Such partial amendment shall be clearly identified and marked to show deletions and additions.
1. **Text of the Proposed Rule Change**

   (a) The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)\(^1\) and Rule 19b-4 thereunder,\(^2\) is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend the Exchange’s port-related fees, at Equity 7, Section 115, and Options 7, Section 3, as described further below.

   While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on September 1, 2022.

   A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

   (b) Not applicable.

   (c) Not applicable.

2. **Procedures of the Self-Regulatory Organization**

   The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”). Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

3. **Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

a. **Purpose**

   The purpose of the proposed rule change is to amend Equity 7, Section 115, and Options 7, Section 3, to prorate port fees for the first month of service. The Exchange also proposes to add language to Equity 7, Section 115, and Options 7, Section 3, to clarify that port fees for cancelled services will continue to be charged for the remainder of month.

   Currently, the Exchange does not prorate port connectivity fees under either its equity or options rules. Thus, equity members and options participants are assessed a full month’s fee if they direct the Exchange to make the subscribed connectivity live on any day of the month, including the last day thereof. Equity members and options participants are also assessed a full month’s port fee if they cancel service during the month.

   The Exchange proposes to provide prorated port fees for the first month of service for new requests. By prorating the first month’s fees, the Exchange would charge equity members and options participants port fees only for the days in which the equity members and options participants are connected to the Exchange during the first month of service. The Exchange proposes to continue the current practice of charging port fees for the remainder of the month upon cancellation, with the exception of the specialized service fees in Equity 7, Section 115(e).³ If an equity member or options participant

---
starts and cancels service in the same month, the member or participant would not be
billed for those days prior to the service start date but would be billed for the remainder
of the month, including after the service is cancelled.4

The Exchange believes it is important for equity members and options
participants to have the option to establish new connections to the Exchange at any time
during the month without being hampered by a full month charge irrespective of when
during the month service begins. Moreover, other exchanges also charge new ports on a
prorated basis for the first month of service.5

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the
Act,6 in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,7 in
particular, in that it provides for the equitable allocation of reasonable dues, fees and
other charges among members and issuers and other persons using any facility, and is not
designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange’s proposed changes to its port fee schedule are reasonable in
several respects. As a threshold matter, the Exchange is subject to significant
competitive forces in the market for options and equity securities transaction services that

4 For example, if a member orders a port on September 4, 2022 and cancels the port
on September 16, 2022, the member would be charged the prorated port fee for

5 See, e.g., Cboe BZX U.S. Equities Exchange Fee Schedule, available at
Stock Exchange Price List 2022, available at

7 15 U.S.C. 78f(b)(4) and (5).
constrain its pricing determinations in that market. The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”

The Exchange believes that it is reasonable to prorate port fees for the first month of connectivity. As discussed above, the Exchange believes it is important for equity members and options participants to have the flexibility to establish new connections to the Exchange at any time during the month without being hampered by a full month charge. For example, the Exchange believes it is reasonable to charge a user who begins a subscription on the last day of the month to be charged only for use of a port for that day. As noted above, other exchanges already charge their customers for new ports on a prorated basis for the first month of service. The proposed language describing the Exchange’s practice to bill for the remainder of the month upon cancellation is intended only to clarify the existing practice and limit any confusion.

The Exchange believes that the proposal is also equitable and not unfairly discriminatory because the proposed change to prorate port fees for the first month of service and continue to charge for the remainder of the month upon cancellation will

---

9 Supra note 4.
apply uniformly to all similarly situated equity members and options participants. Removing the requirement to pay a full month’s port fee if a user joins any day other than the first of the month is user-friendly and provides users incentive to subscribe at their convenience. The Exchange believes that prorating the fees for the first month of a user’s subscription will ensure that the fees are more equitable to a user’s utilization of the products. All users will benefit from the proration of the first month of their subscription.

4. **Self-Regulatory Organization’s Statement on Burden on Competition**

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

**Intramarket Competition**

The Exchange does not believe that its proposal will place any category of Exchange participants at a competitive disadvantage. The proposed change to prorate port fees for the first month of service will apply uniformly to all similarly situated equity members and options participants. All users will receive the benefit of a proration for the first month of port connectivity, which will enable users to save money that they otherwise would incur under the Exchange’s current rules that do not provide for proration. The proposed language describing the Exchange’s practice to bill for the remainder of the month upon cancellation merely codifies and clarifies an existing practice of the Exchange.

