Signature
Pursuant to the requirements of the Securities Exchange Act of 1934,
has duly caused this filing to be signed on its behalf by the undersigned thereunto duly authorized.

Date  10/23/2015  Executive Vice President and General Counsel
By  Edward S. Knight
(Note: Clicking the button at right will digitally sign and lock this form. A digital signature is as legally binding as a physical signature, and once signed, this form cannot be changed.)
The self-regulatory organization must provide all required information, presented in a clear and comprehensible manner, to enable the public to provide meaningful comment on the proposal and for the Commission to determine whether the proposal is consistent with the Act and applicable rules and regulations under the Act.

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3).

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.
1. **Text of the Proposed Rule Change**
   
   (a) The NASDAQ Stock Market LLC (“Nasdaq” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)\(^1\) and Rule 19b-4 thereunder,\(^2\) is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to amend the Exchange’s transaction fees at Chapter XV, Section 2 entitled “NASDAQ Options Market – Fees and Rebates,” which governs pricing for NASDAQ members using the NASDAQ Options Market (“NOM”), NASDAQ’s facility for executing and routing standardized equity and index options.

   While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on November 2, 2015.

   A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1, and the proposed rule text is attached hereto as Exhibit 5.

   (b) Not applicable.

   (c) Not applicable.

2. **Procedures of the Self-Regulatory Organization**

   The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of The NASDAQ Stock Market (the “Board”) on July 1, 2015. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change. Questions regarding this rule filing may be directed to Angela Saccomandi Dunn, Associate General Counsel, Nasdaq, Inc. at (215) 496-5692.

---

3. **Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

a. **Purpose**

The Exchange proposes the following two changes to the NOM transaction fees set forth at Chapter XV, Section 2 for executing and routing standardized equity and index options under the Penny Pilot and Non-Penny Pilot options program.

---

The proposed changes are as follows:

**Fees for Removing Liquidity in Penny Pilot Options:** the Exchange proposes to:

1. Decrease fees from $0.54 to $0.50 per contract for all Participant categories other than Customer, which remains at $0.48.
2. Removes the Fees for Removing liquidity in SPY, which will be equivalent to other Fees for Removing Liquidity in Penny Pilot Options.
3. Renumber current note “3” as note “1” in Chapter XX, Section 2(1).

**Rebate to Add Liquidity in Penny Pilot Options:** the Exchange proposes to

1. Remove note “d” of Chapter XV, Section 2(1) because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced herein.
2. Amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity and amend qualifications for the rebate to “in a month.”
3. Renumber current note “e” as note “c” in Chapter XV, Section 2(1).

Each specific change is described in greater detail below.

**Change 1 - Fees for Removing Liquidity in Penny Pilot Options**

The Exchange proposes, beginning November 2, 2015, to decrease from $0.54 to $0.50 per contract the Fees for Removing Liquidity in Penny Pilot Options for all

---

4 SPDR® S&P 500® ETF Trust.
Participant categories other than Customer,\textsuperscript{5} which will remain unchanged at $0.48. This will represent a decrease of $0.04 per contract of liquidity removed in the Professional,\textsuperscript{6} Firm,\textsuperscript{7} NOM Market Maker,\textsuperscript{8} Non-NOM Market Maker,\textsuperscript{9} and Broker Dealer\textsuperscript{10} categories. The Exchange believes that these fee reductions will benefit market participants and encourage them to send greater order flow to NOM.

The Exchange also proposes to remove the current fees listed in Chapter XV, Section 2(1) for executions in SPY, as these fees will now be the same fees assessed for all other Penny Pilot Options and are simply redundant with the proposed changes herein. Specifically, the fees assessed for executions in SPY will remain $0.48 per contact for executions in SPY.

\textsuperscript{5} The term “Customer” applies to any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation ("OCC") which is not for the account of broker or dealer or for the account of a “Professional” (as that term is defined in Chapter I, Section 1(a)(48)).

\textsuperscript{6} The term “Professional” means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s) pursuant to Chapter I, Section 1(a)(48). All Professional orders shall be appropriately marked by Participants.

\textsuperscript{7} The term “Firm” or (“F”) applies to any transaction that is identified by a Participant for clearing in the Firm range at OCC.

\textsuperscript{8} The term “NOM Market Maker” or (“M”) is a Participant that has registered as a Market Maker on NOM pursuant to Chapter VII, Section 2, and must also remain in good standing pursuant to Chapter VII, Section 4. In order to receive NOM Market Maker pricing in all securities, the Participant must be registered as a NOM Market Maker in at least one security.

