3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of this rule change is to relocate all rules that relate to the Exchange's trading floor into the new Rulebook shell at Options 8, titled "Floor Trading." The Exchange proposes to relocate the various rules or portion of rules into sections with titles within Options 8. Each rule in the new Options 8 will be described in greater detail below. The Exchange notes that cross-references within the relocated rules have been amended where appropriate to reflect relocations. Also, with respect to the relocation of a portion of a rule, a reference was added to the original rule. The Exchange is not substantively amending rule text unless noted otherwise within this rule change.

General Provisions

The Exchange proposes to add a title "General Provisions" into Options 8 along with two sections, Section 1, titled "Applicability" and Section 2, titled "Definitions." The Exchange's new proposed Section 1 seeks to clarify the interplay between Options 8 and the remainder of the Phlx Rulebook. A member may execute a transaction on Phlx electronically or from the trading floor. The Exchange seeks to identify which rules are applicable to the trading floor within Options 8. To the extent that a portion of a rule applied to the trading floor, the Exchange relocated only that portion of the rule to Options 8. The Exchange proposes to provide at Section 1,

(a) The Options 8 Rules shall apply to Exchange options transactions by and among members and member organizations physically located on the Exchange's options trading floor, including the trading crowds, and shall govern all activity that occurs in the physical space designated by the Exchange as "trading floor" as well as trading conducted through the Options Floor Based Management. All executions that occur

automatically within the electronic system operated by the Exchange that receives and disseminates quotes, executes orders and reports transactions (“System” or “Electronic System”) shall be governed by all other Options Rules except for the Options 8 Rules.

(b) All Options Rules shall apply to Exchange Floor Trading, in addition to the Options 8 Rules, however where the Options 8 Rules disagree with another Options Rule not within Options 8 a conflict shall be resolved in favor of the Options 8 Rule as it applies to the Exchange Trading Floor.

The Exchange seeks to make clear that the Options 8 Rules should be read together with rules in the remainder of the Rulebook and makes clear that in the event of a conflict, the Options 8 rules apply to the trading floor.

Today, Rules Applicable to Trading of Options on Indices are drafted in a similar fashion. With respect to the Rules Applicable to Trading of Options on Indices (Rules 1000A—1109A), Phlx Rule 1000A, “Applicability and Definitions,” currently provides:

The Rules in this Section are applicable only to index options (options on indices of securities as defined below). In addition, except to the extent that specific rules in this Section govern, or unless the context otherwise requires, the provisions of the Option Rules applicable to stock options and of the By-Laws and all other Rules and Policies of the Board of Directors shall be applicable to the trading on the Exchange of index options.

Similarly, Cboe Exchange, Inc. (“Cboe”) Rule 6.1A. Global Trading Hours has an applicability rule that is similarly drafted. The rule provides,

(a) Applicability of Rules. All Rules of the Exchange apply to trading during Global Trading Hours except as set forth in this Rule and except for Rules that by their terms are inapplicable during Global Trading Hours or where the context otherwise requires.³

³ Cboe Rule 613, Cboe Options Hybrid System Automatic Execution Feature, similarly has an applicability rule that provides, “...This rule is applicable only to those classes specifically designated for trading on the Cboe Options Hybrid System. The Cboe Options Hybrid System is a trading platform that allows automatic executions to occur electronically and open outcry trades to occur on the floor of the Exchange pursuant to the priority and allocation principles contained in Rule 6.45.”

Proposed Section 2 contains definitions applicable to the trading floor. Unless otherwise stated, the proposed relocations do not modify the existing definition. The term “floor” at proposed Section 2(1) is relocated from Rule 1(n). The term “Floor Broker” at proposed Section 2(2) is relocated from Rule 1060. The term is being modified to “Floor Broker” instead of “Options Floor Broker” because these rules appear in the Options section of the Phlx Rulebook. The term “Inactive Nominee” at proposed Section 2(3) is being relocated from Rule 1(p). The term “Presiding Exchange Officials” at proposed Section 2(4) is being relocated from Rule 1000(e). The term “Permit” at proposed Section 2(5) references Rule 1(z) and also relocates portions of Rule 908(b)(i). The term “Public Outcry” at proposed Section 2(6) is being relocated in part from Rule 1000(g). The term “Non-SQT ROT” at proposed Section 2(7) is being relocated from Rule 1014(b)(ii)(C) and renamed “Floor Market Maker.” The Exchange proposes to rename the term “Non-SQT ROT” throughout Options 8 as “Floor Market Maker.”

The Exchange is not substantively amending rule text unless noted otherwise within this rule change. The Exchange’s proposal to relocate trading floor rules to new Options 8 will make clear which rules are applicable to the trading floor. The renaming of the term “Non-ROT SQT” as “Floor Market Maker” is a non-substantive rule change. Finally,

renumbering, re-lettering, deleting reserved rules and obsolete rule text and amending cross-references and other minor technical changes will bring greater transparency to Phlx's Rules.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed amendments do not impose an undue burden on competition because the amendments to relocate the floor trading rules are non-substantive. This rule change is intended to bring greater clarity to the Exchange's Rules. The renaming of the term "Non-ROT SQT" as "Floor Market Maker" is a non-substantive rule change. Finally, renumbering, re-lettering, deleting reserved rules and obsolete rule text and amending cross-references will bring greater transparency to Phlx's Rules. The Exchange is not substantively amending rule text unless noted otherwise within this rule change.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not Applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)²⁴ of the Act and Rule 19b-4(f)(6) thereunder²⁵ in that it effects a change

²⁴ 15 U.S.C. 78s(b)(3)(A)(iii).

that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange believes that this proposal does not significantly affect the protection of investors or the public interest because the rule changes are intended to reorganize the trading floor rules to make it easier for members and member organizations to understand the application of those rules. The proposed rule change does not impose any significant burden on competition because the rule changes are non-substantive in nature and intended to bring clarity to the rule. The renaming of the term “Non-ROT SQT” as “Floor Market Maker” is a non-substantive rule change. Finally, renumbering, re-lettering, deleting reserved rules and outdated rule text and amending cross-references will bring greater transparency to Phlx’s Rules.

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If

²⁵

the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the operative delay to permit the Exchange to immediately relocate the rules to Options 8. The Exchange desires to bring greater clarity to its rules for the benefit of investors and the general public. The Exchange's relocation is part of a larger effort to reorganize its rules to organize its Rulebook across its Nasdaq affiliated markets. The floor rules are specific to Phlx and relocating these rules will make clear which rules apply to floor participants.

SECURITIES AND EXCHANGE COMMISSION
(Release No. _____ ; File No. SR-Phlx-2019-17)

April __, 2019

Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Relocate the Floor Trading Rules to Options 8

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on April 12, 2019, Nasdaq PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes relocate rules related to the trading floor into the new Rulebook shell at Options 8, entitled “Options Floor Trading.”

The text of the proposed rule change is available on the Exchange’s Website at <http://nasdaqphlx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it

² 17 CFR 240.19b-4.

received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this rule change is to relocate all rules that relate to the Exchange's trading floor into the new Rulebook shell at Options 8, titled "Floor Trading." The Exchange proposes to relocate the various rules or portion of rules into sections with titles within Options 8. Each rule in the new Options 8 will be described in greater detail below. The Exchange notes that cross-references within the relocated rules have been amended where appropriate to reflect relocations. Also, with respect to the relocation of a portion of a rule, a reference was added to the original rule. The Exchange is not substantively amending rule text unless noted otherwise within this rule change.

General Provisions

The Exchange proposes to add a title "General Provisions" into Options 8 along with two sections, Section 1, titled "Applicability" and Section 2, titled "Definitions." The Exchange's new proposed Section 1 seeks to clarify the interplay between Options 8 and the remainder of the Phlx Rulebook. A member may execute a transaction on Phlx electronically or from the trading floor. The Exchange seeks to identify which rules are applicable to the trading floor within Options 8. To the extent that a portion of a rule applied to the trading floor, the Exchange relocated only that portion of the rule to Options 8. The Exchange proposes to provide at Section 1,

(a) The Options 8 Rules shall apply to Exchange options transactions by and among members and member organizations physically located on the Exchange's options trading floor, including the trading crowds, and shall govern all activity that occurs in the physical space designated by the Exchange as "trading floor" as well as trading conducted through the Options Floor Based Management. All executions that occur automatically within the electronic system operated by the Exchange that receives and disseminates quotes, executes orders and reports transactions ("System" or "Electronic System") shall be governed by all other Options Rules except for the Options 8 Rules.

(b) All Options Rules shall apply to Exchange Floor Trading, in addition to the Options 8 Rules, however where the Options 8 Rules disagree with another Options Rule not within Options 8 a conflict shall be resolved in favor of the Options 8 Rule as it applies to the Exchange Trading Floor.

The Exchange seeks to make clear that the Options 8 Rules should be read together with rules in the remainder of the Rulebook and makes clear that in the event of a conflict, the Options 8 rules apply to the trading floor.

Today, Rules Applicable to Trading of Options on Indices are drafted in a similar fashion. With respect to the Rules Applicable to Trading of Options on Indices (Rules 1000A—1109A), Phlx Rule 1000A, "Applicability and Definitions," currently provides:

The Rules in this Section are applicable only to index options (options on indices of securities as defined below). In addition, except to the extent that specific rules in this Section govern, or unless the context otherwise requires, the provisions of the Option Rules applicable to stock options and of the By-Laws and all other Rules and Policies of the Board of Directors shall be applicable to the trading on the Exchange of index options.

Similarly, Cboe Exchange, Inc. ("Cboe") Rule 6.1A. Global Trading Hours has an applicability rule that is similarly drafted. The rule provides,

(a) Applicability of Rules. All Rules of the Exchange apply to trading during Global Trading Hours except as set forth in this Rule and except for Rules

that by their terms are inapplicable during Global Trading Hours or where the context otherwise requires.³

Proposed Section 2 contains definitions applicable to the trading floor. Unless otherwise stated, the proposed relocations do not modify the existing definition. The term “floor” at proposed Section 2(1) is relocated from Rule 1(n). The term “Floor Broker” at proposed Section 2(2) is relocated from Rule 1060. The term is being modified to “Floor Broker” instead of “Options Floor Broker” because these rules appear in the Options section of the Phlx Rulebook. The term “Inactive Nominee” at proposed Section 2(3) is being relocated from Rule 1(p). The term “Presiding Exchange Officials” at proposed Section 2(4) is being relocated from Rule 1000(e). The term “Permit” at proposed Section 2(5) references Rule 1(z) and also relocates portions of Rule 908(b)(i). The term “Public Outcry” at proposed Section 2(6) is being relocated in part from Rule 1000(g). The term “Non-SQT ROT” at proposed Section 2(7) is being relocated from Rule 1014(b)(ii)(C) and renamed “Floor Market Maker.” The Exchange proposes to rename the term “Non-SQT ROT” throughout Options 8 as “Floor Market Maker.”

The Exchange notes that where a rule applied to both the electronic market and floor trading, the rule was replicated in both the Options Minor Rule Violations and the options Floor Procedure Advice with the applicable parts.²¹ The proposed rule changes are non-substantive rule changes that simply seek to relocate and add transparency to the current rule text.

Other Administrative Changes

The Exchange proposes to amend references to “XL” or “Phlx XL” to “System” as the terms “XL” and “Phlx XL” are obsolete terms. The Exchange has removed “reserved” sections throughout the rules and also re-numbered and re-lettered various rules to bring conformity to the Rulebook. Finally, the Exchange proposes to capitalize the term “specialist” throughout the new proposed rules.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,²² in general, and furthers the objectives of Section 6(b)(5) of the Act,²³ in particular,

²¹ The following Options Floor Procedure Advices were replicated: F-6, “Option Quote Parameters;” F-8, “Failure to Comply with an Exchange Inquiry;” and F-9, “Affiliations.”

²² 15 U.S.C. 78f(b).

in that it is designed to promote just and equitable principles of trade and to protect investors and the public interest by bringing greater transparency to its rules. The Exchange is not substantively amending rule text unless noted otherwise within this rule change. The Exchange's proposal to relocate trading floor rules to new Options 8 will make clear which rules are applicable to the trading floor. The renaming of the term "Non-ROT SQT" as "Floor Market Maker" is a non-substantive rule change. Finally, renumbering, re-lettering, deleting reserved rules and obsolete rule text and amending cross-references and other minor technical changes will bring greater transparency to Phlx's Rules.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed amendments do not impose an undue burden on competition because the amendments to relocate the floor trading rules are non-substantive. This rule change is intended to bring greater clarity to the Exchange's Rules. The renaming of the term "Non-ROT SQT" as "Floor Market Maker" is a non-substantive rule change. Finally, renumbering, re-lettering, deleting reserved rules and obsolete rule text and amending cross-references will bring greater transparency to Phlx's Rules. The Exchange is not substantively amending rule text unless noted otherwise within this rule change.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act²⁴ and subparagraph (f)(6) of Rule 19b-4 thereunder.²⁵

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

²⁴ 15 U.S.C. 78s(b)(3)(A)(iii).

²⁵ 17 CFR 240.19b-4(f)(6). [Rule 124. Disputes-Options

(a) Disputes occurring on and relating to the trading floor, if not settled by agreement between the members interested, shall be settled, if practicable, by vote of the members knowing of the transaction in question; if not so settled, they shall be settled by an Options Exchange Official.

In issuing decisions for the resolution of trading disputes, an Options Exchange Official shall institute the course of action deemed to be most fair to all parties under the circumstances at the time. An Options Exchange Official may direct the execution of an order on the floor, or adjust the transaction terms or participants to an executed order on the floor. An Options Exchange Official may nullify a transaction if the Options Exchange Official determines the transaction to have been in violation of Rules 1014 (Obligations and Restrictions Applicable to Specialists and Registered Options Traders) or 1033 (Bids and Offers- Premium). This Rule 124 shall not apply to options transactions that are the result of an Obvious Error or Catastrophic Error (as defined in Rule 1092). Options transactions that are the result of an Obvious Error or Catastrophic Error shall be subject to the provisions and procedures set forth in Rule 1092.

(b) All rulings rendered by an Options Exchange Official are effective immediately and must be complied with promptly. Failure to promptly comply with an initial Options Exchange Official ruling may result in referral to the Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement. Failure to promptly comply with other Options Exchange Official rulings issued pursuant to Order and Decorum Regulations (Rule 9216(c)) or Floor Procedure Advices (Rule 9216(b)) and not concerning a trading dispute may result in an additional violation.

(c) Review—Options Exchange Official rulings issued pursuant to Order and Decorum Regulations are reviewable pursuant to Rule 9216(c). Options Exchange Official rulings issued pursuant to Floor Procedure Advices are subject to the Rule 9000 Series. All other Options Exchange Official rulings are reviewable pursuant to paragraph (d) of this Rule.

(d) Review of Options Exchange Official Rulings (Trading Disputes)—All Options Exchange Official rulings are reviewable by the Exchange Review Council.

(i) Regulatory staff must be advised within 15 minutes of an Options Exchange Official's ruling that a party to such ruling has determined to appeal from such ruling to the Exchange Review Council. The Exchange may establish the procedures for the

submission of a request for a review of an Options Exchange Official ruling. Options Exchange Official rulings (including those concerning the nullification or adjustment of transactions) may be sustained, overturned or modified by the Exchange Review Council. The Exchange Review Council may act as a panel with a minimum of three Committee members, of which no more than 50% can be engaged in market making activity or employed by an Exchange member organization whose revenues from market making activity exceed ten percent of its total revenues.

In making a determination, the Exchange Review Council may consider facts and circumstances not available to the ruling Options Exchange Official as well as action taken by the parties in reliance on the Options Exchange Official's ruling (e.g., cover, hedge and related trading activity).

(ii) All decisions made by the Exchange Review Council in connection with initial rulings on requests for relief and with the review of an Options Exchange Official ruling pursuant to this paragraph (d) shall be documented in writing and maintained by the Exchange in accordance with the record keeping requirements set forth in the Securities Exchange Act of 1934, as amended, and the rules thereunder.

(iii) A member or member organization seeking review of an Options Exchange Official ruling shall be assessed a fee of \$250.00 for each Options Exchange Official ruling to be reviewed that is sustained and not overturned or modified by the Exchange Review Council. In addition, in instances where the Exchange, on behalf of a member or member organization, requests a review by another options exchange, the Exchange will pass any resulting charges through to the relevant member organization.

(iv) Decisions of the Exchange Review Council shall be final and may not be appealed to the Exchange's Board of Directors.

(v) All decisions of the Exchange Review Council are effective immediately and must be complied with promptly. Failure to promptly comply with a decision of the Exchange Review Council may result in referral to the Phlx Regulation Department, Department of Market Regulation or Department of Enforcement.

•• *Commentary:* -----

.01 Exchange staff may determine that an Options Exchange Official is ineligible to participate in a particular ruling where it appears that such Options Exchange Official has a conflict of interest. For purposes of this Rule, and without limitation, a conflict of interest exists where an Options Exchange Official: (a) is directly or indirectly affiliated with a party seeking an Options Exchange Official ruling; (b) is a participant or is directly or indirectly affiliated with a participant in a transaction that is the subject of a Option Exchange Official ruling; (c) is a debtor or creditor of a party seeking an Options Exchange Official ruling; or (d) is an immediate family member of a party seeking an Options Exchange

Official ruling. Exchange staff may consider other circumstances, on a case-by-case basis, in determining the eligibility or ineligibility of a particular Options Exchange Official to participate in a particular ruling due to a conflict of interest.

(g) Equity Option, Index Option and U.S. dollar-settled Foreign Currency Option Priority and Parity

(i) – (vi) Reserved.

[(A) Exchange Rules 119 and 120 direct members in the establishment of priority of orders on the floor. An account type is either a controlled account or a customer account. A controlled account includes any account controlled by or under common control with a broker-dealer. Customer accounts are all other accounts. Equity option, index option and U.S. dollar-settled foreign currency option orders of controlled accounts are required to yield priority to customer orders when competing at the same price, as described below. Orders of controlled accounts are not required to yield priority to other controlled account orders, except as provided in sub-paragraph (2) below.

For the purpose of paragraph (g) of this Rule, "Initiating Order" means an incoming contra-side order.

- (1) Respecting transactions that are executed and allocated in open outcry by a participant other than the specialist, "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers that are on parity in accordance with this Rule 1014(g)(i). The Remainder of the Order shall be allocated pursuant to this Rule 1014.

This provision shall not apply to electronically executed contracts, the allocation of which is described in Rule

1014(g)(vii). "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers and to off-floor broker-dealers in accordance with this sub-paragraph (2).

