this market may impose any burden on competition is extremely limited. As discussed above, the Exchange’s historical Short Volume Reports offering is subject to direct competition from several other options exchanges that offer similar data products. Moreover, purchase of historical Short Volume Reports is optional. It is designed to help investors understand underlying market trends to improve the quality of investment decisions, but is not necessary to execute a trade.

The proposed rule changes are grounded in the Exchange’s efforts to compete more effectively. In this competitive environment, potential purchasers are free to choose which, if any, similar product to purchase to satisfy their need for market information. As a result, the Exchange believes this proposed rule change permits fair competition among national securities exchanges. Further, the Exchange believes that these changes will not cause any unnecessary or inappropriate burden on intermarket competition, as the proposed incentive program applies uniformly to any purchaser of historical Short Volume Reports.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act and paragraph (f) of Rule 19b–4 thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

eligible for Additional Tape C ETP Incentives.

In order to effectuate this proposed modification, the Exchange proposes to modify Equity 7, Section 114(f)(4) to indicate that the Additional Tape C ETP Incentives are for Primary DLPs and relatedly, update the performance criteria related to such rebates by adding “Primary” where DLP is referenced. In addition, the Exchange proposes to modify Equity 7, Section 114(f)(5) to specify, in both the introductory language as well as in Section 114(f)(5)(B), that the DLP must be a Primary DLP to qualify for the Additional Tape C ETP Incentives.

The Exchange believes it is appropriate to update the Tape C ETP Incentives to apply solely to Primary DLPs because Primary DLPs bear the majority of the responsibility for providing high quality markets in the ETFs, whereas Secondary DLPs provide additional support. In return for serving as Primary DLPs, the Exchange believes it is appropriate to compensate Primary DLPs with incentives reserved for Primary DLPs. The Exchange has limited resources to devote to incentive programs, and it is appropriate for the Exchange to reallocate these incentives periodically in a manner that best achieves the Exchange’s overall mix of objectives, including by maximizing the net impact of such incentives on the Exchange, market quality, and participants.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act, 15 U.S.C. 78f(b), and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act, 15 U.S.C. 78f(b)(4) and (5), in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers. The Exchange also notes that its ETP listing business operates in a highly competitive market market participants, which include both DLPs and ETP issuers, can readily transfer their listings or opt not to participate, respectively, if they deem fee levels, liquidity incentive programs, or any other factor at a particular venue to be insufficient or excessive. The DLP Program, including the proposed rule change, reflects a competitive pricing structure designed to incentivize issuers to list new products and transfer existing products to the Exchange and market participants to enroll and participate as DLPs on the Exchange.

The Exchange believes it is reasonable, equitable, and not unfairly discriminatory to limit the category of DLPs that may qualify for the Additional Tape C ETP Incentives to Primary DLPs. The Exchange believes it is appropriate to update the Tape C ETP Incentives to apply solely to Primary DLPs because Primary DLPs bear the majority of the responsibility for providing high quality markets in the ETFs, whereas the Secondary DLPs provide additional support. The Exchange has limited resources to devote to incentive programs, and it is appropriate for the Exchange to reallocate these incentives periodically in a manner that best achieves the Exchange’s overall mix of objectives. In return for serving as Primary DLPs, the Exchange believes it is appropriate to compensate Primary DLPs with incentives reserved exclusively for Primary DLPs. The Exchange believes that the proposed revisions to the Additional Tape C ETP Incentives are an equitable allocation and are not unfairly discriminatory because the Exchange will apply the same criteria for the Additional Tape C ETP Incentives to all Primary DLPs. The Exchange also believes that amending the DLP Program as proposed is an equitable allocation of rebates and is not unfairly discriminatory because it will allocate its rebates fairly among its market participants (i.e., the Exchange will offer more rebates to Primary DLPs that are responsible for providing high quality markets in the ETFs).

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem rebates or fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its rebates and fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own rebates and fees in
Commission may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