\textsuperscript{9} The term “Non-NOM Market Maker” or (“O”) is a registered market maker on another options exchange that is not a NOM Market Maker. A Non-NOM Market Maker must append the proper Non-NOM Market Maker designation to orders routed to NOM.

\textsuperscript{10} The term “Broker-Dealer” or (“B”) applies to any transaction which is not subject to any of the other transaction fees applicable within a particular category.
Customer and $0.50 per contract for all other Participants, the same fees proposed herein for all other Penny Pilot Options.

The Exchange also proposes to renumber current note “3” as note “1” in Chapter XX, Section 2(1) as notes “1” and “2” were previously eliminated.

**Change 2 - Rebate to Add Liquidity in Penny Pilot Options**

The Exchange is proposing to remove note “d” of Chapter XV, Section 2(1) because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced. Note “d” currently states:

Participants that qualify for Customer or Professional Rebate to Add Liquidity Tier 8 in a given month will be assessed a Professional, Firm, Non-NOM Market Maker, NOM Market Maker or Broker-Dealer Fee for Removing Liquidity in Penny Pilot Options of $0.50 per contract.

The Exchange’s proposal in Change 1 would reduce the Fees for Removing Liquidity in Penny Pilot Options for Professionals, Firms, NOM Market Makers, Non-NOM Market Makers, and Broker Dealers to $0.50 per contract. This incentive would no longer be relevant and the Exchange is therefore proposing to remove note “d.”

The Exchange also proposes to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity. Note “e” currently states:

---

11 Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.75% or more of total industry customer equity and ETF option ADV contracts per day in a month or Participant adds (1) Customer and/or Professional liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 30,000 or more contracts per day in a month, (2) the Participant has certified for the Investor Support Program set forth in Rule 7014, and (3) the Participant qualifies for
Participants that add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.15% or more of total industry customer equity and ETF option ADV contracts per day in a month will receive an additional $0.02 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month; or (2) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.40% or more of total industry customer equity and ETF option ADV contracts per day in a month will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month; or (3) (a) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.85% of total industry customer equity and ETF option ADV contracts per day from October 22, 2015 through October 30, 2015 and (b) has added liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume from October 22, 2015 through October 30, 2015 will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options from October 22, 2015 through October 30, 2015. Consolidated Volume shall mean the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of an equity member’s trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member’s trading activity.

Specifically, the Exchange is amending the third incentive in note “e” which currently states:

(a) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.85% of total industry customer equity and ETF option ADV contracts per day from October 22, 2015 through October 30, 2015 and (b) has added liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume from October 22, 2015 through October 30, 2015 rebates under the Qualified Market Maker (“QMM”) Program set forth in Rule 7014.
will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options from October 22, 2015 through October 30, 2015. Consolidated Volume shall mean the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of an equity member's trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity.

The Exchange proposes to reduce this incentive from $0.05 to $0.03 per contract and amend the time period of October 22, 2015 through October 30, 2015 to “in a month.” The Exchange filed a mid-month amendment for October 2015 which necessitated this rule text. This text is not necessary going forward and will revert to the standard “in a month.” The Exchange believes that despite the decrease, this incentive will continue to encourage market participants to send additional order flow to achieve this incentive.

The Exchange also proposes to renumber current note “e” as note “c” in Chapter XV, Section 2(1) as note “c” was previously eliminated.

b. Statutory Basis

NASDAQ believes that the proposed rule change is consistent with the provisions of Section 6 of the Act, in general, and with Section 6(b)(4) and 6(b)(5) of the Act, in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system

---

12 This incentive will apply monthly going forward.

14 15 U.S.C. 78f(b)(4) and (5).
which NASDAQ operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

**Change 1 - Fees for Removing Liquidity in Penny Pilot Options**

Decreasing the Fees for Removing Liquidity in Penny Pilot Options from $0.54 to $0.50 per contract for all Participant categories other than Customer is reasonable because the lower fees should encourage these participants to send additional order flow to the Exchange and the additional order flow should benefit all market participants.

Decreasing the Fees for Removing Liquidity in Penny Pilot Options from $0.54 to $0.50 per contract for all Participant categories other than Customer is equitable and not unfairly discriminatory because the Exchange would uniformly assess all non-Customers a Penny Pilot Options Fee for Removing Liquidity of $0.50 per contract. Customers would be assessed the lowest Penny Pilot Options Fee for Removing Liquidity of $0.48 per contract. Customer order flow enhances liquidity on the Exchange for the benefit of all market participants and benefits all market participants by providing more trading opportunities, which attracts market makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants.