(B) Purchase or sale priority for orders of 100 contracts or more. If a member purchases (sells) 50 or more option contracts of a particular series at a particular price or prices, he shall, at the next lower (higher) price have priority in purchasing (selling) up to the equivalent number of option contracts of the same series that he purchased (sold) at the higher (lower) price or prices, but only if his bid (offer) is made promptly and the purchase (sale) so effected represents the opposite side of a transaction with the same order or offer (bid) as the earlier purchase or purchases (sale or sales).

When the market has a bid/ask differential of one minimum trading increment and the bid and/or offer represent the quotation of an out-of-crowd SQT or an RSQT, such member shall have priority over such SQT and/or RSQT with respect to both the bid and the offer.

The Exchange may increase the "minimum qualifying order size" above 100 contracts for all products under its jurisdiction. Announcements regarding changes to the minimum qualifying order size shall be made on the Exchange's website. This paragraph shall only apply to transactions that are effected in open outcry.

(ii) *Enhanced Specialist Participation* —In equity option, index option and U.S. dollar-settled foreign currency options classes, when the registered specialist is on parity with a controlled account as defined in subparagraph (i) above, in accordance with Exchange Rules 119 and 120 and the number of contracts to be bought or sold is greater than five, the specialist is entitled to receive an enhanced participation of 30% of the Remainder of the Order ("Enhanced Specialist Participation"), except in the following circumstances: (1) where there is one controlled account on parity, the specialist is entitled to receive 60% of the Remainder of the Order; or (2) where there are two controlled accounts on parity, in which case, the specialist is entitled to receive 40% of the Remainder of the Order.

The Exchange shall reduce the level of Enhanced Specialist Participation authorized under this Rule to a parity level of participation in accordance with Rules 119 and 120 with respect to any options class if the specialist in such class is determined to be performing below any minimum standards or not satisfying any conditions that the Exchange may establish. The Exchange may reinstate Enhanced Specialist Participation for a particular options class if it determines that the specialist in such class is performing at or above all established minimum standards and is satisfying all established conditions.

(iii) Reserved.

(iv) Reserved.

(v) *Allocation of the Remainder of the Order Among Specialist and ROTs on Parity.* After the application of Rule 1014(g)(i) to an Initiating Order, the Remainder of the Order shall be allocated by the Allocating Participant (as defined in Rule 1014(g)(vi)) as follows:

(A) *Entitlement.* ROTs and specialists on parity are entitled to their Defined Participation (as described below), subject to: (1) any Waiver, as described below; and (2) rounding, as described below.

(b) unless the specialist has an Actual Size, the stated size of the specialist shall be the amount (if any) by which the disseminated size exceeds the sum of (x) the aggregate size of limit orders included in the disseminated size and (y) the aggregate sizes of all ROTs who have Actual Sizes;

(c) the stated size of an ROT who does not have an Actual Size is zero.

(2) in the case of floor brokered orders, each crowd participant's stated size shall be his or her Actual Size.

(C) *Defined Participation.* Defined Participation is the portion of the Remainder of the Order to which a crowd participant is entitled. Defined Participation is determined as follows:

(1) in the case of a specialist entitled to an Enhanced Specialist Participation, the Enhanced Specialist Participation, up to the specialist's stated size, as set forth in sub-paragraph (g)(ii) of this Rule, as applicable. The specialist may decline to receive the Enhanced Specialist Participation, in which case the specialist shall be entitled to participate as one crowd participant, up to the specialist's stated size.

(2) except as provided in (1) above, the Defined Participation of the specialist and ROTs on parity is determined as follows:

- (a) where all participants have equal stated sizes, their Defined Participations shall be equal;
- (b) where participants have unequal stated sizes, the Defined Participations shall equal their Base Participations (as defined below) plus their Supplemental Participations (as defined below):
 - (i) the "Base Participations" of all of the participants shall equal the stated size of the smallest participant; to the extent that there remains any excess to be allocated after all participants have been allocated their Base Participations, the smallest participant shall have no Supplemental Participation, and the other participants shall have "Supplemental Participations" as determined under (ii) and (iii) below;
 - (ii) if the remaining stated sizes (*i.e.* , after taking into account Base Participations) of all participants having Supplemental Participations is equal, then their Supplemental Participations shall be equal; otherwise the initial Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated their initial Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have further "Supplemental Participations" as determined under (iii) below; and
 - (iii) if the remaining stated sizes (*i.e.* , after taking into account Base Participations and prior Supplemental Participations) of all participants having *further* Supplemental Participations is equal, then their *further* Supplemental Participations shall be equal; otherwise the next Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated the next Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have successive further Supplemental Participations determined in the same manner as provided in this clause (iii).

The process described in clause (iii) shall be followed to determine successive further Supplemental Participations until the sum of the Defined Participations equals the amount of the Remainder of the Order.

- (iv)
 - (a) If the sum of the Base Participations pursuant to sub-paragraph (i) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive Base Participations, subject to rounding.

- (b) If the sum of the Supplemental Participations pursuant to sub-paragraph (ii) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive Supplemental Participations, subject to rounding.
 - (c) If the sum of the further Supplemental Participations pursuant to sub-paragraph (iii) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive further Supplemental Participations, subject to rounding.
- (3) Participation in additional contracts in excess of the Exchange's disseminated size among willing crowd participants shall be allocated under the applicable provisions of this Rule 1014. Notwithstanding the limitation set forth in sub-paragraph (C)(1) that limits the specialist's entitlement to his/her stated size, for all contracts executed in excess of the disseminated size, the specialist shall be entitled to receive the Enhanced Specialist Participation as set forth in sub-paragraph (g)(ii) of this Rule, as applicable, but not to exceed the specialist's Actual Size (if the specialist has an Actual Size) in such excess contracts.
- (D) *Waiver.* (1) An ROT (other than an RSQT) or specialist may, in his or her sole discretion, offer to waive, in whole or in part, any part of a trade to which they were entitled to be allocated (an " Offer to Waive").
- (a) Any Offer to Waive shall be made by stating it in a loud and audible voice to the other members of the trading crowd and the Allocating Participant.
 - (b) If the Allocating Participant has determined that the other crowd participant(s) then on parity is willing to take the number of contracts that are subject to the Offer to Waive, the Allocating Participant may (but shall not be required to), accept such Offer to Waive by (i) allocating the Remainder of the Order in accordance with this Rule 1014(g)(v), taking into account the Offer to Waive; or (ii) otherwise indicating, following the execution of the Remainder of the Order, that such Offer to Waive will be accepted (in which case, it shall be referred to as a " Waiver"). No Offer to Waive shall be an effective Waiver until the Allocating Participant has allocated the order or otherwise indicated that it is accepted.
 - (c)
 - (i) In the case of an option which is not subject to an Enhanced Specialist Participation, as set forth in sub-paragraph (g)(ii) of this Rule, if the specialist or an ROT effects a Waiver in the manner provided above, the number of contracts to which such specialist or ROT is entitled under this Rule 1014(g)(v) shall be reduced by the number of contracts waived, and the entitlements of the other participants on parity shall be determined by redistributing the waived number of

contracts to willing participants (including the specialist) in accordance with this Rule 1014(g)(v).

- (ii) In the case of an option which is subject to an Enhanced Specialist Participation, as set forth in sub-paragraph (g)(ii) of this Rule, and one or more ROTs effect Waivers of their entire entitlements ("Total Waivers"), the number of ROTs with whom the specialist is deemed to be on parity for purposes of determining the Enhanced Specialist Participation shall be reduced by the number of ROTs effecting Total Waivers and the following additional Rules shall apply:
 - (A) in the event that one or more ROTs on parity with the specialist effect a Total Waiver of their respective entitlements such that the specialist is on parity with three or more ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the specialist shall be that which the specialist would be entitled to receive under Rule 1014(g)(ii), as if the specialist had been on parity with three ROTs.
 - (B) in the event that one or more ROTs on parity with the specialist effect a Total Waiver of their respective entitlements such that the specialist is on parity with two ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the specialist shall be that which the specialist would be entitled to receive under Rule 1014(g)(ii) as if the specialist had been on parity with two ROTs.
 - (C) In the event that one or more ROTs on parity with the specialist effect a Total Waiver of their respective entitlements such that the specialist is on parity with one ROT, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the specialist shall be that which the specialist would be entitled to receive under Rule 1014(g)(ii) as if the specialist had been on parity with one ROT. In no event shall any non-waiving ROT be required to participate in fewer contracts than he/she would have received absent the Waiver(s).
- (iii) *Partial Waiver*. In the case of an option which is subject to an Enhanced Specialist Participation, in the event that one or more ROTs effect a Waiver of a portion of their respective entitlements, but not a Total Waiver, in the manner provided above (a "Partial Waiver"), the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the specialist shall not be entitled to receive a number of contracts that is greater than 40% of the Remainder of the Order except in the situation referred to in the following sentence, unless all remaining crowd participants on parity have waived their entitlements or have been satisfied. In the case of the specialist being on parity with only one ROT, the specialist shall not

be entitled to receive a number of contracts that is greater than 60% of the Remainder of the Order unless all remaining crowd participants on parity have waived their entitlements or have been satisfied.

In no event shall any non-waiving ROT be required participate in fewer contracts than he/she would have received absent the Partial Waiver(s).

(iv) In no event shall two or more crowd participants enter into any agreement regarding the number of contracts to be waived by any crowd participant (*i.e.*, subject to the provisions of sub-paragraph (D)(1)(b) above, any decision by a crowd participant to waive all or a portion of such crowd participant's entitlement must be an individual decision, and not the subject of an agreement among crowd participants).

(E) *Rounding*. In situations where the allocation of contracts pursuant to this Rule result in fractional amounts of contracts to be allocated to crowd participants, the number of contracts to be allocated shall be rounded in a fair and equitable manner.

(F) *Just and Equitable Principles of Trade*. (1) It shall be considered conduct inconsistent with just and equitable principles of trade for a member: (a) to allocate initiating orders other than in accordance with this Rule 1014; (b) to enter into any agreement with another member concerning allocation of trades; or (c) to harass, intimidate or coerce any member to enter into any Waiver, or to make or refrain from making any complaint or appeal.

(2) A pattern or practice of waiving all or a portion of a crowd participant's entitlement, with the result that such crowd participant receives no allocation or a lesser allocation than he or she would otherwise have been entitled to, may be considered conduct inconsistent with just and equitable principles of trade.

(G) Notwithstanding the first sentence of Rule 1014(g)(i), neither Rule 119(b) and (c) concerning precedence based on the size of bids on parity, nor Rule 120 (insofar as it incorporates those provisions by reference) shall apply to the allocation of orders covered by this Rule 1014(g)(v).

(vi) In order to facilitate timely tape reporting of trades, it is the duty of the persons identified below to allocate, match and time stamp trades executed in open outcry and to submit the matched trade tickets to an Exchange Data Entry Technician ("DET") located on the trading floor immediately upon execution. When executing trades electronically, it is also the duty of the persons identified below to enter and submit trade information to the Trading System using the Options Floor Based Management System.

(a) in a trade involving a floor broker, the floor broker shall so do, provided that a floor broker may delegate this responsibility to the specialist (or an assistant to the specialist under the specialist's direct supervision) if the specialist agrees to accept such

responsibility, and, in the event of such delegation, the specialist (or an assistant to the specialist under the specialist's direct supervision) shall do so:

- (b) in all other cases where the specialist is a participant (i.e., where there is no floor broker), the specialist (or an assistant to the specialist under the specialist's direct supervision) shall do so;
- (c) in any other case (i.e., where there is no floor broker and no specialist is involved), the largest on-floor participant shall do so (for example, where several Registered Options Traders are involved); and
- (d) if there is only one seller and one buyer (no floor broker and no specialist is involved), the seller shall do so (for example, where only two Registered Options Traders are involved), unless either the seller or the buyer is an RSQT, in which case the on-floor participant in the transaction shall do so.

The person responsible for trade allocation (the "Allocating Participant") shall, for each trade allocated by such Allocating Participant, circle his or her badge identification number on the trade tickets, identifying himself or herself as the Allocating Participant in the particular trade. If the Allocating Participant is not a participant in the trade to be allocated, he/she shall identify himself/herself by initiating the trade tickets. In the case of a trade executed using the Floor Based Management System the Allocating Participant shall allocate the trade using the Options Floor Based Management System.]

.01 [An ROT electing to engage in Exchange options transactions is designated as a specialist on the Exchange for all purposes under the Securities Exchange Act of 1934 and the rules and regulations thereunder with respect to options transactions initiated and effected by him on the floor in his capacity as an ROT. For purposes of this commentary, the term "transactions initiated and effected on the floor" shall not include transactions initiated by an ROT off the floor, but which are considered "on-floor" pursuant to Commentaries .07 and .08 of Rule 1014.] Similarly, an RSQT electing to engage in Exchange options transactions is designated as a specialist on the Exchange for all purposes under the Securities Exchange Act of 1934 and the rules and regulations thereunder with respect to options transactions initiated and effected by him in his capacity as an ROT.

[A non-SQT ROT is required to trade either (a) 1,000 contracts and 300 transactions, or (b) 10,000 contracts and 100 transactions, on the

Exchange each quarter. Transactions executed in the trading crowd where the contra-side is an ROT are not included.

In addition, in order for an ROT (other than an RSQT or a Remote Specialist) to receive specialist margin treatment for off-floor orders in any calendar quarter, the ROT must execute the greater of 1,000 contracts or 80% of his total contracts that quarter in person (not through the use of orders, except that non-streaming ROTs can use orders entered in person) and 75% of his total contracts that quarter in assigned options. Transactions executed in the trading crowd where the contra-side is an ROT are not included.]

The off-floor orders for which an ROT receives specialist margin treatment shall be subject to the obligations of Rule 1014(a) and, in general, be effected for the purpose of hedging, reducing risk of, or rebalancing positions of the ROT. An ROT is responsible for evidencing compliance with these provisions. The Exchange may exempt one or more classes of options from this calculation.

.02 - .04 No change.

.05 [(a) RESERVED

(b)] The Exchange shall assign SQTs and RSQTs in accordance with Rule 507 and allocate one or more options to Remote Specialists in accordance with Rule 501. An SQT or RSQT may be assigned to and a Remote Specialist may be allocated (and thus submit quotes electronically in) any option for which they are approved by the Exchange.

[(c) *Non-Electronic Orders.*

- (i) In the event that a Floor Broker or specialist presents a non-electronic order in which an RSQT is assigned or which is allocated to a Remote Specialist, and/or in which an SQT assigned in such option is not a crowd participant, such Remote Specialist, SQT and/or RSQT may not participate in trades stemming from such a non-electronic order unless such non-electronic order is executed at the price quoted by the non-crowd participant Remote Specialist, SQT and/or RSQT at the time of execution.
- (ii) Notwithstanding the foregoing, respecting crossing, facilitation and solicited orders (as defined in Rule 1064) that are represented and executed in open outcry, priority shall be afforded to in-crowd participants (including, for purposes of this rule only, Floor Brokers), over Remote Specialists, RSQTs, out-of crowd SQTs, and out-of-crowd broker-dealer limit orders on the limit order book, but not over public customer orders. Such orders shall be allocated in accordance with Exchange Rules.

- (iii) The specialist and/or SQTs participating in a trading crowd may, in response to a verbal request for a market by a floor broker, state a bid or offer that is different than their electronically submitted bid or offer, provided that such stated bid or offer is not inferior to such electronically submitted bid or offer, except when such stated bid or offer is made in response to a floor broker's solicitation of a single bid or offer as set forth in Rule 1033(a)(ii).
- (iv) For purposes of this Rule, an SQT or non-SQT ROT shall be deemed to be participating in a crowd if such SQT is, at the time an order is represented in the crowd, physically located in a specific "Crowd Area." A Crowd Area shall consist of a specific physical location marked with specific, visible physical boundaries on the options floor, as determined by the Exchange. An SQT or non-SQT ROT who is physically present in such Crowd Area may engage in options transactions in assigned issues as a crowd participant in such a Crowd Area, provided that such SQT or non-SQT ROT fulfills the requirements set forth in this Rule 1014. An SQT or non-SQT ROT shall be deemed to be participating in a single Crowd Area.]

.06 No change.

[.07 The term "on the Floor" means the Trading Floor of the Exchange; the rooms, lobbies, and other premises immediately adjacent thereto made available by the Exchange for use by members generally; other rooms, lobbies and premises made available by the Exchange primarily for use by members generally; and the telephone and other facilities in any such place.

The provisions of this Rule do not apply to transactions initiated by an ROT for an account in which he has an interest unless such transactions are either initiated by an ROT while on the Floor or unless such transactions although originated off the Floor are deemed on-Floor transactions under the provisions of these Rules.

.08 An off-Floor order for an account in which a member has an interest is to be treated as an on-Floor order if it is executed by the member who initiated it.

In addition to transactions originated on the Floor by an ROT for an account in which he has an interest, the following transactions are considered on-Floor trading:

- (a) Any transaction for an account in which an ROT has an interest if such transaction is initiated off the Floor by such ROT after he has been on the Floor during the same day.
- (b) Any transaction for a member organization for an account in which it has an interest:

- (i) which results from an order entered off the Floor following a conversation relating thereto with a member on the Floor who is a partner of or stockholder in such member organization; or
 - (ii) which results from an order entered off the Floor following the unsolicited submission from the Floor to the office of a quotation in a stock or Exchange-Traded Fund Share and the size of the market by a member on the Floor who is a partner of or stockholder in such member organization; or
 - (iii) which results from an order entered off the Floor which is executed by a member on the Floor who is a partner of or stockholder in such member organization and who had handled the order on a "not-held" basis; provided, however, that the following are not on-Floor orders and such restrictions shall not apply to an order:
 - (A) to sell an option for an account in which the member organization is directly or indirectly interested if in facilitating the sale of a large block of stock or Exchange-Traded Fund Shares, the member organization acquired its position because the demand on the Floor was not sufficient to absorb the block at a particular price or prices; or
 - (B) to purchase or sell an option for an account in which the member organization is directly or indirectly interested if the member or his member organization was invited to participate on the opposite side of a block transaction by another member, member organization or a partner or stockholder therein because the market on the Floor could not readily absorb the block at a particular price or prices; or
 - (C) to purchase or sell an option for an account in which the member organization is directly or indirectly interested if the transaction is on the opposite side of a block order being executed by the member organization for the account of its customer and the transaction is made to facilitate the execution of such order; or
 - (iv) which results from an order entered off the Floor which is executed by a member on the Floor who is a partner of or stockholder in such member organization and who has changed the terms of the order.
- (c) Any transaction for the account of an RSQT.

