Debt Instruments that are issued by issuers with outstanding debt of at least \$200 million (or the foreign currency equivalent thereof).

The Fund's Investments in Derivative Instruments and Foreign Currencies

The Fund's investments in derivative instruments will be made in accordance with the 1940 Act and consistent with the Fund's investment objective and policies.

Under normal market conditions, no more than 20% of the value of the Fund's net assets will be invested in derivative instruments. The Fund may invest in exchange-listed futures contracts,¹³ exchange-listed options,¹⁴ exchange-listed options on futures contracts, forward currency contracts, non-deliverable forward currency contracts and

¹¹ The universe of emerging markets local currency debt currently includes securities that are rated "investment grade" as well as "non-investment grade" securities. The Fund will invest in both investment grade and non-investment grade securities, as well as unrated securities. There is no limit on the amount of the Fund's assets that may be invested in non-investment grade and unrated securities.

¹² In reaching liquidity decisions, the Adviser and/or the Sub-Adviser may consider the following factors: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; and the nature of the security and the nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers and the mechanics of transfer).

¹³ The Fund will use futures contracts to hedge interest rate risk and to actively manage interest rate exposure.

¹⁴ Option purchases and sales can be used to help manage exposures (i.e., exposures to interest rates and/or currencies) more efficiently in the portfolio, while limiting downside.

exchange-listed currency options.¹⁵ Derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to, among other things, interest rates, currencies or currency exchange rates. The Fund may, but is not required to, use derivative instruments for risk management purposes or as part of its investment strategies.

The Fund will use derivative instruments primarily to hedge interest rate risk and actively manage interest rate exposure and, as described further below, to hedge foreign currency risk and actively manage foreign currency exposure. The Fund may also use derivative instruments to enhance returns, as a substitute for, or to gain exposure to, a position in an underlying asset, to reduce transaction costs, to maintain full market exposure (which means to adjust the characteristics of its investments to more closely approximate those of the markets in which it invests), to manage cash flows or to preserve capital.¹⁶ The Fund's investments in derivative instruments will not be used to seek to achieve a multiple or inverse multiple of an index.

The Fund will invest in foreign currencies, will invest in Debt Instruments denominated in foreign (non-U.S.) currencies and will receive revenues in foreign

¹⁵ At least 90% of the Fund's net assets that are invested in exchange-traded derivative instruments will be invested in instruments that trade in markets that are members of the Intermarket Surveillance Group ("ISG") (see footnote 36) or are parties to a comprehensive surveillance sharing agreement with the Exchange.

¹⁶ The Fund will seek, where possible, to use counterparties, as applicable, whose financial status is such that the risk of default is reduced; however, the risk of losses resulting from default is still possible. The Adviser and/or the Sub-Adviser will evaluate the creditworthiness of counterparties on an ongoing basis. In addition to information provided by credit agencies, the Adviser's and/or the Sub-Adviser's analysis will evaluate each approved counterparty using various methods of analysis and may consider such factors as the counterparty's liquidity, its reputation, the Adviser's and/or Sub-Adviser's past experience with the counterparty, its known disciplinary history and its share of market participation.

currencies. In addition, the Fund may engage in foreign currency transactions on a spot (cash) basis and, as indicated above, enter into forward currency contracts.¹⁷ A forward currency contract, which involves an obligation to purchase or sell a specific currency at a future date at a price set at the time of the contract, reduces the Fund's exposure to changes in the value of the currency it will deliver and increases its exposure to changes in the value of the currency it will receive for the duration of the contract. Certain foreign currency transactions (i.e., non-deliverable forward currency contracts) may also be settled in cash rather than the actual delivery of the relevant currency. The effect on the value of the Fund is similar to selling securities denominated in one currency and purchasing securities denominated in another currency. A contract to sell foreign currency would limit any potential gain which might be realized if the value of the hedged currency increases. The Fund may enter into these contracts to hedge against foreign exchange risk, to increase exposure to a foreign currency, or to shift exposure to foreign currency fluctuations from one currency to another. Suitable hedging transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in such transactions at any given time or from time to time.

The Fund will comply with the regulatory requirements of the Commission to maintain assets as "cover," maintain segregated accounts, and/or make margin payments when it takes positions in derivative instruments involving obligations to third parties

¹⁷ At least 90% of the Fund's net assets that are invested in foreign currencies will be invested in currencies with a minimum average daily foreign exchange turnover of USD \$1 billion as determined by the Bank for International Settlements ("BIS") Triennial Central Bank Survey. As of the most recent BIS Triennial Central Bank Survey, at least 52 separate currencies had minimum average daily foreign exchange turnover of USD \$1 billion. For a list of eligible BIS currencies, see www.bis.org.

(i.e., instruments other than purchase options). If the applicable guidelines prescribed under the 1940 Act so require, the Fund will earmark or set aside cash, U.S. government securities, high grade liquid debt securities and/or other liquid assets permitted by the Commission in a segregated custodial account in the amount prescribed.¹⁸

Other Investments

Under normal market conditions, the Fund will invest substantially all of its assets to meet its investment objective and, as described above, the Fund may invest in derivative instruments and foreign currencies. In addition, the Fund may invest its remaining assets as described below.

The Fund may invest up to 20% of its net assets in non-U.S. corporate bonds that are not included within the meaning of the term “Debt Instruments” (referred to as “Corporate Bonds”). The Fund will invest only in Corporate Bonds that the Adviser and/or the Sub-Adviser deems to be sufficiently liquid.¹⁹ Under normal market conditions, a Corporate Bond must have \$200 million (or the foreign currency equivalent thereof) or more par amount outstanding and significant par value traded to be considered as an eligible investment. Economic and other conditions may, from time to time, lead to a decrease in the average par amount outstanding of non-U.S. corporate bond issuances. Therefore, although the Fund does not intend to do so, the Fund may invest up to 5% of its net assets in Corporate Bonds with less than \$200 million (or the foreign currency equivalent thereof) par amount outstanding if (i) the Adviser and/or the Sub-Adviser

¹⁸ With respect to guidance under the 1940 Act, see 15 U.S.C. 80a-18; Investment Company Act Release No. 10666 (April 18, 1979), 44 FR 25128 (April 27, 1979); Dreyfus Strategic Investing, Commission No-Action Letter (June 22, 1987); Merrill Lynch Asset Management, L.P., Commission No-Action Letter (July 2, 1996).

¹⁹ See footnote 12.

deems such securities to be sufficiently liquid and (ii) such investment is deemed by the Adviser and/or the Sub-Adviser to be in the best interest of the Fund.

The Fund may invest up to 20% of its net assets in short-term debt securities (which are listed in the following paragraph) that are not included within the meaning of the term “Debt Instruments,”²⁰ money market funds and other cash equivalents, or it may hold cash. For temporary defensive purposes, during the initial invest-up period and during periods of high cash inflows or outflows, the Fund may depart from its principal investment strategies and invest part or all of its assets in these securities or it may hold cash. During such periods, the Fund may not be able to achieve its investment objective. The Fund may adopt a defensive strategy when the Adviser and/or Sub-Adviser believes that securities in which the Fund normally invests have elevated risks due to political or economic factors and in other extraordinary circumstances. The use of temporary investments will not be a part of a principal investment strategy of the Fund.

Short-term debt securities are the following: (1) fixed rate and floating rate U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest, which are either issued or guaranteed by the U.S. Treasury or by U.S. government agencies or instrumentalities; (2) short-term securities issued or guaranteed by non-U.S. governments or by their agencies or instrumentalities;²¹ (3) certificates of deposit issued against funds deposited in a bank or savings and loan association;

²⁰ Short-term debt securities are securities from issuers having a long-term debt rating of at least A by Standard & Poor’s Ratings Services, a division of the McGraw-Hill Companies, Inc. (“S&P Ratings”), Moody’s Investors Service, Inc. (“Moody’s”), or Fitch Ratings (“Fitch”) and having a maturity of one year or less. For the sake of clarity, the foregoing parameters do not apply to Debt Instruments.

²¹ The relevant non-U.S. government, agency or instrumentality must have a long-term debt rating of at least A by S&P Ratings, Moody’s or Fitch. For the sake of clarity, the foregoing ratings requirement does not apply to Debt Instruments.

(4) bankers' acceptances, which are short-term credit instruments used to finance commercial transactions; (5) repurchase agreements,²² which involve purchases of debt securities; (6) bank time deposits, which are monies kept on deposit with banks or savings and loan associations for a stated period of time at a fixed rate of interest; (7) commercial paper, which is short-term unsecured promissory notes²³; and (8) other securities that are similar to the foregoing.

The Fund may invest up to 20% of its net assets in the securities of money market funds (as noted above) and other ETFs²⁴ that invest primarily in short-term debt securities or Debt Instruments and, except for these investments in other investment

²² The Fund intends to enter into repurchase agreements only with financial institutions and dealers believed by the Sub-Adviser to present minimal credit risks in accordance with criteria approved by the Board of Trustees of the Trust ("Trust Board"). The Sub-Adviser will review and monitor the creditworthiness of such institutions. The Sub-Adviser will monitor the value of the collateral at the time the transaction is entered into and at all times during the term of the repurchase agreement.