**Intermarket Competition**

The Exchange believes that the proposed change to its port fee schedule to provide proration for the first month of port connectivity will not impose a burden on competition because the Exchange’s execution services are completely voluntary and
subject to extensive competition both from the other live exchanges and from off-exchange venues, which include alternative trading systems that trade national market system stock. Moreover, as noted above, other exchanges currently charge new ports on a prorated basis for the first month of service.\textsuperscript{10} The proposed changes will help ensure that the Exchange’s billing practices are commensurate with competitors.

The proposed change to the Exchange’s port fee schedule is reflective of this competition because, as a threshold issue, the Exchange is a relatively small market so its ability to burden intermarket competition is limited. In this regard, even the largest U.S. equities exchange by volume only has 17-18% market share, which in most markets could hardly be categorized as having enough market power to burden competition. Accordingly, the Exchange does not believe that the proposed change will impair the ability of members, participants, or competing order execution venues to maintain their competitive standing in the financial markets.

5. **Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others**

No written comments were either solicited or received.

6. **Extension of Time Period for Commission Action**

Not applicable.

7. **Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)**

Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend its Port-related Fees, at Equity 7, Section 115, and Options 7, Section 3

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)\(^1\), and Rule 19b-4 thereunder,\(^2\) notice is hereby given that on August 12, 2022, The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Exchange’s port-related fees, at Equity 7, Section 115, and Options 7, Section 3, as described further below.

While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on September 1, 2022.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend Equity 7, Section 115, and Options 7, Section 3, to prorate port fees for the first month of service. The Exchange also proposes to add language to Equity 7, Section 115, and Options 7, Section 3, to clarify that port fees for cancelled services will continue to be charged for the remainder of month.

Currently, the Exchange does not prorate port connectivity fees under either its equity or options rules. Thus, equity members and options participants are assessed a full month’s fee if they direct the Exchange to make the subscribed connectivity live on any day of the month, including the last day thereof. Equity members and options participants are also assessed a full month’s port fee if they cancel service during the month.

The Exchange proposes to provide prorated port fees for the first month of service for new requests. By prorating the first month’s fees, the Exchange would charge equity members and options participants port fees only for the days in which the equity members and options participants are connected to the Exchange during the first month.
of service. The Exchange proposes to continue the current practice of charging port fees for the remainder of the month upon cancellation, with the exception of the specialized service fees in Equity 7, Section 115(e).\(^3\) If an equity member or options participant starts and cancels service in the same month, the member or participant would not be billed for those days prior to the service start date but would be billed for the remainder of the month, including after the service is cancelled.\(^4\)

The Exchange believes it is important for equity members and options participants to have the option to establish new connections to the Exchange at any time during the month without being hampered by a full month charge irrespective of when during the month service begins. Moreover, other exchanges also charge new ports on a prorated basis for the first month of service.\(^5\)

2. **Statutory Basis**

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,\(^6\) in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,\(^7\) in

\(^4\) For example, if a member orders a port on September 4, 2022 and cancels the port on September 16, 2022, the member would be charged the prorated port fee for September 5, 2022 through September 30, 2022.

The Exchange’s proposed changes to its port fee schedule are reasonable in several respects. As a threshold matter, the Exchange is subject to significant competitive forces in the market for options and equity securities transaction services that constrain its pricing determinations in that market. The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”

prorated basis for the first month of service.\textsuperscript{9} The proposed language describing the Exchange’s practice to bill for the remainder of the month upon cancellation is intended only to clarify the existing practice and limit any confusion.

The Exchange believes that the proposal is also equitable and not unfairly discriminatory because the proposed change to prorate port fees for the first month of service and continue to charge for the remainder of the month upon cancellation will apply uniformly to all similarly situated equity members and options participants.

Removing the requirement to pay a full month’s port fee if a user joins any day other than the first of the month is user-friendly and provides users incentive to subscribe at their convenience. All users will benefit from the proration of the first month of their subscription.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Intramarket Competition

The Exchange does not believe that its proposal will place any category of Exchange participants at a competitive disadvantage. The proposed change to prorate port fees for the first month of service will apply uniformly to all similarly situated equity members and options participants. All users will receive the benefit of a proration for the first month of port connectivity, which will enable users to save money that they otherwise would incur under the Exchange’s current rules that do not provide for

proration. The proposed language describing the Exchange’s practice to bill for the remainder of the month upon cancellation merely codifies and clarifies an existing practice of the Exchange.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