.09 Orders given out by an ROT to commission brokers—An on-Floor order given by an ROT to a commission broker, for an account in which the ROT has an interest, is subject to all the Rules restricting ROTs. When an ROT gives out such an order on the Floor to another member, the order must be so marked to indicate that it is for an account in which the ROT has an interest, unless it is exempt from this Rule, in order that the other member may know whether it may be entitled to priority or parity.]

[.10].07 A specialist acting in the course of his specializing function, as agent or principal, on the Exchange is prohibited from charging a commission or fee for the execution of an order. A specialist shall also not charge a commission or fee for the handling, execution or processing of an order delivered through the Exchange's automated trading system, Phlx XL II, whether the specialist is acting as principal or agent for the order.

[.11 Pair-offs before opening—An ROT cannot acquire a "long" option by pairing off with a sell order before the opening, unless all off-Floor bids at that price are filled.

.12 The number of ROTs in a trading crowd who are establishing or increasing a position may temporarily be limited when, in the judgment of an Options Exchange Official, the interests of a fair and orderly market are served by such limitation.

.13 Within each quarter an ROT must execute in person, and not through the use of orders (except that non-streaming ROTs can use orders entered in person), a specified number of contracts, such number to be determined from time to time by the Exchange.

.14 An ROT may not initiate orders from off the floor as a market maker in reliance upon the market maker exemption contained in Section 11(a)(1) of the Securities Exchange Act of 1934.]

[.15].08 The price of an opening transaction in an option series must be within an acceptable range (as determined by the Exchange and announced to Exchange members and member organizations on the Exchange's website) compared to the highest offer and the lowest bid (e.g., the upper boundary of the acceptable range may be 125% of the highest quote offer and the lower boundary may be 75% of the lowest quote bid).

[.16].09 The trading hours for foreign currency options are constituted by various trading sessions as defined by the Board of Directors. Each trading session is considered separate and distinct from each other for the purposes of the prohibition contained in Rule 1014 paragraph (e).

[.17 In the interest of fair and orderly markets, the Exchange may adopt policies affecting the location of members in the trading crowd on a crowd-by-crowd basis.]

[.18].10 An ROT who wishes to place a limit order on the limit order book must submit such a limit order electronically.

[.19 Floor brokers are able to achieve split price priority in accordance with Rule 1014(g)(i)(C), provided, however, that a floor broker who bids (offers) on behalf of a non-market-maker Phlx member broker-dealer ("Phlx member BD") must ensure that the Phlx member BD qualifies for an exemption from Section 11(a)(1) of the Exchange Act or that the transaction satisfies the requirements of Exchange Act Rule 11a2-2(T), otherwise the floor broker must yield priority to orders for the accounts of non-members.]

[Rule 1018. "Stopping" An Option

(a) An agreement to "stop" an option at a specified price constitutes a guarantee by the member who "grants the stop" that the order of the member who, "accepts the stop" will be executed at the stop price or better. No member is required to agree to grant or accept a stop.

(b) A member shall not accept a stop for an account in which he or another member has an interest unless:

(i) he is acting for an order originated off the Floor; or

(ii) in the case of an order originated on the Floor, the member granting the stop is also acting for an account in which he or another member has an interest; or

(iii) he is effecting a transaction to offset a transaction made in error; or

(iv) he is engaged in bona fide arbitrage.

(c) No specialist may stop an option against the book or for his own account at a price at which he holds an order capable of execution at that price; except;

(i) in connection with an opening or reopening; or

(ii) when there is a competing bid or offer in the crowd at the same price at which the stop is granted; or

(iii) when the specialist does not have an executable order at the stop price; or

(iv) when a broker makes an unsolicited request that a specialist grant him a stop, and

(A) the spread in the quotation is not less than twice the permitted minimum increment in the option;

(B) after the granting of the stop, the spread between the bid and the offer is reduced;

(C) the specialist does not reduce the size of the market following the granting of the stop; and

(D) on the election of the stop, the order or orders on the specialist's book entitled to priority will be executed against the stopped option.

Each "stopped" transaction shall be reported for printing on the tape in the form and manner prescribed by the Exchange.

[Rule 1033. Bids And Offers—Premium

(a)(i) *Size of Bid/Offer and Disseminated Size Guarantee.* All bids or offers made on the Floor for option contracts shall be deemed to be for one option contract unless a specific number of option contracts is expressed in the bid or offer. A bid or offer for more than one option contract shall be deemed to be for the amount thereof or a smaller number of option contracts. Responsibility for ensuring that customer orders are filled to a minimum of the disseminated size at the disseminated price is as set forth in Exchange Rule 1082.

(ii) *Solicitation of Quotations.* In response to a floor broker's solicitation of a single bid or offer, the members of a trading crowd (including the specialist and ROTs) may discuss, negotiate and agree upon the price or prices at which an order of a size greater than the Exchange's disseminated size can be executed at that time, or the number of contracts that could be executed at a given price or prices, subject to the provisions of the Options Order Protection and Locked/Crossed Market Plan and the Exchange's Rules respecting Trade-Throughs. Notwithstanding the foregoing, a single crowd participant may voice a bid or offer independently from, and differently from, the members of a trading crowd (including the specialist and ROTs).

(b) *Premiums.* Except as provided in paragraph (c) and (d), all bids or offers made on the Floor for option contracts shall be expressed as follows:

(i) In the case of options on stocks or Exchange-Traded Fund Shares, in terms of dollars per share of the underlying stock or Exchange-Traded Fund Share (e.g., a bid of "5" shall represent a bid to pay a premium of \$500 for an option contract having a unit of trading consisting of 100 shares of an underlying stock or Exchange-Traded Fund Share, or a bid to pay a premium of \$550 for an option contract having a unit or trading consisting of 110 shares of an underlying stock Exchange-Traded Fund Share).

(ii)

(A) —In the case of options on foreign currencies in terms of U.S. dollars per unit of the underlying foreign currency.

E.g., a bid of "3.25" for a premium on a \$170 strike price option on the British pound shall represent a bid to pay \$325 per option contract.

(iii) *Mini Options*. Bids and offers for an option contract overlying 10 shares shall be expressed in terms of dollars per 1/10th part of the total value of the contract. An offer of ".50" shall represent an offer of \$5.00 on an option contract having a unit of trading consisting of 10 shares.

(c) *Contract Adjustments*. All bids or offers for an option contract for which the Options Clearing Corporation has established an adjusted unit of trading in accordance with paragraphs (c) and (d) of Section 11 of Article VI of the by-laws of the Options Clearing Corporation shall be expressed in terms of dollars per the appropriate fractional part of the total securities and/or other property constituting such adjusted unit of trading (e.g., where the adjusted unit of trading of an option contract consists of 110 shares of an underlying stock or Exchange-Traded Fund Share plus 15 rights, a bid of "5" shall represent a bid to pay a premium of \$550 for each option contract covering both the shares of underlying stock or Exchange-Traded Fund Share and the rights).

(d) *Spread Priority*. When a member holding a multi-leg order, as defined in Rule 1066 and bidding or offering on the basis of a total credit or debit for the order has determined that the order may not be executed by a combination of transactions at or within the bids and offers established in the marketplace, then the order may be executed as a multi-leg order at the total credit or debit with one other member with priority over either the bid or the offer established in the marketplace that is not better than the bids or offers comprising such total credit or debit, provided that at least one option leg is executed at a better price than established bid or offer for that option contract AND no option leg is executed at a price outside of the established bid or offer for that option contract.

(e) *Synthetic Option Orders*. When a member holding a synthetic option order, as defined in Rule 1066, and bidding or offering on the basis of a total credit or debit for the order has determined that the order may not be executed by a combination of transactions at or within the bids and offers established in the marketplace, then the order may be executed as a synthetic option order at the total credit or debit with one other member, provided that the option leg is executed at a better price than the established bid or offer for that option contract, in accordance with Rule 1014. Synthetic option orders in open outcry, in which the option component is for a size of 100 contracts or more, have priority over bids (offers) of crowd participants who are bidding (offering) only for the option component of the synthetic option order, but not over bids (offers) of public customers on the limit order book, and not over crowd participants that are willing to participate in the synthetic option order at the net debit or credit price.

(f) *Three-Way Spread Type Priority*. When a member holding a three-way order for foreign currency options determines that the order will be best served by bidding or offering on the basis of a total net credit or debit, the member may, after seeking bids and offers for the three-way order, seek to execute the order at a total credit or debit with one other member provided that at least one of the individual legs to the order is effected at a price better than the established bid or offer for that option contract and that no option leg is executed at a price outside of the established bid or offer for that option contract. For purposes of this Rule, three-way orders

include spread, straddle and combination orders of three individual series in the same foreign currency options where (i) the order size for each of the three individual series are equal to each other, or (ii) the combined order size of any two series on the same side of the market is either equal to the order size of the third series by a or differs from the order size of the third series by a permissible ratio. For purposes of this paragraph, a permissible ratio is any one of the following: one-to-one, one-to-two, one-to-three and two-to-three.

(g) *Ratio Spread Type Priority*. A spread order may consist of different numbers of contracts so long as the number of contracts differ by a permissible ratio (a "Ratio Spread"). Similarly, the legs to a straddle or combination order may consist of different numbers of puts and calls so long as the number of contracts differ by a permissible ratio. For the purposes of this paragraph, a permissible ratio is any ratio that is equal to or greater than one-to-three (.333) and less than or equal to three-to-one (3.00). For example, a one-to-two (.5) ratio, a two-to-three (.667) ratio, or a two-to-one (2.0) ratio is permissible, whereas a one-to-four (.25) ratio or a four-to-one (4.0) ratio is not.

(h) *Multi-Spread Priority*. When a member holding two spread type orders (spreads, straddles or combinations, as defined in Rule 1066) for the same account determines that the orders will be best served by bidding or offering on the basis of a total net credit or debit, the member may, after seeking bids and offers for the total of the two spread type orders, seek to execute both orders as a single transaction at a total net credit or debit with one other member, provided that at least one of the individual legs of each individual spread is executed at a better price than the established bid or offer for that option contract and that no option leg is executed at a price outside of the established bid or offer for that option contract.

(i) *Spread Type Priority*. Through FBMS, Spread Type Orders consisting of a conforming ratio may be executed at a total credit or debit price with priority over individual bids or offers established in the marketplace (including customers) that are not better than the bids or offers comprising such total credit or debit, provided that at least one option leg is executed at a better price than the established bid or offer for that option contract and no option leg is executed at a price outside of the established bid or offer for that option contract.]

[Rule 1039. Resolution Of Uncompared Trade

When a disagreement between members or member organizations arising from an uncompared Exchange options transaction cannot be resolved by mutual agreement prior to 10:00 a.m. on the first business day following the trade date (in the case of options on stocks or Exchange-Traded Fund Shares) or prior to 8:30 a.m. on the first business day following the trade date (in the case of options on foreign currencies), the parties shall promptly, but not later than 3:30 p.m. on such day (in the case of options on stocks or Exchange-Traded Fund Shares) or 2:00 p.m. on such day (in the case of options on foreign currencies (unless otherwise excused by the Exchange) close out the transaction in the following manner. The member or member organization representing the purchaser in the uncompared Exchange options transaction shall promptly enter into a new Exchange options transaction on the Floor of the Exchange to purchase the option contract that was the subject of the uncompared Exchange options transaction. The member or member

organization representing the writer in the uncomparing Exchange options transaction shall promptly enter into a new Exchange options transaction on the Floor of the Exchange to sell (write) the option contract that was the subject of the uncomparing Exchange options transaction. Any claims for damages resulting from such transactions must be made promptly for the accounts of the members or member organizations involved and not for the accounts of their respective customers. Notwithstanding the foregoing, if either member or member organization is acting for a firm account in an uncomparing Exchange options transaction and not for the account of a customer, such member organization need not enter into a new transaction, in which event money differences will be based solely on the closing transaction of the other party to the uncomparing transaction.

In the event an uncomparing transaction involves an option contract of a series in which trading has been terminated or suspended before a new Exchange options transaction can be effected to establish the amount of any loss, the member or member organization not at fault may claim damages against the other member or member organization involved in the transaction based on the terms of such transaction. All such claims for damages shall be made promptly.]

Rule 1047. Trading Halts

(a) – (g) no change.

[••• *Commentary* :-----

Manual Rotations. Pursuant to the authority in paragraph (b) above and in accordance with the procedures enumerated in these commentaries, a manual trading rotation may be held on the opening in the event that the Exchange's System is not available, and a closing rotation may be held on the business day of expiration, or, in the case of an option contract expiring on a day that is not a business day, on the trading day prior to expiration where the underlying stock or Exchange-Traded Fund Share did not open or was halted, whenever such action is deemed necessary in the interests of maintaining a fair and orderly market in such class or series of options and to protect investors.

.01 For purposes of this Rule, a trading rotation is a series of very brief time periods during each of which bids, offers and transactions in only a single, specified option contract can be made. An Options Exchange Official may direct that one or more trading rotations be employed on any business day to aid in producing a fair and orderly market and shall specify, for each rotation so employed, the particular option contracts to be included and the sequence of such option contracts in the rotation. Trading rotations, which shall be conducted by the specialist, shall be conducted in the following manner:

- (a) **Opening Rotations.**—In the case of options on stocks or Exchange-Traded Fund Shares, the opening rotation in each class of options shall be held promptly following the opening of the underlying security on the primary market where it is traded. An underlying security shall be deemed to have opened on the primary market where it is traded if such market has (i) reported a transaction in the underlying security or (ii) disseminated opening quotations for the underlying security and not given an indication of a delayed opening. In the case of options on foreign currencies, the opening rotation in each option shall be held promptly following the opening of trading. In either case, respecting openings conducted manually, the specialist should proceed in the following manner: Taking each option in which he is assigned in turn, the specialist should first open the one or more series of such options having the nearest expiration, then proceed to a series of options having the next most distant expiration, and so forth, until all series have been opened. The specialist shall determine which type of option should open first (i.e., put or call options), and may alternate the opening of put series and call series or may open all series of one type before opening any series of the other type, depending on current market conditions, except as provided below.
- (b) **Modified Rotations**—(i) Modified rotations include reverse and shotgun rotations. A reverse rotation is an opening rotation where the Specialist should first open the one or more series of options of a given class having the most distant expiration, then proceed to the next nearest expiration, and so forth, ending with the nearest expiration, until all series have been opened. A shotgun rotation is an opening rotation in which each option series opens in the same manner and sequence as during a regular trading rotation stated above in paragraph (a), but is permitted to freely trade once all option series with the same expiration month have been opened.
- (ii) A reverse trading rotation must be employed in connection with openings and reopenings involving a heavy influx of orders, unless exempted by an Options Exchange Official.
- A second rotation requires the approval of an Options Exchange Official. In addition, a modified rotation may be employed in connection with delayed openings, halts or suspensions of options trading or other unusual market conditions, but in a different manner and sequence of trading than described above provided an Options Exchange Official determines that such procedure should be implemented.
- (iii) This Commentary .01(b) shall apply only to manual openings conducted in accordance with the Commentary to Rule 1017.
- (c) **Closing Rotations at Expiration**—On the business day of expiration, or, in the case of an option contract expiring on a day that is not a business day, on the last trading day prior to expiration with respect to expiring stock option contracts a closing rotation in each series of expiring options shall be commenced at 4:00 p.m., or 4:15 p.m. for options on Exchange-Traded Fund Shares where the underlying Fund Shares themselves cease trading at 4:15 p.m., or after a closing price of the stock or Exchange-Traded Fund Share in its primary market is established, whichever is later. Except as otherwise provided by

an Options Exchange Official, the specialist may determine which type of expiring options series should close first, and may alternate the close of put series and call series or may close all series of one type before closing any series of the other type, depending on current market conditions. In any instance where an Options Exchange Official, determines to conduct a closing rotation on the business day of expiration, or, in the case of an option contract expiring on a day that is not a business day, on the trading day prior to expiration in any equity option for which the underlying did not trade, or for which trading was halted as of the normal close of trading in its primary market on that day, the rotation shall commence as immediately as practicable following the time at which the option normally ceases free trading, or at any earlier time

- (d) **Quarterly Rotations**—On the last day of each calendar quarter, a closing rotation for some equity option series may be commenced at 4:00 p.m. or after the closing price of the stock in its primary market is established, whichever is later. Orders will not be accepted at or after 4:00 p.m. Prior notice will be provided to the trading floor regarding which options series will be subject to a closing rotation.

.02 In the event that trading in an underlying stock or Exchange-Traded Fund Share has not opened in the primary market for such stock or Exchange-Traded Fund Share within a reasonable time after the opening of business, or, in the event that current quotations for any underlying foreign currency are for any reason unavailable, the specialist shall report such delay or unavailability to the Regulatory staff and the appropriate steps will be taken to determine the cause for such delay or unavailability. The opening of trading in such option shall be delayed until the underlying stock has opened or until current quotations for the underlying foreign currency become available, as the case may be, unless an Options Exchange Official, determines that the interests of a fair and orderly market are best served by opening trading in such options.

.03 Stock or Exchange-Traded Fund Share Options Trading after 4:00 p.m. With the prior approval of an Options Exchange Official a trading rotation in any class of stock option contracts may be effected even though employment of the rotation will result in the transaction on the Exchange after 4:00 p.m., or 4:15 p.m. for options on Exchange-Traded Fund Shares where the underlying Fund Shares themselves cease trading at 4:15 p.m., provided:

- (a) Promptly after trading in the underlying security opens or re-opens, an opening or re-opening rotation in the corresponding options class is commenced; or
- (b) Such rotation was initiated due to unusual market conditions pursuant to this Rule, notice of such rotation is disseminated to the trading floor and the rotation does not commence until five minutes after the notice is disseminated.

- (c) If prior to 4:00 p.m. a trading rotation is in progress and an Options Exchange Official determines that a final trading rotation is needed to assure a fair and orderly market, the rotation in progress shall be halted and such final rotation begun as promptly as possible after 4:00 p.m.

[Rule 1060. Floor Broker Defined

An Options Floor Broker is an individual who is registered with the Exchange for the purpose, while on the Options Floor, of accepting and handling options orders.

Rule 1061. Registration of Floor Brokers

An applicant for registration as an Option Floor Broker shall file his application in writing with Regulatory staff on such form or forms as the Exchange may prescribe. Applications shall be reviewed by the Exchange, which shall consider an applicant's ability as demonstrated by his passing an Options Floor Broker's examination prescribed by the Exchange, and such other factors as the Exchange deems appropriate. After reviewing the application, the Exchange shall either approve or disapprove the applicant's registration as a Floor Broker.

Rule 1062. Letters of Authorization

(a) *Required of each Options Floor Broker.* No Options Floor Broker shall act as such on the Exchange unless there is in effect and filed with the Exchange a Letter of Authorization that has been issued for such Options Floor Broker by a Clearing Member.