²³ Except for commercial paper that is included within the meaning of the term "Debt Instruments," the Fund will only invest in commercial paper rated A-1 or higher by S&P Ratings, Prime-1 or higher by Moody's or F1 or higher by Fitch.

²⁴ An ETF is an investment company registered under the 1940 Act that holds a portfolio of securities. Many ETFs are designed to track the performance of a securities index, including industry, sector, country and region indexes. ETFs included in the Fund will be listed and traded in the U.S. on registered exchanges. The Fund may invest in the securities of ETFs in excess of the limits imposed under the 1940 Act pursuant to exemptive orders obtained by other ETFs and their sponsors from the Commission. In addition, the Fund may invest in the securities of certain other investment companies (including without limitation ETFs) in excess of the limits imposed under the 1940 Act pursuant to an exemptive order that the Trust has obtained from the Commission. See Investment Company Act Release No. 30377 (February 5, 2013) (File No. 812-13895). The ETFs in which the Fund may invest include Index Fund Shares (as described in Nasdaq Rule 5705), Portfolio Depository Receipts (as described in Nasdaq Rule 5705), and Managed Fund Shares (as described in Nasdaq Rule 5735). While the Fund may invest in inverse ETFs, the Fund will not invest in leveraged or inverse leveraged (e.g., 2X or -3X) ETFs.

companies, the Fund will not invest directly²⁵ in equity securities. The ETFs in which the Fund will invest will be exchange-listed and trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.²⁶

The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including Rule 144A securities deemed illiquid by the Adviser and/or the Sub-Adviser.²⁷ The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund's net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.

The Fund may not invest 25% or more of the value of its total assets in securities of issuers in any one industry. This restriction does not apply to (a) obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities, or (b) securities of other investment companies.²⁸

The Fund may purchase securities on a when-issued or other delayed delivery

²⁵ It is possible, however, that an investment company in which the Fund invests will invest a portion of its assets in foreign and/or domestic equity securities.

²⁶ See footnote 36.

²⁷ See footnote 12.

²⁸ See Form N-1A, Item 9. The Commission has taken the position that a fund is concentrated if it invests more than 25% of the value of its total assets in any one industry. See, e.g., Investment Company Act Release No. 9011 (October 30, 1975), 40 FR 54241 (November 21, 1975).

basis and may enter into reverse repurchase agreements.

The Fund intends to qualify each year as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended.

Creation and Redemption of Shares

The Fund will issue and redeem Shares on a continuous basis at net asset value (“NAV”)²⁹ only in large blocks of Shares (“Creation Units”) in transactions with authorized participants, generally including broker-dealers and large institutional investors (“Authorized Participants”). Creation Units generally will consist of 50,000 Shares, although this may change from time to time. Creation Units, however, are not expected to consist of less than 50,000 Shares. As described in the Registration Statement and consistent with the Exemptive Relief, the Fund will issue and redeem Creation Units in exchange for an in-kind portfolio of instruments and/or cash in lieu of such instruments (the “Creation Basket”). In addition, if there is a difference between the NAV attributable to a Creation Unit and the market value of the Creation Basket exchanged for the Creation Unit, the party conveying instruments with the lower value will pay to the other an amount in cash equal to the difference (referred to as the “Cash Component”).

Creations and redemptions must be made by an Authorized Participant or through a firm that is either a member of the National Securities Clearing Corporation (“NSCC”) or a Depository Trust Company participant that, in each case, must have executed an

²⁹ The NAV of the Fund’s Shares generally will be calculated once daily Monday through Friday as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m., Eastern Time (the “NAV Calculation Time”). NAV per Share will be calculated by dividing the Fund’s net assets by the number of Fund Shares outstanding. For more information regarding the valuation of Fund investments in calculating the Fund’s NAV, see the Registration Statement.

agreement that has been agreed to by the Distributor and BBH with respect to creations and redemptions of Creation Units. All standard orders to create Creation Units must be received by the transfer agent no later than the closing time of the regular trading session on the New York Stock Exchange (ordinarily 4:00 p.m., Eastern Time) (the “Closing Time”) in each case on the date such order is placed in order for the creation of Creation Units to be effected based on the NAV of Shares as next determined on such date after receipt of the order in proper form. Shares may be redeemed only in Creation Units at their NAV next determined after receipt not later than the Closing Time of a redemption request in proper form by the Fund through the transfer agent and only on a business day.

The Fund’s custodian, through the NSCC, will make available on each business day, prior to the opening of business of the Exchange, the list of the names and quantities of the instruments comprising the Creation Basket, as well as the estimated Cash Component (if any), for that day. The published Creation Basket will apply until a new Creation Basket is announced on the following business day.

Net Asset Value

The Fund’s NAV will be determined as of the close of trading (normally 4:00 p.m., Eastern Time) on each day the New York Stock Exchange is open for business. NAV will be calculated for the Fund by taking the market price of the Fund’s total assets, including interest or dividends accrued but not yet collected, less all liabilities, and dividing such amount by the total number of Shares outstanding. The result, rounded to the nearest cent, will be the NAV per Share. All valuations will be subject to review by the Trust Board or its delegate.

The Fund’s investments will be valued daily at market value or, in the absence of

market value with respect to any investment at fair value, in each case in accordance with valuation procedures (which may be revised from time to time) adopted by the Trust Board (the “Valuation Procedures”) and in accordance with the 1940 Act. A market valuation generally means a valuation (i) obtained from an exchange, an independent pricing service (“Pricing Service”), or a major market maker (or dealer) or (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, a Pricing Service, or a major market maker (or dealer). The information summarized below is based on the Valuation Procedures as currently in effect; however, as noted above, the Valuation Procedures are amended from time to time and, therefore, such information is subject to change.

Certain securities, including Debt Instruments, in which the Fund will invest will not be listed on any securities exchange or board of trade. Such securities will typically be bought and sold by institutional investors in individually negotiated private transactions that function in many respects like an over-the-counter secondary market, although typically no formal market makers will exist. Certain securities, particularly debt securities, will have few or no trades, or trade infrequently, and information regarding a specific security may not be widely available or may be incomplete. Accordingly, determinations of the fair value of debt securities may be based on infrequent and dated information. Because there is less reliable, objective data available, elements of judgment may play a greater role in valuation of debt securities than for other types of securities. Typically (other than as described below), Debt Instruments and other debt securities in which the Fund may invest (as described under “Other Investments”) will be valued using information provided by a Pricing Service. To the

extent debt securities have a remaining maturity of 60 days or less when purchased, they will be valued at cost adjusted for amortization of premiums and accretion of discounts. Overnight repurchase agreements will be valued at cost. Term repurchase agreements (i.e., those whose maturity exceeds seven days) will be valued at the average of the bid quotations obtained daily from at least two recognized dealers.

ETFs listed on any exchange other than the Exchange will be valued at the last sale price on the exchange on which they are principally traded on the business day as of which such value is being determined. ETFs listed on the Exchange will be valued at the official closing price on the business day as of which such value is being determined. If there has been no sale on such day, or no official closing price in the case of ETFs traded on the Exchange, the ETFs will be valued using fair value pricing, as described below. ETFs traded on more than one securities exchange will be valued at the last sale price or official closing price, as applicable, on the business day as of which such value is being determined at the close of the exchange representing the principal market for such ETFs.

Shares of money market funds will be valued at their net asset values as reported by such funds to Pricing Services.

Exchange-traded options and futures contracts will be valued at the closing price in the market where such contracts are principally traded.

Forward currency contracts and non-deliverable forward currency contracts will be valued at the current day's interpolated foreign exchange rate, as calculated using the current day's spot rate, and the thirty, sixty, ninety, and one-hundred-eighty day forward rates provided by a Pricing Service or by certain independent dealers in such contracts.

Certain securities may not be able to be priced by pre-established pricing

methods. Such securities may be valued by the Trust Board or its delegate at fair value. The use of fair value pricing by the Fund will be governed by the Valuation Procedures and conducted in accordance with the provisions of the 1940 Act. Valuing the Fund's securities using fair value pricing will result in using prices for those securities that may differ from current market valuations or official closing prices on the applicable exchange.

Because foreign securities exchanges may be open on different days than the days during which an investor may purchase or sell Shares, the value of the Fund's securities may change on days when investors are not able to purchase or sell Shares. Assets denominated in foreign currencies will be translated into U.S. dollars at the exchange rate of such currencies against the U.S. dollar as provided by a Pricing Service. The value of assets denominated in foreign currencies will be converted into U.S. dollars at the exchange rates in effect at the time of valuation.

