Exhibit 2 - Notices, Written Comments, Transcripts, Other Communications

Add Remove View

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

Exhibit 3 - Form, Report, or Questionnaire

Add Remove View

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

Exhibit 4 - Marked Copies

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) NASDAQ Phlx, LLC (“Phlx” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend Phlx Rule 1017, entitled “Openings in Options.”

A notice of the proposed rule change for publication in the Federal Register is at Exhibit 1 and the text of the amended Exchange Rule is at Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by the Board of Directors of the Exchange on June 21, 2017. No other action is necessary for the filing of the rule change.

Questions and comments on the proposed rule change may be directed to:

Angela Saccomandi Dunn
Principal Associate General Counsel
Nasdaq, Inc.
215-496-5692

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of this rule change is to amend Phlx Rule 1017, entitled “Openings in Options” to specifically amend opening obligations for Specialists.³ The Exchange notes that the proposed rule change is similar to a Nasdaq MRX, LLC (“MRX”) rule.⁴

Today, Phlx Rule 1017(d)(iii) states that the Specialist assigned in a particular equity option must enter a Valid Width Quote not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index. The Specialist assigned in a particular U.S. dollar-settled FCO must enter a Valid Width Quote not later than 30 seconds after the announced market opening.

First, the Exchange proposes to add the words “or index” to further clarify that the requirement applies to equities and index options. The Exchange proposes this addition to further clarify the requirement in Rule 1017(d)(iii) clearly applies to equity and index options.

Second, the Exchange proposes to modify the Specialist's current obligation to enter Valid Width Quotes not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index for all assigned options, or in the case of a U.S. dollar-settled FCO after the announced market opening.

³ The term “Specialist” applies to transactions for the account of a Specialist (as defined in Exchange Rule 1020(a)).

⁴ See MRX Rule 701.

The Exchange believes that the current requirement is very burdensome and instead proposes to add “in 90% of their assigned series” to require a Specialist to enter a Valid Width Quote not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in 90% of their assigned series, or in the case of U.S. dollar-settled FCOs in 90% of their assigned series not later than 30 seconds after the announced market opening.

Further, the Exchange proposes to require Specialists to promptly enter a Valid Width Quote in the remainder of their assigned series, which did not open within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to a U.S. dollar-settled FCO, following the announced market opening. The Exchange’s proposal is intended to account for market conditions which may prevent a Specialist from opening all assigned series, for example an extremely volatile market which may impact the Specialist’s ability to enter aggressive quotes. Another example would be that news pertaining to a specific security is causing the underlying price to fluctuate rapidly and significantly, thereby causing the Specialist to await the underlying equity price to settle before entering a Valid Width Quote. The Exchange’s surveillance staff would monitor to ensure that Specialists are complying with these requirements during the Opening Process.

Today, the Opening Process for an options series will be conducted on or after 9:30 A.M if the system has received, within two minutes (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange’s web

site) of the opening trade or quote on the market for the underlying security in the case of equity options or, in the case of index options, within two minutes of the receipt of the Opening Price in the underlying index (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange's web site), or within two minutes of market opening for the underlying currency in the case of a U.S. dollar-settled FCO (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange's web site) the Specialist's Valid Width Quote, the Valid Width Quotes of two Phlx Electronic Market Makers other than the Specialist or if neither the Specialist or two Phlx Electronic Market Makers have submitted Valid Width Quotes, within the specified timeframe then one Phlx Electronic Market Maker's Valid Width Quote.⁵

Implementation

The Exchange proposes to implement this rule change on September 29, 2017.

(b) Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁶ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁷ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest for the reasons stated below.

⁵ See Rule 1017(d)(i)(A)-(C).

⁶ 15 U.S.C. 78f(b).

⁷ 15 U.S.C. 78f(b)(5).

The Exchange's first proposal at Rule 701(c)(3) to clarify that the requirement applies to equities and index options will make clear the applicability of the Specialist's requirement to enter Valid Width Quotes. This proposed amendment is non-substantive and is intended to add clarity to the rules.