The elimination of the SPY Fees for Removing Liquidity in Penny Pilot Options is reasonable because these fees will be the same as the Fees for Removing Liquidity in Penny Pilot Options for all other Penny Pilot Options. The pricing would be redundant.

The elimination of the SPY Fees for Removing Liquidity in Penny Pilot Options is equitable and not unfairly discriminatory because the Exchange would uniformly assess all non-Customers a SPY Penny Pilot Options Fee for Removing Liquidity of
$0.50 per contract, as is the case today and Customers would continue to be assessed the lowest Penny Pilot Options Fee for Removing Liquidity of $0.48 per contract. Customer order flow enhances liquidity on the Exchange for the benefit of all market participants and benefits all market participants by providing more trading opportunities, which attracts market makers.

The Exchange’s proposal to renumber current note “3” as note “1” in Chapter XX, Section 2(1) is reasonable, equitable and not unfairly discriminatory because it will add order to the pricing schedule.

**Change 2 - Rebate to Add Liquidity in Penny Pilot Options**

The Exchange’s proposal to remove note “d” of Chapter XV, Section 2(1) is reasonable because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced in this proposal.

The Exchange’s proposal to remove note “d” of Chapter XV, Section 2(1) is equitable and not unfairly discriminatory because this incentive to reduce Fees for Removing Liquidity in Penny Pilot Options will not be offered to any Participant.

The Exchange’s proposal to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity from an additional $0.05 per contract incentive to $0.03 per contract is reasonable because, despite the reduction in the incentive being offered, the opportunity to earn a higher rebate of $0.51$^{15}$ per contract, provided the qualifications are met, will incentivize

---

$^{15}$ Tier 8 pays a rebate of $0.48 per contract and the additional rebate proposed for note “e” (new note “c”) would be a $0.03 per contract rebate for a total of $0.51 per contract.
Participants to transact an even greater number of qualifying Customer and/or Professional volume, which liquidity will benefit other market participants by providing them the opportunity to interact with that liquidity. The Exchange’s proposal to permit Participants to obtain a higher rebate of $0.51 per contract, provided they qualify for the Tier 8 rebate and the new criteria of note “e”\(^\text{16}\) by adding volume in a month, which includes the addition of options and equity volume, is reasonable because the Exchange is encouraging market participants to send order flow to both the options and equity markets to receive the rebate. Incentivizing Participants to add options liquidity through the payment of an additional rebate is not novel and exists today.\(^\text{17}\) Today, the Customer and Professional Penny Pilot Options Rebate to Add Liquidity Tier 8 includes, as part of

---

\(^{16}\) The note “e” incentive being amended requires Participants to (a) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.85% of total industry customer equity and ETF option ADV contracts per day in a month and (b) add liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume in a month in order to receive an additional $0.03 per contract Penny Pilot Options Customer Rebate to Add Liquidity. This is the incentive as proposed in this rule change.

---

\(^{17}\) Note “e” provides two other opportunities, aside from the incentive which is being amended, to earn a higher rebate. Participants that add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.15% or more of total industry customer equity and ETF option ADV contracts per day in a month receive an additional $0.02 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month; or Participants may add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.40% or more of total industry customer equity and ETF option ADV contracts per day in a month to receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month.
the qualifying criteria, a certification for the Investor Support Program\textsuperscript{18} as set forth in Rule 7014 and qualification in the QMM Program.\textsuperscript{19} These two programs are equity programs which require participation in the form of adding liquidity. The concept of participating in the equities market as a means to qualify for an options rebate exists today. The Exchange’s proposal would require Participants to add liquidity in all securities through one or more of its Nasdaq Market Center MPIDS that represent 1.00% or more of Consolidated Volume during the month. Consolidated Volume shall mean the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of an equity member's trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of

\textsuperscript{19} A QMM is a NASDAQ member that makes a significant contribution to market quality by providing liquidity at the national best bid and offer (“NBBO”) in a large number of stocks for a significant portion of the day. In addition, the NASDAQ equity member must avoid imposing the burdens on NASDAQ and its market participants that may be associated with excessive rates of entry of orders away from the inside and/or order cancellation. The designation “QMM” reflects the QMM's commitment to provide meaningful and consistent support to market quality and price discovery by extensive quoting at the NBBO in a large number of securities. In return for its contributions, certain financial benefits are provided to a QMM with respect to a particular MPID (a “QMM MPID”), as described under Rule 7014(e).
the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity.