Availability of Information

The Fund's website (www.ftportfolios.com), which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be downloaded. The website will include the Shares' ticker, Cusip and exchange information along with additional quantitative information updated on a daily basis, including, for the Fund: (1) daily trading volume, the prior business day's reported NAV and closing price, mid-point of the bid/ask spread at the time of calculation of such NAV (the "Bid/Ask Price"),³⁰ and a calculation of the premium and discount of the

³⁰ The Bid/Ask Price of the Fund will be determined using the mid-point of the highest bid and the lowest offer on the Exchange as of the time of calculation of

Bid/Ask Price against the NAV; and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. On each business day, before commencement of trading in Shares in the Regular Market Session³¹ on the Exchange, the Fund will disclose on its website the identities and quantities of the portfolio of securities and other assets (the “Disclosed Portfolio” as defined in Nasdaq Rule 5735(c)(2)) held by the Fund that will form the basis for the Fund’s calculation of NAV at the end of the business day.³² (See “Disclosed Portfolio” below.) The website information will be publicly available at no charge.

In addition, for the Fund, an estimated value, defined in Rule 5735(c)(3) as the “Intraday Indicative Value,” that reflects an estimated intraday value of the Fund’s Disclosed Portfolio, will be disseminated. Moreover, the Intraday Indicative Value, available on the NASDAQ OMX Information LLC proprietary index data service,³³ will be based upon the current value for the components of the Disclosed Portfolio and will be

the Fund’s NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.

³¹ See Nasdaq Rule 4120(b)(4) (describing the three trading sessions on the Exchange: (1) Pre-Market Session from 4 a.m. to 9:30 a.m., Eastern Time; (2) Regular Market Session from 9:30 a.m. to 4 p.m. or 4:15 p.m., Eastern Time; and (3) Post-Market Session from 4 p.m. or 4:15 p.m. to 8 p.m., Eastern Time).

³² Under accounting procedures to be followed by the Fund, trades made on the prior business day (“T”) will be booked and reflected in NAV on the current business day (“T+1”). Accordingly, the Fund will be able to disclose at the beginning of the business day the portfolio that will form the basis for the NAV calculation at the end of the business day.

³³ Currently, the NASDAQ OMX Global Index Data Service (“GIDS”) is the NASDAQ OMX global index data feed service, offering real-time updates, daily summary messages, and access to widely followed indexes and Intraday Indicative Values for ETFs. GIDS provides investment professionals with the daily information needed to track or trade NASDAQ OMX indexes, listed ETFs, or third-party partner indexes and ETFs.

updated and widely disseminated by one or more major market data vendors and broadly displayed at least every 15 seconds during the Regular Market Session. The Intraday Indicative Value will be based on quotes and closing prices from the securities' local market and may not reflect events that occur subsequent to the local market's close. Premiums and discounts between the Intraday Indicative Value and the market price may occur. This should not be viewed as a "real time" update of the NAV per Share of the Fund, which is calculated only once a day.

The dissemination of the Intraday Indicative Value, together with the Disclosed Portfolio, will allow investors to determine the value of the underlying portfolio of the Fund on a daily basis and will provide a close estimate of that value throughout the trading day.

Investors will also be able to obtain the Fund's Statement of Additional Information ("SAI"), the Fund's annual and semi-annual reports (together, "Shareholder Reports"), and its Form N-CSR and Form N-SAR, filed twice a year. The Fund's SAI and Shareholder Reports will be available free upon request from the Fund, and those documents and the Form N-CSR and Form N-SAR may be viewed on-screen or downloaded from the Commission's website at www.sec.gov. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers. Quotation and last sale information for the Shares will be available via Nasdaq proprietary quote and trade services, as well as in accordance with the Unlisted Trading Privileges and the

Consolidated Tape Association (“CTA”) plans for the Shares. Quotation and last sale information for ETFs will be available via the CTA high-speed line, and will be available from the national securities exchange on which they are listed. Pricing information for ETFs and exchange-traded derivative instruments will be available from the exchanges on which they trade and from major market data vendors. Pricing information for Debt Instruments, forward currency contracts, non-deliverable forward currency contracts, and debt securities in which the Fund may invest that are described under “Other Investments” will be available from major broker-dealer firms and/or major market data vendors and/or Pricing Services. Money market funds are typically priced once each business day and their prices will be available through the applicable fund’s website or major market data vendors.

Additional information regarding the Fund and the Shares, including investment strategies, risks, creation and redemption procedures, fees, Fund holdings disclosure policies, distributions and taxes will be included in the Registration Statement. All terms relating to the Fund that are referred to, but not defined in, this proposed rule change will be defined in the Registration Statement.

Disclosed Portfolio

The Fund’s disclosure of derivative positions in the Disclosed Portfolio will include information that market participants can use to value these positions intraday. On a daily basis, the Fund will disclose on the Fund’s website the following information regarding each portfolio holding, as applicable to the type of holding: ticker symbol, CUSIP number or other identifier, if any; a description of the holding (including the type of holding); the identity of the security or other asset or instrument underlying the

holding, if any; for options, the option strike price; quantity held (as measured by, for example, par value, notional value or number of shares, contracts or units); maturity date, if any; coupon rate, if any; effective date, if any; market value of the holding; and the percentage weighting of the holding in the Fund's portfolio.

Initial and Continued Listing

The Shares will be subject to Rule 5735, which sets forth the initial and continued listing criteria applicable to Managed Fund Shares. The Exchange represents that, for initial and/or continued listing, the Fund must be in compliance with Rule 10A-3³⁴ under the Act. A minimum of 100,000 Shares will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time.

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. Nasdaq will halt trading in the Shares under the conditions specified in Nasdaq Rules 4120 and 4121, including the trading pauses under Nasdaq Rules 4120(a)(11) and (12). Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the securities and/or the other assets constituting the Disclosed Portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. Trading in the

³⁴ See 17 CFR 240.10A-3.

Shares also will be subject to Rule 5735(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted.

Trading Rules

Nasdaq deems the Shares to be equity securities, thus rendering trading in the Shares subject to Nasdaq's existing rules governing the trading of equity securities. Nasdaq will allow trading in the Shares from 4:00 a.m. until 8:00 p.m., Eastern Time. The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in Nasdaq Rule 5735(b)(3), the minimum price variation for quoting and entry of orders in Managed Fund Shares traded on the Exchange is \$0.01.

Surveillance

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by both Nasdaq and also the Financial Industry Regulatory Authority ("FINRA") on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.³⁵ The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant

³⁵ FINRA surveils trading on the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA's performance under this regulatory services agreement.

parties for all relevant trading violations.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund with other markets and other entities that are members of ISG,³⁶ and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from markets and other entities that are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Moreover, FINRA, on behalf of the Exchange, will be able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA's Trade Reporting and Compliance Engine ("TRACE").

At least 90% of the Fund's net assets that are invested in exchange-traded derivative instruments will be invested in instruments that trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.

In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

Information Circular

Prior to the commencement of trading, the Exchange will inform its members in

³⁶ For a list of the current members of ISG, see www.isgportal.org. The Exchange notes that not all components of the Disclosed Portfolio may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

an Information Circular of the special characteristics and risks associated with trading the Shares. Specifically, the Information Circular will discuss the following: (1) the procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (2) Nasdaq Rule 2111A, which imposes suitability obligations on Nasdaq members with respect to recommending transactions in the Shares to customers; (3) how and by whom information regarding the Intraday Indicative Value and Disclosed Portfolio is disseminated; (4) the risks involved in trading the Shares during the Pre-Market and Post-Market Sessions when an updated Intraday Indicative Value will not be calculated or publicly disseminated; (5) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information. The Information Circular will also discuss any exemptive, no-action and interpretive relief granted by the Commission from any rules under the Act.

Additionally, the Information Circular will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Information Circular will also disclose the trading hours of the Shares of the Fund and the applicable NAV Calculation Time for the Shares. The Information Circular will disclose that information about the Shares of the Fund will be publicly available on the Fund's website.

b. Statutory Basis

Nasdaq believes that the proposal is consistent with Section 6(b) of the Act in general and Section 6(b)(5) of the Act in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles

of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in Nasdaq Rule 5735. The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by both Nasdaq and also FINRA on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.

Neither the Adviser nor the Sub-Adviser is a broker-dealer, although each is affiliated with a broker-dealer and each is required to implement a “fire wall” with respect to such broker-dealer affiliate regarding access to information concerning the composition and/or changes to the Fund’s portfolio. In addition, paragraph (g) of Nasdaq Rule 5735 further requires that personnel who make decisions on the open-end fund’s portfolio composition must be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the open-end fund’s portfolio.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund with other markets and other entities that are members of ISG, and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities. In addition, the

Exchange may obtain information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from markets and other entities that are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Moreover, FINRA, on behalf of the Exchange, will be able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA's TRACE. At least 90% of the Fund's net assets that are invested in exchange-traded derivative instruments will be invested in instruments that trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.

