1. Text of the Proposed Rule Change

(a) NASDAQ OMX PHLX LLC (“Phlx” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² proposes to amend the Customer Rebate Program in Section B of the Pricing Schedule.

While the changes proposed herein are effective upon filing, the Exchange has designated that the amendments be operative on November 1, 2013.

A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1 and a copy of the applicable portion of the Exchange’s Pricing Schedule is attached hereto as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

Exchange staff will advise the Board of Directors of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the rule change.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The Exchange proposes to lower certain rebate tier percentage thresholds in the “Customer Rebate Program,” in Section B of the Pricing Schedule to provide members a greater opportunity to receive Customer rebates.

Currently, the Exchange has a Customer Rebate Program consisting of four tiers which pays Customer rebates on two Categories, A³ and B,⁴ of transactions.⁵ A Phlx member qualifies for a certain rebate tier based on the percentage of total national customer volume in multiply-listed options which it transacts monthly on Phlx. The Exchange calculates Customer volume in Multiply Listed Options by totaling electronically-delivered and executed volume, except volume associated with electronic Qualified Contingent Cross (“QCC”) Orders,⁶ as defined in Exchange Rule 1080(o).⁷

³ Category A rebates are paid to members executing electronically-delivered Customer Simple Orders in Penny Pilot Options and Customer Simple Orders in Non-Penny Pilot Options in Section II of the Pricing Schedule. Rebates are paid on Customer PIXL Orders in Section II symbols that execute against non-Initiating Order interest, except in the case of Customer PIXL Orders that are greater than 999 contracts. All Customer PIXL Orders that are greater than 999 contracts are paid a rebate regardless of the contra party to the transaction.

⁴ Category B rebates are paid to members executing electronically-delivered Customer Complex Orders in Penny Pilot Options and Non-Penny Pilot Options in Section II. Rebates are paid on Customer PIXL Complex Orders in Section II symbols that execute against non-Initiating Order interest, except in the case of Customer PIXL Complex Orders that are greater than 999 contracts. All Customer PIXL Complex Orders that are greater than 999 contracts are paid a rebate regardless of the contra-party to the transaction.

⁵ See Section B of the Pricing Schedule.

⁶ A QCC Order is comprised of an order to buy or sell at least 1000 contracts that is identified as being part of a qualified contingent trade, as that term is defined in Rule 1080(o)(3), coupled with a contra-side order to buy or sell an equal number of contracts.

The Exchange pays the following rebates:⁸

Customer Rebate Tiers	Percentage Thresholds of National Customer Volume in Multiply-Listed Equity and ETF Options Classes, excluding SPY Options (Monthly)	Category A	Category B
Tier 1	0.00% - 0.75%	\$0.00	\$0.00
Tier 2	Above 0.75% - 1.60%	\$0.12	\$0.17
Tier 3	Above 1.60% - 2.60%	\$0.14	\$0.17
Tier 4	Above 2.60%	\$0.15	\$0.17

The Exchange is proposing to amend the percentage threshold of national customer volume in multiply-listed options in Tier 3 from “Above 1.60% - 2.60%” to “Above 1.60% - 2.50%.” The Exchange also proposes to amend the Tier 4 percentage threshold from “Above 2.60%” to “Above 2.50%.” The Exchange believes that by

The QCC Order must be executed at a price at or between the National Best Bid and Offer and be rejected if a Customer order is resting on the Exchange book at the same price. A QCC Order shall only be submitted electronically from off the floor to the PHLX XL II System. See Rule 1080(o). See also Securities Exchange Act Release No. 64249 (April 7, 2011), 76 FR 20773 (April 13, 2011) (SR-Phlx-2011-47) (a rule change to establish a QCC Order to facilitate the execution of stock/option Qualified Contingent Trades (“QCTs”) that satisfy the requirements of the trade through exemption in connection with Rule 611(d) of the Regulation NMS).

⁷ Members and member organizations under common ownership may aggregate their Customer volume for purposes of calculating the Customer Rebate Tiers and receiving rebates. Common ownership means members or member organizations under 75% common ownership or control.