The second proposal to amend a Specialist's requirement to enter Valid Width Quotes during the Opening Process is consistent with the Act because the 90% requirement to provide a Valid Width Quote in a series to which the Specialist is assigned will continue to ensure that options series are opened in a timely manner, while not imposing a burdensome requirement on market participants. Specialists would be required to promptly enter a Valid Width Quote in the remainder of their assigned series, which did not open within one minute of the dissemination of a quote or trade by the market for the underlying security or in the case of index options, following the receipt of the Opening Price or, with respect to U.S. dollar-settled FCOs, following the announced market opening. The Exchange would monitor Specialists to ensure that they promptly provided a Valid Width Quote for the remainder of the series within a reasonable amount of time. The Exchange notes that market conditions could cause a Specialist to experience circumstances where opening 100% of all of their assigned series within one minute of the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening, is not feasible.

The Exchange believes that the proposed 90% Valid Width Quoting obligation, not later than one minute following the dissemination of a quote or trade by the market

for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening, along with the “prompt” standard for the remaining 10% of their assigned series will ensure all series are opened in a timely manner. The Exchange’s proposal accounts for market conditions which may prevent a Specialist from opening all assigned series, for example an extremely volatile market which may impact the Specialist’s ability to enter aggressive quotes. Another example would be that news pertaining to a specific security is causing the underlying price to fluctuate rapidly and significantly, thereby causing the Specialist to await the underlying equity price to settle before entering a Valid Width Quote. The Exchange believes that the time frame for Specialists to provide a Valid Width Quote in 90% of their assigned series not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening, will ensure liquidity on Phlx during the Opening Process.

The Exchange desires to encourage Specialists to continue to make markets on Phlx at the Opening. The Exchange believes that requiring Specialists to provide a Valid Width Quote in 90% of their assigned options not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening along with the “prompt” standard for the remaining 10% will enhance the market making

functions for Specialists and serve to maintain a fair and orderly market thereby promoting the protection of investors and the public interest.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposal does not change the intense competition that exists among the options markets for options business including on the opening. Nor does the Exchange believe that the proposal will impose any burden on intra-market competition; the Opening Process involves many types of participants and interest.

The Exchange's proposal to require a Specialist to enter a Valid Width Quote in 90% of their assigned series not later than one minute time following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening and promptly enter a Valid Width quote for the remaining 10% their assigned series does not create an undue burden on competition. The proposal will continue to ensure that options series are opened in a timely manner, while not imposing a burdensome requirement on market participants. Specialists would be required to promptly enter a Valid Width Quote in the remainder of their assigned series which were not open within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening. The Exchange would monitor Specialists to ensure that they promptly entered a Valid Width Quote for the remainder of their assigned series within a reasonable amount of time. The

Exchange notes that market conditions could cause a Specialist to experience circumstances where entering a Valid Width Quote for 100% of all of their assigned series within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or with respect to U.S. dollar-settled FCOs within one minute after the announced market opening, is not feasible. The Exchange believes that the proposed 90% obligation to enter a Valid Width Quote not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening for the underlying security along with the “prompt” standard for the remaining series will ensure all series are opened in a timely manner.

5. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)⁸ of the Act and Rule 19b-4(f)(6) thereunder⁹ in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not

⁸ 15 U.S.C. 78s(b)(3)(A)(iii).

⁹ 17 CFR 240.19b-4(f)(6).

become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange's proposal does not significantly affect the protection of investors or the public interest because it is similar to MRX Rule 701. The 90% requirement to provide a Valid Width Quote in a series to which the Specialist is assigned will continue to ensure that options series are opened in a timely manner. Further, the Exchange believes that the time frame for Specialists to provide a Valid Width Quote in 90% of their assigned series not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening, will continue to ensure liquidity on Phlx during the Opening Process. Also, Specialists would be required to promptly enter a Valid Width Quote in the remainder of their assigned series, which did not open within one minute of the dissemination of a quote or trade by the market for the underlying security or in the case of index options, following the receipt of the Opening Price or, with respect to U.S. dollar-settled FCOs, following the announced market opening which would ensure that Specialists promptly provide a Valid Width Quote for the remainder of the series within a reasonable amount of time. The Exchange's proposal does not impose any significant burden on competition as the proposal will continue to ensure that options series are opened in a timely manner, while not imposing a burdensome requirement on market participants.