The Exchange’s proposal to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity from an additional $0.05 per contract incentive to $0.03 per contract is equitable and not unfairly discriminatory because all Participants may qualify for Tier 8 and the additional note “e” incentive. Qualifying Participants will be uniformly paid the rebate provided the requirements are met in a month. The Exchange’s proposal to permit Participants to receive an additional $0.03 per contract rebate in addition to the Tier 8 rebate of $0.48 per contract, provided they qualify for Tier 8 and add options and equity volume as specified in the new note “e” criteria, is equitable and not unfairly discriminatory because market participants today may qualify for a comparable or a higher rebate through alternative means that does not require participation in NOM.

The Exchange’s proposal to amend the time period of October 22, 2015 through October 30, 2015 to “in a month” is reasonable because unlike last month when the the Exchange filed a mid-month amendment for October 2015, the amended language is intended to capture the entire month going forward.

The Exchange’s proposal to amend the time period of October 22, 2015 through October 30, 2015 to “in a month” is equitable and not unfairly discriminatory because the note “e” qualifications would be uniformly calculated for a month for all Participants.

---

20 See note 16.
The Exchange’s proposal to renumber current note “e” as note “c” in Chapter XX, Section 2(1) is reasonable, equitable and not unfairly discriminatory because it will add order to the pricing schedule.

4. **Self-Regulatory Organization's Statement on Burden on Competition**

    The Exchange does not believe that the proposed rule change will impose any inter-market burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange operates in a highly competitive market in which many sophisticated and knowledgeable market participants can readily and do send order flow to competing exchanges if they deem fee levels or rebate incentives at a particular exchange to be excessive or inadequate. Additionally, new competitors have entered the market and still others are reportedly entering the market shortly. These market forces ensure that the Exchange’s fees and rebates remain competitive with the fee structures at other trading platforms. In that sense, the Exchange’s proposal is actually pro-competitive because the Exchange is simply responding to competition by adjusting rebates and fees in order to remain competitive in the current environment.

    Decreasing the Fees for Removing Liquidity in Penny Pilot Options from $0.54 to $0.50 per contract for all Participant categories other than Customer does not create an intra-market undue burden on competition because all Participants would be assessed the same fee, except Customers. Customer order flow is unique in that it enhances liquidity on the Exchange for the benefit of all market participants and benefits all market participants by providing more trading opportunities, which attracts market makers.

    The elimination of the SPY Fees for Removing Liquidity in Penny Pilot Options does not create an intra-market undue burden on competition because all Penny Pilot Options will be assessed the same as the Fees for Removing Liquidity.
The Exchange’s proposal to remove note “d” of Chapter XV, Section 2(1) does not create an intra-market undue burden on competition because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced in this proposal.

The Exchange’s proposal to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity from an additional $0.05 per contract incentive to $0.03 per contract does not create an intra-market undue burden on competition because all Participants may qualify for Tier 8 and the additional incentive.

The Exchange’s proposal to amend the time period of October 22, 2015 through October 30, 2015 to “in a month” does not create an intra-market undue burden on competition because the amended language is intended to capture the entire month going forward and was previously intended to reflect the effectiveness of a prior rule change.

The remaining renumbering changes do not create an intra-market undue burden on competition because the amendments are non-substantive in nature.

5. **Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others**

No written comments were either solicited or received.

6. **Extension of Time Period for Commission Action**

Not applicable.
7. **Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)**

Pursuant to Section 19(b)(3)(A)(ii) of the Act, NASDAQ has designated this proposal as establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

8. **Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission**

Not applicable.

9. **Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act**

Not applicable.

10. **Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act**

Not applicable.

11. **Exhibits**

1. Notice of proposed rule for publication in the Federal Register.

5. Text of the proposed rule change.

---

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to modify Chapter XV, entitled “Options Pricing,” at Section 2 governing pricing for NASDAQ members

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”), and Rule 19b-4 thereunder, notice is hereby given that on October 23, 2015, The NASDAQ Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Exchange’s transaction fees at Chapter XV, Section 2 entitled “NASDAQ Options Market – Fees and Rebates,” which governs pricing for NASDAQ members using the NASDAQ Options Market (“NOM”), NASDAQ’s facility for executing and routing standardized equity and index options.

While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on November 2, 2015.

---

The text of the proposed rule change is available on the Exchange’s Website at http://nasdaq.cchwallstreet.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes the following two changes to the NOM transaction fees set forth at Chapter XV, Section 2 for executing and routing standardized equity and index options under the Penny Pilot and Non-Penny Pilot options program.

The proposed changes are as follows:

**Fees for Removing Liquidity in Penny Pilot Options:** the Exchange proposes to:

1. Decrease fees from $0.54 to $0.50 per contract for all Participant categories other than Customer, which remains at $0.48.
2. Removes the Fees for Removing liquidity in SPY, which will be equivalent to other Fees for Removing Liquidity in Penny Pilot Options.
3. Renumber current note “3” as note “1” in Chapter XX, Section 2(1).