⁸ SPY is included in the calculation of Customer volume in Multiply Listed Options that are electronically-delivered and executed for purposes of the Customer Rebate Program, however, the rebates do not apply to electronic executions in SPY.

lowering the percentage threshold in Tier 4 to 2.50%, as well as shortening the Tier 3 rebate at 2.50%, a greater number of market participants may qualify for Tier 4 Customer rebates and this will encourage market participants to direct a greater number of Customer orders to the Exchange.

b. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁹ in general, and with Section 6(b)(4) and 6(b)(5) of the Act,¹⁰ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that its proposal to lower the Tier 4 percentage threshold is reasonable because a greater number of market participants may qualify for the Tier 4 rebates. Tier 4 pays higher Category A rebates as compared to Tier 3 Category A rebates. Today, a Phlx member that qualified for a Tier 3 rebate would receive a Customer rebate of \$0.14 per contract in Category A. That same member would receive a \$0.15 per contract Category A rebate with this proposal if the member were to transact volume greater than 2.50% of total national customer volume in multiply-listed options in a month. The Exchange believes that lowering the Tier 4 rebate, thereby shortening the Tier 3 rebate at 2.50%, would cause members to direct an even greater number of Customer orders to the Exchange to qualify for the higher Tier 4 Category A rebate. The

⁹ 15 U.S.C. 78f.

proposal would not impact a market participant that currently qualifies for a Tier 3 Category B rebate because both Tiers 3 and 4 pay a Category B Customer rebate of \$0.17 per contract.

The Exchange believes that its proposal to lower the Tier 4 percentage threshold, thereby shortening the Tier 3 rebate at 2.50%, is equitable and not unfairly discriminatory because it will be applied to all market participants in a uniform matter. Any market participant is eligible to receive the rebate provided they transact a qualifying amount of electronic Customer volume.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose an undue burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the Customer Rebate Program will continue to encourage Customer order flow to be directed to the Exchange. By incentivizing members to route Customer orders, the Exchange desires to attract liquidity to the Exchange, which in turn benefits all market participants. All market participants are eligible to qualify for a Customer Rebate.

The Exchange believes the proposed amendment would allow a greater number of market participants to qualify for Tier 4 Customer rebates. The Exchange believes this pricing amendment does not impose a burden on competition but rather that the proposed rule change will continue to promote competition on the Exchange.

The Exchange operates in a highly competitive market, comprised of twelve options exchanges, in which market participants can easily and readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or

rebates to be inadequate. Accordingly, the fees that are assessed and the rebates paid by the Exchange described in the above proposal are influenced by these robust market forces and therefore must remain competitive with fees charged and rebates paid by other venues and therefore must continue to be reasonable and equitably allocated to those members that opt to direct orders to the Exchange rather than competing venues.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A)(ii) of the Act,¹¹ the Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

Self-Regulatory Organizations; NASDAQ OMX PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to the Customer Rebate Program

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 31, 2013, NASDAQ OMX PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Customer Rebate Program in Section B of the Pricing Schedule.

While the changes proposed herein are effective upon filing, the Exchange has designated that the amendments be operative on November 1, 2013.

The text of the proposed rule change is available on the Exchange’s Website at <http://nasdaqomxphlx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to lower certain rebate tier percentage thresholds in the “Customer Rebate Program,” in Section B of the Pricing Schedule to provide members a greater opportunity to receive Customer rebates.

Currently, the Exchange has a Customer Rebate Program consisting of four tiers which pays Customer rebates on two Categories, A³ and B,⁴ of transactions.⁵ A Phlx

All Customer PIXL Orders that are greater than 999 contracts are paid a rebate regardless of the contra party to the transaction.

⁴ Category B rebates are paid to members executing electronically-delivered Customer Complex Orders in Penny Pilot Options and Non-Penny Pilot Options in Section II. Rebates are paid on Customer PIXL Complex Orders in Section II symbols that execute against non-Initiating Order interest, except in the case of Customer PIXL Complex Orders that are greater than 999 contracts. member qualifies for a certain rebate tier based on the percentage of total national customer volume in multiply-listed options which it transacts monthly on Phlx. The Exchange calculates Customer volume in Multiply Listed Options by totaling electronically-delivered and executed volume, except volume associated with electronic Qualified Contingent Cross (“QCC”) Orders,⁶ as defined in Exchange Rule 1080(o).⁷ The Exchange pays the following rebates:⁸

Customer Rebate Tiers	Percentage Thresholds of National Customer Volume in Multiply-Listed Equity and ETF Options Classes, excluding SPY Options (Monthly)	Category A	Category B
Tier 1	0.00% - 0.75%	\$0.00	\$0.00

⁵ See Section B of the Pricing Schedule.