(b) *Terms of Letter of Authorization.* A Letter of Authorization shall provide that the issuing Clearing Member shall be responsible for the clearance of the Exchange transactions of the Options Floor Broker when the name of such Clearing Member is given up.

(c) *Revocation of Letter of Authorization.* A Letter of Authorization shall remain in effect until a written notice of revocation has been filed with the Exchange. If such written notice has not been filed for at least one hour prior to the opening of trading on a particular business day, such revocation shall not become effective until the close of trading on such day.

Rule 1063. Responsibilities of Floor Brokers

(a) *General Responsibility.* In addition to the Provisions of Rule 155 concerning due diligence, an Options Floor Broker shall ascertain that at least one Registered Options Trader is present at the trading post prior to representing an order for execution. This Rule 1063(a) shall not apply to

a Floor Broker in any foreign currency option if no Registered Options Trader registered in such foreign currency option is present on the Exchange's trading floor at that time.

(b) *Contingency order.* An Options Floor Broker handling a contingency order that is dependent upon the price of the underlying security shall be responsible for satisfying the dependency requirement on the basis of the last reported price of the underlying security in the primary market that is generally available on the Options Floor at any given time. Unless mutually agreed by the members involved, an execution or non-execution that results shall not be altered by the fact that such reported price is subsequently found to have been erroneous.

(c) *Combination orders at the opening or close.* A Floor Broker shall not be held responsible for the execution of a single order combining different series of options based upon transaction prices that are established at the opening or close of trading or during any trading rotation.

(d) *Orders for Registered Options Traders.* An Options Floor Broker must inform the crowd when he is representing an order for a registered options trader and must comply with Commentaries .10, .11, .12, and .13 of Rule 1014.

(e) (i) *Options Floor Based Management System.* In order to create an electronic audit trail for equity, equity index and U.S. dollar-settled foreign currency options orders represented by Floor Brokers on the Exchange's Options Floor, a Floor Broker or such Floor Broker's employees shall, contemporaneously upon receipt of an order and prior to the representation of such an order in the trading crowd, record all options orders represented by such Floor Broker onto the electronic Options Floor Based Management System ("FBMS") (as described in Rule 1080, Commentary .06). The following specific information with respect to orders represented by a Floor Broker shall be recorded by such Floor Broker or such Floor Broker's employees: (i) the order type (i.e., customer, firm, broker-dealer, professional, market maker) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle), or contingency order as described in Rule 1066; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; (vii) whether the transaction is to open or close a position; and (viii) The Options Clearing Corporation ("OCC") clearing number of the broker-dealer that submitted the order (collectively, the "required information"). A Floor Broker must enter complete alpha/numeric identification assigned by the Exchange for all orders entered on behalf of Exchange Registered Option Traders. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System contemporaneously upon receipt, which may occur after the representation and execution of the order. In the event of a malfunction in the Options Floor Based Management System, Floor Brokers shall record the required information on trade tickets, and shall not represent an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Floor Brokers or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

(ii) Pursuant to Rule 1000(f), Floor Brokers are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Floor Brokers execute

orders in the Exchange's options trading crowd pursuant to Rule 1000(f)(ii), Floor Brokers shall record the required information on trade tickets, and shall not represent an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Floor Brokers or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

(iii) Complex Calculator. The FBMS will calculate and display a suggested price of each individual component of a multi-leg order up to 15 legs submitted on a net debit or credit basis.

(iv) Execution. FBMS is designed to execute two-sided orders entered by Floor Brokers, including multi-leg orders up to 15 legs, after representation in the trading crowd. When a Floor Broker submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Floor Broker in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced by Options Trader Alert, after which it will be returned to the Floor Broker on the FBMS. The Floor Broker may resubmit the order for execution, as long as the quotes/orders that comprise the cross have not been withdrawn. Floor Brokers are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Rules 1014, 1033 and 1084.

(v) Snapshot Feature. The Snapshot feature of FBMS may be utilized by Floor Brokers as set forth in Rule 1069.

(f) Floor Brokers or their employees shall enter the required information (as described in paragraph (e) above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity and index options and U.S. dollar-settled foreign currency options. Floor Brokers or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

••• *Commentary:* -----

.01 A Floor Broker who wishes to place a limit order on the limit order book must submit such a limit order electronically through the Options Floor Based Management System.

.02 Floor Brokers must make reasonable efforts to ascertain whether each order entrusted to them is for the account of a customer or a broker-dealer. If it is ascertained that the order is for the account of a broker-dealer, the responsible Floor Broker must advise the crowd of that fact prior to bidding/offering on behalf of the order or submitting the order for execution. The Floor Broker or his employees must make the appropriate notation on

the Options Floor Based Management System when it has been determined that the order is for an account of a broker/dealer.

Rule 1065. Discretionary Transactions

No Floor Broker shall execute or cause to be executed any order or orders on this Exchange with respect to which such Floor Broker is vested with discretion as to: (i) the choice of the class of options to be bought or sold, (ii) the number of contracts to be bought or sold, or (iii) whether any such transaction shall be one of purchase or sale. However, the provisions of this Rule shall not apply to any discretionary transaction executed by a Registered Options Trader for an account in which he has an interest.

••• *Commentary:* -----

.01 No Options Floor Broker shall hold a "not held" market order to buy and a "not held" market order to sell (or orders which have the effect of such "not held" market orders to buy and to sell) the same series of options for the same account or for accounts of the same beneficial owner. Also no Floor Broker shall leg a combination order for a Registered Options Trader or accept opening or discretionary orders for a Registered Options Trader who is associated with the same member organization as such Floor Broker or who is associated with another member organization which is pursuant to Exchange Rule 793 affiliated with the same member organization as such Floor Broker. Holding or accepting such orders can be interpreted as allowing the Floor Broker discretion respecting whether to purchase or sell such options.

.02 An Options Floor Broker may not exercise any discretion with respect to the order of a ROT or the order of an options market maker registered on another exchange.

[Rule 1069. Snapshot Feature

(a) The Snapshot feature of FBMS records the market prevailing at the time the Snapshot is triggered. It records all information required to determine compliance with priority and trade-through requirements, including the following: (1) Away Best Bid and Offer; (2) the Exchange Best Bid and Offer; (3) customer orders at the top of the Exchange book; and (4) the best bid and offer of all-or-none orders.

(i) Availability.

(A) A member is permitted to trigger the Snapshot feature only at the time he or she provisionally executes a trade in the trading crowd. For purposes of this provision, provisional execution occurs when either: (1) the participants to a trade reach a verbal agreement in the trading crowd as to the terms of the trade; or (2) a member announces that he is crossing an order in accordance with Rule 1064(a).

(B) A member is prohibited from triggering the Snapshot feature for the purpose of obtaining favorable priority or trade-through conditions or avoiding unfavorable priority or trade-through conditions.

(C) A member may have only one Snapshot outstanding across all options classes and series at a given time.

(D) Surveillance Staff will monitor and enforce proper usage of the Snapshot feature on a post-trade basis.

(ii) Snapshot Timer. After triggering the Snapshot feature, the member will have no more than 30 seconds to submit the provisionally executed trade along with the Snapshot into the System. The Snapshot will automatically become unavailable and expire if the member fails to submit a provisionally executed trade along with the Snapshot within 30 seconds after triggering the Snapshot.

(iii) Verification. After the member submits the provisionally executed trade along with the Snapshot, the System then determines whether the terms of the provisionally executed trade submitted by the member is consistent with applicable priority and trade-through rules based on the market prevailing at the time of the Snapshot.

(A) If the provisionally executed trade submitted with the Snapshot is consistent with the applicable priority and trade-through rules based on the market prevailing at the time of the Snapshot, the System will report the trade to the Consolidated Tape.

- (B) If the provisionally executed trade is not consistent with the applicable priority and trade-through rules based on the market prevailing at the time of the Snapshot, the System will reject the trade.
- (C) If an order exists on the Exchange's limit order book that has priority at the time when a member seeks to take a Snapshot, the System will not prevent the member from taking a Snapshot, but the member must clear the order on the book, re-announce and provisionally re-execute the trade, and take a new Snapshot before submitting the provisionally executed trade to the System or else the System will reject the trade upon submission.

(iv) Taking a New Snapshot

(A) A member may take a new Snapshot and trigger a new 30-second timer provided that the member first re-announces and provisionally re-executes the trade in the crowd, as described in paragraphs (i) through (iii) above, if: (1) the Snapshot expired before the member submitted a provisional execution to the Trading System; (2) the Trading System rejected a provisional execution that is subject to a Snapshot; or (3) the member affirmatively canceled a Snapshot or permitted it to expire in anticipation of the Trading System rejecting the provisional execution that is subject to it.]

[Rule 1079. FLEX Index, Equity and Currency Options

A Requesting Member shall obtain quotes and execute trades in certain non-listed FLEX options at the post of the non-FLEX option on the Exchange. The term "FLEX option" means a FLEX option contract that is traded subject to this Rule. Although FLEX options are generally subject to the Rules in this section, to the extent that the provisions of this Rule are inconsistent with other applicable Exchange Rules, this Rule takes precedence with respect to FLEX options.

(a) Characteristics:

(1) Underlying interest —

(6) Expiration date—

(A) any month, business day and year within five years for FLEX index options and within three years for FLEX currency options, except that (i) a FLEX index option that expires on or within two business days prior or subsequent to a third Friday-of-the-month expiration day for a non-FLEX option (except quarterly expiring index options) or underlying currency may only have an exercise settlement value on the expiration date determined by reference to the reported level of the index as derived from the opening prices of the component securities ("a.m. settlement") and (ii) all FLEX currency options will expire at 11:59 p.m. eastern time on their designated expiration date; or

(B) any month, business day and year within three years for FLEX equity options, provided, however, that a Requesting Member may request a longer term to a maximum of five years, and upon the assessment of the Regulatory staff that sufficient liquidity exists among FLEX equity participants, such request may be granted. Regulatory staff are Exchange employees responsible for, among other things, assessing that sufficient liquidity exists among FLEX equity participants requesting a term exceeding three years

to a maximum of five years. The Exchange may also designate other qualified Exchange employees to assist the Regulatory staff as the need arises.

(C) Provided the options on an underlying security or index are otherwise eligible for FLEX trading, FLEX options shall be permitted in puts and calls that do not have the same exercise style, same expiration date and same exercise price as non-FLEX options that are already available for trading on the same underlying security or index. FLEX options shall also be permitted before the options are listed for trading as non-FLEX options. Once and if the option series are listed for trading as non-FLEX options, then (i) all existing open positions established under the FLEX trading procedures shall be fully fungible with transactions in the respective non-FLEX option series, and (ii) any further trading in the series would be as non-FLEX options subject to the non-FLEX trading procedures and Rules. However, in the event the Non-FLEX series is added intra-day, a position established under the FLEX trading procedures would be permitted to be closed using the FLEX trading procedures for the balance of the trading day on which the Non-FLEX series is added against another closing only FLEX position. For such FLEX series, the Exchange will make an announcement that the FLEX series is now restricted to closing transactions; a FLEX Request for Quotes ("RFQ") may not be disseminated for any order representing a FLEX series having the same terms as a Non-FLEX series, unless such FLEX Order is a closing order (and it is the day the Non-FLEX series has been added); and only responses that close out an existing FLEX position are permitted. Any transactions in a restricted series that occur that do not conform to these requirements will be nullified by the Exchange.

(7) Requesting quotes—to request a quote in FLEX options, an RFQ shall be submitted pursuant to paragraph (b) of this Rule;

(8) Minimum size—

(A) **Opening**—If there is no open interest in the particular series when an RFQ is submitted, the minimum size of an RFQ is:

- (i) One contract in the case of FLEX market index options, and one contract in the case of FLEX industry index options;
- (ii) One contract in the case of FLEX equity options; and
- (iii) 50 contracts in the case of FLEX currency options.

(B) **Opened**—If there is open interest, the minimum size of an RFQ is:

- (i) respecting FLEX index options, \$1 million underlying equivalent value, or the remaining size on a closing transaction, whichever is less;
- (ii) respecting FLEX equity options, the lesser of 100 contracts or the number of contracts overlying \$1 million of the underlying securities in the case of an opening

transaction, or 25 contracts or the remaining size in the case of a closing transaction, whichever is less; or

(iii) respecting FLEX currency options, 25 contracts, or the remaining size on a closing transaction, whichever is less.

(C) **Responsive**—The minimum value size for a responsive quote, other than an assigned ROT or assigned Specialist, is (includes non-assigned ROTs and a non-assigned Specialist):

(i) respecting FLEX index options, \$1 million underlying equivalent value respecting index options, or the remaining size on a closing transaction, whichever is less. However, an assigned ROT and assigned Specialist are required to respond with at least \$10 million underlying equivalent value respecting FLEX market index options, and \$5 million underlying equivalent value respecting FLEX industry index options or Alpha Index options, or the size amount requested in the RFQ, whichever is less;

(ii) respecting FLEX equity options, 25 contracts, or the remaining size on a closing transaction, whichever is less. However, an assigned ROT and assigned Specialist are required to respond with at least 250 contracts, or the size amount requested in the RFQ, whichever is less; or

(iii) respecting FLEX currency options, 50 contracts, or the remaining size on a closing transaction, whichever is less. However, an assigned ROT and assigned Specialist are required to respond with at least 250 contracts, or the size amount requested in the RFQ, whichever is less.

(D) "Underlying equivalent value" means the aggregate value of a FLEX index option (index multiplier times the current index value) multiplied by the number of FLEX index options.

(9) Settlement

(A) respecting FLEX index options, the settlement value may be specified as the index value reported at the: (i) close (P.M.-settled); (ii) opening (A.M.-settled) of trading on the Exchange, or (iii) as an average over a specified period of time, within parameters established by the Exchange. American style index options exercised prior to the expiration date can only settle based on the closing value on the exercise date. FLEX index options are settled in U.S. dollars; or

(B) The settlement value for FLEX options on the Australian dollar, the Euro, the British pound, the Canadian dollar, the Swiss franc, the Japanese yen, the Mexican peso, the Brazilian real, the Chinese yuan, the Danish krone, the New Zealand dollar, the Norwegian krone, the Russian ruble, the South African rand, the South Korean won, and the Swedish krona shall be the Exchange Spot Price at 12:00:00 Eastern Time (noon) on expiration day, unless the Exchange determines to apply an alternative closing settlement

value as a result of extraordinary circumstances. FLEX currency options are settled in U.S. dollars. FLEX currency options will cease trading at 10:15 a.m. eastern time on their designated expiration date.

- (10) Requesting Member—a member of the Exchange qualified to trade FLEX options pursuant to paragraph (c) of this Rule who initiates an RFQ for a FLEX option.
- (11) Request for Quotes—the term "Request for Quotes" means the initial request supplied by a Requesting Member to initiate FLEX bidding and offering.
- (12) Request Response Time—the term "Request Response Time" means the minimum period of time established by the Exchange, during which Exchange members participating in FLEX options may provide FLEX Quotes in response to a Request for Quotes.
- (13) FLEX Quote - the term "FLEX Quote" means (i) FLEX bids and offers entered by Specialists and Registered Options Traders and (ii) orders to purchase and orders to sell FLEX Options entered by Floor Brokers, in each case in response to a Request for Quotes.
- (14) BBO—the term "BBO" means the best bid or offer, or both, as applicable, entered in response to a Request for Quotes.
- (15) BBO Improvement Interval—the term "BBO Improvement Interval" means the minimum period of time, to be established by the Exchange, during which members may submit FLEX Quotes to meet or improve the BBO established during the Request Response Time.

(b) Procedure for Quoting and Trading FLEX Options. FLEX options will not be continuously quoted and series are not pre-established. The Exchange's electronic quoting and trading system will not be available for FLEX options. The variable terms of FLEX options shall be established through the process described in this Rule. All transactions must be in compliance with Section 11(a) of the Securities Exchange Act of 1934 and the rules promulgated thereunder, which may include yielding priority to customer orders.

- (1) **Requesting Quotations.** The Requesting Member may initiate a Request-for-Quote ("RFQ") by first announcing all of the following contract terms to the trading crowd of the non-FLEX option and then submitting an RFQ ticket to the post: (1) underlying index, security or foreign currency; (2) type, size, and crossing intention; (3) in the case of FLEX index options and FLEX equity options, exercise style; (4) expiration date; (5) exercise price; and (6) respecting index options, the settlement value. Thereafter, on receipt of an RFQ in proper form, the assigned Specialist or the Requesting Member shall cause the terms of the RFQ to be disseminated as an administrative text message through the Options Price Reporting Authority ("OPRA").
- (2) **Responses.** Members may enter at the FLEX post FLEX Quotes responsive to each Request for Quotes. FLEX Quotes must be entered during the Request Response Time. Each FLEX Quote shall refer to a reference indicator as the Exchange determines appropriate from time to time. All FLEX Quotes may be entered, modified or withdrawn at

any point during the request response time. At the expiration of the Request Response Time, the BBO shall be identified in accordance with the price and time priority principles set forth by the Exchange.

- (3) **Formation of Contracts Following the Process of Initial Quotes.** At the expiration of the Request Response Time, the assigned Specialist, or if none, the Requesting Member shall determine the BBO and the BBO shall be displayed on such market data systems as are available. If the Requesting Member has not indicated an intention to cross or act as principal with respect to any part of the FLEX trade, the member shall promptly accept or reject the displayed BBO: provided, however, that if such a Requesting Member either rejects the BBO or is given a BBO for less than the entire size requested, all FLEX participating members other than the Requesting Member will have an opportunity during the BBO Improvement Interval in which to match, or improve, (as applicable), the BBO. At the expiration of any such BBO Improvement Interval, the Requesting Member must promptly accept or reject the BBO(s). If the Requesting Member has indicated an intention to cross or act as principal with respect to any part of the FLEX trade, acceptance of the displayed BBO shall be automatically delayed until the expiration of the BBO Improvement Interval. Prior to the BBO Improvement Interval, the Requesting Member must indicate at the post the price at which the member expects to trade. In these circumstances, the Requesting Member may participate with all other FLEX-participating members in attempting to improve or match the BBO during the BBO Improvement Interval. At expiration of the BBO Improvement Interval, the Requesting Member must promptly accept or reject the BBO(s). The Requesting Member has no obligation to accept any FLEX bid or offer. Whenever, following the completion of FLEX bidding and offering responsive to a given RFQs, the Requesting Member rejects the BBO or the BBO size exceeds the FLEX transaction size indicated in the RFQs, members may accept the entire order or the unfilled balance of the BBO.
- (4) **Priority.** The highest bid shall have priority, but where the two or more best bids are submitted at the same price, the bid(s) submitted first in time will have priority. The lowest offer shall have priority, but where the two or more best offers are submitted at the same price, the offer(s) submitted first in time will have priority.
- (5) **BBO Improvement Interval.** In the case of FLEX equity options only and notwithstanding Rule 1079(b)(4), whenever the Requesting Member has indicated an intention to cross or act as principal on the trade and has matched or improved the BBO during the BBO Improvement Interval, the Requesting Member will be permitted to execute the contra side of the trade that is the subject of the RFQs, to the extent of at least 40% of the trade, provided the order is a public customer order or an order respecting the Requesting Member's firm proprietary account. Notwithstanding the foregoing, all market participants may effect crossing transactions.
- (6) **Reporting Requirements.** RFQs, responsive quotes and completed trades will be promptly reported to OPRA and disseminated as an administrative text message.

