**SR-NASDAQ-2022-007 Exhibit 1.doc**

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-{SRO}-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3).

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e., partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.
1. **Text of the Proposed Rule Change**

   (a) The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)\(^1\) and Rule 19b-4 thereunder,\(^2\) is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend The Nasdaq Options Market LLC’s (“NOM”) Pricing Schedule at Options 7, Section 5 to reduce the NOM Options Regulatory Fee or “ORF”.

   While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on February 1, 2022.

   A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

   (b) Not applicable.

   (c) Not applicable.

2. **Procedures of the Self-Regulatory Organization**

   The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”) on November 5, 2020. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

   Questions and comments on the proposed rule change may be directed to:

   Angela Saccomandi Dunn  
   Principal Associate General Counsel  
   Nasdaq, Inc.  
   (215) 496-5692

---

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

   a. Purpose

   NOM previously filed to waive its ORF from October 1, 2021 through January 31, 2022. The Waiver Filing provided that NOM would continue monitoring the amount of revenue collected from the ORF to determine if regulatory revenues would exceed regulatory costs when it recommenced assessing ORF on February 1, 2022. If so, the Exchange committed to adjust its ORF. At this time, after a review of its regulatory revenues and regulatory costs, the Exchange proposes to reduce the ORF from $0.0020 (the amount of the ORF prior to the waiver) to $0.0016 per contract side as of February 1, 2022, to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, does not exceed the Exchange’s total regulatory costs.

   The options industry continues to experience high options trading volumes and volatility. At this time, NOM believes that the options volume it experienced in the second half of 2021 is likely to persist into 2022. The anticipated options volume would impact NOM’s ORF collection which, in turn, has caused NOM to propose reducing the ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, would not exceed the Exchange’s total regulatory costs.

---

4 Id at 44456.
Collection of ORF

Upon recommencement of the ORF on February 1, 2022,5 NOM will assess its ORF for each customer option transaction that is either: (1) executed by a Participant on NOM; or (2) cleared by a NOM Participant at The Options Clearing Corporation (“OCC”) in the customer range,6 even if the transaction was executed by a non-Participant of NOM, regardless of the exchange on which the transaction occurs.7 If the OCC clearing member is a NOM Participant, ORF will be assessed and collected on all cleared customer contracts (after adjustment for CMTA8); and (2) if the OCC clearing member is not a NOM Participant, ORF will be collected only on the cleared customer contracts executed at NOM, taking into account any CMTA instructions which may result in collecting the ORF from a non-member.9

---

5 Prior to the Waiver Filing, the Exchange similarly collected ORF as described herein.

6 Participants must record the appropriate account origin code on all orders at the time of entry of the order. The Exchange represents that it has surveillances in place to verify that Participants mark orders with the correct account origin code.

7 The Exchange uses reports from OCC when assessing and collecting the ORF.

8 CMTA or Clearing Member Trade Assignment is a form of “give-up” whereby the position will be assigned to a specific clearing firm at OCC.

9 By way of example, if Broker A, a NOM Participant, routes a customer order to CBOE and the transaction executes on CBOE and clears in Broker A’s OCC Clearing account, ORF will be collected by NOM from Broker A’s clearing account at OCC via direct debit. While this transaction was executed on a market other than NOM, it was cleared by a NOM Participant in the member’s OCC clearing account in the customer range, therefore there is a regulatory nexus between NOM and the transaction. If Broker A was not a NOM Participant, then no ORF should be assessed and collected because there is no nexus; the transaction did not execute on NOM nor was it cleared by a NOM Participant.
In the case where a Participant both executes a transaction and clears the transaction, the ORF will be assessed to and collected from that Participant. In the case where a Participant executes a transaction and a different member clears the transaction, the ORF will be assessed to and collected from the Participant who clears the transaction and not the Participant who executes the transaction. In the case where a non-member executes a transaction at an away market and a Participant clears the transaction, the ORF will be assessed to and collected from the Participant who clears the transaction. In the case where a Participant executes a transaction on NOM and a non-member clears the transaction, the ORF will be assessed to the Participant that executed the transaction on NOM and collected from the non-member who cleared the transaction. In the case where a Participant executes a transaction at an away market and a non-member clears the transaction, the ORF will not be assessed to the Participant who executed the transaction or collected from the non-member who cleared the transaction because the Exchange does not have access to the data to make absolutely certain that ORF should apply. Further, the data does not allow the Exchange to identify the Participant executing the trade at an away market.

