3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The Exchange proposes to amend its Pricing Schedule at Options 7, Section 3, BX Options Market - Ports and other Services, to propose a limit on the number of SQF Ports a Market Maker may subscribe to in a month.

Currently, a BX Options Market Maker is assessed an SQF Port Fee of \$550 per port, per month. Currently, the Exchange has no limits in place on the number of SQF Ports a Market Maker may acquire in a month.

At this time, the Exchange proposes to limit a Market Maker to no more than 250 SQF Ports per month.<sup>5</sup> A Market Maker requires only one SQF Port to submit quotes in its assigned options series into BX. While a Market Maker may elect to obtain multiple SQF Ports to organize its business,<sup>6</sup> only one SQF Port is necessary for a Market Maker to fulfill its regulatory quoting obligations.<sup>7</sup> The Exchange utilizes ports as a secure

---

<sup>5</sup> The Exchange issued Options Technical Alert #2025-12 to announce the limitation.

<sup>6</sup> For example, a BX Options Market Maker may desire to utilize multiple SQF Ports for accounting purposes, to measure performance, for regulatory reasons or other determinations that are specific to that Participant.

<sup>7</sup> BX Options Market Makers have various regulatory requirements as provided for in Options 2, Section 4. Additionally, BX Options Market Makers have certain quoting requirements with respect to their assigned options series as provided in Options 2, Section 5. SQF Ports are the only quoting protocol available on BX and only Market Makers may utilize SQF Ports.

method for Participants to submit quotes into the Exchange's match engine and for the Exchange to send messages related to those quotes to Participants. In order to properly regulate its Participants and secure the trading environment, the Exchange has taken measures to ensure access is monitored and maintained with various controls. The Exchange believes that the proposed limit of 250 SQF Ports per month will permit the Exchange to obtain greater efficiencies by placing this overall limit on SQF Ports. The Exchange believes a limit of 250 SQF Ports provides it with the appropriate bandwidth to support future growth and new Market Makers entrants.<sup>8</sup>

The Exchange proposes to implement the 250 SQF Ports per month limit on August 1, 2025.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>9</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>10</sup> in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest.

The Exchange's proposal to limit a Market Maker to no more than 250 SQF Ports per month is consistent with the Act because it will allow the Exchange to obtain greater efficiencies in its overall connectivity management. The Exchange utilizes ports as a

secure method for Participants to submit quotes into the Exchange's match engine and for the Exchange to send messages related to those quotes to Participants. Only BX Participants who are approved as Market Makers may utilize an SQF Port. Once approved, BX Options Market Makers may subscribe to SQF Ports to submit quotes into the Exchange. While a Market Maker may elect to obtain multiple SQF Ports to organize its business,<sup>11</sup> only one SQF Port is necessary for a Market Maker to fulfill its regulatory quoting obligations.<sup>12</sup> Today, most Market Makers are in possession of several SQF Ports, and amend the number of SQF Ports from time to time. In fact, not all SQF Ports are actively used by Market Makers. In order to properly regulate its Participants and secure the trading environment, the Exchange has taken measures to ensure access is monitored and maintained with various controls that will protect investors and the public interest. Specifically, the Exchange ensures that information security safeguards, upgrades, and general port management are in effect for all SQF Ports regardless of whether the SQF Port is actively in use. As a result of these efforts, the Exchange incurs costs to manage and maintain its SQF Ports and the secure environment surrounding its platform.

The Exchange's proposal is intended to permit it to govern its connectivity management in a reasonable manner while protecting investors and the general public by obtaining greater efficiencies with the limit on SQF Ports. The Exchange believes that its proposal is consistent with the Act in that it will provide the Exchange the ability to maintain the appropriate bandwidth to support future growth and new Market Makers

<sup>12</sup> See supra note 7.

entrants thereby removing impediments to and perfect the mechanism of a free and open market.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

In terms of intra-market competition, the Exchange does not believe that its proposal will place any category of market participant at a competitive disadvantage because all Market Makers will uniformly be permitted to subscribe to no more than 250 SQF Ports per month. Today, no Market Maker has exceeded 250 SQF Ports.

The Exchange does not believe that its proposal will place an undue burden on intra-market competition because any exchange may elect to adopt a similar limit.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)<sup>13</sup> of the Act and Rule 19b-4(f)(6) thereunder<sup>14</sup> in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii)

<sup>13</sup> 15 U.S.C. 78s(b)(3)(A)(iii).

<sup>14</sup> 17 CFR 240.19b-4(f)(6).

does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange's proposal does not significantly affect the protection of investors or the public interest, rather the proposal will permit the Exchange to govern its connectivity management in a reasonable manner by obtaining greater efficiencies with the limit on SQF Ports, thereby providing the Exchange the ability to maintain the appropriate bandwidth to support future growth and new Market Makers. The Exchange's proposal does not impose any significant burden on competition as all Market Makers will uniformly be permitted to subscribe to no more than 250 SQF Ports per month.