(7) **Trading Rotations.** There will be no trading rotations in FLEX options, either at the opening or at the close of trading.

(8) **Hours of Trading.** FLEX options trading must be effected during the hours established by the Exchange. Such hours shall be within regular Exchange trading hours (for the non-FLEX option) on each business day, except that the Exchange in its discretion may determine at any time to narrow or expand FLEX trading hours to encompass, but not exceed, the trading hours of the non-FLEX option.

(c) Who May Trade FLEX Options.

(1) **Assigned ROTs and Assigned Specialists.** An ROT or Specialist may apply on a form prescribed by the Exchange to be assigned in FLEX options. At least two members shall be assigned to each FLEX option. Only the Specialist in the non-FLEX option may be the assigned Specialist in that FLEX option ("FLEX Specialist"). The provisions of Rule 1014(c) regarding market making obligations shall be applicable to assigned ROTs and assigned Specialists, such that a market must be provided in any FLEX option when requested by an Options Exchange Official.

(2) **Financial Requirements.** An assigned ROT in FLEX index options shall be required to maintain a minimum of \$100,000 in net liquid assets. An assigned Specialist in FLEX index options shall be required to maintain a minimum of \$1,000,000 in net capital. Floor Brokers shall be required to maintain a minimum of \$50,000 in net capital to qualify to trade FLEX options. Each such assigned ROT, assigned Specialist or Floor Broker shall immediately inform the Exchange upon failure to be in compliance with such requirements. The Exchange may waive the financial requirements of this Rule in unusual circumstances.

(3) **Letters of Guarantee.** No ROT or Specialist shall effect any FLEX option unless a Letter of Guarantee has been issued by a clearing member organization and filed with the Exchange pursuant to Rule 703 specifically accepting financial responsibility for all FLEX option transactions made by such person and such letter has not been revoked.

(d) **Position Limits.**

(1) FLEX index options shall be subject to a separate position limit of 200,000 contracts on the same side of the market respecting market index options; 36,000, 48,000, or 60,000 contracts respecting industry index options, depending on the position limit tier determined pursuant to Rule 1001A(b)(i); the same number of contracts respecting Alpha Index options that would apply to such Alpha Index options if they were not FLEX; the same number of contracts respecting MSCI EM Index options that would apply to such MSCI EM Index options if they were not FLEX; and the same number of contracts respecting MSCI EAFE Index options that would apply to such MSCI EAFE Index options if they were not FLEX. Reduced value or mini-size FLEX index option contracts shall be aggregated with full value or full-size FLEX index option contracts and counted by the amount by which they equal a full value contract (e.g. ten (10) one tenth (1/10th) value contracts equal one (1) full value contract). Positions in P.M.-settled FLEX index options shall be aggregated with positions

in quarterly expiring options listed pursuant to Rule 1101A(b)(iv) on the same underlying index, if the FLEX index option expires at the close of trading on or within two business days of the last day of trading in each calendar quarter. However, except as provided in subsection (4) of this section (d), positions in FLEX index options shall otherwise not be taken into account when calculating position limits for non-FLEX index options. There shall be no position limits for full value options on the Russell 2000[®] Index ("Full Value Russell 2000[®] Options") and for one tenth (1/10th) value options on the Russell 2000[®] Index ("Reduced Value Russell 2000[®] Options"). There shall be no position limits for full value options on the Nasdaq 100 Index ("Full Value Nasdaq 100 Options") and for the reduced value options on the Nasdaq 100 Index ("Reduced Value Nasdaq 100 Options"). Options on the Full Value and Reduced Value Russell Indexes for the following products (collectively "Russell U.S. Indexes"): Russell 3000[®] Index, Russell 3000[®] Value Index, Russell 3000[®] Growth Index, Russell 2500[™] Index, Russell 2500[™] Value Index, Russell 2500[™] Growth Index, Russell 2000[®] Value Index, Russell 2000[®] Growth Index, Russell 1000[®] Index, Russell 1000[®] Value Index, Russell 1000[®] Growth Index, Russell Top 200[®] Index, Russell Top 200[®] Value Index, Russell Top 200[®] Growth Index, Russell MidCap[®] Index, Russell MidCap[®] Value Index, Russell MidCap[®] Growth Index, Russell Small Cap Completeness[®] Index, Russell Small Cap Completeness[®] Value Index and Russell Small Cap Completeness[®] Growth Index, are subject to an aggregate position limit of 50,000 contracts on the same side of the market, provided that no more than 30,000 of such contracts are in the nearest expiration month series.

- (2) FLEX equity options shall not be subject to a separate FLEX position limit. Except as provided in subsection (4) of this section (d), positions in FLEX equity options shall not be taken into account when calculating position limits for non-FLEX equity options, or FLEX or non-FLEX index options.

However, each member or member organization (other than a Specialist or ROT) that maintains a position on the same side of the market in excess of the standard limit under Rule 1001 for non-FLEX equity options of the same class on behalf of its own account or for the account of a customer shall report information on the FLEX equity option position, positions in any related instrument, the purpose or strategy for the position and the collateral used by the account. This report shall be in the form and manner prescribed by the Exchange. In addition, whenever the Exchange determines that a higher margin requirement is necessary in light of the risks associated with a FLEX equity option position in excess of the standard limit for non-FLEX equity options of the same class, the Exchange may consider imposing additional margin upon the account maintaining such under-hedged position. Additionally, it should be noted that the clearing firm carrying the account will be subject to capital charges under SEC rule 15c3-1 to the extent of any margin deficiency resulting from the higher margin requirement.

- (3) Positions in FLEX currency options will be aggregated with positions in non-FLEX U.S. dollar-settled foreign currency option contracts for purposes of determining compliance with the position limits established by Rule 1001.

(4) As long as the options positions remain open, positions in FLEX index options that expire on a third Friday-of-the-month shall be aggregated with positions in non-FLEX index options on the same underlying security ("comparable non-FLEX index options"), positions in FLEX equity options that expire on a third Friday-of-the-month shall be aggregated with positions in non-FLEX equity options on the same underlying security ("comparable non-FLEX equity options"), and shall be subject to the position and exercise limits set forth in this Rule 1079, and 1001, 1002, 1001A, and 1002A, as applicable.

(e) Exercise Limits. In determining compliance with Rules 1002 and 1002A, exercise limits for FLEX options shall be equivalent to position limits established in this Rule. Positions in FLEX options shall not be taken into account when calculating exercise limits for non-FLEX options, except as provided in paragraph (d) above. The minimum exercise size shall be the lesser of \$1 million underlying equivalent value for FLEX index options, and 25 contracts for FLEX equity and currency options, or the remaining size of the position.

(f) FLEX equity and currency options shall be subject to the exercise-by-exception procedure of Rule 805 of The Options Clearing Corporation.

(g) Notwithstanding Rule 1079(a)(4) regarding FLEX Index, Equity and Currency Options minimum increments, open FLEX option positions are eligible to be closed in accordance with Rule 1059, Accommodation Transactions, at the minimum increments specified therein. The FLEX option cabinet order may be executed against contraside interest to close a FLEX option position or, to the extent permitted under Rule 1059(a)(iii), against contraside interest which opens a FLEX option position. Sections (a) and (b) of Rule 1079 shall not apply to FLEX option transactions executed pursuant to Rule 1079(g) and Rule 1059. Sections (c) - (g) of Rule 1079 shall apply to any FLEX option position opened pursuant to Rule 1059.

Rule 1080. Electronic Acceptance of Quotes and Orders

(a) **Entry and Display of Orders and Quotes.** Members may enter orders and quotes into the System as specified below.

(i) The Exchange offers members the following protocols for entering orders and quotes respectively:

(A) and (B) No change.

(C) **Options Floor Based Management System or ("FBMS")** is a component of the System designed to enable members and/or their employees to enter, route and report transactions stemming from options orders received on the Exchange. The FBMS also is designed to establish an electronic audit trail for options orders negotiated, represented and

executed by members on the Exchange, to the extent permissible [under Rule 1000(f)]pursuant to Options 8, Section 22(a), such that the audit trail provides an accurate, time-sequenced record of electronic and other orders, quotations and transactions on the Exchange, beginning with the receipt of an order by the Exchange, and further documenting the life of the order through the process of execution, partial execution, or cancellation of that order. The features of FBMS are described in [Rules 1063(e)]Options 8, Sections 28(e) and 29 [1085]. In addition, a non-member or member may utilize an FBMS FIX interface to create and send an order into FBMS to be represented by a Floor Broker for execution.

[Rule 1085. Use of Floor Based Management System by Registered Options Traders and Specialists

(a) *Options Floor Based Management System.* In order to create an electronic audit trail for equity, equity index and U.S. dollar-settled foreign currency options orders negotiated by Registered Options Traders and Specialists on the Exchange's Options Floor, a Registered Options Trader, a Specialist, or their respective employees shall, prior to the negotiation of such an order in the trading crowd, record all options orders negotiated by such Registered Options Trader or Specialist onto the electronic Options Floor Based Management System ("FBMS") (as described in Rule 1080, Commentary .06). The following specific information with respect to orders negotiated by a Registered Options Trader or Specialist shall be recorded by such Registered Options Trader, Specialist, or their respective employees: (i) the order type (i.e., market maker) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle) or contingency order as described in Rule 1066; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; and (vii) whether the transaction is to open or close a position, as applicable (collectively, the "required information"). A Registered Options Trader or Specialist must enter complete alpha/numeric identification assigned by the Exchange for all orders entered. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System contemporaneously upon receipt, which may occur after the negotiation and execution of the order. In the event of a malfunction in the Options Floor Based Management System, a Registered Options Trader or Specialist shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Registered Options Traders, Specialists, or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

The Exchange anticipates that it will make FBMS available to Registered Options Traders and Specialists during the Second Quarter of 2018. To facilitate the transition to FBMS, the Exchange will not require Registered Options Traders or Specialists to utilize FBMS until one month after the date on which the Commission approves the Exchange's proposal. The Exchange will notify members via an Options Trader Alert, to be posted on the Exchange's website, at least seven calendar days prior to the date when FBMS will be available for use by Registered Options Traders and Specialists. The alert will also contain the mandatory start date.

(b) Pursuant to Rule 1000(f), Registered Options Traders and Specialists are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Registered Options Traders or Specialists execute orders in the Exchange's options trading crowd pursuant to Rule 1000(f)(ii), Registered Options Traders or Specialists shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Registered Options Traders, Specialists, or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

(c) Complex Calculator. The FBMS will calculate and display a suggested price of each individual component of a multi-leg order up to 15 legs submitted on a net debit or credit basis.

(d) Execution. FBMS is designed to execute orders entered by Registered Options Traders or Specialists, including multi-leg orders up to 15 legs, after negotiation in the trading crowd. When a Registered Options Trader or Specialist submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Registered Options trader or Specialist in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced in an Options Trader Alert, after which it will be returned to the Registered Options Trader or Specialist on the FBMS. The Registered Options Trader or Specialist may resubmit the order for execution, as long as the quotes that comprise the order have not been withdrawn. Registered Options Traders and Specialists are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Rules 1014, 1033 and 1084.

(e) Snapshot Feature. The Snapshot feature of FBMS may be utilized by Registered Options Traders and Specialists as set forth in Rule 1069.

(f) Registered Options Traders, Specialists or their employees shall enter the required information (as described in paragraph (a) above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity and index options and U.S. dollar-settled foreign currency options. Registered Options Traders, Specialists or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

In addition, each Floor Broker, Specialist and Registered Options Trader must successfully complete the appropriate floor trading examination(s), if prescribed by the Exchange, in addition to requirements imposed by other Exchange Rules. The Exchange may also require periodic examinations due to changes in trading rules, products or automated systems. Following the termination of, or the initiation of a change in the trading status of any such member who has been issued an Exchange access card and a trading floor badge, the appropriate Exchange form must be completed, approved and dated by a firm principal, officer, or member of the firm with authority to do so, and submitted to the appropriate Exchange department as soon as possible, but no later than 9:30 A.M. the next business day by the member organization employer. Every effort should be made to obtain the person's access card and trading floor badge and to submit these to the appropriate Exchange department.

(b) Non-member/Clerk Registration-All trading floor personnel, including clerks, interns, stock execution clerks and any other associated persons, of a member organization not required to register pursuant to Rule 1260(a) must be registered as "Floor Employee" ("FE") under "PHLX" on Form U4. Further, the Exchange may require successful completion of an examination, in addition to requirements imposed by other Exchange Rules. The Exchange may also require periodic examinations due to changes in trading rules, products or automated systems. Following the termination of, or the initiation of a change in the status of any such personnel of a member organization who has been issued an Exchange access card and a trading floor badge, the appropriate Exchange form must be completed, approved and dated by a member organization principal, officer, or member of the member organization with authority to do so, and submitted to the appropriate Exchange department as soon as possible, but no later than 9:30 A.M. the next business day by the member organization employer. Every effort should be made to obtain the person's access card and trading floor badge and to submit these to the appropriate Exchange department.

(c) Members whose activities are limited to the Exchange's options trading floor and who are registered pursuant to Rule 1260(a) as well as associated persons whose activities are limited to the Exchange's options trading floor and are registered pursuant to Rule 1260(b) are exempt from

the representative registration requirements (but not the principal registration requirements, including any prerequisite representative registration requirement) of Rules 1210 and 1220.]

A-2 Options Floor Based Management System

Options Floor Based Management System. In order to create an electronic audit trail for options orders negotiated by Specialists on the Exchange's Options Floor, a Specialist or such Specialist's employees shall, prior to the negotiation of such an order in the trading crowd, record all options orders negotiated by such Specialist onto the electronic Options Floor Based Management System (as described in Rule 1080, Commentary .06). The following specific information with respect to orders negotiated by a Specialist shall be recorded by such Specialist or such Specialist's employees: (i) the order type (i.e., market maker) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle) or contingency order as described in Rule 1066; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; and (vii) whether the transaction is to open or close a position, as applicable (collectively, the "required information"). A Specialist must enter complete alpha/numeric identification assigned by the Exchange for all orders entered. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System contemporaneously upon receipt, which may occur after the negotiation and execution of the order.

Pursuant to Rule 1000(f), Specialists are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Specialists execute orders in the Exchange's options trading crowd pursuant to Rule 1000(f)(ii) (other than for the use of Snapshot, as set forth in Rule 1000(f)(ii)(E)), Specialists shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Specialists or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

Specialists or their employees shall enter the required information (as described above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity, equity index and U.S. dollar-settled foreign currency options. Specialists or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a

specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

FBMS is designed to execute orders entered by Specialists, including multi-leg orders up to 15 legs, after negotiation in the trading crowd. When a Specialist submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Specialist in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced by Options Trader Alert, after which it will be returned to the Specialist on the FBMS. The Specialist may resubmit the order for execution, as long as the quotes that comprise the order have not been withdrawn. Specialists are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Rules 1014, 1033 and 1084.

A Specialist is prohibited from triggering the Snapshot feature for the purpose of obtaining favorable priority or trade-through conditions or avoiding unfavorable priority or trade-through conditions.

An all-or-none option order is a limit order which is to be executed in its entirety, or not at all. Unlike a fill-or-kill order, an all-or-none order is not cancelled if it is not executed as soon as it is represented in the trading crowd. An all-or-none order has no standing respecting executions in the crowd except with respect to other all-or-none orders.

When represented in the crowd, all-or-none orders are not included as part of the bid or offer.

When entered electronically pursuant to Rule 1080 or into Options Floor Based Management System pursuant to Rule 1063 or 1085, an all-or-none order has standing and is eligible for execution in time priority with all other customer orders and all-or-none professional orders (as specified in Rule 1000(b)(14)) at that price if the all-or-none contingency can be met.

B-3 Trading Requirements

(a) An ROT (other than an RSQT or a Remote Specialist) is required to trade in person, and not through the use of orders (except that non-streaming ROTs can use orders entered in person), the greater of 1,000 contracts or 50% of his contract volume on the Exchange each quarter. Also, at least 50% of an ROT's trading activity in each quarter must be in assigned options. No application by an ROT to change options assignments will be approved unless such ROT is in compliance with the above requirements at the time the application for change is made.

(b) For any calendar quarter, in addition to the requirements of paragraph (a) above, in order for an ROT (other than an RSQT or a Remote Specialist) to receive Specialist margin treatment for off-floor orders in accordance with Rule 1014, Commentary .01, the ROT must execute the greater of 1,000 contracts or 80% of his total contracts that quarter in person (not through the use of orders except that non-streaming ROTs can use orders entered in person) and 75% of his total contracts that quarter in assigned options. Violations of this trading requirement are subject to Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement review.

B-4 ROTs Entering Orders from On-Floor and Off-Floor for Execution on the Exchange

An ROT may not enter from off the floor opening orders for his market maker accounts, but may enter from off the floor or on the floor opening orders for his customer account. An ROT may enter from off the floor closing orders for either his market maker or customer account.

However, an ROT who has executed the greater of 1,000 contracts or 80% of his total contracts in a calendar quarter in person and 75% of his total contracts that quarter in assigned options may enter an opening transaction from off the floor for his market maker account if such transaction is for the purpose of hedging, reducing risk of, or rebalancing positions of the ROT. The off-floor orders for which an ROT receives Specialist margin treatment shall be subject to the obligations of Rule 1014(a) and an ROT is responsible for evidencing reliance of these provisions. Violations of this paragraph are subject to Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement review.

An ROT who enters an order from off the floor must advise the person receiving the order that it is an order for an ROT and must state whether the order is opening or closing, for a customer or market maker account, or opening from off-floor pursuant to the previous paragraph.

While on the floor, an ROT may place opening orders for his market maker account with a Floor Broker or with a Specialist which may then be executed even if the ROT has left the floor prior to its execution.

