[Release No. 34-69555; File No. SR-Phlx-2013-45]

**Self-Regulatory Organizations; NASDAQ OMX PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Pricing for Mini Options**

May 10, 2013.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup>, and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on April 29, 2013, NASDAQ OMX PHLX LLC ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change**

The Exchange proposes to amend Section A of the Exchange's Pricing Schedule entitled "Mini Options Fees". While changes to the Pricing Schedule pursuant to this proposal are effective upon filing, the Exchange has designated that they become operative on May 1, 2013.

The text of the proposed rule change is available on the Exchange's Web site at <http://nasdaqomxphlx.com>.

[cchwallstreet.com](http://cchwallstreet.com), at the principal office of the Exchange, and at the Commission's Public Reference Room.

**II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

**A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

**1. Purpose**

The purpose of the proposed rule change is to amend Section A of the Pricing Schedule by updating various existing transaction fees for Non-Customers for both adding and removing liquidity. Additionally, the proposed rule change will also establish fees and rebates applicable for order executions that are part of PIXL.<sup>3</sup>

Specifically, the Exchange is proposing to assess market participants on a per trade basis the following fees and rebates on Mini Options:

	Customer	Professional	Specialist and market maker	Broker-dealer	Firm
Mini Options Transaction Fee—Electronic Adding Liquidity	\$0.00	\$0.03	\$0.02	\$0.03	\$0.03
Mini Options Transaction Fee—Electronic Removing Liquidity	0.00	0.09	0.04	0.09	0.09
Mini Options Transaction Fee—Floor and QCC	0.00	0.09	0.09	0.09	0.09

Additionally, for executions that occur as part of PIXL, the following fees and rebates will apply: (i) Initiating Order: \$0.015 per contract; (ii) PIXL Order (contra-party to the Initiating Order): Customer is \$0.00 and all others will be assessed will be assessed a transaction fee of \$0.03 per contract; and (iii) PIXL Order (contra-party to other than the Initiating Order): Customer will be assessed a transaction fee of \$0.00 and all others will be assessed a transaction fee of \$0.03 per contract (the contra-party will be

assessed a transaction fee of \$0.03 per contract).

PFOF fees will be as follows: (i) Penny Pilot Options: \$0.02; and (ii) all Other Options: \$0.06. Also, Routing Fees set forth in Section V will now apply to Mini Options. Other options transaction fee caps, discounts or rebates, in addition to the Monthly Market Maker Cap and the Monthly Firm Fee Cap set forth in Section II that already do not apply to transactions in Mini Options, also now will not apply to transactions in Mini Options. Finally, Mini Options volume will now be

included in the calculations for the Customer Rebate Program eligibility, but will not be eligible to receive the rebates associated with the Customer Rebate Program.

**Transaction Fees.** Section A provides for a "Mini Options Transaction Fee—Electronic" and for a "Mini-Options Transaction Fee—Floor and QCC", both of which apply in the Customer, Professional, Specialist and Market Maker, Broker-Dealer and Firm fee categories. As noted in a previous filing, "the Exchange is currently setting these fees at \$0.00 but may in the future file

proposed rule changes to amend the transaction fee level in one or more categories.”<sup>4</sup> The Exchange now seeks to amend the transaction fee level in several categories and, specifically, separate the “Mini Options Transaction Fee—Electronic” into two distinct fee categories, “Mini Options Transaction Fee—Electronic Adding Liquidity” and “Mini Options Transaction Fee—Electronic Removing Liquidity”.

The “Mini Options Transaction Fee—Electronic Adding Liquidity” for Professionals, Broker-Dealers, and Firms will increase from \$0.00 to \$0.03 per contract. This same transaction fee for Specialists and Market Makers will increase from \$0.00 to \$0.02 per contract, while for Customers it will remain \$0.00.

The “Mini Options Transaction Fee—Electronic Removing Liquidity” for Professionals, Broker-Dealers, and Firms will increase from \$0.00 to \$0.09 per contract. This same transaction fee for Specialists and Market Makers will increase from \$0.00 to \$0.04 per contract, while for Customers it will remain \$0.00.

The “Mini Options Transaction Fee—Floor and QCC” for Professionals, Specialists and Market Makers, Broker-Dealers, and Firms will increase from \$0.00 to \$0.09 per contract. This same transaction fee for Customers will remain \$0.00.