**ORF Revenue and Monitoring of ORF**

The Exchange monitors the amount of revenue collected from the ORF to ensure that it, in combination with other regulatory fees and fines, does not exceed regulatory costs. In determining whether an expense is considered a regulatory cost, the Exchange reviews all costs and makes determinations if there is a nexus between the expense and a regulatory function. The Exchange notes that fines collected by the Exchange in connection with a disciplinary matter offset ORF.
Revenue generated from ORF, when combined with all of the Exchange’s other regulatory fees and fines, is designed to recover a material portion of the regulatory costs to the Exchange of the supervision and regulation of Participant customer options business including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities. Regulatory costs include direct regulatory expenses and certain indirect expenses in support of the regulatory function. The direct expenses include in-house and third-party service provider costs to support the day-to-day regulatory work such as surveillances, investigations and examinations. The indirect expenses include support from such areas as Office of the General Counsel, technology, and internal audit. Indirect expenses were approximately 38% of the total regulatory costs for 2021. Thus, direct expenses were approximately 62% of total regulatory costs for 2021.\(^\text{10}\)

The ORF is designed to recover a material portion of the costs to the Exchange of the supervision and regulation of its members, including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities.

Proposal

Based on the Exchange’s most recent review, the Exchange is proposing to reduce the amount of ORF that will be collected by the Exchange from $0.0020 per contract side to $0.0016 per contract side. The Exchange issued an Options Trader Alert on December 31, 2021 indicating the proposed rate change for February 1, 2022.\(^\text{11}\)

\(^{10}\) The Exchange will set a 2022 Regulatory Budget in the first quarter of 2022.

\(^{11}\) See Options Trader Alert 2021-63.
The proposed reduction is based on a sustained high level of options volume in 2021. The below table displays average daily volume for 2021.12

</table>

To date, fourth quarter options average daily volume in 2021 has been higher than options average daily volume in any of the prior three quarters of 2021. With respect to customer options volume across the industry, total customer options contract average daily volume, to date, in 2021 is 36,565,398 as compared to total customer options contract average daily volume in 2020 which was 27,002,511.13

There can be no assurance that the Exchange’s costs for 2022 will not differ materially from these expectations and prior practice, nor can the Exchange predict with certainty whether options volume will remain at the current level going forward. The Exchange notes however, that when combined with regulatory fees and fines, the revenue that may be generated utilizing an ORF rate of $0.0020 per contract side may result in revenue which exceeds the Exchange’s estimated regulatory costs for 2022 if options volume persists. In 2021, options volume remained high, due in large part to the extreme

---

12 The OCC data from December 2021 numbers reflect only 13 trading days as this information is through December 17, 2021. Volume data in the table represents numbers of contracts; each contract has two sides.

volatility in the marketplace as a result of the COVID-19 pandemic. The Exchange therefore proposes to reduce its ORF to $0.0016 per contract side to ensure that revenue does not exceed the Exchange’s estimated regulatory costs in 2022. Particularly, the Exchange believes that reducing the ORF when combined with all of the Exchange’s other regulatory fees and fines, would allow the Exchange to continue covering a material portion of its regulatory costs, while lessening the potential for generating excess revenue that may otherwise occur using the rate of $0.0020 per contract side.  

The Exchange will continue to monitor the amount of revenue collected from the ORF to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs. If the Exchange determines regulatory revenues exceed regulatory costs, the Exchange will adjust the ORF by submitting a fee change filing to the Commission and notifying its Participants via an Options Trader Alert.

b. **Statutory Basis**

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.

---

14 The Exchange notes that its regulatory responsibilities with respect to Participants compliance with options sales practice rules have largely been allocated to FINRA under a 17d-2 agreement. The ORF is not designed to cover the cost of that options sales practice regulation.

15 The Exchange will provide Participants with such notice at least 30 calendar days prior to the effective date of the change.

16 The Exchange notes that in connection with this proposal, it provided the Commission confidential details regarding the Exchange’s projected regulatory revenue, including projected revenue from ORF, along with a projected regulatory expenses.

Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act, which provides that Exchange rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its members, and other persons using its facilities. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes the proposed fee change is reasonable because customer transactions will be subject to a lower ORF fee than the rate that would otherwise be in effect on February 1, 2022. Moreover, the proposed reduction is necessary for the Exchange to avoid collecting revenue, in combination with other regulatory fees and fines, that would be in excess of its anticipated regulatory costs which is consistent with the Exchange’s practices.

