**Form 19b-4 Information \***

Add Remove View

The self-regulatory organization must provide all required information, presented in a clear and comprehensible manner, to enable the public to provide meaningful comment on the proposal and for the Commission to determine whether the proposal is consistent with the Act and applicable rules and regulations under the Act.

**Exhibit 1 - Notice of Proposed Rule Change \***

Add Remove View

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

**Exhibit 3 - Form, Report, or Questionnaire**

Add Remove View

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

**Exhibit 4 - Marked Copies**

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

**Exhibit 5 - Proposed Rule Text**

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

**Partial Amendment**

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. **Text of the Proposed Rule Change**

(a) The NASDAQ Stock Market LLC (“Nasdaq” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> is filing with the Securities and Exchange Commission (“Commission”) a proposal to amend Chapter VI, Section 18 of the Exchange’s options rules.

A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1. The text of the proposed rule change is set forth below. Proposed new language is underlined. Proposed deletions are enclosed in [brackets].

**Chapter VI Trading Systems**

\* \* \* \* \*

**Sec. 18 Order Price Protection**

Order Price Protection ("OPP") is a feature of the System that prevents certain day limit, good til cancelled, and immediate or cancel orders at prices outside of pre-set standard limits from being accepted by the System. OPP applies to all options but does not apply to market orders or Intermarket Sweep Orders.

(a) OPP is operational each trading day after the opening until the close of trading, except during trading halts. [The Exchange may also temporarily deactivate OPP from time to time on an intraday basis at its discretion if it determines that volatility warrants deactivation. Participants will be notified of intraday OPP deactivation due to volatility and any subsequent intraday reactivation by the Exchange through the issuance of system status messages.]

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

(b) OPP will reject incoming orders that exceed certain parameters according to the following algorithm:

(i) If the better of the NBBO or the internal market BBO (the “Reference BBO”) on the contra-side of an incoming order is greater than \$1.00, orders with a limit more than 50% through such contra-side [NBBO] Reference BBO will be rejected by the System upon receipt. For example, if the [NBBO] Reference BBO on the offer side is \$1.10, an order to buy options for more than \$1.65 would be rejected. Similarly, if the [NBBO] Reference BBO on the bid side is \$1.10, an order to sell options for less than \$0.55 will be rejected.

(ii) If the [NBBO] Reference BBO on the contra-side of an incoming order is less than or equal to \$1.00, orders with a limit more than 100% through such contra-side [NBBO] Reference BBO will be rejected by the System upon receipt. For example, if the [NBBO] Reference BBO on the offer side is \$1.00, an order to buy options for more than \$2.00 would be rejected. However, if the [NBBO] Reference BBO of the bid side of an incoming order to sell is less than or equal to \$1.00, the OPP limits set forth above will result in all incoming sell orders being accepted regardless of their limit.

\* \* \* \* \*

(b) Not applicable.

(c) Not applicable.

## 2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of The NASDAQ Stock Market (the “Board”) on July 16, 2014. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change. Questions and comments on the proposed rule change may be directed to Carla Behnfeldt, Associate General Counsel, The NASDAQ OMX Group, Inc., at (215) 496-5208.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to amend and correct Chapter VI, Section 18 of the NOM Rulebook which describes Order Price Protection ("OPP"), a feature of the NOM trading system that prevents certain day limit, good till cancelled, and immediate or cancel orders at prices outside of pre-set standard limits from being accepted by the System. The amendments also remove language providing for the temporary deactivation of OPP from time to time on an intraday basis at the Exchange's discretion if the Exchange determines that volatility warrants deactivation.

OPP applies to all options but does not apply to market orders or Intermarket Sweep Orders. OPP is operational each trading day after the opening until the close of trading, except during trading halts. Chapter VI, Section 18 also currently provides that the Exchange may temporarily deactivate OPP from time to time on an intraday basis at its discretion if it determines that volatility warrants deactivation. Participants are notified of intraday OPP deactivation due to volatility and any subsequent intraday reactivation by the Exchange through the issuance of system status messages.