**PIXL Executions.** For order executions that are part of PIXL, certain new fees will apply. Initiating Orders will be \$0.15 per contract [sic]. PIXL Orders (contra-party to the Initiating Order) will be \$0.00 for Customers and all others will be assessed a transaction fee of \$0.03 per contract. For PIXL Orders (contra-party to other than the Initiating Order) Customers will be assessed a transaction fee of \$0.00 and all others will be assessed a transaction fee of \$0.03 per contract. The contra-party will be assessed a transaction fee of \$0.03 per contract.

**Payment for Order Flow.** PFOF will now apply to Mini Options and will be \$0.02 per contract for Penny Pilot Options and \$0.06 for all other options.<sup>5</sup>

<sup>5</sup> The Payment for Order Flow program started on July 1, 2005 as a pilot and after a series of orders extending the pilot became effective on April 29, 2012. See Securities Exchange Act Release No. 52114 (July 22, 2005), 70 FR 44138 (August 1, 2005) (SR-Phlx-2005-44); 57851 (May 22, 2008), 73 FR 31177 (May 20, 2008) (SR-Phlx-2008-38); 55891 (June 11, 2007), 72 FR 333271 (June 15, 2007) (SR-Phlx-2007-39); 53754 (May 3, 2006), 71 FR 27301 (May 10, 2006) (SR-Phlx-2006-25); 53078 (January

**Routing Fees.** Routing fees set forth in Section V will now apply to Mini Options.

**Fee Caps.** In addition to the Monthly Market Maker Cap and the Monthly Firm Fee Cap set forth in Section II that do not apply to transactions in Mini Options, neither will other transaction fee caps, discounts or rebates.

**Customer Rebate Program.** Also, Mini Options volume will now be included in the calculations for the Customer Rebate Program eligibility, but will not be eligible to receive the rebates associated with the Customer Rebate Program. However, by including Mini Options volume in the calculations for the Customer Rebate Program eligibility, members have the ability to earn additional rebates because they can add this volume to other eligible volume for purposes of qualifying for a rebate tier in Section B of the Pricing Schedule.

## 2. Statutory Basis

The Exchange believes that its proposal to amend its Pricing Schedule is consistent with Section 6(b) of the Act<sup>6</sup> in general, and furthers the objectives of Section 6(b)(4) of the Act<sup>7</sup> in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members and other persons using its facilities.

**Transaction Fees.** The Exchange believes that for Customers the proposed Mini Options Transaction Fee—Electronic Adding Liquidity, Mini Options Transaction Fee—Electronic Removing Liquidity, and Mini Options Transaction Fee—Floor and QCC, as well as the fees and rebates applicable for executions that occur as part of PIXL, are reasonable because those fees are set at zero in order to encourage Customers to transact Mini Options.

The Exchange also believes that the Mini Options Transaction Fee—Electronic Adding Liquidity, the Mini Options Transaction Fee—Electronic Removing Liquidity, and the Mini Options Transaction Fee—Floor and QCC are reasonable, equitable and not unfairly discriminatory because while all Customers will be able to take advantage of the zero fee level, all Professionals, Broker-Dealers, and Firms will all pay the identical per contract transaction fees (\$0.03, \$0.09 and \$0.09, respectively) and will therefore be treated in a uniform manner. Specialists and Market Makers will also pay the

<sup>7</sup> 15 U.S.C. 78f(b)(4).

identical Mini Options Transaction Fee—Floor and QCC of \$0.09 per contract and will therefore also be treated in a uniform manner.

Specialists and Market Makers will pay a lower Mini Options Transaction Fee—Electronic Adding Liquidity and a lower Mini Options Transaction Fee—Electronic Removing Liquidity fees of \$0.02 and \$0.04 per contract, respectively. These lower fees are reasonable, equitable and not unfairly discriminatory because Specialists and Market Makers have obligations to the market and regulatory requirements, which normally do not apply to other market participants. They have obligations to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings. The proposed differentiation as between Specialists and Market Makers, Customers and other market participants recognizes the differing contributions made to the liquidity and trading environment on the Exchange by these market participants.

The fees are also reasonable in light of the fact that the Mini Options do have a smaller exercise and assignment value, specifically 1/10th that of a standard contract, and, as such, levying fees that are approximately 10% of what a market participant pays today is reasonable and equitable. The Exchange's cost to process quotes, orders and trades in Mini Options is the same as for standard options, supporting the proposed floor and remove liquidity transaction fees for other than Customer. However, the Exchange believes it is necessary to keep fees to provide liquidity lower than the fees for removing liquidity to create appropriate economics to ensure there is ample liquidity for market participants to execute against.