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

The Exchange proposes to implement this rule change on September 29, 2017.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

This proposed rule change is based on a recently approved MRX Rule 701.¹⁰

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

11. Exhibits

1. Notice of proposed rule for publication in the Federal Register.

5. Text of the proposed rule change.

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION
(Release No. _____ ; File No. SR-Phlx-2017-69)

August __, 2017

Self-Regulatory Organizations; NASDAQ PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Related to Quoting at the Opening

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 7, 2017, NASDAQ PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Phlx Rule 1017, entitled “Openings in Options.”

The text of the proposed rule change is available on the Exchange’s Website at <http://nasdaqphlx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this rule change is to amend Phlx Rule 1017, entitled "Openings in Options" to specifically amend opening obligations for Specialists.³ The Exchange notes that the proposed rule change is similar to a Nasdaq MRX, LLC ("MRX") rule.⁴

Today, Phlx Rule 1017(d)(iii) states that the Specialist assigned in a particular equity option must enter a Valid Width Quote not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index. The Specialist assigned in a particular U.S. dollar-settled FCO must enter a Valid Width Quote not later than 30 seconds after the announced market opening.

First, the Exchange proposes to add the words "or index" to further clarify that the requirement applies to equities and index options. The Exchange proposes this addition to further clarify the requirement in Rule 1017(d)(iii) clearly applies to equity and index options.

Second, the Exchange proposes to modify the Specialist's current obligation to enter Valid Width Quotes not later than one minute following the dissemination of a

³ The term "Specialist" applies to transactions for the account of a Specialist (as defined in Exchange Rule 1020(a)).

⁴ See MRX Rule 701.

quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index for all assigned options, or in the case of a U.S. dollar-settled FCO after the announced market opening. The Exchange believes that the current requirement is very burdensome and instead proposes to add “in 90% of their assigned series” to require a Specialist to enter a Valid Width Quote not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in 90% of their assigned series, or in the case of U.S. dollar-settled FCOs in 90% of their assigned series not later than 30 seconds after the announced market opening.

Further, the Exchange proposes to require Specialists to promptly enter a Valid Width Quote in the remainder of their assigned series, which did not open within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to a U.S. dollar-settled FCO, following the announced market opening. The Exchange’s proposal is intended to account for market conditions which may prevent a Specialist from opening all assigned series, for example an extremely volatile market which may impact the Specialist’s ability to enter aggressive quotes. Another example would be that news pertaining to a specific security is causing the underlying price to fluctuate rapidly and significantly, thereby causing the Specialist to await the underlying equity price to settle before entering a Valid Width Quote. The Exchange’s surveillance staff would monitor to ensure that Specialists are complying with these requirements during the Opening Process.

Today, the Opening Process for an options series will be conducted on or after 9:30 A.M if the system has received, within two minutes (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange's web site) of the opening trade or quote on the market for the underlying security in the case of equity options or, in the case of index options, within two minutes of the receipt of the Opening Price in the underlying index (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange's web site), or within two minutes of market opening for the underlying currency in the case of a U.S. dollar-settled FCO (or such shorter time as determined by the Exchange and disseminated to membership on the Exchange's web site) the Specialist's Valid Width Quote, the Valid Width Quotes of two Phlx Electronic Market Makers other than the Specialist or if neither the Specialist or two Phlx Electronic Market Makers have submitted Valid Width Quotes, within the specified timeframe then one Phlx Electronic Market Maker's Valid Width Quote.⁵

Implementation

The Exchange proposes to implement this rule change on September 29, 2017.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁶ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁷ in particular, in that it is designed to promote just and equitable principles of trade, to remove

⁵ See Rule 1017(d)(i)(A)-(C).

⁶ 15 U.S.C. 78f(b).

⁷ 15 U.S.C. 78f(b)(5).

impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest for the reasons stated below.

The Exchange's first proposal at Rule 701(c)(3) to clarify that the requirement applies to equities and index options will make clear the applicability of the Specialist's requirement to enter Valid Width Quotes. This proposed amendment is non-substantive and is intended to add clarity to the rules.