**Rebate to Add Liquidity in Penny Pilot Options:** the Exchange proposes to

1. Remove note “d” of Chapter XV, Section 2(1) because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced herein.

---

4 SPDR® S&P 500® ETF Trust.

---

2. Amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity and amend qualifications for the rebate to “in a month.”

3. Renumber current note “e” as note “c” in Chapter XV, Section 2(1).

Each specific change is described in greater detail below.

**Change 1 - Fees for Removing Liquidity in Penny Pilot Options**

The Exchange proposes, beginning November 2, 2015, to decrease from $0.54 to $0.50 per contract the Fees for Removing Liquidity in Penny Pilot Options for all Participant categories other than Customer,\(^5\) which will remain unchanged at $0.48. This will represent a decrease of $0.04 per contract of liquidity removed in the Professional,\(^6\) Firm,\(^7\) NOM Market Maker,\(^8\) Non-NOM Market Maker,\(^9\) and Broker Dealer\(^10\) categories.

---

\(^5\) The term “Customer” applies to any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation (“OCC”) which is not for the account of broker or dealer or for the account of a “Professional” (as that term is defined in Chapter I, Section 1(a)(48)).

\(^6\) The term “Professional” means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s) pursuant to Chapter I, Section 1(a)(48). All Professional orders shall be appropriately marked by Participants.

\(^7\) The term “Firm” or (“F”) applies to any transaction that is identified by a Participant for clearing in the Firm range at OCC.

\(^8\) The term “NOM Market Maker” or (“M”) is a Participant that has registered as a Market Maker on NOM pursuant to Chapter VII, Section 2, and must also remain in good standing pursuant to Chapter VII, Section 4. In order to receive NOM Market Maker pricing in all securities, the Participant must be registered as a NOM Market Maker in at least one security.

\(^9\) The term “Non-NOM Market Maker” or (“O”) is a registered market maker on another options exchange that is not a NOM Market Maker. A Non-NOM Market
The Exchange believes that these fee reductions will benefit market participants and encourage them to send greater order flow to NOM.

The Exchange also proposes to remove the current fees listed in Chapter XV, Section 2(1) for executions in SPY, as these fees will now be the same fees assessed for all other Penny Pilot Options and are simply redundant with the proposed changes herein. Specifically, the fees assessed for executions in SPY will remain $0.48 per contact for Customer and $0.50 per contract for all other Participants, the same fees proposed herein for all other Penny Pilot Options.

The Exchange also proposes to renumber current note “3” as note “1” in Chapter XX, Section 2(1) as notes “1” and “2” were previously eliminated.

**Change 2 - Rebate to Add Liquidity in Penny Pilot Options**

The Exchange is proposing to remove note “d” of Chapter XV, Section 2(1) because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced. Note “d” currently states:

Participants that qualify for Customer or Professional Rebate to Add Liquidity Tier 8 in a given month will be assessed a Professional, Firm, Non-NOM Market Maker, NOM Market Maker or Broker-Dealer Fee for Removing Liquidity in Penny Pilot Options of $0.50 per contract

The Exchange’s proposal in Change 1 would reduce the Fees for Removing Liquidity in Penny Pilot Options for Professionals, Firms, NOM Market Makers, Non-NOM Market Makers, and Broker Dealers to $0.50 per contract. This incentive would no longer be relevant and the Exchange is therefore proposing to remove note “d.”

Maker must append the proper Non-NOM Market Maker designation to orders routed to NOM.

10 The term “Broker-Dealer” or (“B”) applies to any transaction which is not subject to any of the other transaction fees applicable within a particular category.
The Exchange also proposes to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity. Note “e” currently states:

"e" Participants that add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.15% or more of total industry customer equity and ETF option ADV contracts per day in a month will receive an additional $0.02 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month; or (2) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.40% or more of total industry customer equity and ETF option ADV contracts per day in a month will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month; or (3) (a) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.85% of total industry customer equity and ETF option ADV contracts per day from October 22, 2015 through October 30, 2015 and (b) has added liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume from October 22, 2015 through October 30, 2015 will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options from October 22, 2015 through October 30, 2015. Consolidated Volume shall mean the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of an equity member's trading activity, expressed as a percentage of or ratio to

---

11 Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.75% or more of total industry customer equity and ETF option ADV contracts per day in a month or Participant adds (1) Customer and/or Professional liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 30,000 or more contracts per day in a month, (2) the Participant has certified for the Investor Support Program set forth in Rule 7014, and (3) the Participant qualifies for rebates under the Qualified Market Maker ("QMM") Program set forth in Rule 7014.
Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity.