**PIXL Executions.** The Exchange's proposal to charge the following new fees for order executions that are part of PIXL is reasonable. Specifically, Initiating Orders will be \$0.015 per contract. PIXL Orders (contra-party to the Initiating Order) will be \$0.00 for Customers and all others will be assessed a transaction fee of \$0.03 per contract. For PIXL Orders (contra-party to other than the Initiating Order) Customers will be assessed a transaction fee of \$0.00 and all others will be assessed a transaction fee of \$0.03 per contract. The contra-party will be assessed a transaction fee of \$0.03 per contract.

Generally, these fees range from slightly more than, to slightly less than,

10% of what the various market participants pay today. Charging all market participants the same fee for Initiating Orders is equitable and not unfairly discriminatory because it applies to all market participants equally. The transaction fee for PIXL Orders (contra-party to the Initiating Order) and for PIXL Orders (contra-party to other than the Initiating Order) are equitable and not unfairly discriminatory because they apply to all market participants, other than Customers, equally and uniformly.

It is equitable and not unfairly discriminatory to not charge Customers a transaction fee for PIXL Orders (contra-party to the Initiating Order) or for PIXL Orders (contra-party to other than the Initiating Order) because the Exchange believes it helps attract Customers, which is beneficial to all other market participants on the Exchange who generally seek to trade with Customer order flow.

*Payment for Order Flow Fees.* The Exchange believes that it is reasonable that the PFOF fees will now apply to Mini Options at a rate of \$0.02 per contract for Penny Pilot Options and \$0.06 for all other options. The Exchange also believes that this proposal is equitable and not unfairly discriminatory as it applies to all of market participants equally. Further, the proposed PFOF fees are similar to those already established at other market centers.<sup>8</sup>

The fees are also reasonable in light of the fact that the Mini Options do have a smaller exercise and assignment value, specifically 1/10th that of a standard contract, and, as such, levying fees that are approximately 10% of what a market participant pays today is reasonable and equitable. The Exchange's cost to process quotes, orders and trades in Mini Options is the same as for standard options.

*Routing Fees.* The Exchange believes that it is reasonable, equitable and not unfairly discriminatory that the routing fees set forth in Section V will now apply to Mini Options. These fees are reasonable because they will allow the Exchange to recoup and cover its costs of providing routing services for Customer orders in Mini Options just as it does for other standard equity options for which it incurs the same costs.

The Exchange believes that Routing Fees are equitable and not unfairly discriminatory because the Exchange would uniformly assess the same Routing Fees to all Customers and Non-Customers, and because market

participants have the ability to directly route orders in Mini Options to an away market and avoid the Routing Fee.

Market participants may submit orders to the Exchange as ineligible for routing or "DNR" to avoid Routing Fees.

Finally, the Exchange believes that it is reasonable, equitable and not unfairly discriminatory to assess different fees for Customers orders as compared to non-Customer orders because the Exchange has traditionally assessed lower fees to Customers as compared to non-Customers. Customers will continue to receive the lowest fees or no fees when routing orders, as is the case today. Other options exchanges also assess lower Routing Fees for customer orders as compared to non-customer orders in standard options.<sup>9</sup>

*Fee Caps.* The Exchange has previously stated that it believes that it is reasonable, equitable and not unfairly discriminatory to not apply the Monthly Market Maker Cap or Monthly Firm Fee Cap to Mini Options transaction fees<sup>10</sup> and now seeks to clarify that other options transaction fee caps, discounts or rebates will also not apply to transactions in Mini Options and that this equitable and not unfairly discriminatory because this applies to all market participants equally and uniformly.

*Customer Rebate Program.* The Customer Rebate Program was established to incentivize market participants to increase the amount of Customer order flow they transact on the Exchange.<sup>11</sup> The Exchange believes that it is reasonable, equitable and not unfairly discriminatory that Mini Options volume will be included in, but will not be eligible for the Customer Rebate Program defined in Section B of the Pricing Schedule. However, by including Mini Options volume in the calculations for the Customer Rebate Program eligibility, members have the ability to earn additional rebates from standard contracts because they can add this volume to other eligible volume for purposes of qualifying for a rebate tier in Section B of the Pricing Schedule. It is reasonable, equitable and not unfairly discriminatory since any market participant is eligible for a tier, which means that more eligible volume equals

more ways for a market participant to earn a rebate.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange operates in a highly competitive market, comprised of eleven exchanges, in which market participants can easily and readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or rebates to be inadequate. Accordingly, the fees that are assessed and the rebates paid by the Exchange described in the above proposal are influenced by these robust market forces and therefore must remain competitive with fees charged and rebates paid by other venues and therefore must continue to be reasonable and equitably allocated to those members that opt to direct orders to the Exchange rather than competing venues.