The Exchange had designed the ORF to generate revenues that would be less than the amount of the Exchange’s regulatory costs to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs, which is consistent with the view of the Commission that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. As discussed above, however, after review of its regulatory costs and regulatory revenues, which includes revenues from ORF and other regulatory fees and fines, the Exchange determined that absent a reduction in ORF, it may collect revenue which would exceed its regulatory costs. Indeed, the Exchange notes that when taking into account the potential that recent options volume

---

persists, it estimates the ORF may generate revenues that would cover more than the approximated Exchange’s projected regulatory costs. As such, the Exchange believes it’s reasonable and appropriate to reduce the ORF amount from $0.0020 to $0.0016 per contract side.

The Exchange also believes the proposed fee change is equitable and not unfairly discriminatory in that it is charged to all Participants on all their transactions that clear in the customer range at OCC.20 The Exchange believes the ORF ensures fairness by assessing higher fees to those Participants that require more Exchange regulatory services based on the amount of customer options business they conduct. Regulating customer trading activity is much more labor intensive and requires greater expenditure of human and technical resources than regulating non-customer trading activity, which tends to be more automated and less labor-intensive. For example, there are costs associated with main office and branch office examinations (e.g., staff expenses), as well as investigations into customer complaints and the terminations of registered persons. As a result, the costs associated with administering the customer component of the Exchange’s overall regulatory program are materially higher than the costs associated with administering the non-customer component (e.g., Participant proprietary transactions) of its regulatory program. Moreover, the Exchange notes that it has broad regulatory responsibilities with respect to activities of its Participants, irrespective of where their transactions take place. Many of the Exchange’s surveillance programs for customer

20 If the OCC clearing member is a NOM Participant, ORF will be assessed and collected on all cleared customer contracts (after adjustment for CMTA); and (2) if the OCC clearing member is not a NOM Participant, ORF will be collected only on the cleared customer contracts executed at NOM, taking into account any CMTA instructions which may result in collecting the ORF from a non-member.
trading activity may require the Exchange to look at activity across all markets, such as reviews related to position limit violations and manipulation. Indeed, the Exchange cannot effectively review for such conduct without looking at and evaluating activity regardless of where it transpires. In addition to its own surveillance programs, the Exchange also works with other SROs and exchanges on intermarket surveillance related issues. Through its participation in the Intermarket Surveillance Group (“ISG”) the Exchange shares information and coordinates inquiries and investigations with other exchanges designed to address potential intermarket manipulation and trading abuses. Accordingly, there is a strong nexus between the ORF and the Exchange’s regulatory activities with respect to customer trading activity of its Participants.

4. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. This proposal does not create an unnecessary or inappropriate intra-market burden on competition because the ORF applies to all customer activity, thereby raising regulatory revenue to offset regulatory expenses. It also supplements the regulatory revenue derived from non-customer activity. The Exchange notes, however, the proposed change is not designed to address any competitive issues. Indeed, this proposal does not create an unnecessary or inappropriate inter-market burden on competition because it is a regulatory fee that supports regulation in furtherance of the purposes of the

---

21 ISG is an industry organization formed in 1983 to coordinate intermarket surveillance among the SROs by cooperatively sharing regulatory information pursuant to a written agreement between the parties. The goal of the ISG’s information sharing is to coordinate regulatory efforts to address potential intermarket trading abuses and manipulations.
Act. The Exchange is obligated to ensure that the amount of regulatory revenue collected from the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs.

5. **Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others**

No written comments were either solicited or received.

6. **Extension of Time Period for Commission Action**

Not applicable.

7. **Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)**

Pursuant to Section 19(b)(3)(A)(ii) of the Act, the Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

8. **Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission**

    1. Notice of Proposed Rule Change for publication in the *Federal Register*.

    5. Text of the proposed rule change.
Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Reduce the Options Regulatory Fee

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹, and Rule 19b-4 thereunder,² notice is hereby given that on January 20, 2022, The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend The Nasdaq Options Market LLC’s (“NOM”) Pricing Schedule at Options 7, Section 5 to reduce the NOM Options Regulatory Fee or “ORF”.

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on February 1, 2022.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NOM previously filed to waive its ORF from October 1, 2021 through January 31, 2022.3 The Waiver Filing provided that NOM would continue monitoring the amount of revenue collected from the ORF to determine if regulatory revenues would exceed regulatory costs when it recommenced assessing ORF on February 1, 2022. If so, the Exchange committed to adjust its ORF.4 At this time, after a review of its regulatory revenues and regulatory costs, the Exchange proposes to reduce the ORF from $0.0020 (the amount of the ORF prior to the waiver) to $0.0016 per contract side as of February 1, 2022, to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, does not exceed the Exchange’s total regulatory costs.