Specifically, the Exchange is amending the third incentive in note “e” which currently states:

(a) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.85% of total industry customer equity and ETF option ADV contracts per day from October 22, 2015 through October 30, 2015 and (b) has added liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume from October 22, 2015 through October 30, 2015 will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options from October 22, 2015 through October 30, 2015. Consolidated Volume shall mean the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of an equity member's trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity.

The Exchange proposes to reduce this incentive from $0.05 to $0.03 per contract and amend the time period of October 22, 2015 through October 30, 2015 to “in a month.”

The Exchange filed a mid-month amendment for October 2015 which necessitated this rule text. This text is not necessary going forward and will revert to the standard “in a month.”

The Exchange believes that despite the decrease, this incentive will continue to encourage market participants to send additional order flow to achieve this incentive.

The Exchange also proposes to renumber current note “e” as note “c” in Chapter XV, Section 2(1) as note “c” was previously eliminated.

---

This incentive will apply monthly going forward.
2. **Statutory Basis**

NASDAQ believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,\(^{13}\) in general, and with Section 6(b)(4) and 6(b)(5) of the Act,\(^{14}\) in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which NASDAQ operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

**Change 1 - Fees for Removing Liquidity in Penny Pilot Options**

Decreasing the Fees for Removing Liquidity in Penny Pilot Options from $0.54 to $0.50 per contract for all Participant categories other than Customer is reasonable because the lower fees should encourage these participants to send additional order flow to the Exchange and the additional order flow should benefit all market participants.

Decreasing the Fees for Removing Liquidity in Penny Pilot Options from $0.54 to $0.50 per contract for all Participant categories other than Customer is equitable and not unfairly discriminatory because the Exchange would uniformly assess all non-Customers a Penny Pilot Options Fee for Removing Liquidity of $0.50 per contract. Customers would be assessed the lowest Penny Pilot Options Fee for Removing Liquidity of $0.48 per contract. Customer order flow enhances liquidity on the Exchange for the benefit of all market participants and benefits all market participants by providing more trading opportunities, which attracts market makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional

\(^{14}\) 15 U.S.C. 78f(b)(4) and (5).
corresponding increase in order flow from other market participants.

The elimination of the SPY Fees for Removing Liquidity in Penny Pilot Options is reasonable because these fees will be the same as the Fees for Removing Liquidity in Penny Pilot Options for all other Penny Pilot Options. The pricing would be redundant.

The elimination of the SPY Fees for Removing Liquidity in Penny Pilot Options is equitable and not unfairly discriminatory because the Exchange would uniformly assess all non-Customers a SPY Penny Pilot Options Fee for Removing Liquidity of $0.50 per contract, as is the case today and Customers would continue to be assessed the lowest Penny Pilot Options Fee for Removing Liquidity of $0.48 per contract. Customer order flow enhances liquidity on the Exchange for the benefit of all market participants and benefits all market participants by providing more trading opportunities, which attracts market makers.

The Exchange’s proposal to renumber current note “3” as note “1” in Chapter XX, Section 2(1) is reasonable, equitable and not unfairly discriminatory because it will add order to the pricing schedule.

**Change 2 - Rebate to Add Liquidity in Penny Pilot Options**

The Exchange’s proposal to remove note “d” of Chapter XV, Section 2(1) is reasonable because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced in this proposal.

The Exchange’s proposal to remove note “d” of Chapter XV, Section 2(1) is equitable and not unfairly discriminatory because this incentive to reduce Fees for Removing Liquidity in Penny Pilot Options will not be offered to any Participant.
The Exchange’s proposal to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity from an additional $0.05 per contract incentive to $0.03 per contract is reasonable because, despite the reduction in the incentive being offered, the opportunity to earn a higher rebate of $0.51\(^{15}\) per contract, provided the qualifications are met, will incentivize Participants to transact an even greater number of qualifying Customer and/or Professional volume, which liquidity will benefit other market participants by providing them the opportunity to interact with that liquidity. The Exchange’s proposal to permit Participants to obtain a higher rebate of $0.51 per contract, provided they qualify for the Tier 8 rebate and the new criteria of note “e”\(^{16}\) by adding volume in a month, which includes the addition of options and equity volume, is reasonable because the Exchange is encouraging market participants to send order flow to both the options and equity markets to receive the rebate. Incentivizing Participants to add options liquidity through the payment of an additional rebate is not novel and exists today.\(^{17}\) Today, the Customer

\(^{15}\) Tier 8 pays a rebate of $0.48 per contract and the additional rebate proposed for note “e” (new note “c”) would be a $0.03 per contract rebate for a total of $0.51 per contract.