OPP rejects incoming orders that exceed certain parameters. Currently, Chapter VI, Section 18(b) establishes those parameters with reference to the NBBO. It states that if the NBBO on the contra-side of an incoming order is greater than \$1.00, orders with a limit more than 50% through such contraside NBBO will be rejected by the system upon receipt. For example, the rule provides that if the NBBO on the offer side is \$1.10, an order to buy options for more than \$1.65 would be rejected. Similarly, the rule states that if the NBBO on the bid side is \$1.10, an order to sell options for less than \$0.55 will be

rejected. The rule provides that if the NBBO on the contra-side of an incoming order is less than or equal to \$1.00, orders with a limit more than 100% through such contra-side NBBO will be rejected by the system upon receipt. For example, under the rule if the NBBO on the offer side is \$1.00, an order to buy options for more than \$2.00 would be rejected. However, the rule provides that if the NBBO of the bid side of an incoming order to sell is less than or equal to \$1.00, the OPP limits set forth above will result in all incoming sell orders being accepted regardless of their limit.

The Exchange has determined that a discrepancy exists between this rule description of how the OPP process works and how the system actually functions in cases where Price Improving Orders are present. Price Improving Orders may be submitted in \$0.01 increments on NOM rather than at the minimum price variation (“MPV”).<sup>3</sup> These Price Improving Orders are considered part of the Exchange’s internal market BBO at their non-MPV limit and are displayed at the allowable MPV price as part of the NBBO. While Chapter VI, Section 18 states that the NBBO is used for OPP determinations as described above, the system is actually basing OPP determinations on the better of (a) the NBBO, or (b) the Exchange’s internal market BBO, which may differ from the NBBO due to the presence of Price Improving Orders. The Exchange is proposing to correct this discrepancy by deleting the term “NBBO” in each instance where it appears in Chapter VI, Section 18 and replacing it with the term “Reference BBO” which will be defined in the rule as the better of the NBBO or the internal market BBO.

---

<sup>3</sup> See Chapter VI, Section 1, which provides that Price Improving Orders are orders to buy or sell an option at a specified price at an increment smaller than the minimum price variation in the security. Price Improving Orders may be entered in increments as small as one cent. Price Improving Orders that are available for display shall be displayed at the minimum price variation in that security and shall be rounded up for sell orders and rounded down for buy orders.

Finally, the Exchange is removing from Chapter VI, Section 18 the statements that the Exchange may temporarily deactivate OPP from time to time on an intraday basis at its discretion if it determines that volatility warrants deactivation, and that members will be notified of intraday OPP deactivation due to volatility and any subsequent intraday reactivation by the Exchange through the issuance of system status messages. The Exchange currently lacks the technology to implement intraday OPP deactivation and is deleting the language which suggests that it has such capability.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act in general, and furthers the objectives of Section 6(b)(5) of the Act in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by amending and correcting the rule text to that it accurately reflects the functioning of the trading system. The amendments concerning the Reference BBO and the elimination of references to intraday deactivation of the OPP are both intended to improve the accuracy of the rule. The Exchange believes that the amendments should promote just and equitable principles of trade as well as protect investors and the public interest by making clear how OPP determinations are actually made on the Exchange and by eliminating the potential for confusion inherent in the statement that the Exchange may temporarily deactivate OPP on an intraday basis when in fact it lacks the technical capacity to do so. Calculating OPP on the basis of the better of the NBBO or the internal market BBO rather than solely on the basis of the NBBO protects investors and the public interest by extending the benefits of OPP to orders received in instances where the internal market BBO is better than the NBBO.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, as the amendments to Chapter VI, Section 18 will apply uniformly to all market participants availing themselves of the OPP feature. Nor will the proposal impose a burden on competition among the options exchanges, because of the vigorous competition for order flow among the options exchanges. To the extent that market participants disagree with the particular approach taken by the Exchange herein, market participants can easily and readily direct order flow to competing venues.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

The Exchange does not consent to an extension of the time period for Commission action.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)<sup>4</sup> of the Act and Rule 19b-4(f)(6) thereunder<sup>5</sup> in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may

---

<sup>4</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>5</sup> 17 CFR 240.19b-4(f)(6).