An ROT may cancel from off the floor opening or closing orders for his market maker or customer accounts; but if he wishes to effect a change in the terms of an opening order (e.g., security, price, volume, series, class or contingencies) from off the floor such changed order must be executed in his customer account, except in accordance with the second paragraph of this Advice.

An ROT shall not give discretion to a Floor Broker and shall not give a Floor Broker "not held" orders. With respect to delta orders placed with a Floor Broker for the account of an ROT, such orders may only be placed as day orders and must have the applicable delta legibly recorded on both the broker's floor ticket and the ROT's record of the order.

B-5 Agency-Principal Restrictions

Except under extraordinary circumstances and with the prior approval of an Options Exchange Official, a member may not act as an ROT and as a Floor Broker during the same trading session in options on the same underlying security. A member has acted as a Floor Broker if he has accepted an order even though such order was not executed. However, an ROT may close out positions held in his customer account in options on the same underlying security while he is acting as an ROT in those options.

B-6 Priority of Options Orders for Equity Options, Index Options and U.S. Dollar-Settled Foreign Currency Options by Account Type (EQUITY OPTION, INDEX OPTION AND U.S. DOLLAR-SETTLED FOREIGN CURRENCY OPTION ONLY)

Section A

Exchange Rules 119 and 120 direct members in the establishment of priority of orders on the floor. An account type is either a controlled account or a customer account. A controlled account includes any account controlled by or under common control with a broker-dealer. Customer accounts are all other accounts. Equity option, index option and U.S. dollar-settled foreign currency option orders of controlled accounts are required to yield priority to customer orders when competing at the same price, as described below. Orders of controlled accounts are not required to yield priority to other controlled account orders, except as provided in sub-paragraph (ii) below.

For the purposes of this Advice, "Initiating Order" means an incoming contra-side order.

- (i) Respecting transactions that are executed and allocated in open outcry by a participant other than the Specialist, "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers that are on parity in accordance with this Advice. The Remainder of the Order shall be allocated pursuant to this Advice.

- (ii) An Initiating Order executed manually by the Specialist shall be allocated as follows: first, to customer orders, and next to off-floor broker-dealer limit orders (as defined in Rule 1080(b)(i)(C)) resting on the limit order book. This provision shall not apply to electronically executed contracts, the allocation of which is described in Section F of this Advice. "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers and to off-floor broker-dealers in accordance with this sub-paragraph (ii).

Section B

Orders of controlled accounts, other than ROTs and Specialists market making in-person, must be

- (1) verbally communicated as for a controlled account when placed on the floor and when represented to the trading crowd and
- (2) recorded as for a controlled account by making the appropriate notation in the Options Floor Based Management System.

In any instance where an order is misrepresented in this fashion due to factors which give rise to the concern that it was the result of anything other than an inadvertent error, the Exchange may determine to bypass the fine schedule below and refer the incident to the Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement for possible disciplinary proceedings in accordance with those procedures set forth under the Rule 8000 and 9000 Series.

Section C

The Enhanced Specialist Participation is a percentage of the Remainder of the Order to which the Specialist is entitled.

Enhanced Specialist Participation - In equity option, index option and U.S. dollar-settled foreign currency option classes, when the registered Specialist is on parity with a controlled account, as defined above, in accordance with Exchange Rules 119 and 120 and the number of contracts to be bought or sold is greater than five, the Specialist is entitled to receive an enhanced participation of 30% of the Remainder of the Order ("Enhanced Specialist Participation"), except in the following circumstances:

- (1) where there is one controlled account on parity, in which case the Specialist is entitled to receive 60% of the Remainder of the Order; or
- (2) where there are two controlled accounts on parity, in which case the Specialist is entitled to receive 40% of the Remainder of the Order.

Section D

Reserved.

Section E

Allocation of the Remainder of the Order Among Specialist and ROTs on Parity. After the application of this Advice to an Initiating Order, the Remainder of the Order shall be allocated by the Allocating Participant (as defined in Rule 1014(g)(vi)) as follows:

(A) *Entitlement.* ROTs and Specialists on parity are entitled to their Defined Participation (as described below), subject to: (1) any Waiver, as described below; and (2) rounding, as described below.

(B) *Size.* The term "stated size" in respect of an order or electronic quotation shall mean:

(1) in the case of orders handled manually by the Specialist:

(a)(i) if a crowd participant (including the Specialist) has actually stated a size ("Actual Size"), such crowd participant's stated size shall be his or her Actual Size;

(ii) if the Specialist, an SQT or RSQT is disseminating an electronic quotation at the Exchange's disseminated price in a particular series at the time of the execution of an Initiating Order in such series, such Specialist, SQT or RSQT's disseminated size at the Exchange's disseminated price shall be his or her Actual Size, and such Specialist, SQT and/or RSQT shall be deemed a "crowd participant" for purposes of this Advice;

(b) unless the Specialist has an Actual Size, the stated size of the Specialist shall be the amount (if any) by which the disseminated size exceeds the sum of (x) the aggregate size of limit orders included in the disseminated size and (y) the aggregate sizes of all ROTs who have Actual Sizes;

(c) the stated size of an ROT who does not have an Actual Size is zero.

(2) in the case of floor brokered orders, each crowd participant's stated size shall be his or her Actual Size.

(C) *Defined Participation.* Defined Participation is the portion of the Remainder of the Order to which a crowd participant is entitled. Defined Participation is determined as follows:

(1) in the case of a Specialist entitled to an Enhanced Specialist Participation, the Enhanced Specialist Participation, up to the Specialist's stated size, as set forth in C of this Advice, as applicable. The Specialist may decline to receive the Enhanced Specialist Participation, in which case the Specialist shall be entitled to participate as one crowd participant, up to the Specialist's stated size.

(2) except as provided in (1) above, the Defined Participation of the Specialist and ROTs on parity is determined as follows:

- (a) where all participants have equal stated sizes, their Defined Participations shall be equal;
- (b) where participants have unequal stated sizes, the Defined Participations shall equal their Base Participations (as defined below) plus their Supplemental Participations (as defined below):
 - (i) the "Base Participations" of all of the participants shall equal the stated size of the smallest participant; to the extent that there remains any excess to be allocated after all participants have been allocated their Base Participations, the smallest participant shall have no Supplemental Participation, and the other participants shall have "Supplemental Participations" as determined under (ii) and (iii) below;
 - (ii) if the remaining stated sizes (i.e., after taking into account Base Participations) of all participants having Supplemental Participations is equal, then their Supplemental Participations shall be equal; otherwise the initial Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated their initial Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have further "Supplemental Participations" as determined under (iii) below; and
 - (iii) if the remaining stated sizes (i.e., after taking into account Base Participations and prior Supplemental Participations) of all participants having further Supplemental Participations is equal, then their further Supplemental Participations shall be equal; otherwise the next Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated the next Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have successive further Supplemental Participations determined in the same manner as provided in this clause (iii).

The process described in clause (iii) shall be followed to determine successive further Supplemental Participations until the sum of the Defined Participations equals the amount of the Remainder of the Order.

- (iv) (iv) (a) If the sum of the Base Participations pursuant to sub-paragraph (i) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive Base Participations, subject to rounding.
- (b) If the sum of the Supplemental Participations pursuant to sub-paragraph (ii) above exceeds the number of contracts remaining to be allocated, such contracts shall be

divided equally among crowd participants who are entitled to receive Supplemental Participations, subject to rounding.

- (c) If the sum of the further Supplemental Participations pursuant to sub-paragraph (iii) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive further Supplemental Participations, subject to rounding.
- (3) Participation in additional contracts in excess of the Exchange's disseminated size among willing crowd participants shall be allocated under the applicable provisions of this Advice. Notwithstanding the limitation set forth in sub-paragraph (C)(1) that limits the Specialist's entitlement to his/her stated size, for all contracts executed in excess of the disseminated size, the Specialist shall be entitled to receive the Enhanced Specialist Participation as set forth in Section C of this Advice, as applicable, but not to exceed the Specialist's Actual Size (if the specialist has an Actual Size) in such excess contracts.
- (D) *Waiver.* (1) Any ROT (other than an RSQT) or Specialist may, in his or her sole discretion, offer to waive, in whole or in part, any part of a trade to which they were entitled to be allocated (an "Offer to Waive").
- (a) Any Offer to Waive shall be made by stating it in a loud and audible voice to the other members of the trading crowd and the Allocating Participant.
 - (b) If the Allocating Participant has determined that the other crowd participant(s) then on parity is willing to take the number of contracts that are subject to the Offer to Waive, the Allocating Participant may (but shall not be required to), accept such Offer to Waive by (i) allocating the Remainder of the Order in accordance with this Advice, taking into account the Offer to Waive; or (ii) otherwise indicating, following the execution of the Remainder of the Order, that such Offer to Waive will be accepted (in which case, it shall be referred to as a "Waiver"). No Offer to Waive shall be an effective Waiver until the Allocating Participant has allocated the order or otherwise indicated that it is accepted.
 - (c) (i) In the case of an option which is not subject to an Enhanced Specialist Participation, as set forth in Section C of this Advice, if the Specialist or an ROT effects a Waiver in the manner provided above, the number of contracts to which such Specialist or ROT is entitled under this Advice shall be reduced by the number of contracts waived, and the entitlements of the other participants on parity shall be determined by redistributing the waived number of contracts to willing participants (including the Specialist) in accordance with this Advice.
 - (ii) In the case of an option which is subject to an Enhanced Specialist Participation, as set forth in Section C of this Advice, and one or more ROTs effect Waivers of their entire entitlements ("Total Waivers"), the number of ROTs with whom the Specialist is deemed to be on parity for purposes of determining the Enhanced Specialist Participation shall be reduced by the number of ROTs effecting Total Waivers and the following additional Rules shall apply:

- (A) in the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with three or more ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Advice, as if the Specialist had been on parity with three ROTs.
- (B) in the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with two ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Advice as if the Specialist had been on parity with two ROTs.
- (C) In the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with one ROT, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Advice as if the Specialist had been on parity with one ROT. In no event shall any non-waiving ROT be required to participate in fewer contracts than he/she would have received absent the Waiver(s).
- (iii) Partial Waiver. In the case of an option which is subject to an Enhanced Specialist Participation, in the event that one or more ROTs effect a Waiver of a portion of their respective entitlements, but not a Total Waiver, in the manner provided above (a "Partial Waiver"), the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the Specialist shall not be entitled to receive a number of contracts that is greater than 40% of the Remainder of the Order except in the situation referred to in the following sentence, unless all remaining crowd participants on parity have waived their entitlements or have been satisfied. In the case of the Specialist being on parity with only one ROT, the Specialist shall not be entitled to receive a number of contracts that is greater than 60% of the Remainder of the Order unless all remaining crowd participants on parity have waived their entitlements or have been satisfied.
- In no event shall any non-waiving ROT be required to participate in fewer contracts than he/she would have received absent the Partial Waiver(s).
- (iv) In no event shall two or more crowd participants enter into any agreement regarding the number of contracts to be waived by any crowd participant (i.e., subject to the provisions of sub-paragraph (D)(1)(b) above, any decision by a crowd participant to waive all or a portion of such crowd participant's entitlement must be an individual decision, and not the subject of an agreement among crowd participants).

(E) Rounding. In situations where the allocation of contracts pursuant to this Rule result in fractional amounts of contracts to be allocated to crowd participants, the number of contracts to be allocated shall be rounded in a fair and equitable manner.

(F) Just and Equitable Principles of Trade. (1) It shall be considered conduct inconsistent with just and equitable principles of trade for a member:

(a) to allocate initiating orders other than in accordance with this Advice;

(b) to enter into any agreement with another member concerning allocation of trades; or (c) to harass, intimidate or coerce any member to enter into any Waiver, or to make or refrain from making any complaint or appeal.

(2) A pattern or practice of waiving all or a portion of a crowd participant's entitlement, with the result that such crowd participant receives no allocation or a lesser allocation than he or she would otherwise have been entitled to, may be considered conduct inconsistent with just and equitable principles of trade.

(G) Notwithstanding the first sentence of this Advice, neither Rule 119(b) and (c) concerning precedence based on the size of bids on parity, nor Rule 120 (insofar as it incorporates those provisions by reference) shall apply to the allocation of orders covered by this Advice.

Section F

Allocation of Automatically Executed Trades. After public customer market and marketable limit orders have been executed, trades automatically executed in such options shall be allocated among the Specialist and crowd participants with orders or quotations at the Exchange's disseminated price in the following manner:

(i) If the Specialist or any crowd participant is quoting alone at the disseminated price and their quote is not matched by another market participant prior to execution, such Specialist or crowd participant shall be entitled to receive a number of contracts up to the size associated with his/her quotation.

(ii) *Parity.* Quotations entered electronically by the Specialist or an SQT that do not cause an order resting on the limit order book to become due for execution may be matched at any time by quotations entered electronically by the Specialist and/or other SQTs, and by ROT limit orders entered and shall be deemed to be on parity, subject to the requirement that orders of controlled accounts must yield priority to customer orders as set forth in Rule 1014(g)(i)(A).

(A) if the Specialist is quoting at the Exchange's disseminated price:

(1) orders for 5 contracts or fewer shall be allocated first to the Specialist, provided, however, that on a quarterly basis, the Exchange will evaluate what percentage of the volume executed on the Exchange is comprised of orders for 5 contracts or fewer

- allocated to Specialists, and will reduce the size of the orders included in this provision if such percentage is over 25%. In order to be entitled to receive the 5 contract or fewer order preference set forth in this sub-paragraph (ii)(A)(1), the Specialist must be quoting at the Exchange's disseminated price, and shall not be entitled to receive a number of contracts that is greater than the size that is associated with its quote.
- (2) Respecting orders for greater than 5 contracts, the Specialist shall be entitled to receive a number of contracts that is the greater of: (i) the proportion of the aggregate size associated with the Specialist's quote, SQT quotes, and non-SQT ROT limit orders entered on the book at the disseminated price represented by the size of the Specialist's quote, or (ii) 60% of the contracts to be allocated if the Specialist is on parity with one SQT or one non-SQT ROT that has placed a limit order on the book at the Exchange's disseminated price; (iii) 40% of the contracts to be allocated if the Specialist is on parity with two SQTs or non-SQT ROTs that have placed a limit order on the book at the Exchange's disseminated price; and (iv) 30% of the contracts to be allocated if the Specialist is on parity with three or more SQTs or non-SQT ROTs that have placed a limit order on the book at the Exchange's disseminated price. In order to be entitled to receive the number of contracts set forth in this sub-paragraph (ii)(A)(2), the Specialist must be quoting at the Exchange's disseminated price, and shall not be entitled to receive a number of contracts that is greater than the size that is associated with its quote.
- (3) Thereafter, SQTs quoting at the disseminated price and non-SQT ROTs that have placed limit orders on the limit order book at the Exchange's disseminated price shall be entitled to receive a number of contracts that is the proportion of the total remaining aggregate size associated with SQT quotes and non-SQT ROT limit orders on the book at the disseminated price represented by the size of the SQT's quote or, in the case of a non-SQT ROT, by the size of the limit order they have placed on the limit order book. Such SQT(s) and non-SQT ROTs shall not be entitled to receive a number of contracts that is greater than the size associated with their quotation or limit order.
- (4) If any contracts remain to be allocated after the Specialist, SQTs and non-SQT ROTs with limit orders on the limit order book have received their respective allocations, off-floor broker-dealers (as defined in Rule 1080(b)(i)(C)) that have placed limit orders on the limit order book which represent the Exchange's disseminated price shall be entitled to receive a number of contracts that is the proportion of the aggregate size associated with off-floor broker-dealer limit orders on the limit order book at the disseminated price represented by the size of the limit order they have placed on the limit order book. Such off-floor broker-dealers shall not be entitled to receive a number of contracts that is greater than the size that is associated with each such limit order.
- (B) If the Specialist is not quoting at the Exchange's disseminated price, SQTs quoting at the disseminated price and non-SQT ROTs that have placed limit orders on the limit order book which represent the Exchange's disseminated price shall be entitled to receive a number of contracts equal to the proportion of the aggregate size associated with SQT quotes and non-SQT ROT limit orders on the book at the disseminated price represented

by the size of the SQT's quote or, in the case of a non-SQT ROT, by the size of the limit order they have placed on the limit order book. B-7 Options Floor Based Management System

Options Floor Based Management System. In order to create an electronic audit trail for options orders negotiated by Registered Options Traders on the Exchange's Options Floor, a Registered Options Trader or such Registered Options Trader's employees shall, prior to the negotiation of such an order in the trading crowd, record all options orders negotiated by such Registered Options Trader onto the electronic Options Floor Based Management System (as described in Rule 1080, Commentary .06). The following specific information with respect to orders negotiated by a Registered Options Trader shall be recorded by such Registered Options Trader or such Registered Options Trader's employees: (i) the order type (i.e., market maker) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle) or contingency order as described in Rule 1066; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; and (vii) whether the transaction is to open or close a position, as applicable (collectively, the "required information"). A Registered Options Trader must enter complete alpha/numeric identification assigned by the Exchange for all orders entered. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System

contemporaneously upon receipt, which may occur after the negotiation and execution of the order.

Pursuant to Rule 1000(f), Registered Options Traders are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Registered Options Traders execute orders in the Exchange's options trading crowd pursuant to Rule 1000(f)(ii) (other than for the use of Snapshot, as set forth in Rule 1000(f)(ii)(E)), Registered Options Traders shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Registered Options Traders or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

Registered Options Traders or their employees shall enter the required information (as described above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity, equity index and U.S. dollar-settled foreign currency options. Registered Options Traders or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

FBMS is designed to execute orders entered by Registered Options Traders, including multi-leg orders up to 15 legs, after negotiation in the trading crowd. When a Registered Options Trader submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Registered Options Trader in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced by Options Trader Alert, after which it will be returned to the Registered Options Trader on the FBMS. The Registered Options Trader may resubmit the order for execution, as long as the quotes that comprise the order have not been withdrawn. Registered Options Traders are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Rules 1014, 1033 and 1084.

A Registered Options Trader is prohibited from triggering the Snapshot feature for the purpose of obtaining favorable priority or trade-through conditions or avoiding unfavorable priority or trade-through conditions.

F-2 Allocation, Time Stamping, Matching and Access to Matched Trades

(a) In order to facilitate timely tape reporting of trades, it is the duty of the persons identified below to allocate, match and time stamp trades executed in open outcry and to submit the matched trade tickets to an Exchange Data Entry Technician ("DET") located on the trading floor immediately upon execution. When executing trades electronically, it is also the duty of the persons identified below to enter and submit trade information to the Trading System using the Options Floor Based Management System. Trades executed electronically via the XL System and through the Options Floor Based Management System are automatically trade reported without further action required by executing parties:

(i) in a trade involving a Floor Broker, the Floor Broker shall do so, provided that a Floor Broker may delegate this responsibility to the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) if the Specialist agrees to accept such responsibility, and, in the event of such delegation, the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) shall do so:

(ii) in all other cases where the Specialist is a participant (i.e., where there is no Floor Broker), the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) shall do so.