The investment objective of the Fund will be to seek maximum total return and current income. Under normal market conditions, the Fund will invest at least 80% of its net assets (including investment borrowings) in Debt Instruments that are denominated in the local currency of the issuer. Under normal market conditions, at least 80% of the Fund's net assets that are invested in Debt Instruments will be invested in Debt Instruments that are issued by issuers with outstanding debt of at least \$200 million (or the foreign currency equivalent thereof). The Fund's exposure to any single country generally will be limited to 20% of the Fund's net assets (although this percentage may change from time to time in response to economic events). There is no limit on the amount of the Fund's assets that may be invested in non-investment grade and unrated securities. The Fund's investments in derivative instruments will be made in accordance with the 1940 Act and consistent with the Fund's investment objective and policies. Under normal market conditions, no more than 20% of the value of the Fund's net assets

will be invested in derivative instruments. The Fund will comply with the regulatory requirements of the Commission to maintain assets as “cover,” maintain segregated accounts, and/or make margin payments when it takes positions in derivative instruments involving obligations to third parties (i.e., instruments other than purchase options). The Fund’s investments in derivative instruments will not be used to seek to achieve a multiple or inverse multiple of an index.

The Fund may invest up to 20% of its net assets in Corporate Bonds. Under normal market conditions, a Corporate Bond must have \$200 million (or the foreign currency equivalent thereof) or more par amount outstanding and significant par value traded to be considered as an eligible investment. However, although the Fund does not intend to do so, the Fund may invest up to 5% of its net assets in Corporate Bonds with less than \$200 million (or the foreign currency equivalent thereof) par amount outstanding if (i) the Adviser and/or the Sub-Adviser deems such securities to be sufficiently liquid and (ii) such investment is deemed by the Adviser and/or the Sub-Adviser to be in the best interest of the Fund.

The Fund may invest up to 20% of its net assets in the securities of money market funds and other ETFs that invest primarily in short-term debt securities or Debt Instruments, and, except for these investments in other investment companies, the Fund will not invest directly in equity securities. The ETFs in which the Fund will invest will be exchange-listed and trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange. Also, the Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including Rule 144A securities deemed illiquid by the Adviser

and/or the Sub-Adviser. The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund's net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.

The Fund's investments will be valued daily at market value or, in the absence of market value with respect to any investment, at fair value, in each case in accordance with the Valuation Procedures and the 1940 Act.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that the Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time. In addition, a large amount of information will be publicly available regarding the Fund and the Shares, thereby promoting market transparency. Moreover, the Intraday Indicative Value, available on the NASDAQ OMX Information LLC proprietary index data service, will be widely disseminated by one or more major market data vendors and broadly displayed at least every 15 seconds during the Regular Market Session. On each business day, before commencement of trading in Shares in the Regular Market Session on the Exchange, the Fund will disclose on its website the Disclosed Portfolio that will form the basis for the Fund's calculation of NAV at the end

of the business day. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information for the Shares will be available via Nasdaq proprietary quote and trade services, as well as in accordance with the Unlisted Trading Privileges and the CTA plans for the Shares. Quotation and last sale information for ETFs will be available via the CTA high-speed line, and will be available from the national securities exchange on which they are listed. Pricing information for ETFs and exchange-traded derivative instruments will be available from the exchanges on which they trade and from major market data vendors. Pricing information for Debt Instruments, forward currency contracts, non-deliverable forward currency contracts, and debt securities in which the Fund may invest that are described under "Other Investments" will be available from major broker-dealer firms and/or major market data vendors and/or Pricing Services. Money market funds are typically priced once each business day and their prices will be available through the applicable fund's website or major market data vendors.

The Fund's website will include a form of the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Trading in Shares of the Fund will be halted under the conditions specified in Nasdaq Rules 4120 and 4121 or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable, and trading in the Shares will be subject to Nasdaq Rule 5735(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the

Disclosed Portfolio, and quotation and last sale information for the Shares.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund with other markets and other entities that are members of ISG and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and in the exchange-traded securities and instruments held by the Fund from markets and other entities that are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Furthermore, as noted above, investors will have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

For the above reasons, Nasdaq believes the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed rule change will facilitate the listing

and trading of an additional type of actively-managed exchange-traded fund that will enhance competition among market participants, to the benefit of investors and the marketplace.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

6. Extension of Time Period for Commission Action

The Exchange does not consent at this time to an extension of any time period for Commission action.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Not applicable.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

Not applicable.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

11. Exhibits

1. Completed notice of proposed rule change for publication in the Federal Register.

EXHIBIT 1SECURITIES AND EXCHANGE COMMISSION
(Release No. 34- ; File No. SR-NASDAQ-2014-073)

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing of Proposed Rule Change Relating to the Listing and Trading of the Shares of the First Trust Emerging Markets Local Currency Bond ETF of First Trust Exchange-Traded Fund III

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 18, 2014, The NASDAQ Stock Market LLC (“Nasdaq” or the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in in Items I, II, and III below, which Items have been prepared by Nasdaq. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Nasdaq proposes to list and trade the shares of the First Trust Emerging Markets Local Currency Bond ETF (the “Fund”) of First Trust Exchange-Traded Fund III (the “Trust”) under Nasdaq Rule 5735 (“Managed Fund Shares”).³ The shares of the Fund

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ The Commission approved Nasdaq Rule 5735 in Securities Exchange Act Release No. 57962 (June 13, 2008), 73 FR 35175 (June 20, 2008) (SR- NASDAQ-2008-039). There are already multiple actively-managed funds listed on the Exchange; see, e.g., Securities Exchange Act Release Nos. 69464 (April 26, 2013), 78 FR 25774 (May 2, 2013) (SR-NASDAQ-2013-036) (order approving listing and trading of First Trust Senior Loan Fund); 68972 (February 22, 2013), 78 FR 13721 (February 28, 2013) (SR-NASDAQ-2012-147) (order approving listing and trading of First Trust High Yield Long/Short ETF); 66489 (February 29, 2012), 77 FR 13379 (March 6, 2012) (SR-NASDAQ-2012-004) (order approving listing and trading of WisdomTree Emerging Markets Corporate Bond Fund). The Exchange believes the proposed rule change raises no significant issues not previously addressed in those prior Commission orders.

are collectively referred to herein as the “Shares.”

The text of the proposed rule change is available at <http://nasdaq.cchwallstreet.com/>, at Nasdaq’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of, and basis for, the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to list and trade the Shares of the Fund under Nasdaq Rule 5735, which governs the listing and trading of Managed Fund Shares⁴ on the Exchange. The Fund will be an actively-managed exchange-traded fund (“ETF”). The Shares will be offered by the Trust, which was established as a Massachusetts business

⁴ A Managed Fund Share is a security that represents an interest in an investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a-1) (the “1940 Act”) organized as an open-end investment company or similar entity that invests in a portfolio of securities selected by its investment adviser consistent with its investment objectives and policies. In contrast, an open-end investment company that issues Index Fund Shares, listed and traded on the Exchange under Nasdaq Rule 5705, seeks to provide investment results that correspond generally to the price and yield performance of a specific foreign or domestic stock index, fixed income securities index or combination thereof.

trust on January 9, 2008.⁵ The Trust is registered with the Commission as an investment company and has filed a registration statement on Form N-1A (“Registration Statement”) with the Commission.⁶ The Fund will be a series of the Trust.

First Trust Advisors L.P. will be the investment adviser (“Adviser”) to the Fund. First Trust Global Portfolios Ltd will serve as investment sub-adviser (“Sub-Adviser”) to the Fund and provide day-to-day portfolio management. First Trust Portfolios L.P. (the “Distributor”) will be the principal underwriter and distributor of the Fund’s Shares. Brown Brothers Harriman & Co. (“BBH”) will act as the administrator, accounting agent, custodian and transfer agent to the Fund.

Paragraph (g) of Rule 5735 provides that if the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio.⁷ In addition, paragraph (g) further

⁵ The Commission has issued an order, upon which the Trust may rely, granting certain exemptive relief under the 1940 Act. See Investment Company Act Release No. 30029 (April 10, 2012) (File No. 812-13795) (the “Exemptive Relief”). In addition, the Commission has issued no-action relief, upon which the Trust may rely, pertaining to the Fund’s ability to invest in derivatives notwithstanding certain representations in the application for the Exemptive Relief. See Commission No-Action Letter (December 6, 2012).

⁶ See Post-Effective Amendment No. 10 to Registration Statement on Form N-1A for the Trust, dated July 8, 2014 (File Nos. 333-176976 and 811-22245). The descriptions of the Fund and the Shares contained herein are based, in part, on information in the Registration Statement.