The Mini Options are a new product that will commence trading on the Exchange on March 28, 2013. The Exchange believes that incentivizing market participants to transact Mini Options by not assessing transaction fees and certain other fees encourages competition in these products. There is no intra-market competition as the Exchange will treat all market participants in a like manner with respect to the transaction fees. Also, the Exchange believes that because other markets will also list Mini Options there is no undue burden on intermarket competition because market participants will be able to select the venue where they will trade these products. In terms of Routing, the Exchange believes that assessing Customers lower fees as compared to Non-Customers and assessing the same Routing Fees to all Non-Customers regardless of the venue does not create an undue burden on competition. The Exchange has traditionally assessed no or lower fees to Customers. Also, the Exchange believes that because Mini Options represent 1/10th of the size of a standard option contract, reduced Routing Fees will not misalign the cost to transact Mini Options.

### III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.<sup>12</sup> At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

### IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-69558; File No. SR-CBOE-2013-035]

### Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Order Approving Proposed Rule Change Relating to Exchange Trading Days and Hours of Business and Trading Halts

May 10, 2013.

#### I. Introduction

On March 11, 2013, Chicago Board Options Exchange, Incorporated ("Exchange" or "CBOE") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1)<sup>1</sup> of the Securities Exchange Act of 1934 ("Act"),<sup>2</sup> and Rule 19b-4 thereunder,<sup>3</sup> a proposed rule change to amend Rules 6.1 (Days and Hours of Business) and 6.3 (Trading Halts). The proposed rule change was published for comment in the **Federal Register** on March 29, 2013.<sup>4</sup> The Commission received no comment letters on the proposal. This order approves the proposed rule change.

#### II. Description of the Proposal

As further described below, the Exchange proposes to amend various CBOE rules that govern the ability of the Exchange to open and/or halt the

trading of an option. Currently, those rules are tied to whether the "primary market" for the underlying security opens or halts trading. The primary focus of the Exchange's proposal is to allow it to be able to open for trading even if the primary market for the underlying security is not open for trading as well as to allow it to halt trading even if the primary market does not halt (because it is not open for trading).

*Changes to Rule 6.1 (Days and Hours of Business).* Exchange Rule 6.1 provides that no Trading Permit Holder ("TPH") "shall make any bid, offer, or transaction on the Exchange before or after" business hours. The Exchange proposes to delete this language because it states that the current language is obsolete. According to the Exchange, the provision is obsolete because TPHs now have the ability to submit information in the electronic system outside of business hours.<sup>5</sup>

Exchange Rule 6.1.01 currently provides that the hours during which transactions in options on individual stocks may be made "shall correspond to the normal hours for business set forth in the rules of the primary exchange listing the stocks underlying CBOE options." The Exchange proposes to amend Exchange Rule 6.1.01 to provide that business hours correspond to the normal hours for business established by the exchanges "currently trading the stocks underlying CBOE options."<sup>6</sup> The proposal would thus delink the Exchange's rule from the status of the primary market and instead permit the Exchange to open or remain open to trade options during normal business hours even if the primary market for the underlying security is not open for business. The Exchange states that its proposal will allow it to open or remain open to trade options during normal business hours if there is ample liquidity in the underlying market for the security.<sup>7</sup>

*Changes to Rule 6.3 (Trading Halts).* Exchange Rule 6.3 specifies when the Exchange will halt trading. Exchange Rule 6.3(a) lists the factors that CBOE will consider in making that determination. Currently, Exchange Rule 6.3(a)(i) provides that the Exchange should consider a halt if "trading in the underlying security has been halted or suspended in the primary market." The

<sup>5</sup> See Notice, *supra* note 4 at 19348.

<sup>6</sup> In the Notice, the Exchange represented that the national equity exchanges all have the same core business hours (e.g., New York Stock Exchange Rule 51(a) and BATS Exchange Rule 1.5(w) mentions regular trading hours of 9:30 a.m. through 4:00 p.m. (Eastern time)). See *id.*