(iii) in any other case (i.e., where there is no Floor Broker and no Specialist is involved), the largest participant shall do so (for example, where several Registered Options Traders are involved):

The person responsible for trade allocation (the "Allocation Participant") shall, for each trade allocated by such Allocating Participant, circle his or her badge identification number on the trade tickets, identifying himself or herself as the Allocating Participant in the particular trade. If the Allocating Participant is not a participant in the trade to be allocated, he/she shall identify himself/herself/ by initialing the trade tickets. In the case of a trade, executed using the Floor Based Management System, such member shall allocate the trade using the Options Floor Based Management System.

(b) A member or member organization initiating an options transaction, whether acting as principal or agent, must report or ensure that the transaction is reported within 90 seconds of the execution to the tape. Transactions not reported within 90 seconds after execution shall be designated as late. A pattern or practice of late reporting without exceptional circumstances may be considered conduct inconsistent with just and equitable principles of trade.

(c) Execution times must be recorded on the reverse side of one or more of the tickets to a matched trade.

(d) Once a trade has been matched and submitted to a DET located on the trading floor for reporting, the respective parties to the trade must preserve the matched tickets, or copies thereof, for a period of not less than three years.

(e) Member access to tickets comprising a matched trade is available to any participant of that trade, as well as the respective Specialist and any Options Exchange Official acting in his capacity as an Options Exchange Official. F-[13]5 Supervisory Procedures Relating to ITSFEA

(a) Member organizations must maintain written supervisory procedures as required by the Insider Trading and Securities Fraud Enforcement Act of 1988 (ITSFEA). Such procedures must be reasonably designed to prevent the misuse of material, non-public information by employees.

(b) In addition to the requirements under ITSFEA, the Exchange herein institutes basic minimum standards for incorporation into ITSFEA-related written supervisory procedures for all member organizations. The requirements enumerated below must be included and, together with all related additional written supervisory procedures maintained in accordance with paragraph (a) above, must receive approval by the Exchange. These requirements are not intended to supersede, or be presumed to fulfill, the requirements of ITSFEA. These requirements are instead set forth as separate requirements of the Exchange.

In the instance where a member organization is subject to written supervisory procedures relating to ITSFEA, imposed by another self regulatory organization which is its designated examining authority ("DEA"), the Exchange requirements set forth in paragraph (b) of this Advice will not apply.

1.) Each new employee of the organization shall be furnished with a copy of the most current version of the Exchange's "Notice of Insider Trading" (Notice), or a document substantially similar to the Notice approved by the DEA for use in this connection. Within ten business days from the first date of employment with the Unit, each new employee must sign and return the Notice to the employer. By his signature on the Notice, the employee attests to having carefully read the Notice and agrees to appropriately supply the employer Firm with all trading accounts

for which such person maintains a beneficial interest, including all personal and household accounts of the employee. Also, by his signature on the Notice, each new employee ensures that delivery of all related account statements will be made directly from the Firm(s) maintaining the account to the employer.

2.) Each Unit must complete the Exchange's "ITSFEA Accounts List," comprising all accounts submitted in connection with paragraph (1) above and all proprietary accounts of the Unit. Updates to the list must be made within one month of any change and each completed version of the list must be maintained for no less than three years by the Unit.

3.) Each month a supervisory person of the Unit is required to make a reasonable review of all activities from the account statements of those accounts reflected on the ITSFEA Accounts List with a view toward identifying the possible misuse of material non-public information. A report must be made promptly to the Exchange's Regulatory staff in the event that any such unusual profits are so identified.

Failure to properly maintain the ITSFEA Accounts List, or to conduct related reviews required by this Advice, may result in the issuance of fines in accordance with the schedule below.

[F-14 Executing Multi-leg and Synthetic Option Orders

A multi-leg order (i.e. spread type order) as defined in Exchange Rule 1066(f) may be executed as a single transaction at a single credit or debit in accordance with Exchange Rule 1033(d) and the requirements below:

- a) Bids (offers) for the total hedge order must be solicited from the crowd on the basis of a total credit or debit.
- b) In the case of an "options-only hedge order" (spread, straddle, and combination orders), the trade may be immediately executed at a single credit or debit which is superior to the aggregate price of the established markets for the individual option legs (on a buy-on-the-bid or sell-on-the-offer basis), such that:
 - (i) no option leg is executed outside of the established bid/offer for that option contract; and
 - (ii) at least one option leg is executed at a price better than the established bid/offer for that option contract.

c) In the case of conversions and reversals, the trade may be immediately executed at a single credit or debit which is superior to the aggregate price of the established markets for the individual option legs (on a buy-on-the-bid or sell-on-the-offer basis), such that:

- (i) no option leg is executed outside of the established bid/offer for that option contract;
- (ii) at least one option leg is executed at a price better than the established bid/offer for that option contract.

d) In the case of a synthetic option order, the trade may be immediately executed at a single credit or debit which is superior to the aggregate price of the established market for the individual legs (on a buy-on-the-offer and sell-on-the-bid basis), provided that the option leg is executed at a price better than the established bid/offer for that option contract.

Once the credit or debit execution price to a multi-leg option order is agreed upon, the stock portion of the order, if any, must be effected at or near the same time as the execution of the option portion.

F-[15]6 Minor Infractions of Position/Exercise Limits and Hedge Exemptions

(a) Minor violations of the Exchange's position and exercise limits (Exchange Rule 1001 - Position Limits, Exchange Rule 1002 - Exercise Limits, Exchange Rule 1001A - Position Limits, and Exchange Rule 1002A - Exercise Limits) which do not exceed such limits by more than 5% may result in the issuance of a fine in accordance with section (a) of the fine schedule below.

In addition, when a position limit exemption for a specific period has lapsed without the position either being brought into compliance or a new exemption granted, a fine in accordance with section (a) of the fine schedule below may be issued.

Other violations of the position and exercise limit are subject to review by the Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement in accordance with those procedures set forth under the Rule 8000 and 9000 Series.

(b) Automatic hedge exemptions are available for stock option positions. Specifically, each option of a stock option position hedged by 100 shares of stock or securities convertible into such stock, is exempted from having to be included in the aggregation count for the purposes of the position and exercise limits. The exemption is limited, however, to an amount of option contracts no greater than twice the standard limit of the respective option. Permissible hedges are provided below:

long stock, short call

long stock, long put

short stock, long call

short stock, short put

(i) When utilizing a hedge exemption, a report of the position must be received by the Exchange's Regulatory staff in a manner prescribed by the Exchange no later than the close of business following the day the exemption is availed upon. Failure to provide the Exchange with a hedge exemption form as required may result in the issuance of a fine in accordance with section (b)(i) of the fine schedule below.

(ii) Hedge exemptions apply for only as long as the hedge is maintained. In any instance where the stock side to a hedge exemption is decreased, the appropriate number of options must be liquidated prior to or simultaneous with the corresponding decrease in any stock position utilized to provide an automatic option hedge exemption. Failure to appropriately reduce the respective option position following such a decrease in the stock position such that the position limit does not exceed the limit by more than 5% may result in the issuance of a fine in accordance with section (b)(ii) of the fine schedule below. Instances where the resulting position exceeds established limits by more than 5% are subject to review by the Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement in accordance with those procedures set forth under the Rule 8000 and 9000 Series.

[F-16 Two-Way, Three Way and Multi-Spread Transactions (FOREIGN CURRENCY OPTION ONLY)]

Execution of spread type orders (spread, straddle and combination orders, as defined in Rule 1066(f) in foreign currency options must be effected in accordance with the provisions of Exchange Rule 1033(d), which requires that a foreign currency options participant holding a spread type order must first determine that the order is best served by bidding or offering on the basis of a total credit or debit before executing the order as a single transaction. Rule 1033(d) also requires the participant to ensure that at least one leg of the order is executed at a better price than the established bid/offer for that option and that no leg is executed at a price outside of the established bid/offer for that option.

Exchange Rule 1033(g) governing ration spread type orders in foreign currency options permits the size of the respective legs of such orders to be either equal in size or related by a permissible ratio (two-to-one, three-to-one, and three-to-two). In addition, spread type orders may be comprised of two or more legs, as described below:

Two-Way Transaction

(a) A two-way transaction is comprised of two legs, which can be either equal in size or differ by a permissible ratio (two-to-one, three-to-one, and three-to two), forming one spread type. See Rule 1033(d).

Three-Way Transaction

(b) A three-way transaction is comprised of three legs forming one spread type where (1) the order sizes of each of the three legs are equal to each other, or (2) the combined order size of any two legs on the same side of the market is either equal to the order size of the third leg or differs from the order size of the third leg by a permissible ratio (two-to-one, three-to-one, and three-to-two). See Rule 1033(f).

Multi-Spread Transaction

(c) A multi-spread transaction, as defined in Commentary .02 of Rule 1066, combines two of the same spread type orders for execution at a total net credit or debit, such as: a two-way order with another two-way order of the same spread type; a three-way order with another three-way order of the same spread type; or a two-way order with a three-way order of the same spread type. In addition, a multi-spread transaction may combine a spread type order with a ratio spread type order of the same spread type. In combining spread type orders to create a multi-spread transaction, each individual spread must meet the execution requirements of Rule 1033(h): at least one leg of each spread must be executed at a price better than the established bid/offer for that option and no leg of any spread may be executed at a price outside of the established market for that option.

F-[27]8 Options Exchange Official Rulings

Options Exchange Officials are empowered to render rulings on the trading floor to resolve trading disputes occurring on and respecting activities on the trading floor. All rulings rendered by Options Exchange Officials are effective immediately and must be complied with promptly. Failure to promptly comply with a ruling concerning a trading dispute may result in referral to the Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement. Failure to promptly comply with other rulings issued pursuant to Order and Decorum Regulations or Floor Procedure Advices and not concerning a trading dispute may result in an additional violation. Options Exchange Officials need not render decisions in any instance where the request for a ruling was not made within a reasonable period of time. An Options Exchange Official should not render a decision or authorize a citation where such Options Exchange Official was involved in or affected by the dispute, as well as in any situation where the Options Exchange Official is not able to objectively and fairly render a decision.

Options Exchange Officials shall endeavor to be prompt in rendering decisions. However, in any instance where an Options Exchange Official has determined that the benefits of further discovery as to the facts and circumstances of any matter under review outweigh the monetary risks of a delayed ruling, the Options Exchange Official may determine to delay rendering the ruling until such time as that further discovery is completed. In issuing decisions for the resolution of trading disputes, Options Exchange Officials shall institute the course of action deemed by the ruling Options Exchange Official to be more fair to all parties under the circumstances at the time. An Options Exchange Official may direct the execution of an order on the floor, or adjust the transaction terms or participants to an executed order on the floor. However, an Options Exchange Official may nullify a transaction if they determine the transaction to have been in violation of Rule 1014 (Obligations and Restrictions Applicable to Specialists and Registered Options Traders) or [Rule 1033]Options 8, Section 24 (Bids And Offers-Premium).

Exchange staff may determine that an Options Exchange Official is ineligible to participate in a particular ruling where it appears that such Options Exchange Official has a conflict of interest. For purposes of this Rule, and without limitation, a conflict of interest exists where an Options Exchange Official: (a) is directly or indirectly affiliated with a party seeking an Options Exchange Official ruling; (b) is a participant or is directly or indirectly affiliated with a participant in a transaction that is the subject of an Options Exchange Official ruling; (c) is a debtor or creditor of a party seeking an Options Exchange Official ruling; or (d) is an immediate family member of a party seeking an Options Exchange Official ruling. Exchange staff may consider other circumstances, on a case-by-case basis, in determining the eligibility or ineligibility of a particular Options Exchange Official to participate in a particular ruling due to a conflict of interest.

All Options Exchange Official rulings concerning the adjustment and nullification of transactions are reviewable by the Exchange Review Council.

- (i) Regulatory staff must be advised within 15 minutes of an Options Exchange Official's ruling that a party to such ruling has determined to appeal from such ruling to the Exchange Review Council. The Exchange may establish the procedures for the submission of a request for a review of an Options Exchange Official ruling. Options Exchange Official rulings concerning the nullification or adjustment of transactions may be sustained, overturned or modified by the Exchange Review Council. In making a determination, the Exchange Review Council may consider facts and circumstances not available to the ruling Options Exchange Official as well as action taken by the parties in reliance on the Options Exchange Official's ruling (e.g., cover, hedge and related trading activity).
- (ii) All decisions made by the Exchange Review Council in connection with initial rulings on requests for relief and with the review of an Options Exchange Official ruling pursuant to Rule 124(d) shall be documented in writing and maintained by the Exchange in accordance with the record keeping requirements set forth in the Securities Exchange Act of 1934, as amended, and the rules thereunder.
- (iii) A member or member organization seeking the Exchange Review Council review of an Options Exchange Official ruling shall be assessed a fee of \$250.00 for each Options Exchange Official ruling to be reviewed that is sustained and not overturned or modified by the Exchange Review Council.
- (iv) Decisions of the Exchange Review Council concerning the review of Options Exchange Official rulings relating to the nullification or adjustment of transactions shall be final and may not be appealed to the Exchange's Board of Directors.

Once the trading crowd has provided a quote, it will remain in effect until: (A) a reasonable amount of time has passed, or (B) there is a significant change in the price of the underlying security, or (C) the market given in response to the request has been improved. In the case of a dispute, the term "significant change" will be interpreted on a case-by-case basis by an Options Exchange Official based upon the extent of the recent trading in the option and, in the case of equity and index options, in the underlying security, and any other relevant factors.

(d) With respect to using the Options Floor Based Management System to execute an order pursuant to Option 8, Section 22, a member must audibly say "out" before the order is submitted into the FBMS for execution and, if the order is not executed, the member must audibly say "out" before each time the member resubmits the order for execution.

Section 23. Precedence of Highest Bid

(a) The highest bid shall have precedence in all cases pursuant to Rule 119. Where bids are made at the same price, the priority and precedence shall be determined in accordance with the following rules:

(1) Sale removes bid from Trading Floor: A sale shall remove all bids from the Floor except that if the number of shares of stock or principal amount of bonds offered exceeds the number of shares or principal amount specified in the bid having priority or precedence, a sale of the unfilled balance to other bidders shall be governed by the provisions of these rules as though no sales had been made to the bidders having priority or precedence.

(2) Subsequent bids: (i) After bids have been removed from the Trading Floor under the provisions of sub-paragraph (1) above, priority and precedence shall be determined, in accordance with these rules, by subsequent bids.

Section 24. Bids And Offers—Premium

(a) *Size of Bid/Offer and Disseminated Size Guarantee.* All bids or offers made on the Floor for option contracts shall be deemed to be for one option contract unless a specific number of option contracts is expressed in the bid or offer. A bid or offer for more than one option contract shall be deemed to be for the amount thereof or a smaller number of option contracts. Responsibility for ensuring that customer orders are filled to a minimum of the disseminated size at the disseminated price is as set forth in Exchange Rule 1082.

(b) *Solicitation of Quotations.* In response to a floor broker's solicitation of a single bid or offer, the members of a trading crowd (including the Specialist and ROTs) may discuss, negotiate and agree upon the price or prices at which an order of a size greater than the Exchange's disseminated size can be executed at that time, or the number of contracts that could be executed at a given price or prices, subject to the provisions of the Options Order Protection and Locked/Crossed Market Plan and the Exchange's Rules respecting Trade-Throughs. Notwithstanding the foregoing, a single crowd participant may voice a bid or offer independently from, and differently from, the members of a trading crowd (including the Specialist and ROTs).

(c) Except as provided in (d) and (e) below, all bids or offers made on the Floor for option contracts shall be expressed as follows: (i) in the case of options on stocks or Exchange-Traded Fund Shares, in terms of dollars per share of the underlying stock or Exchange-Traded Fund Share (e.g., a bid of "5" shall represent a bid to pay a premium of \$500 for an option contract having a unit of trading consisting of 100 shares of an underlying stock or Exchange-Traded Fund Share, or a bid to pay a premium of \$550 for an option contract having a unit of trading consisting of 110 shares of an underlying stock Exchange-Traded Fund Share); (ii) In the case of options on foreign currencies in terms of U.S. dollars per unit of the underlying foreign currency. E.g., a bid of "3.25" for a premium on a \$170 strike price option on the British pound shall represent a bid to pay \$325 per option contract; and (iii) *Mini Options.* Bids and offers for an option contract overlying 10 shares shall be expressed in terms of dollars per 1/10th part of the total value of the contract. An offer of ".50" shall represent an offer of \$5.00 on an option contract having a unit of trading consisting of 10 shares.

(d) *Contract Adjustments.* All bids or offers for an option contract for which The Options Clearing Corporation has established an adjusted unit of trading in accordance with paragraphs (c) and (d) of Section 11 of Article VI of the by-laws of The Options Clearing Corporation shall be expressed in terms of dollars per the appropriate fractional part of the total securities and/or other property constituting such adjusted unit of trading (e.g., where the adjusted unit of trading of an option contract consists of 110 shares of an underlying stock or Exchange-Traded Fund Share plus 15 rights, a bid of "5" shall represent a bid to pay a premium of \$550 for each option contract covering both the shares of underlying stock or Exchange-Traded Fund Share and the rights).

(e) *Spread Priority*. When a member holding a multi-leg order, as defined in Options 8, Section 32 and bidding or offering on the basis of a total credit or debit for the order has determined that the order may not be executed by a combination of transactions at or within the bids and offers established in the marketplace, then the order may be executed as a multi-leg order at the total credit or debit with one other member with priority over either the bid or the offer established in the marketplace that is not better than the bids or offers comprising such total credit or debit, provided that at least one option leg is executed at a better price than established bid or offer for that option contract AND no option leg is executed at a price outside of the established bid or offer for that option contract.

(e) *Synthetic Option Orders*. When a member holding a synthetic option order, as defined in Options 8, Section 32, and bidding or offering on the basis of a total credit or debit for the order has determined that the order may not be executed by a combination of transactions at or within the bids and offers established in the marketplace, then the order may be executed as a synthetic option order at the total credit or debit with one other member, provided that the option leg is executed at a better price than the established bid or offer for that option contract, in accordance with Options 8, Section 25. Synthetic option orders in open outcry, in which the option component is for a size of 100 contracts or more, have priority over bids (offers) of crowd participants who are bidding (offering) only for the option component of the synthetic option order, but not over bids (offers) of public customers on the limit order book, and not over crowd participants that are willing to participate in the synthetic option order at the net debit or credit price.