⁷ An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser, the Sub-Adviser and their related personnel are subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of

requires that personnel who make decisions on the open-end fund's portfolio composition must be subject to procedures designed to prevent the use and dissemination of material, non-public information regarding the open-end fund's portfolio. Rule 5735(g) is similar to Nasdaq Rule 5705(b)(5)(A)(i); however, paragraph (g) in connection with the establishment of a "fire wall" between the investment adviser and the broker-dealer reflects the applicable open-end fund's portfolio, not an underlying benchmark index, as is the case with index-based funds. Neither the Adviser nor the Sub-Adviser is a broker-dealer, although each is affiliated with the Distributor, a broker-dealer. The Adviser and the Sub-Adviser have each implemented a fire wall with respect to their broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio. In addition, personnel who make decisions on the Fund's portfolio composition will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the Fund's portfolio. In the event (a) the Adviser or the Sub-Adviser becomes, or becomes newly affiliated with, a broker-dealer or registers as a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement a

the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

fire wall with respect to its relevant personnel and/or such broker-dealer affiliate, as applicable, regarding access to information concerning the composition and/or changes to the portfolio and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

First Trust Emerging Markets Local Currency Bond ETF

Principal Investments

The investment objective of the Fund will be to seek maximum total return and current income. Under normal market conditions,⁸ the Fund will invest at least 80% of its net assets (including investment borrowings) in bonds, notes, bills, certificates of deposit, time deposits, commercial paper and loans issued by issuers in emerging market⁹ countries (“Debt Instruments”) that are denominated in the local currency of the issuer. Debt Instruments will be issued or guaranteed (as applicable) by: (i) foreign governments (which may be local foreign governments); (ii) instrumentalities, agencies

⁸ The term “under normal market conditions” as used herein includes, but is not limited to, the absence of adverse market, economic, political or other conditions, including extreme volatility or trading halts in the fixed income markets or the financial markets generally; operational issues causing dissemination of inaccurate market information; or force majeure type events such as systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

⁹ According to the Adviser and the Sub-Adviser, while there is no universally accepted definition of what constitutes an “emerging market,” in general, emerging market countries are characterized by developing commercial and financial infrastructure with significant potential for economic growth and increased capital market participation by foreign investors. The Adviser and Sub-Adviser will look at a variety of commonly-used factors when determining whether a country is an “emerging” market. In general, the Adviser and Sub-Adviser will consider a country to be an emerging market if it is classified by the World Bank in the lower, lower middle or upper middle income designation for one of the past three years. This definition could be expanded or exceptions could be made depending on the evolution of market and economic conditions.

or other political subdivisions of foreign governments (which may be local foreign governments); (iii) central banks, sovereign entities, supranational issuers or development agencies; or (iv) entities or enterprises organized, owned, backed or sponsored by any of the entities set forth in the foregoing clauses (i)-(iii).¹⁰ The Fund will invest in Debt Instruments issued by at least 13 non-affiliated issuers.

In implementing the Fund's investment strategy, the Sub-Adviser will seek to provide current income and enhance capital, while minimizing volatility. The Sub-Adviser will continually review fundamental economic and structural themes that impact long and medium term asset returns in emerging markets. The Sub-Adviser will also consider shorter term market drivers such as valuations, liquidity conditions and sentiment to determine the appropriate positioning of the Fund's investments. The Sub-Adviser will adjust the portfolio's country allocations, duration and individual security positioning to reflect the most attractive opportunities on a continuous basis.

The Fund's exposure to any single country generally will be limited to 20% of the Fund's net assets (although this percentage may change from time to time in response to economic events). The percentage of Fund assets invested in a specific region, country or issuer will change from time to time. The Fund intends, initially, to invest in Debt

¹⁰ Debt Instruments include fixed rate, floating rate and index-linked debt obligations. In addition, as a point of clarification, Debt Instruments include inflation-linked bonds. Inflation-linked bonds are fixed income securities that are structured to provide protection against inflation. The value of the inflation-linked bond's principal or the interest income paid on the bond is adjusted to track changes in an official inflation measure. The value of inflation-linked bonds is expected to change in response to changes in real interest rates. Real interest rates are tied to the relationship between nominal interest rates and the rate of inflation. If nominal interest rates increase at a faster rate than inflation, real interest rates may rise, leading to a decrease in the value of inflation-linked bonds.

Instruments of issuers in the following countries: Brazil, Chile, Colombia, Hungary, Indonesia, Israel, Malaysia, Mexico, Nigeria, Peru, Philippines, Poland, Romania, Russia, South Africa, South Korea, Thailand, Turkey and Uruguay. This list may change as market developments occur and may include additional issuers. The Fund will invest only in Debt Instruments that, at the time of purchase, are performing, and not in default or distressed; however, the Debt Instruments in which the Fund invests may become non-performing, distressed or defaulted subsequent to purchase and the Fund may continue to hold such Debt Instruments. The Fund may invest in Debt Instruments of any credit quality,¹¹ including unrated securities, and with effective or final maturities of any length.

Liquidity will be a substantial factor in the Fund's security selection process.¹² Under normal market conditions, at least 80% of the Fund's net assets that are invested in Debt Instruments will be invested in Debt Instruments that are issued by issuers with outstanding debt of at least \$200 million (or the foreign currency equivalent thereof).

The Fund's Investments in Derivative Instruments and Foreign Currencies

The Fund's investments in derivative instruments will be made in accordance with the 1940 Act and consistent with the Fund's investment objective and policies.

¹¹ The universe of emerging markets local currency debt currently includes securities that are rated "investment grade" as well as "non-investment grade" securities. The Fund will invest in both investment grade and non-investment grade securities, as well as unrated securities. There is no limit on the amount of the Fund's assets that may be invested in non-investment grade and unrated securities.

¹² In reaching liquidity decisions, the Adviser and/or the Sub-Adviser may consider the following factors: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; and the nature of the security and the nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers and the mechanics of transfer).

Under normal market conditions, no more than 20% of the value of the Fund's net assets will be invested in derivative instruments. The Fund may invest in exchange-listed futures contracts,¹³ exchange-listed options,¹⁴ exchange-listed options on futures contracts, forward currency contracts, non-deliverable forward currency contracts and exchange-listed currency options.¹⁵ Derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to, among other things, interest rates, currencies or currency exchange rates. The Fund may, but is not required to, use derivative instruments for risk management purposes or as part of its investment strategies.

The Fund will use derivative instruments primarily to hedge interest rate risk and actively manage interest rate exposure and, as described further below, to hedge foreign currency risk and actively manage foreign currency exposure. The Fund may also use derivative instruments to enhance returns, as a substitute for, or to gain exposure to, a position in an underlying asset, to reduce transaction costs, to maintain full market exposure (which means to adjust the characteristics of its investments to more closely approximate those of the markets in which it invests), to manage cash flows or to

¹³ The Fund will use futures contracts to hedge interest rate risk and to actively manage interest rate exposure.

¹⁴ Option purchases and sales can be used to help manage exposures (i.e., exposures to interest rates and/or currencies) more efficiently in the portfolio, while limiting downside.

¹⁵ At least 90% of the Fund's net assets that are invested in exchange-traded derivative instruments will be invested in instruments that trade in markets that are members of the Intermarket Surveillance Group ("ISG") (see footnote 36) or are parties to a comprehensive surveillance sharing agreement with the Exchange.

preserve capital.¹⁶ The Fund's investments in derivative instruments will not be used to seek to achieve a multiple or inverse multiple of an index.

The Fund will invest in foreign currencies, will invest in Debt Instruments denominated in foreign (non-U.S.) currencies and will receive revenues in foreign currencies. In addition, the Fund may engage in foreign currency transactions on a spot (cash) basis and, as indicated above, enter into forward currency contracts.¹⁷ A forward currency contract, which involves an obligation to purchase or sell a specific currency at a future date at a price set at the time of the contract, reduces the Fund's exposure to changes in the value of the currency it will deliver and increases its exposure to changes in the value of the currency it will receive for the duration of the contract. Certain foreign currency transactions (i.e., non-deliverable forward currency contracts) may also be settled in cash rather than the actual delivery of the relevant currency. The effect on the value of the Fund is similar to selling securities denominated in one currency and purchasing securities denominated in another currency. A contract to sell foreign

¹⁶ The Fund will seek, where possible, to use counterparties, as applicable, whose financial status is such that the risk of default is reduced; however, the risk of losses resulting from default is still possible. The Adviser and/or the Sub-Adviser will evaluate the creditworthiness of counterparties on an ongoing basis. In addition to information provided by credit agencies, the Adviser's and/or the Sub-Adviser's analysis will evaluate each approved counterparty using various methods of analysis and may consider such factors as the counterparty's liquidity, its reputation, the Adviser's and/or Sub-Adviser's past experience with the counterparty, its known disciplinary history and its share of market participation.

¹⁷ At least 90% of the Fund's net assets that are invested in foreign currencies will be invested in currencies with a minimum average daily foreign exchange turnover of USD \$1 billion as determined by the Bank for International Settlements ("BIS") Triennial Central Bank Survey. As of the most recent BIS Triennial Central Bank Survey, at least 52 separate currencies had minimum average daily foreign exchange turnover of USD \$1 billion. For a list of eligible BIS currencies, see www.bis.org.

currency would limit any potential gain which might be realized if the value of the hedged currency increases. The Fund may enter into these contracts to hedge against foreign exchange risk, to increase exposure to a foreign currency, or to shift exposure to foreign currency fluctuations from one currency to another. Suitable hedging transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in such transactions at any given time or from time to time.