The options industry continues to experience high options trading volumes and volatility. At this time, NOM believes that the options volume it experienced in the

---

4 Id at 44456.
second half of 2021 is likely to persist into 2022. The anticipated options volume would impact NOM’s ORF collection which, in turn, has caused NOM to propose reducing the ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, would not exceed the Exchange’s total regulatory costs.

Collection of ORF

Upon recommencement of the ORF on February 1, 2022,5 NOM will assess its ORF for each customer option transaction that is either: (1) executed by a Participant on NOM; or (2) cleared by a NOM Participant at The Options Clearing Corporation (“OCC”) in the customer range,6 even if the transaction was executed by a non-Participant of NOM, regardless of the exchange on which the transaction occurs.7 If the OCC clearing member is a NOM Participant, ORF will be assessed and collected on all cleared customer contracts (after adjustment for CMTA8); and (2) if the OCC clearing member is not a NOM Participant, ORF will be collected only on the cleared customer contracts executed at NOM, taking into account any CMTA instructions which may result in collecting the ORF from a non-member.9

---

5 Prior to the Waiver Filing, the Exchange similarly collected ORF as described herein.

6 Participants must record the appropriate account origin code on all orders at the time of entry of the order. The Exchange represents that it has surveillances in place to verify that Participants mark orders with the correct account origin code.

7 The Exchange uses reports from OCC when assessing and collecting the ORF.

8 CMTA or Clearing Member Trade Assignment is a form of “give-up” whereby the position will be assigned to a specific clearing firm at OCC.

9 By way of example, if Broker A, a NOM Participant, routes a customer order to CBOE and the transaction executes on CBOE and clears in Broker A’s OCC Clearing account, ORF will be collected by NOM from Broker A’s clearing account at OCC via direct debit. While this transaction was executed on a market
In the case where a Participant both executes a transaction and clears the transaction, the ORF will be assessed to and collected from that Participant. In the case where a Participant executes a transaction and a different member clears the transaction, the ORF will be assessed to and collected from the Participant who clears the transaction and not the Participant who executes the transaction. In the case where a non-member executes a transaction at an away market and a Participant clears the transaction, the ORF will be assessed to and collected from the Participant who clears the transaction. In the case where a Participant executes a transaction on NOM and a non-member clears the transaction, the ORF will be assessed to the Participant that executed the transaction on NOM and collected from the non-member who cleared the transaction. In the case where a Participant executes a transaction at an away market and a non-member clears the transaction, the ORF will not be assessed to the Participant who executed the transaction or collected from the non-member who cleared the transaction because the Exchange does not have access to the data to make absolutely certain that ORF should apply. Further, the data does not allow the Exchange to identify the Participant executing the trade at an away market.

**ORF Revenue and Monitoring of ORF**

The Exchange monitors the amount of revenue collected from the ORF to ensure that it, in combination with other regulatory fees and fines, does not exceed regulatory costs. In determining whether an expense is considered a regulatory cost, the Exchange other than NOM, it was cleared by a NOM Participant in the member’s OCC clearing account in the customer range, therefore there is a regulatory nexus between NOM and the transaction. If Broker A was not a NOM Participant, then no ORF should be assessed and collected because there is no nexus; the transaction did not execute on NOM nor was it cleared by a NOM Participant.
reviews all costs and makes determinations if there is a nexus between the expense and a regulatory function. The Exchange notes that fines collected by the Exchange in connection with a disciplinary matter offset ORF.

Revenue generated from ORF, when combined with all of the Exchange’s other regulatory fees and fines, is designed to recover a material portion of the regulatory costs to the Exchange of the supervision and regulation of Participant customer options business including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities. Regulatory costs include direct regulatory expenses and certain indirect expenses in support of the regulatory function. The direct expenses include in-house and third-party service provider costs to support the day-to-day regulatory work such as surveillances, investigations and examinations. The indirect expenses include support from such areas as Office of the General Counsel, technology, and internal audit. Indirect expenses were approximately 38% of the total regulatory costs for 2021. Thus, direct expenses were approximately 62% of total regulatory costs for 2021.10

The ORF is designed to recover a material portion of the costs to the Exchange of the supervision and regulation of its members, including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities.