\(^{16}\) The note “e” incentive being amended requires Participants to (a) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.85% of total industry customer equity and ETF option ADV contracts per day in a month and (b) add liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume in a month in order to receive an additional $0.03 per contract Penny Pilot Options Customer Rebate to Add Liquidity. This is the incentive as proposed in this rule change.

\(^{17}\) Note “e” provides two other opportunities, aside from the incentive which is being amended, to earn a higher rebate. Participants that add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in
and Professional Penny Pilot Options Rebate to Add Liquidity Tier 8 includes, as part of
the qualifying criteria, a certification for the Investor Support Program\(^\text{18}\) as set forth in
Rule 7014 and qualification in the QMM Program.\(^\text{19}\) These two programs are equity
programs which require participation in the form of adding liquidity. The concept of
participating in the equities market as a means to qualify for an options rebate exists
today. The Exchange’s proposal would require Participants to add liquidity in all
securities through one or more of its Nasdaq Market Center MPIDS that represent 1.00%

---

18 Penny Pilot Options and/or Non- Penny Pilot Options of 1.15% or more of total
industry customer equity and ETF option ADV contracts per day in a month
receive an additional $0.02 per contract Penny Pilot Options Customer Rebate to
Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in
that month; or Participants may add Customer, Professional, Firm, Non-NOM
Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-
Penny Pilot Options of 1.40% or more of total industry customer equity and ETF
option ADV contracts per day in a month to receive an additional $0.05 per
contract Penny Pilot Options Customer Rebate to Add Liquidity for
each transaction which adds liquidity in Penny Pilot Options in that month.

19 For a detailed description of the Investor Support Program or ISP, see Securities
Exchange Act Release No. 63270 (November 8, 2010), 75 FR 69489 (November
12, 2010) (NASDAQ-2010-141) (notice of filing and immediate effectiveness)
(the “ISP Filing”). See also Securities Exchange Act Release Nos. 63414
(December 2, 2010), 75 FR 76505 (December 8, 2010) (NASDAQ-2010-153)
(notice of filing and immediate effectiveness); and 63628 (January 3, 2011), 76
FR 1201 (January 7, 2011) (NASDAQ-2010-154) (notice of filing and immediate
effectiveness).

19 A QMM is a NASDAQ member that makes a significant contribution to market
quality by providing liquidity at the national best bid and offer (“NBBO”) in a
large number of stocks for a significant portion of the day. In addition, the
NASDAQ equity member must avoid imposing the burdens on NASDAQ and its
market participants that may be associated with excessive rates of entry of orders
away from the inside and/or order cancellation. The designation “QMM” reflects
the QMM’s commitment to provide meaningful and consistent support to market
quality and price discovery by extensive quoting at the NBBO in a large number
of securities. In return for its contributions, certain financial benefits are provided
to a QMM with respect to a particular MPID (a “QMM MPID”), as described
under Rule 7014(e).
or more of Consolidated Volume during the month. Consolidated Volume shall mean the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of an equity member's trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity.

The Exchange’s proposal to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity from an additional $0.05 per contract incentive to $0.03 per contract is equitable and not unfairly discriminatory because all Participants may qualify for Tier 8 and the additional note “e” incentive. Qualifying Participants will be uniformly paid the rebate provided the requirements are met in a month. The Exchange’s proposal to permit Participants to receive an additional $0.03 per contract rebate in addition to the Tier 8 rebate of $0.48 per contract, provided they qualify for Tier 8 and add options and equity volume as specified in the new note “e” criteria,\(^\text{20}\) is equitable and not unfairly discriminatory because market participants today may qualify for a comparable or a higher rebate through alternative means that does not require participation in NOM.

The Exchange’s proposal to amend the time period of October 22, 2015 through October 30, 2015 to “in a month” is reasonable because unlike last month when the the

\(^{20}\) See note 16.
Exchange filed a mid-month amendment for October 2015, the amended language is intended to capture the entire month going forward.

The Exchange’s proposal to amend the time period of October 22, 2015 through October 30, 2015 to “in a month” is equitable and not unfairly discriminatory because the note “e” qualifications would be uniformly calculated for a month for all Participants.

The Exchange’s proposal to renumber current note “e” as note “c” in Chapter XX, Section 2(1) is reasonable, equitable and not unfairly discriminatory because it will add order to the pricing schedule.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inter-market burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange operates in a highly competitive market in which many sophisticated and knowledgeable market participants can readily and do send order flow to competing exchanges if they deem fee levels or rebate incentives at a particular exchange to be excessive or inadequate. Additionally, new competitors have entered the market and still others are reportedly entering the market shortly. These market forces ensure that the Exchange’s fees and rebates remain competitive with the fee structures at other trading platforms. In that sense, the Exchange’s proposal is actually pro-competitive because the Exchange is simply responding to competition by adjusting rebates and fees in order to remain competitive in the current environment.