The Fund will comply with the regulatory requirements of the Commission to maintain assets as “cover,” maintain segregated accounts, and/or make margin payments when it takes positions in derivative instruments involving obligations to third parties (i.e., instruments other than purchase options). If the applicable guidelines prescribed under the 1940 Act so require, the Fund will earmark or set aside cash, U.S. government securities, high grade liquid debt securities and/or other liquid assets permitted by the Commission in a segregated custodial account in the amount prescribed.¹⁸

Other Investments

Under normal market conditions, the Fund will invest substantially all of its assets to meet its investment objective and, as described above, the Fund may invest in derivative instruments and foreign currencies. In addition, the Fund may invest its remaining assets as described below.

The Fund may invest up to 20% of its net assets in non-U.S. corporate bonds that are not included within the meaning of the term “Debt Instruments” (referred to as

¹⁸ With respect to guidance under the 1940 Act, see 15 U.S.C. 80a-18; Investment Company Act Release No. 10666 (April 18, 1979), 44 FR 25128 (April 27, 1979); Dreyfus Strategic Investing, Commission No-Action Letter (June 22, 1987); Merrill Lynch Asset Management, L.P., Commission No-Action Letter (July 2, 1996).

“Corporate Bonds”). The Fund will invest only in Corporate Bonds that the Adviser and/or the Sub-Adviser deems to be sufficiently liquid.¹⁹ Under normal market conditions, a Corporate Bond must have \$200 million (or the foreign currency equivalent thereof) or more par amount outstanding and significant par value traded to be considered as an eligible investment. Economic and other conditions may, from time to time, lead to a decrease in the average par amount outstanding of non-U.S. corporate bond issuances. Therefore, although the Fund does not intend to do so, the Fund may invest up to 5% of its net assets in Corporate Bonds with less than \$200 million (or the foreign currency equivalent thereof) par amount outstanding if (i) the Adviser and/or the Sub-Adviser deems such securities to be sufficiently liquid and (ii) such investment is deemed by the Adviser and/or the Sub-Adviser to be in the best interest of the Fund.

The Fund may invest up to 20% of its net assets in short-term debt securities (which are listed in the following paragraph) that are not included within the meaning of the term “Debt Instruments,”²⁰ money market funds and other cash equivalents, or it may hold cash. For temporary defensive purposes, during the initial invest-up period and during periods of high cash inflows or outflows, the Fund may depart from its principal investment strategies and invest part or all of its assets in these securities or it may hold cash. During such periods, the Fund may not be able to achieve its investment objective. The Fund may adopt a defensive strategy when the Adviser and/or Sub-Adviser believes

¹⁹ See footnote 12.

²⁰ Short-term debt securities are securities from issuers having a long-term debt rating of at least A by Standard & Poor’s Ratings Services, a division of the McGraw-Hill Companies, Inc. (“S&P Ratings”), Moody’s Investors Service, Inc. (“Moody’s”), or Fitch Ratings (“Fitch”) and having a maturity of one year or less. For the sake of clarity, the foregoing parameters do not apply to Debt Instruments.

that securities in which the Fund normally invests have elevated risks due to political or economic factors and in other extraordinary circumstances. The use of temporary investments will not be a part of a principal investment strategy of the Fund.

Short-term debt securities are the following: (1) fixed rate and floating rate U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest, which are either issued or guaranteed by the U.S. Treasury or by U.S. government agencies or instrumentalities; (2) short-term securities issued or guaranteed by non-U.S. governments or by their agencies or instrumentalities;²¹ (3) certificates of deposit issued against funds deposited in a bank or savings and loan association; (4) bankers' acceptances, which are short-term credit instruments used to finance commercial transactions; (5) repurchase agreements,²² which involve purchases of debt securities; (6) bank time deposits, which are monies kept on deposit with banks or savings and loan associations for a stated period of time at a fixed rate of interest; (7) commercial paper, which is short-term unsecured promissory notes²³; and (8) other securities that are similar to the foregoing.

²¹ The relevant non-U.S. government, agency or instrumentality must have a long-term debt rating of at least A by S&P Ratings, Moody's or Fitch. For the sake of clarity, the foregoing ratings requirement does not apply to Debt Instruments.

²² The Fund intends to enter into repurchase agreements only with financial institutions and dealers believed by the Sub-Adviser to present minimal credit risks in accordance with criteria approved by the Board of Trustees of the Trust ("Trust Board"). The Sub-Adviser will review and monitor the creditworthiness of such institutions. The Sub-Adviser will monitor the value of the collateral at the time the transaction is entered into and at all times during the term of the repurchase agreement.

²³ Except for commercial paper that is included within the meaning of the term "Debt Instruments," the Fund will only invest in commercial paper rated A-1 or higher by S&P Ratings, Prime-1 or higher by Moody's or F1 or higher by Fitch.

The Fund may invest up to 20% of its net assets in the securities of money market funds (as noted above) and other ETFs²⁴ that invest primarily in short-term debt securities or Debt Instruments and, except for these investments in other investment companies, the Fund will not invest directly²⁵ in equity securities. The ETFs in which the Fund will invest will be exchange-listed and trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.²⁶

The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including Rule 144A securities deemed illiquid by the Adviser and/or the Sub-Adviser.²⁷ The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other

²⁴ An ETF is an investment company registered under the 1940 Act that holds a portfolio of securities. Many ETFs are designed to track the performance of a securities index, including industry, sector, country and region indexes. ETFs included in the Fund will be listed and traded in the U.S. on registered exchanges. The Fund may invest in the securities of ETFs in excess of the limits imposed under the 1940 Act pursuant to exemptive orders obtained by other ETFs and their sponsors from the Commission. In addition, the Fund may invest in the securities of certain other investment companies (including without limitation ETFs) in excess of the limits imposed under the 1940 Act pursuant to an exemptive order that the Trust has obtained from the Commission. See Investment Company Act Release No. 30377 (February 5, 2013) (File No. 812-13895). The ETFs in which the Fund may invest include Index Fund Shares (as described in Nasdaq Rule 5705), Portfolio Depository Receipts (as described in Nasdaq Rule 5705), and Managed Fund Shares (as described in Nasdaq Rule 5735). While the Fund may invest in inverse ETFs, the Fund will not invest in leveraged or inverse leveraged (e.g., 2X or -3X) ETFs.

²⁵ It is possible, however, that an investment company in which the Fund invests will invest a portion of its assets in foreign and/or domestic equity securities.

²⁶ See footnote 36.

²⁷ See footnote 12.

circumstances, more than 15% of the Fund's net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.

The Fund may not invest 25% or more of the value of its total assets in securities of issuers in any one industry. This restriction does not apply to (a) obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities, or (b) securities of other investment companies.²⁸

The Fund may purchase securities on a when-issued or other delayed delivery basis and may enter into reverse repurchase agreements.

The Fund intends to qualify each year as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended.

Creation and Redemption of Shares

The Fund will issue and redeem Shares on a continuous basis at net asset value ("NAV")²⁹ only in large blocks of Shares ("Creation Units") in transactions with authorized participants, generally including broker-dealers and large institutional investors ("Authorized Participants"). Creation Units generally will consist of 50,000

²⁸ See Form N-1A, Item 9. The Commission has taken the position that a fund is concentrated if it invests more than 25% of the value of its total assets in any one industry. See, e.g., Investment Company Act Release No. 9011 (October 30, 1975), 40 FR 54241 (November 21, 1975).

²⁹ The NAV of the Fund's Shares generally will be calculated once daily Monday through Friday as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m., Eastern Time (the "NAV Calculation Time"). NAV per Share will be calculated by dividing the Fund's net assets by the number of Fund Shares outstanding. For more information regarding the valuation of Fund investments in calculating the Fund's NAV, see the Registration Statement.

Shares, although this may change from time to time. Creation Units, however, are not expected to consist of less than 50,000 Shares. As described in the Registration Statement and consistent with the Exemptive Relief, the Fund will issue and redeem Creation Units in exchange for an in-kind portfolio of instruments and/or cash in lieu of such instruments (the “Creation Basket”). In addition, if there is a difference between the NAV attributable to a Creation Unit and the market value of the Creation Basket exchanged for the Creation Unit, the party conveying instruments with the lower value will pay to the other an amount in cash equal to the difference (referred to as the “Cash Component”).

Creations and redemptions must be made by an Authorized Participant or through a firm that is either a member of the National Securities Clearing Corporation (“NSCC”) or a Depository Trust Company participant that, in each case, must have executed an agreement that has been agreed to by the Distributor and BBH with respect to creations and redemptions of Creation Units. All standard orders to create Creation Units must be received by the transfer agent no later than the closing time of the regular trading session on the New York Stock Exchange (ordinarily 4:00 p.m., Eastern Time) (the “Closing Time”) in each case on the date such order is placed in order for the creation of Creation Units to be effected based on the NAV of Shares as next determined on such date after receipt of the order in proper form. Shares may be redeemed only in Creation Units at their NAV next determined after receipt not later than the Closing Time of a redemption request in proper form by the Fund through the transfer agent and only on a business day.

The Fund’s custodian, through the NSCC, will make available on each business day, prior to the opening of business of the Exchange, the list of the names and quantities

of the instruments comprising the Creation Basket, as well as the estimated Cash Component (if any), for that day. The published Creation Basket will apply until a new Creation Basket is announced on the following business day.