Proposal

Based on the Exchange’s most recent review, the Exchange is proposing to reduce the amount of ORF that will be collected by the Exchange from $0.0020 per contract side

10 The Exchange will set a 2022 Regulatory Budget in the first quarter of 2022.
to $0.0016 per contract side. The Exchange issued an Options Trader Alert on December 31, 2021 indicating the proposed rate change for February 1, 2022.\textsuperscript{11}

The proposed reduction is based on a sustained high level of options volume in 2021. The below table displays average daily volume for 2021.\textsuperscript{12}

To date, fourth quarter options average daily volume in 2021 has been higher than options average daily volume in any of the prior three quarters of 2021. With respect to customer options volume across the industry, total customer options contract average daily volume, to date, in 2021 is 36,565,398 as compared to total customer options contract average daily volume in 2020 which was 27,002,511.\textsuperscript{13}

There can be no assurance that the Exchange’s costs for 2022 will not differ materially from these expectations and prior practice, nor can the Exchange predict with certainty whether options volume will remain at the current level going forward. The Exchange notes however, that when combined with regulatory fees and fines, the revenue

\textsuperscript{11} See Options Trader Alert 2021-63.

\textsuperscript{12} The OCC data from December 2021 numbers reflect only 13 trading days as this information is through December 17, 2021. Volume data in the table represents numbers of contracts; each contract has two sides.

\textsuperscript{13} See data from OCC at: https://www.theocc.com/Market-Data/Market-Data-Reports/Volume-and-Open-Interest/Volume-by-Account-Type.
that may be generated utilizing an ORF rate of $0.0020 per contract side may result in revenue which exceeds the Exchange’s estimated regulatory costs for 2022 if options volume persists. In 2021, options volume remained high, due in large part to the extreme volatility in the marketplace as a result of the COVID-19 pandemic. The Exchange therefore proposes to reduce its ORF to $0.0016 per contract side to ensure that revenue does not exceed the Exchange’s estimated regulatory costs in 2022. Particularly, the Exchange believes that reducing the ORF when combined with all of the Exchange’s other regulatory fees and fines, would allow the Exchange to continue covering a material portion of its regulatory costs, while lessening the potential for generating excess revenue that may otherwise occur using the rate of $0.0020 per contract side.¹⁴

The Exchange will continue to monitor the amount of revenue collected from the ORF to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs. If the Exchange determines regulatory revenues exceed regulatory costs, the Exchange will adjust the ORF by submitting a fee change filing to the Commission and notifying¹⁵ its Participants via an Options Trader Alert.¹⁶

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities

---

¹⁴ The Exchange notes that its regulatory responsibilities with respect to Participants compliance with options sales practice rules have largely been allocated to FINRA under a 17d-2 agreement. The ORF is not designed to cover the cost of that options sales practice regulation.

¹⁵ The Exchange will provide Participants with such notice at least 30 calendar days prior to the effective date of the change.

¹⁶ The Exchange notes that in connection with this proposal, it provided the Commission confidential details regarding the Exchange’s projected regulatory revenue, including projected revenue from ORF, along with a projected regulatory expenses.
Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.17

Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act18, which provides that Exchange rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its members, and other persons using its facilities. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)19 requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes the proposed fee change is reasonable because customer transactions will be subject to a lower ORF fee than the rate that would otherwise be in effect on February 1, 2022. Moreover, the proposed reduction is necessary for the Exchange to avoid collecting revenue, in combination with other regulatory fees and fines, that would be in excess of its anticipated regulatory costs which is consistent with the Exchange’s practices.

The Exchange had designed the ORF to generate revenues that would be less than the amount of the Exchange’s regulatory costs to ensure that it, in combination with its other regulatory fees and fines, does not exceed regulatory costs, which is consistent with the view of the Commission that regulatory fees be used for regulatory purposes and not to support the Exchange’s business operations. As discussed above, however, after review of its regulatory costs and regulatory revenues, which includes revenues from

---

ORF and other regulatory fees and fines, the Exchange determined that absent a reduction in ORF, it may collect revenue which would exceed its regulatory costs. Indeed, the Exchange notes that when taking into account the potential that recent options volume persists, it estimates the ORF may generate revenues that would cover more than the approximated Exchange’s projected regulatory costs. As such, the Exchange believes it’s reasonable and appropriate to reduce the ORF amount from $0.0020 to $0.0016 per contract side.