designate if consistent with the protection of investors and the public interest. The Exchange believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because it would allow the Exchange to immediately correct the inaccuracy with respect to the NBBO described above, as well as eliminate language suggesting the Exchange possesses the capability to temporarily deactivate OPP on an intraday basis when in fact this is not the case. The Exchange believes that the public interest would not be served by preserving these inaccuracies in its rules during a notice and comment period for this proposed rule change.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

Not applicable.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

**EXHIBIT 1**

SECURITIES AND EXCHANGE COMMISSION  
(Release No. \_\_\_\_\_; File No. SR-NASDAQ-2015-060)

June \_\_\_, 2015

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend Chapter VI, Section 18 of the Exchange's Options Rules.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup>, and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on June 4, 2015, The NASDAQ Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Chapter VI, Section 18 of the Exchange's options rules.

The text of the proposed rule change is below; proposed new language is underlined; proposed deletions are in brackets.

\* \* \* \* \*

**NASDAQ Stock Market Rules**

\* \* \* \* \*

**Chapter VI Trading Systems**

\* \* \* \* \*

**Sec. 18 Order Price Protection**

Order Price Protection ("OPP") is a feature of the System that prevents certain day limit, good til cancelled, and immediate or cancel orders at prices outside of pre-set standard limits from being accepted by the System. OPP applies to all options but does not apply to market orders or Intermarket Sweep Orders.

(a) OPP is operational each trading day after the opening until the close of trading, except during trading halts. [The Exchange may also temporarily deactivate OPP from time to time on an intraday basis at its discretion if it determines that volatility warrants deactivation. Participants will be notified of intraday OPP deactivation due to volatility and any subsequent intraday reactivation by the Exchange through the issuance of system status messages.]

(b) OPP will reject incoming orders that exceed certain parameters according to the following algorithm:

(i) If the better of the NBBO or the internal market BBO (the "Reference BBO") on the contra-side of an incoming order is greater than \$1.00, orders with a limit

more than 50% through such contra-side [NBBO] Reference BBO will be rejected by the System upon receipt. For example, if the [NBBO] Reference BBO on the offer side is \$1.10, an order to buy options for more than \$1.65 would be rejected. Similarly, if the [NBBO] Reference BBO on the bid side is \$1.10, an order to sell options for less than \$0.55 will be rejected.

(ii) If the [NBBO] Reference BBO on the contra-side of an incoming order is less than or equal to \$1.00, orders with a limit more than 100% through such contra-side [NBBO] Reference BBO will be rejected by the System upon receipt. For example, if the [NBBO] Reference BBO on the offer side is \$1.00, an order to buy options for more than \$2.00 would be rejected. However, if the [NBBO] Reference BBO of the bid side of an incoming order to sell is less than or equal to \$1.00, the OPP limits set forth above will result in all incoming sell orders being accepted regardless of their limit.

\* \* \* \* \*

## II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend and correct Chapter VI, Section 18 of the NOM Rulebook which describes Order Price Protection ("OPP"), a feature of the NOM trading system that prevents certain day limit, good till cancelled, and immediate or cancel orders at prices outside of pre-set standard limits from being accepted by the System. The amendments also remove language providing for the temporary deactivation of OPP from time to time on an intraday basis at the Exchange's discretion if the Exchange determines that volatility warrants deactivation.

OPP applies to all options but does not apply to market orders or Intermarket Sweep Orders. OPP is operational each trading day after the opening until the close of trading, except during trading halts. Chapter VI, Section 18 also currently provides that the Exchange may temporarily deactivate OPP from time to time on an intraday basis at its discretion if it determines that volatility warrants deactivation. Participants are notified of intraday OPP deactivation due to volatility and any subsequent intraday reactivation by the Exchange through the issuance of system status messages.