The second proposal to amend a Specialist's requirement to enter Valid Width Quotes during the Opening Process is consistent with the Act because the 90% requirement to provide a Valid Width Quote in a series to which the Specialist is assigned will continue to ensure that options series are opened in a timely manner, while not imposing a burdensome requirement on market participants. Specialists would be required to promptly enter a Valid Width Quote in the remainder of their assigned series, which did not open within one minute of the dissemination of a quote or trade by the market for the underlying security or in the case of index options, following the receipt of the Opening Price or, with respect to U.S. dollar-settled FCOs, following the announced market opening. The Exchange would monitor Specialists to ensure that they promptly provided a Valid Width Quote for the remainder of the series within a reasonable amount of time. The Exchange notes that market conditions could cause a Specialist to experience circumstances where opening 100% of all of their assigned series within one minute of the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the

underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening, is not feasible.

The Exchange believes that the proposed 90% Valid Width Quoting obligation, not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening, along with the “prompt” standard for the remaining 10% of their assigned series will ensure all series are opened in a timely manner. The Exchange’s proposal accounts for market conditions which may prevent a Specialist from opening all assigned series, for example an extremely volatile market which may impact the Specialist’s ability to enter aggressive quotes. Another example would be that news pertaining to a specific security is causing the underlying price to fluctuate rapidly and significantly, thereby causing the Specialist to await the underlying equity price to settle before entering a Valid Width Quote. The Exchange believes that the time frame for Specialists to provide a Valid Width Quote in 90% of their assigned series not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening, will ensure liquidity on Phlx during the Opening Process.

The Exchange desires to encourage Specialists to continue to make markets on Phlx at the Opening. The Exchange believes that requiring Specialists to provide a Valid Width Quote in 90% of their assigned options not later than one minute following the

dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening along with the “prompt” standard for the remaining 10% will enhance the market making functions for Specialists and serve to maintain a fair and orderly market thereby promoting the protection of investors and the public interest.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposal does not change the intense competition that exists among the options markets for options business including on the opening. Nor does the Exchange believe that the proposal will impose any burden on intra-market competition; the Opening Process involves many types of participants and interest.

The Exchange’s proposal to require a Specialist to enter a Valid Width Quote in 90% of their assigned series not later than one minute time following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening and promptly enter a Valid Width quote for the remaining 10% their assigned series does not create an undue burden on competition. The proposal will continue to ensure that options series are opened in a timely manner, while not imposing a burdensome requirement on market participants. Specialists would be required to promptly enter a Valid Width Quote in the remainder of their assigned series which were not open within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index

options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening. The Exchange would monitor Specialists to ensure that they promptly entered a Valid Width Quote for the remainder of their assigned series within a reasonable amount of time. The Exchange notes that market conditions could cause a Specialist to experience circumstances where entering a Valid Width Quote for 100% of all of their assigned series within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or with respect to U.S. dollar-settled FCOs within one minute after the announced market opening, is not feasible. The Exchange believes that the proposed 90% obligation to enter a Valid Width Quote not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to U.S. dollar-settled FCOs, following the announced market opening for the underlying security along with the “prompt” standard for the remaining series will ensure all series are opened in a timely manner.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed,

or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act⁸ and subparagraph (f)(6) of Rule 19b-4 thereunder.⁹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-Phlx-2017-69 on the subject line.

⁸ 15 U.S.C. 78s(b)(3)(A)(iii).

⁹ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

Paper comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-Phlx-2017-69. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-Phlx-2017-69 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁰

Eduardo A. Aleman
Assistant Secretary

¹⁰ 17 CFR 200.30-3(a)(12).

Rule 1017. Openings In Options

(a) - (c) No change.

(c) Phlx Electronic Market Maker Valid Width Quotes and Opening Sweeps received starting at 9:25 AM are included in the Opening Process. Orders entered at any time before an option series opens are included in the Opening Process.

(i) and (ii) No Change.

(iii) The Specialist assigned in a particular equity or index option must enter a Valid Width Quote, in 90% of their assigned series, not later than one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index. The Specialist assigned in a particular U.S. dollar-settled FCO must enter a Valid Width Quote, in 90% of their assigned series, not later than 30 seconds after the announced market opening. The Specialist must promptly enter a Valid Width Quote in the remainder of their assigned series, which did not open within one minute following the dissemination of a quote or trade by the market for the underlying security or, in the case of index options, following the receipt of the Opening Price in the underlying index or, with respect to a U.S. dollar-settled FCO, following the announced market opening.

(iv) and (v) No change.

(e) – (k) No change.