⁶ A QCC Order is comprised of an order to buy or sell at least 1000 contracts that is identified as being part of a qualified contingent trade, as that term is defined in Rule 1080(o)(3), coupled with a contra-side order to buy or sell an equal number of contracts. The QCC Order must be executed at a price at or between the National Best Bid and Offer and be rejected if a Customer order is resting on the Exchange book at the same price. A QCC Order shall only be submitted electronically from off the floor to the PHLX XL II System. See Rule 1080(o). See also Securities Exchange Act Release No. 64249 (April 7, 2011), 76 FR 20773 (April 13, 2011) (SR-Phlx-2011-47) (a rule change to establish a QCC Order to facilitate the execution of stock/option Qualified Contingent Trades (“QCTs”) that satisfy the requirements of the trade through exemption in connection with Rule 611(d) of the Regulation NMS).

⁷ Members and member organizations under common ownership may aggregate their Customer volume for purposes of calculating the Customer Rebate Tiers and receiving rebates. Common ownership means members or member organizations under 75% common ownership or control.

Tier 2	Above 0.75% - 1.60%	\$0.12	\$0.17
Tier 3	Above 1.60% - 2.60%	\$0.14	\$0.17
Tier 4	Above 2.60%	\$0.15	\$0.17

The Exchange is proposing to amend the percentage threshold of national customer volume in multiply-listed options in Tier 3 from “Above 1.60% - 2.60%” to “Above 1.60% - 2.50%.” The Exchange also proposes to amend the Tier 4 percentage threshold from “Above 2.60%” to “Above 2.50%.” The Exchange believes that by lowering the percentage threshold in Tier 4 to 2.50%, as well as shortening the Tier 3 rebate at 2.50%, a greater number of market participants may qualify for Tier 4 Customer rebates and this will encourage market participants to direct a greater number of Customer orders to the Exchange.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁹ in general, and with Section 6(b)(4) and 6(b)(5) of the Act,¹⁰ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that its proposal to lower the Tier 4 percentage threshold is reasonable because a greater number of market participants may qualify for the Tier 4

rebates. Tier 4 pays higher Category A rebates as compared to Tier 3 Category A rebates. Today, a Phlx member that qualified for a Tier 3 rebate would receive a Customer rebate of \$0.14 per contract in Category A. That same member would receive a \$0.15 per contract Category A rebate with this proposal if the member were to transact volume greater than 2.50% of total national customer volume in multiply-listed options in a month. The Exchange believes that lowering the Tier 4 rebate, thereby shortening the Tier 3 rebate at 2.50%, would cause members to direct an even greater number of Customer orders to the Exchange to qualify for the higher Tier 4 Category A rebate. The proposal would not impact a market participant that currently qualifies for a Tier 3 Category B rebate because both Tiers 3 and 4 pay a Category B Customer rebate of \$0.17 per contract.

The Exchange believes that its proposal to lower the Tier 4 percentage threshold, thereby shortening the Tier 3 rebate at 2.50%, is equitable and not unfairly discriminatory because it will be applied to all market participants in a uniform matter. Any market participant is eligible to receive the rebate provided they transact a qualifying amount of electronic Customer volume.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose an undue burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the Customer Rebate Program will continue to encourage Customer order flow to be directed to the Exchange. By incentivizing members to route Customer orders, the Exchange desires to attract liquidity to the Exchange, which in turn benefits all market participants. All market participants are

eligible to qualify for a Customer Rebate.

The Exchange believes the proposed amendment would allow a greater number of market participants to qualify for Tier 4 Customer rebates. The Exchange believes this pricing amendment does not impose a burden on competition but rather that the proposed rule change will continue to promote competition on the Exchange.

The Exchange operates in a highly competitive market, comprised of twelve options exchanges, in which market participants can easily and readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or rebates to be inadequate. Accordingly, the fees that are assessed and the rebates paid by the Exchange described in the above proposal are influenced by these robust market forces and therefore must remain competitive with fees charged and rebates paid by other venues and therefore must continue to be reasonable and equitably allocated to those members that opt to direct orders to the Exchange rather than competing venues.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹¹ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the

Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

Members and member organizations under Common Ownership may aggregate their Customer volume for purposes of calculating the Customer Rebate Tiers and receiving rebates.