Net Asset Value

The Fund's NAV will be determined as of the close of trading (normally 4:00 p.m., Eastern Time) on each day the New York Stock Exchange is open for business. NAV will be calculated for the Fund by taking the market price of the Fund's total assets, including interest or dividends accrued but not yet collected, less all liabilities, and dividing such amount by the total number of Shares outstanding. The result, rounded to the nearest cent, will be the NAV per Share. All valuations will be subject to review by the Trust Board or its delegate.

The Fund's investments will be valued daily at market value or, in the absence of market value with respect to any investment at fair value, in each case in accordance with valuation procedures (which may be revised from time to time) adopted by the Trust Board (the "Valuation Procedures") and in accordance with the 1940 Act. A market valuation generally means a valuation (i) obtained from an exchange, an independent pricing service ("Pricing Service"), or a major market maker (or dealer) or (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, a Pricing Service, or a major market maker (or dealer). The information summarized below is based on the Valuation Procedures as currently in effect; however, as noted above, the Valuation Procedures are amended from time to time and, therefore, such information is subject to change.

Certain securities, including Debt Instruments, in which the Fund will invest will

not be listed on any securities exchange or board of trade. Such securities will typically be bought and sold by institutional investors in individually negotiated private transactions that function in many respects like an over-the-counter secondary market, although typically no formal market makers will exist. Certain securities, particularly debt securities, will have few or no trades, or trade infrequently, and information regarding a specific security may not be widely available or may be incomplete. Accordingly, determinations of the fair value of debt securities may be based on infrequent and dated information. Because there is less reliable, objective data available, elements of judgment may play a greater role in valuation of debt securities than for other types of securities. Typically (other than as described below), Debt Instruments and other debt securities in which the Fund may invest (as described under “Other Investments”) will be valued using information provided by a Pricing Service. To the extent debt securities have a remaining maturity of 60 days or less when purchased, they will be valued at cost adjusted for amortization of premiums and accretion of discounts. Overnight repurchase agreements will be valued at cost. Term repurchase agreements (i.e., those whose maturity exceeds seven days) will be valued at the average of the bid quotations obtained daily from at least two recognized dealers.

ETFs listed on any exchange other than the Exchange will be valued at the last sale price on the exchange on which they are principally traded on the business day as of which such value is being determined. ETFs listed on the Exchange will be valued at the official closing price on the business day as of which such value is being determined. If there has been no sale on such day, or no official closing price in the case of ETFs traded on the Exchange, the ETFs will be valued using fair value pricing, as described below.

ETFs traded on more than one securities exchange will be valued at the last sale price or official closing price, as applicable, on the business day as of which such value is being determined at the close of the exchange representing the principal market for such ETFs.

Shares of money market funds will be valued at their net asset values as reported by such funds to Pricing Services.

Exchange-traded options and futures contracts will be valued at the closing price in the market where such contracts are principally traded.

Forward currency contracts and non-deliverable forward currency contracts will be valued at the current day's interpolated foreign exchange rate, as calculated using the current day's spot rate, and the thirty, sixty, ninety, and one-hundred-eighty day forward rates provided by a Pricing Service or by certain independent dealers in such contracts.

Certain securities may not be able to be priced by pre-established pricing methods. Such securities may be valued by the Trust Board or its delegate at fair value. The use of fair value pricing by the Fund will be governed by the Valuation Procedures and conducted in accordance with the provisions of the 1940 Act. Valuing the Fund's securities using fair value pricing will result in using prices for those securities that may differ from current market valuations or official closing prices on the applicable exchange.

Because foreign securities exchanges may be open on different days than the days during which an investor may purchase or sell Shares, the value of the Fund's securities may change on days when investors are not able to purchase or sell Shares. Assets denominated in foreign currencies will be translated into U.S. dollars at the exchange rate of such currencies against the U.S. dollar as provided by a Pricing Service. The value of

assets denominated in foreign currencies will be converted into U.S. dollars at the exchange rates in effect at the time of valuation.

Availability of Information

The Fund's website (www.ftportfolios.com), which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be downloaded. The website will include the Shares' ticker, Cusip and exchange information along with additional quantitative information updated on a daily basis, including, for the Fund: (1) daily trading volume, the prior business day's reported NAV and closing price, mid-point of the bid/ask spread at the time of calculation of such NAV (the "Bid/Ask Price"),³⁰ and a calculation of the premium and discount of the Bid/Ask Price against the NAV; and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. On each business day, before commencement of trading in Shares in the Regular Market Session³¹ on the Exchange, the Fund will disclose on its website the identities and quantities of the portfolio of securities and other assets (the "Disclosed Portfolio" as defined in Nasdaq Rule 5735(c)(2)) held by the Fund that will form the basis for the Fund's calculation of

³⁰ The Bid/Ask Price of the Fund will be determined using the mid-point of the highest bid and the lowest offer on the Exchange as of the time of calculation of the Fund's NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.

³¹ See Nasdaq Rule 4120(b)(4) (describing the three trading sessions on the Exchange: (1) Pre-Market Session from 4 a.m. to 9:30 a.m., Eastern Time; (2) Regular Market Session from 9:30 a.m. to 4 p.m. or 4:15 p.m., Eastern Time; and (3) Post-Market Session from 4 p.m. or 4:15 p.m. to 8 p.m., Eastern Time).

NAV at the end of the business day.³² (See “Disclosed Portfolio” below.) The website information will be publicly available at no charge.

In addition, for the Fund, an estimated value, defined in Rule 5735(c)(3) as the “Intraday Indicative Value,” that reflects an estimated intraday value of the Fund’s Disclosed Portfolio, will be disseminated. Moreover, the Intraday Indicative Value, available on the NASDAQ OMX Information LLC proprietary index data service,³³ will be based upon the current value for the components of the Disclosed Portfolio and will be updated and widely disseminated by one or more major market data vendors and broadly displayed at least every 15 seconds during the Regular Market Session. The Intraday Indicative Value will be based on quotes and closing prices from the securities’ local market and may not reflect events that occur subsequent to the local market’s close. Premiums and discounts between the Intraday Indicative Value and the market price may occur. This should not be viewed as a “real time” update of the NAV per Share of the Fund, which is calculated only once a day.

The dissemination of the Intraday Indicative Value, together with the Disclosed Portfolio, will allow investors to determine the value of the underlying portfolio of the Fund on a daily basis and will provide a close estimate of that value throughout the

³² Under accounting procedures to be followed by the Fund, trades made on the prior business day (“T”) will be booked and reflected in NAV on the current business day (“T+1”). Accordingly, the Fund will be able to disclose at the beginning of the business day the portfolio that will form the basis for the NAV calculation at the end of the business day.

³³ Currently, the NASDAQ OMX Global Index Data Service (“GIDS”) is the NASDAQ OMX global index data feed service, offering real-time updates, daily summary messages, and access to widely followed indexes and Intraday Indicative Values for ETFs. GIDS provides investment professionals with the daily information needed to track or trade NASDAQ OMX indexes, listed ETFs, or third-party partner indexes and ETFs.

trading day.

Investors will also be able to obtain the Fund's Statement of Additional Information ("SAI"), the Fund's annual and semi-annual reports (together, "Shareholder Reports"), and its Form N-CSR and Form N-SAR, filed twice a year. The Fund's SAI and Shareholder Reports will be available free upon request from the Fund, and those documents and the Form N-CSR and Form N-SAR may be viewed on-screen or downloaded from the Commission's website at www.sec.gov. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. Information regarding the previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers. Quotation and last sale information for the Shares will be available via Nasdaq proprietary quote and trade services, as well as in accordance with the Unlisted Trading Privileges and the Consolidated Tape Association ("CTA") plans for the Shares. Quotation and last sale information for ETFs will be available via the CTA high-speed line, and will be available from the national securities exchange on which they are listed. Pricing information for ETFs and exchange-traded derivative instruments will be available from the exchanges on which they trade and from major market data vendors. Pricing information for Debt Instruments, forward currency contracts, non-deliverable forward currency contracts, and debt securities in which the Fund may invest that are described under "Other Investments" will be available from major broker-dealer firms and/or major market data vendors and/or Pricing Services. Money market funds are typically priced once each business day and their prices will be available through the applicable fund's website or

major market data vendors.

Additional information regarding the Fund and the Shares, including investment strategies, risks, creation and redemption procedures, fees, Fund holdings disclosure policies, distributions and taxes will be included in the Registration Statement. All terms relating to the Fund that are referred to, but not defined in, this proposed rule change will be defined in the Registration Statement.

Disclosed Portfolio

The Fund's disclosure of derivative positions in the Disclosed Portfolio will include information that market participants can use to value these positions intraday. On a daily basis, the Fund will disclose on the Fund's website the following information regarding each portfolio holding, as applicable to the type of holding: ticker symbol, CUSIP number or other identifier, if any; a description of the holding (including the type of holding); the identity of the security or other asset or instrument underlying the holding, if any; for options, the option strike price; quantity held (as measured by, for example, par value, notional value or number of shares, contracts or units); maturity date, if any; coupon rate, if any; effective date, if any; market value of the holding; and the percentage weighting of the holding in the Fund's portfolio.