The Exchange also believes the proposed fee change is equitable and not unfairly discriminatory in that it is charged to all Participants on all their transactions that clear in the customer range at OCC. The Exchange believes the ORF ensures fairness by assessing higher fees to those Participants that require more Exchange regulatory services based on the amount of customer options business they conduct. Regulating customer trading activity is much more labor intensive and requires greater expenditure of human and technical resources than regulating non-customer trading activity, which tends to be more automated and less labor-intensive. For example, there are costs associated with main office and branch office examinations (e.g., staff expenses), as well as investigations into customer complaints and the terminations of registered persons. As a result, the costs associated with administering the customer component of the Exchange’s overall regulatory program are materially higher than the costs associated with administering the non-customer component (e.g., Participant proprietary transactions) of

---

20 If the OCC clearing member is a NOM Participant, ORF will be assessed and collected on all cleared customer contracts (after adjustment for CMTA); and (2) if the OCC clearing member is not a NOM Participant, ORF will be collected only on the cleared customer contracts executed at NOM, taking into account any CMTA instructions which may result in collecting the ORF from a non-member.
its regulatory program. Moreover, the Exchange notes that it has broad regulatory responsibilities with respect to activities of its Participants, irrespective of where their transactions take place. Many of the Exchange’s surveillance programs for customer trading activity may require the Exchange to look at activity across all markets, such as reviews related to position limit violations and manipulation. Indeed, the Exchange cannot effectively review for such conduct without looking at and evaluating activity regardless of where it transpires. In addition to its own surveillance programs, the Exchange also works with other SROs and exchanges on intermarket surveillance related issues. Through its participation in the Intermarket Surveillance Group (“ISG”) the Exchange shares information and coordinates inquiries and investigations with other exchanges designed to address potential intermarket manipulation and trading abuses. Accordingly, there is a strong nexus between the ORF and the Exchange’s regulatory activities with respect to customer trading activity of its Participants.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. This proposal does not create an unnecessary or inappropriate intra-market burden on competition because the ORF applies to all customer activity, thereby raising regulatory revenue to offset regulatory expenses. It also supplements the regulatory revenue derived from non-customer activity. The Exchange notes, however, the

---

21 ISG is an industry organization formed in 1983 to coordinate intermarket surveillance among the SROs by cooperatively sharing regulatory information pursuant to a written agreement between the parties. The goal of the ISG’s information sharing is to coordinate regulatory efforts to address potential intermarket trading abuses and manipulations.
The proposed change is not designed to address any competitive issues. Indeed, this proposal does not create an unnecessary or inappropriate inter-market burden on competition because it is a regulatory fee that supports regulation in furtherance of the purposes of the Act. The Exchange is obligated to ensure that the amount of regulatory revenue collected from the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs.

C. **Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others**

No written comments were either solicited or received.

III. **Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.22

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. **Solicitation of Comments**

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

---

Electronic comments:
• Use the Commission’s Internet comment form
  [http://www.sec.gov/rules/sro.shtml]; or
• Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2022-007 on the subject line.

Paper comments:
• Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NASDAQ-2022-007. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s Internet Web site [http://www.sec.gov/rules/sro.shtml].

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.
All submissions should refer to File Number SR-NASDAQ-2022-007 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.\(^23\)

J. Matthew DeLesDernier
Assistant Secretary

Section 5 Nasdaq Options Regulatory Fee

[NOM will waive the Options Regulatory Fee of $0.0020 per contract side from October 1, 2021 to January 31, 2022. NOM will recommence assessing an Options Regulatory Fee of $0.0020 per contract side as of February 1, 2022.] As of February 1, 2022, the ORF shall be $0.0016 per contract side.

The Options Regulatory Fee (“ORF”) is assessed by NOM to each NOM Participant for options transactions cleared by OCC in the Customer range where: (1) the execution occurs on NOM or (2) the execution occurs on another exchange and is cleared by a NOM Participant. The ORF is collected by OCC on behalf of NOM from (1) NOM clearing members for all Customer transactions they clear or (2) non-members for all Customer transactions they clear that were executed on NOM. NOM uses reports from OCC when assessing and collecting ORF. The Exchange will notify Participants via an Options Trader Alert of any change in the amount of the fee at least 30 calendar days prior to the effective date of the change.

NOM Participants who do not transact an equities business on The Nasdaq Stock Market LLC in a calendar year will receive a refund of the fees specified in Equity 7, Section 30(b) upon written notification to the Exchange along with documentation evidencing that no equities business was conducted on The Nasdaq Stock Market for that calendar year. The Exchange will accept refund requests up until sixty (60) days after the end of the calendar year.