Decreasing the Fees for Removing Liquidity in Penny Pilot Options from $0.54 to $0.50 per contract for all Participant categories other than Customer does not create an intra-market undue burden on competition because all Participants would be assessed the
same fee, except Customers. Customer order flow is unique in that it enhances liquidity on the Exchange for the benefit of all market participants and benefits all market participants by providing more trading opportunities, which attracts market makers.

The elimination of the SPY Fees for Removing Liquidity in Penny Pilot Options does not create an intra-market undue burden on competition because all Penny Pilot Options will be assessed the same as the Fees for Removing Liquidity.

The Exchange’s proposal to remove note “d” of Chapter XV, Section 2(1) does not create an intra-market undue burden on competition because this incentive to reduce certain Fees for Removing Liquidity in Penny Pilot Options is no longer relevant as those fees are being reduced in this proposal.

The Exchange’s proposal to amend note “e” of Chapter XV, Section 2(1) to reduce one of the incentives being offered to Participants that qualify for Tier 8 of the Customer and Professional Penny Pilot Options Rebates to Add Liquidity from an additional $0.05 per contract incentive to $0.03 per contract does not create an intra-market undue burden on competition because all Participants may qualify for Tier 8 and the additional incentive.

The Exchange’s proposal to amend the time period of October 22, 2015 through October 30, 2015 to “in a month” does not create an intra-market undue burden on competition because the amended language is intended to capture the entire month going forward and was previously intended to reflect the effectiveness of a prior rule change.

The remaining renumbering changes do not create an intra-market undue burden on competition because the amendments are non-substantive in nature.
C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.\textsuperscript{21}

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission’s Internet comment form (http://www.sec.gov/rules/sro.shtml); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2015-127 on the subject line.

Paper comments:

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NASDAQ-2015-127. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s Internet Web site (http://www.sec.gov/rules/sro.shtml).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.
All submissions should refer to File Number SR-NASDAQ-2015-127 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.22

Robert W. Errett
Deputy Secretary

</tr>
</tbody>
</table>
Tier 7 Participant has Total Volume of 150,000 or more contracts per day in a month, of which 50,000 or more contracts per day in a month must be Customer and/or Professional liquidity in Penny Pilot Options

Tier 8 Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.75% or more of total industry customer equity and ETF option ADV contracts per day in a month or Participant adds (1) Customer and/or Professional liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 30,000 or more contracts per day in a month, (2) the Participant has certified for the Investor Support Program set forth in Rule 7014, and (3) the Participant qualifies for rebates under the Qualified Market Maker (“QMM”) Program set forth in Rule 7014.

For purposes of Tiers 5 and 8, the Exchange will allow a NOM Participant to qualify for the rebate if a NASDAQ member has certified for the Investor Support Program and executed at least one order on NASDAQ's equity market.

For purposes of Tiers 6 and 7, “Total Volume” shall be defined as Customer, Professional, Firm, Broker-Dealer, Non-NOM Market Maker and NOM Market Maker volume in Penny Pilot Options and/or Non-Penny Pilot Options which either adds or removes liquidity on NOM.

Participants that qualify for Customer or Professional Rebate to Add Liquidity Tier 8 in a given month will be assessed a Professional, Firm, Non-NOM Market Maker, NOM Market Maker or Broker-Dealer Fee for Removing Liquidity in Penny Pilot Options of $0.50 per contract.

Participants that: (1) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.15% or more of total industry customer equity and ETF option ADV contracts per day in a month will receive an additional $0.02 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month; or (2) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 1.40% or more of total industry customer equity and ETF option ADV contracts per day in a month will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add Liquidity for each transaction which adds liquidity in Penny Pilot Options in that month; or (3) (a) add Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.85% of total industry customer equity and ETF option ADV contracts per day [from October 22, 2015 through October 30, 2015] and (b) has added liquidity in all securities through one or more of its Nasdaq Market Center MPIIDs that represent 1.00% or more of Consolidated Volume [from October 22, 2015 through October 30, 2015] in a month will receive an additional $0.05 per contract Penny Pilot Options Customer Rebate to Add
Liquidity for each transaction which adds liquidity in Penny Pilot Options [from October 22, 2015 through October 30, 2015]. Consolidated Volume shall mean the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of an equity member’s trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity.

****