OPP rejects incoming orders that exceed certain parameters. Currently, Chapter VI, Section 18(b) establishes those parameters with reference to the NBBO. It states that if the NBBO on the contra-side of an incoming order is greater than \$1.00, orders with a limit more than 50% through such contraside NBBO will be rejected by the system upon receipt. For example, the rule provides that if the NBBO on the offer side is \$1.10, an order to buy options for more than \$1.65 would be rejected. Similarly, the rule states that if the NBBO on the bid side is \$1.10, an order to sell options for less than \$0.55 will be

rejected. The rule provides that if the NBBO on the contra-side of an incoming order is less than or equal to \$1.00, orders with a limit more than 100% through such contra-side NBBO will be rejected by the system upon receipt. For example, under the rule if the NBBO on the offer side is \$1.00, an order to buy options for more than \$2.00 would be rejected. However, the rule provides that if the NBBO of the bid side of an incoming order to sell is less than or equal to \$1.00, the OPP limits set forth above will result in all incoming sell orders being accepted regardless of their limit.

The Exchange has determined that a discrepancy exists between this rule description of how the OPP process works and how the system actually functions in cases where Price Improving Orders are present. Price Improving Orders may be submitted in \$0.01 increments on NOM rather than at the minimum price variation (“MPV”).<sup>3</sup> These Price Improving Orders are considered part of the Exchange’s internal market BBO at their non-MPV limit and are displayed at the allowable MPV price as part of the NBBO. While Chapter VI, Section 18 states that the NBBO is used for OPP determinations as described above, the system is actually basing OPP determinations on the better of (a) the NBBO, or (b) the Exchange’s internal market BBO, which may differ from the NBBO due to the presence of Price Improving Orders. The Exchange is proposing to correct this discrepancy by deleting the term “NBBO” in each instance where it appears in Chapter VI, Section 18 and replacing it with the term “Reference BBO” which will be defined in the rule as the better of the NBBO or the internal market BBO.

---

<sup>3</sup> See Chapter VI, Section 1, which provides that Price Improving Orders are orders to buy or sell an option at a specified price at an increment smaller than the minimum price variation in the security. Price Improving Orders may be entered in increments as small as one cent. Price Improving Orders that are available for display shall be displayed at the minimum price variation in that security and shall be rounded up for sell orders and rounded down for buy orders.

Finally, the Exchange is removing from Chapter VI, Section 18 the statements that the Exchange may temporarily deactivate OPP from time to time on an intraday basis at its discretion if it determines that volatility warrants deactivation, and that members will be notified of intraday OPP deactivation due to volatility and any subsequent intraday reactivation by the Exchange through the issuance of system status messages. The Exchange currently lacks the technology to implement intraday OPP deactivation and is deleting the language which suggests that it has such capability.

## 2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act in general, and furthers the objectives of Section 6(b)(5) of the Act in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by amending and correcting the rule text to that it accurately reflects the functioning of the trading system. The amendments concerning the Reference BBO and the elimination of references to intraday deactivation of the OPP are both intended to improve the accuracy of the rule. The Exchange believes that the amendments should promote just and equitable principles of trade as well as protect investors and the public interest by making clear how OPP determinations are actually made on the Exchange and by eliminating the potential for confusion inherent in the statement that the Exchange may temporarily deactivate OPP on an intraday basis when in fact it lacks the technical capacity to do so. Calculating OPP on the basis of the better of the NBBO or the internal market BBO rather than solely on the basis of the NBBO protects investors and the public interest by extending the benefits of OPP to orders received in instances where the internal market BBO is better than the NBBO.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, as the amendments to Chapter VI, Section 18 will apply uniformly to all market participants availing themselves of the OPP feature. Nor will the proposal impose a burden on competition among the options exchanges, because of the vigorous competition for order flow among the options exchanges. To the extent that market participants disagree with the particular approach taken by the Exchange herein, market participants can easily and readily direct order flow to competing venues.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act<sup>4</sup> and subparagraph (f)(6) of Rule 19b-4 thereunder.<sup>5</sup>

---

<sup>4</sup> 15 U.S.C. 78s(b)(3)(a)(iii).

<sup>5</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

#### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

##### Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-NASDAQ-2015-060 on the subject line.

##### Paper comments:

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NASDAQ-2015-060. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-NASDAQ-2015-060 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>6</sup>

Robert W. Errett  
Deputy Secretary