Initial and Continued Listing

The Shares will be subject to Rule 5735, which sets forth the initial and continued listing criteria applicable to Managed Fund Shares. The Exchange represents that, for initial and/or continued listing, the Fund must be in compliance with Rule 10A-3³⁴ under the Act. A minimum of 100,000 Shares will be outstanding at the commencement of

³⁴ See 17 CFR 240.10A-3.

trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time.

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. Nasdaq will halt trading in the Shares under the conditions specified in Nasdaq Rules 4120 and 4121, including the trading pauses under Nasdaq Rules 4120(a)(11) and (12). Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the securities and/or the other assets constituting the Disclosed Portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. Trading in the Shares also will be subject to Rule 5735(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted.

Trading Rules

Nasdaq deems the Shares to be equity securities, thus rendering trading in the Shares subject to Nasdaq's existing rules governing the trading of equity securities. Nasdaq will allow trading in the Shares from 4:00 a.m. until 8:00 p.m., Eastern Time. The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in Nasdaq Rule 5735(b)(3), the minimum price variation for quoting and entry of orders in Managed Fund Shares traded on the Exchange is \$0.01.

Surveillance

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by both Nasdaq and also the Financial Industry Regulatory Authority (“FINRA”) on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.³⁵ The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund with other markets and other entities that are members of ISG,³⁶ and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from markets and other entities that

³⁵ FINRA surveils trading on the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA’s performance under this regulatory services agreement.

³⁶ For a list of the current members of ISG, see www.isgportal.org. The Exchange notes that not all components of the Disclosed Portfolio may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Moreover, FINRA, on behalf of the Exchange, will be able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA's Trade Reporting and Compliance Engine ("TRACE").

At least 90% of the Fund's net assets that are invested in exchange-traded derivative instruments will be invested in instruments that trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.

In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

Information Circular

Prior to the commencement of trading, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Shares. Specifically, the Information Circular will discuss the following: (1) the procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (2) Nasdaq Rule 2111A, which imposes suitability obligations on Nasdaq members with respect to recommending transactions in the Shares to customers; (3) how and by whom information regarding the Intraday Indicative Value and Disclosed Portfolio is disseminated; (4) the risks involved in trading the Shares during the Pre-Market and Post-Market Sessions when an updated Intraday Indicative Value will not be calculated or publicly disseminated; (5) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently

with the confirmation of a transaction; and (6) trading information. The Information Circular will also discuss any exemptive, no-action and interpretive relief granted by the Commission from any rules under the Act.

Additionally, the Information Circular will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Information Circular will also disclose the trading hours of the Shares of the Fund and the applicable NAV Calculation Time for the Shares. The Information Circular will disclose that information about the Shares of the Fund will be publicly available on the Fund's website.

2. Statutory Basis

Nasdaq believes that the proposal is consistent with Section 6(b) of the Act in general and Section 6(b)(5) of the Act in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in Nasdaq Rule 5735. The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by both Nasdaq and also FINRA on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.

Neither the Adviser nor the Sub-Adviser is a broker-dealer, although each is affiliated with a broker-dealer and each is required to implement a “fire wall” with respect to such broker-dealer affiliate regarding access to information concerning the composition and/or changes to the Fund’s portfolio. In addition, paragraph (g) of Nasdaq Rule 5735 further requires that personnel who make decisions on the open-end fund’s portfolio composition must be subject to procedures designed to prevent the use and dissemination of material non-public information regarding the open-end fund’s portfolio.

FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund with other markets and other entities that are members of ISG, and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other entities. In addition, the Exchange may obtain information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from markets and other entities that are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Moreover, FINRA, on behalf of the Exchange, will be able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA’s TRACE. At least 90% of the Fund’s net assets that are invested in exchange-traded derivative instruments will be invested in instruments that trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange.

The investment objective of the Fund will be to seek maximum total return and current income. Under normal market conditions, the Fund will invest at least 80% of its net assets (including investment borrowings) in Debt Instruments that are denominated in the local currency of the issuer. Under normal market conditions, at least 80% of the Fund's net assets that are invested in Debt Instruments will be invested in Debt Instruments that are issued by issuers with outstanding debt of at least \$200 million (or the foreign currency equivalent thereof). The Fund's exposure to any single country generally will be limited to 20% of the Fund's net assets (although this percentage may change from time to time in response to economic events). There is no limit on the amount of the Fund's assets that may be invested in non-investment grade and unrated securities. The Fund's investments in derivative instruments will be made in accordance with the 1940 Act and consistent with the Fund's investment objective and policies. Under normal market conditions, no more than 20% of the value of the Fund's net assets will be invested in derivative instruments. The Fund will comply with the regulatory requirements of the Commission to maintain assets as "cover," maintain segregated accounts, and/or make margin payments when it takes positions in derivative instruments involving obligations to third parties (i.e., instruments other than purchase options). The Fund's investments in derivative instruments will not be used to seek to achieve a multiple or inverse multiple of an index.

The Fund may invest up to 20% of its net assets in Corporate Bonds. Under normal market conditions, a Corporate Bond must have \$200 million (or the foreign currency equivalent thereof) or more par amount outstanding and significant par value traded to be considered as an eligible investment. However, although the Fund does not

intend to do so, the Fund may invest up to 5% of its net assets in Corporate Bonds with less than \$200 million (or the foreign currency equivalent thereof) par amount outstanding if (i) the Adviser and/or the Sub-Adviser deems such securities to be sufficiently liquid and (ii) such investment is deemed by the Adviser and/or the Sub-Adviser to be in the best interest of the Fund.

The Fund may invest up to 20% of its net assets in the securities of money market funds and other ETFs that invest primarily in short-term debt securities or Debt Instruments, and, except for these investments in other investment companies, the Fund will not invest directly in equity securities. The ETFs in which the Fund will invest will be exchange-listed and trade in markets that are members of ISG or are parties to a comprehensive surveillance sharing agreement with the Exchange. Also, the Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including Rule 144A securities deemed illiquid by the Adviser and/or the Sub-Adviser. The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund's net assets are held in illiquid assets. Illiquid assets include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.

The Fund's investments will be valued daily at market value or, in the absence of market value with respect to any investment, at fair value, in each case in accordance

with the Valuation Procedures and the 1940 Act.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that the Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time. In addition, a large amount of information will be publicly available regarding the Fund and the Shares, thereby promoting market transparency. Moreover, the Intraday Indicative Value, available on the NASDAQ OMX Information LLC proprietary index data service, will be widely disseminated by one or more major market data vendors and broadly displayed at least every 15 seconds during the Regular Market Session. On each business day, before commencement of trading in Shares in the Regular Market Session on the Exchange, the Fund will disclose on its website the Disclosed Portfolio that will form the basis for the Fund's calculation of NAV at the end of the business day. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information for the Shares will be available via Nasdaq proprietary quote and trade services, as well as in accordance with the Unlisted Trading Privileges and the CTA plans for the Shares. Quotation and last sale information for ETFs will be available via the CTA high-speed line, and will be available from the national securities exchange on which they are listed. Pricing information for ETFs and exchange-traded derivative instruments will be available from the exchanges on which they trade and from major market data vendors. Pricing information for Debt Instruments, forward currency contracts, non-deliverable

forward currency contracts, and debt securities in which the Fund may invest that are described under “Other Investments” will be available from major broker-dealer firms and/or major market data vendors and/or Pricing Services. Money market funds are typically priced once each business day and their prices will be available through the applicable fund’s website or major market data vendors.

The Fund’s website will include a form of the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Trading in Shares of the Fund will be halted under the conditions specified in Nasdaq Rules 4120 and 4121 or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable, and trading in the Shares will be subject to Nasdaq Rule 5735(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted. In addition, as noted above, investors will have ready access to information regarding the Fund’s holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund with other markets and other entities that are members of ISG and FINRA may obtain trading information regarding trading in the Shares and the exchange-traded securities and instruments held by the Fund from such markets and other

entities. In addition, the Exchange may obtain information regarding trading in the Shares and in the exchange-traded securities and instruments held by the Fund from markets and other entities that are members of ISG, which includes securities and futures exchanges, or with which the Exchange has in place a comprehensive surveillance sharing agreement. Furthermore, as noted above, investors will have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

For the above reasons, Nasdaq believes the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed rule change will facilitate the listing and trading of an additional type of actively-managed exchange-traded fund that will enhance competition among market participants, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission shall: (a) by order approve or

disapprove such proposed rule change, or (b) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2014-073 on the subject line.

Paper comments:

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, Station Place, 100 F Street, NE, Washington, DC 20549-9303.

All submissions should refer to File Number SR-NASDAQ-2014-073. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The

Commission will post all comments on the Commission's Internet website

<http://www.sec.gov/rules/sro.shtml>.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any

person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of Nasdaq. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-NASDAQ-2014-073 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³⁷

Kevin M. O'Neill
Deputy Secretary