Furthermore, Rule 19b-4(f)(6)(iii)<sup>15</sup> requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice. The Exchange originally filed the proposed amendment to the Exchange's Pricing Schedule on July 11, 2025 and therefore has provided notice to the Commission of the proposed change.<sup>16</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the

protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) so that the Exchange may implement the proposal on August 1, 2025 as originally intended. The Exchange notes that BX does not prorate SQF Port Fees and, therefore, the Exchange requests that the Commission waive the operative delay so that the 250 SQF Port Fee limit may be in place at the beginning of the month so that the Exchange can manage billing for its Participants.

Immediate-or-Cancel Orders entered into SQF are not subject to the Order Price Protection, Market Order Spread Protection, or Size Limitation Protection in Options 3, Section 15(a)(1), (a)(2), and (b)(2) respectively. A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Pricing Schedule at Options 7, Section 3, BX Options Market - Ports and other Services, to propose a limit on the number of SQF Ports a Market Maker may subscribe to in a month.

Currently, a BX Options Market Maker is assessed an SQF Port Fee of \$550 per port, per month. Currently, the Exchange has no limits in place on the number of SQF Ports a Market Maker may acquire in a month.

At this time, the Exchange proposes to limit a Market Maker to no more than 250 SQF Ports per month.<sup>5</sup> A Market Maker requires only one SQF Port to submit quotes in its assigned options series into BX. While a Market Maker may elect to obtain multiple SQF Ports to organize its business,<sup>6</sup> only one SQF Port is necessary for a Market Maker to fulfill its regulatory quoting obligations.<sup>7</sup> The Exchange utilizes ports as a secure method for Participants to submit quotes into the Exchange's match engine and for the Exchange to send messages related to those quotes to Participants. In order to properly regulate its Participants and secure the trading environment, the Exchange has taken measures to ensure access is monitored and maintained with various controls. The Exchange believes that the proposed limit of 250 SQF Ports per month will permit the

<sup>5</sup> The Exchange issued Options Technical Alert #2025-12 to announce the limitation.

<sup>6</sup> For example, a BX Options Market Maker may desire to utilize multiple SQF Ports for accounting purposes, to measure performance, for regulatory reasons or other determinations that are specific to that Participant.

<sup>7</sup> BX Options Market Makers have various regulatory requirements as provided for in Options 2, Section 4. Additionally, BX Options Market Makers have certain quoting requirements with respect to their assigned options series as provided in Options 2, Section 5. Exchange to obtain greater efficiencies by placing this overall limit on SQF Ports. The Exchange believes a limit of 250 SQF Ports provides it with the appropriate bandwidth to support future growth and new Market Makers entrants.<sup>8</sup>

The Exchange proposes to implement the 250 SQF Ports per month limit on August 1, 2025.

## 2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>9</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>10</sup> in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest.

The Exchange's proposal to limit a Market Maker to no more than 250 SQF Ports per month is consistent with the Act because it will allow the Exchange to obtain greater efficiencies in its overall connectivity management. The Exchange utilizes ports as a secure method for Participants to submit quotes into the Exchange's match engine and for the Exchange to send messages related to those quotes to Participants. Only BX Participants who are approved as Market Makers may utilize an SQF Port. Once approved, BX Options Market Makers may subscribe to SQF Ports to submit quotes into the Exchange. While a Market Maker may elect to obtain multiple SQF Ports to organize

its business,<sup>11</sup> only one SQF Port is necessary for a Market Maker to fulfill its regulatory quoting obligations.<sup>12</sup> Today, most Market Makers are in possession of several SQF Ports, and amend the number of SQF Ports from time to time. In fact, not all SQF Ports are actively used by Market Makers. In order to properly regulate its Participants and secure the trading environment, the Exchange has taken measures to ensure access is monitored and maintained with various controls that will protect investors and the public interest. Specifically, the Exchange ensures that information security safeguards, upgrades, and general port management are in effect for all SQF Ports regardless of whether the SQF Port is actively in use. As a result of these efforts, the Exchange incurs costs to manage and maintain its SQF Ports and the secure environment surrounding its platform.

The Exchange's proposal is intended to permit it to govern its connectivity management in a reasonable manner while protecting investors and the general public by obtaining greater efficiencies with the limit on SQF Ports. The Exchange believes that its proposal is consistent with the Act in that it will provide the Exchange the ability to maintain the appropriate bandwidth to support future growth and new Market Makers entrants thereby removing impediments to and perfect the mechanism of a free and open market.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the

Act.

In terms of intra-market competition, the Exchange does not believe that its proposal will place any category of market participant at a competitive disadvantage because all Market Makers will uniformly be permitted to subscribe to no more than 250 SQF Ports per month. Today, no Market Maker has exceeded 250 SQF Ports.

The Exchange does not believe that its proposal will place an undue burden on intra-market competition because any exchange may elect to adopt a similar limit.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act<sup>13</sup> and subparagraph (f)(6) of Rule 19b-4 thereunder.<sup>14</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the

The Exchange has satisfied this requirement.

Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