(f) *Three-Way Spread Type Priority*. When a member holding a three-way order for foreign currency options determines that the order will be best served by bidding or offering on the basis of a total net credit or debit, the member may, after seeking bids and offers for the three-way order, seek to execute the order at a total credit or debit with one other member provided that at least one of the individual legs to the order is effected at a price better than the established bid or offer for that option contract and that no option leg is executed at a price outside of the established bid or offer for that option contract. For purposes of this Rule, three-way orders include spread, straddle and combination orders of three individual series in the same foreign currency options where (i) the order size for each of the three individual series are equal to each other, or (ii) the combined order size of any two series on the same side of the market is either equal to the order size of the third series by a or differs from the order size of the third series by a permissible ratio. For purposes of this paragraph, a permissible ratio is any one of the following: one-to-one, one-to-two, one-to-three and two-to-three.

(g) *Ratio Spread Type Priority*. A spread order may consist of different numbers of contracts so long as the number of contracts differ by a permissible ratio (a "Ratio Spread"). Similarly, the legs to a straddle or combination order may consist of different numbers of puts and calls so long as the number of contracts differ by a permissible ratio. For the purposes of this paragraph, a permissible ratio is any ratio that is equal to or greater than one-to-three (.333) and less than or equal to three-to-one (3.00). For example, a one-to-two (.5) ratio, a two-to-three (.667) ratio, or a two-to-one (2.0) ratio is permissible, whereas a one-to-four (.25) ratio or a four-to-one (4.0) ratio is not.

(h) *Multi-Spread Priority*. When a member holding two spread type orders (spreads, straddles or combinations, as defined in Options 8, Section 32) for the same account determines that the orders will be best served by bidding or offering on the basis of a total net credit or debit, the member may, after seeking bids and offers for the total of the two spread type orders, seek to execute both orders as a single transaction at a total net credit or debit with one other member, provided that at least one of the individual legs of each individual spread is executed at a better price than the established bid or offer for that option contract and that no option leg is executed at a price outside of the established bid or offer for that option contract.

(i) *Spread Type Priority*. Through FBMS, Spread Type Orders consisting of a conforming ratio may be executed at a total credit or debit price with priority over individual bids or offers established in the marketplace (including customers) that are not better than the bids or offers comprising such total credit or debit, provided that at least one option leg is executed at a better price than the established bid or offer for that option contract and no option leg is executed at a price outside of the established bid or offer for that option contract.

Section 25. Floor Allocation

(a) The following applies to the allocation of orders on the Trading Floor:

(1) Exchange Rules 119 and 120 direct members in the establishment of priority of orders on the floor. An account type is either a controlled account or a customer account. A controlled account includes any account controlled by or under common control with a broker-dealer. Customer accounts are all other accounts. Equity option, index option and U.S. dollar-settled foreign currency option orders of controlled accounts are required to yield priority to customer orders when competing at the same price, as described below. Orders of controlled accounts are not required to yield priority to other controlled account orders, except as provided in sub-paragraph (B) below. For the purpose of this Rule, "Initiating Order" means an incoming contra-side order.

(A) Respecting transactions that are executed and allocated in open outcry by a participant other than the Specialist, "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers that are on parity in accordance with this Rule. The Remainder of the Order shall be allocated pursuant to this Rule.

(i) Orders of controlled accounts, other than ROTs and Specialists market making in person, must be (1) verbally communicated as for a controlled account when placed on the floor and when represented to the trading crowd and (2) recorded as for a controlled account by making the appropriate notation the Options Floor Based Management System.

(ii) The Enhanced Specialist Participation is a percentage of the Remainder of the Order to which the Specialist is entitled.

(B) An Initiating Order executed manually by the Specialist shall be allocated as follows: first, to customer orders, and next to off-floor broker-dealer limit orders (as defined in Rule 1080(b)(i)(C)) resting on the limit order book. This provision shall not apply to electronically executed contracts, the allocation of which is described in Rule 1014(g)(vii). "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers and to off-floor broker-dealers in accordance with this sub-paragraph.

(2) Purchase or sale priority for orders of 100 contracts or more. If a member purchases (sells) 50 or more option contracts of a particular series at a particular price or prices, he shall, at the next lower (higher) price have priority in purchasing (selling) up to the equivalent number of option contracts of the same series that he purchased (sold) at the higher (lower) price or prices, but only if his bid (offer) is made promptly and the purchase (sale) so effected represents the opposite side of a transaction with the same order or offer (bid) as the earlier purchase or purchases (sale or sales).

(i) When the market has a bid/ask differential of one minimum trading increment and the bid and/or offer represent the quotation of an out-of-crowd SQT or an RSQT, such member shall have priority over such SQT and/or RSQT with respect to both the bid and the offer.

(ii) The Exchange may increase the "minimum qualifying order size" above 100 contracts for all products under its jurisdiction. Announcements regarding changes to the minimum qualifying order size shall be made on the Exchange's website. This paragraph shall only apply to transactions that are effected in open outcry.

(b) *Enhanced Specialist Participation* —In equity option, index option and U.S. dollar-settled foreign currency options classes, when the registered Specialist is on parity with a controlled account as defined in subparagraph (i) above, in accordance with Exchange Rules 119 and 120 and the number of contracts to be bought or sold is greater than five, the Specialist is entitled to receive an enhanced participation of 30% of the Remainder of the Order ("Enhanced Specialist Participation"), except in the following circumstances: (1) where there is one controlled account on parity, the Specialist is entitled to receive 60% of the Remainder of the Order; or (2) where there are two controlled accounts on parity, in which case, the Specialist is entitled to receive 40% of the Remainder of the Order.

(1) The Exchange shall reduce the level of Enhanced Specialist Participation authorized under this Rule to a parity level of participation in accordance with Rules 119 and 120 with respect to any options class if the Specialist in such class is determined to be performing below any minimum standards or not satisfying any conditions that the Exchange may establish. The Exchange may reinstate Enhanced Specialist Participation for a particular options class if it determines that the Specialist in such class is performing at or above all established minimum standards and is satisfying all established conditions.

(c) Allocation of the Remainder of the Order Among Specialist and ROTs on Parity. After the application of Options 8, Section 25(a)(1) to an Initiating Order, the Remainder of the Order shall be allocated by the Allocating Participant (as defined in paragraph (c)(3)(F)(i) below) as follows:

(1) Entitlement. ROTs and Specialists on parity are entitled to their Defined Participation (as described below), subject to: (a) any Waiver, as described below; and (b) rounding, as described below.

(2) Size. The term "stated size" in respect of an order or electronic quotation shall mean:

(A) in the case of orders handled manually by the Specialist:

(i) if a crowd participant (including the Specialist) has actually stated a size ("Actual Size"), such crowd participant's stated size shall be his or her Actual Size;

(ii) if the Specialist, an SQT or RSQT is disseminating an electronic quotation at the Exchange's disseminated price in a particular series at the time of the execution of an Initiating Order in such series, such Specialist, SQT or RSQT's disseminated size at the Exchange's disseminated price shall be his or her Actual Size, and such Specialist, SQT and/or RSQT shall be deemed a "crowd participant" for purposes of paragraph (c);

(B) unless the Specialist has an Actual Size, the stated size of the Specialist shall be the amount (if any) by which the disseminated size exceeds the sum of (x) the aggregate size of limit orders included in the disseminated size and (y) the aggregate sizes of all ROTs who have Actual Sizes;

(C) the stated size of an ROT who does not have an Actual Size is zero.

(i) in the case of floor brokered orders, each crowd participant's stated size shall be his or her Actual Size.

(3) Defined Participation. Defined Participation is the portion of the Remainder of the Order to which a crowd participant is entitled. Defined Participation is determined as follows:

(A) in the case of a Specialist entitled to an Enhanced Specialist Participation, the Enhanced Specialist Participation, up to the Specialist's stated size, as set forth in paragraph (b) of this Rule, as applicable. The Specialist may decline to receive the Enhanced Specialist Participation, in which case the Specialist shall be entitled to participate as one crowd participant, up to the Specialist's stated size.

(B) except as provided in (A) above, the Defined Participation of the Specialist and ROTs on parity is determined as follows:

(i) where all participants have equal stated sizes, their Defined Participations shall be equal;

(ii) where participants have unequal stated sizes, the Defined Participations shall equal their Base Participations (as defined below) plus their Supplemental Participations (as defined below):

a. the “Base Participations” of all of the participants shall equal the stated size of the smallest participant; to the extent that there remains any excess to be allocated after all participants have been allocated their Base Participations, the smallest participant shall have no Supplemental Participation, and the other participants shall have “Supplemental Participations” as determined under “b” and “c” below;

b. if the remaining stated sizes (*i.e.* , after taking into account Base Participations) of all participants having Supplemental Participations is equal, then their Supplemental Participations shall be equal; otherwise the initial Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated their initial Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have further “Supplemental Participations” as determined under “c” below; and

c. if the remaining stated sizes (*i.e.* , after taking into account Base Participations and prior Supplemental Participations) of all participants having *further* Supplemental Participations is equal, then their *further* Supplemental Participations shall be equal; otherwise the next Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated the next Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have successive further Supplemental Participations determined in the same manner as provided in this clause.

The process described in clause “c” shall be followed to determine successive further Supplemental Participations until the sum of the Defined Participations equals the amount of the Remainder of the Order.

(iii)

a. If the sum of the Base Participations pursuant to sub-paragraph “a” above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive Base Participations, subject to rounding.

b. If the sum of the Supplemental Participations pursuant to sub-paragraph "b" above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive Supplemental Participations, subject to rounding.

c. If the sum of the further Supplemental Participations pursuant to sub-paragraph "c" above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive further Supplemental Participations, subject to rounding.

(3) Participation in additional contracts in excess of the Exchange's disseminated size among willing crowd participants shall be allocated under the applicable provisions of this Rule. Notwithstanding the limitation set forth in sub-paragraph (3)(A) that limits the Specialist's entitlement to his/her stated size, for all contracts executed in excess of the disseminated size, the Specialist shall be entitled to receive the Enhanced Specialist Participation as set forth in paragraph (b) of this Rule, as applicable, but not to exceed the Specialist's Actual Size (if the Specialist has an Actual Size) in such excess contracts.

(C) Waiver. (1) An ROT (other than an RSQT) or Specialist may, in his or her sole discretion, offer to waive, in whole or in part, any part of a trade to which they were entitled to be allocated (an " Offer to Waive").

(i) Any Offer to Waive shall be made by stating it in a loud and audible voice to the other members of the trading crowd and the Allocating Participant.

(ii) If the Allocating Participant has determined that the other crowd participant(s) then on parity is willing to take the number of contracts that are subject to the Offer to Waive, the Allocating Participant may (but shall not be required to), accept such Offer to Waive by (a) allocating the Remainder of the Order in accordance with paragraph (c), taking into account the Offer to Waive; or (b) otherwise indicating, following the execution of the Remainder of the Order, that such Offer to Waive will be accepted (in which case, it shall be referred to as a " Waiver"). No Offer to Waive shall be an effective Waiver until the Allocating Participant has allocated the order or otherwise indicated that it is accepted.

(iii) In the case of an option which is not subject to an Enhanced Specialist Participation, as set forth in paragraph (b) of this Rule, if the Specialist or an ROT effects a Waiver in the manner provided above, the number of contracts to which such Specialist or ROT is entitled under paragraph (c) shall be reduced by the number of contracts waived, and the entitlements of the other participants on parity shall be determined by redistributing the waived number of contracts to willing participants (including the Specialist) in accordance with paragraph (c).

(2) In the case of an option which is subject to an Enhanced Specialist Participation, as set forth in paragraph (b) of this Rule, and one or more ROTs effect Waivers of their entire entitlements ("Total Waivers"), the number of ROTs with whom the Specialist is deemed to be on parity for purposes of determining the Enhanced Specialist Participation shall be reduced by the number of ROTs effecting Total Waivers and the following additional Rules shall apply:

(A) in the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with three or more ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(1) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Rule, as if the Specialist had been on parity with three ROTs.

(B) in the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with two ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (C)(iii) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Rule as if the Specialist had been on parity with two ROTs.

(C) In the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with one ROT, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (C)(iii) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Rule as if the Specialist had been on parity with one ROT. In no event shall any non-waiving ROT be required to participate in fewer contracts than he/she would have received absent the Waiver(s).

(3) *Partial Waiver.* In the case of an option which is subject to an Enhanced Specialist Participation, in the event that one or more ROTs effect a Waiver of a portion of their respective entitlements, but not a Total Waiver, in the manner provided above (a "Partial Waiver"), the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (C)(iii) above, provided that the Specialist shall not be entitled to receive a number of contracts that is greater than 40% of the Remainder of the Order except in the situation referred to in the following sentence, unless all remaining crowd participants on parity have waived their entitlements or have been satisfied. In the case of the Specialist being on parity with only one ROT, the Specialist shall not be entitled to receive a number of contracts that is greater than 60% of the

Remainder of the Order unless all remaining crowd participants on parity have waived their entitlements or have been satisfied.

In no event shall any non-waiving ROT be required participate in fewer contracts than he/she would have received absent the Partial Waiver(s).

(4) In no event shall two or more crowd participants enter into any agreement regarding the number of contracts to be waived by any crowd participant (i.e., subject to the provisions of sub-paragraph (C)(1)(ii) above, any decision by a crowd participant to waive all or a portion of such crowd participant's entitlement must be an individual decision, and not the subject of an agreement among crowd participants).

(D) Rounding. In situations where the allocation of contracts pursuant to this Rule result in fractional amounts of contracts to be allocated to crowd participants, the number of contracts to be allocated shall be rounded in a fair and equitable manner.

(E) Just and Equitable Principles of Trade. (i) It shall be considered conduct inconsistent with just and equitable principles of trade for a member: (a) to allocate initiating orders other than in accordance with this Rule; (b) to enter into any agreement with another member concerning allocation of trades; or (c) to harass, intimidate or coerce any member to enter into any Waiver, or to make or refrain from making any complaint or appeal.

(ii) A pattern or practice of waiving all or a portion of a crowd participant's entitlement, with the result that such crowd participant receives no allocation or a lesser allocation than he or she would otherwise have been entitled to, may be considered conduct inconsistent with just and equitable principles of trade.

(F) Notwithstanding the first sentence of Options 8, Section 25(a)(1), neither Rule 119(b) and (c) concerning precedence based on the size of bids on parity, nor Rule 120 (insofar as it incorporates those provisions by reference) shall apply to the allocation of orders covered by paragraph (c).

(i) In order to facilitate timely tape reporting of trades, it is the duty of the persons identified below to allocate, match and time stamp trades executed in open outcry and to submit the matched trade tickets to an Exchange Data Entry Technician ("DET") located on the trading floor immediately upon execution. When executing trades electronically, it is also the duty of the persons identified below to enter and submit trade information to the Trading System using the Options Floor Based Management System.

a. in a trade involving a floor broker, the floor broker shall so do, provided that a floor broker may delegate this responsibility to the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) if the Specialist agrees to accept such responsibility, and, in the event of such delegation, the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) shall do so:

b. in all other cases where the Specialist is a participant (i.e., where there is no floor broker), the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) shall do so;

c. in any other case (i.e., where there is no floor broker and no Specialist is involved), the largest on-floor participant shall do so (for example, where several Registered Options Traders are involved); and

d. if there is only one seller and one buyer (no floor broker and no Specialist is involved), the seller shall do so (for example, where only two Registered Options Traders are involved), unless either the seller or the buyer is an RSQT, in which case the on-floor participant in the transaction shall do so.

e. The person responsible for trade allocation (the "Allocating Participant") shall, for each trade allocated by such Allocating Participant, circle his or her badge identification number on the trade tickets, identifying himself or herself as the Allocating Participant in the particular trade. If the Allocating Participant is not a participant in the trade to be allocated, he/she shall identify himself/herself by initiating the trade tickets. In the case of a trade executed using the Floor Based Management System the Allocating Participant shall allocate the trade using the Options Floor Based Management System.

(d) An ROT electing to engage in Exchange options transactions is designated as a Specialist on the Exchange for all purposes under the Securities Exchange Act of 1934 and the rules and regulations thereunder with respect to options transactions initiated and effected by him on the floor in his capacity as an ROT. For purposes of this commentary, the term "transactions initiated and effected on the floor" shall not include transactions initiated by an ROT off the floor, but which are considered "on-floor" pursuant to (d)(1) and (e) below. Similarly, an RSQT electing to engage in Exchange options transactions is designated as a Specialist on the Exchange for all purposes under the Securities Exchange Act of 1934 and the rules and regulations thereunder with respect to options transactions initiated and effected by him in his capacity as an ROT.

(1) The term "on the Floor" means the Trading Floor of the Exchange; the rooms, lobbies, and other premises immediately adjacent thereto made available by the Exchange for use by members generally; other rooms, lobbies and premises made available by the Exchange primarily for use by members generally; and the telephone and other facilities in any such place. Further, the provisions of this Rule do not apply to transactions initiated by an ROT for an account in which he has an interest unless such transactions are either initiated by an ROT while on the Trading Floor or unless such transactions although originated off the Floor are deemed on-Floor transactions under the provisions of these Rules.

(e) An off-Floor order for an account in which a member has an interest is to be treated as an on-Floor order if it is executed by the member who initiated it. In addition to transactions originated on the Trading Floor by an ROT for an account in which he has an interest, the following transactions are considered on-Floor trading:

(1) Any transaction for an account in which an ROT has an interest if such transaction is initiated off the Floor by such ROT after he has been on the Floor during the same day.

(2) Any transaction for a member organization for an account in which it has an interest:

(A) which results from an order entered off the Floor following a conversation relating thereto with a member on the Floor who is a partner of or stockholder of such member organization; or

(B) which results from an order entered off the Floor following the unsolicited submission from the Floor to the office of a quotation in a stock or Exchange-Traded Fund Share and the size of the market by a member on the Floor who is a partner of or stockholder of such member organization; or

(C) which results from an order entered off the Floor which is executed by a member on the Floor who is a partner of or stockholder of such member organization and who had handled the order on a "not-held" basis; provided, however, that the following are not on-Floor orders and such restrictions shall not apply to an order:

(i) to sell an option for an account in which the member organization is directly or indirectly interested if in facilitating the sale of a large block of stock or Exchange-Traded Fund Shares, the member organization acquired its position because the demand on the Floor was not sufficient to absorb the block at a particular price or prices; or

(ii) to purchase or sell an option for an account in which the member organization is directly or indirectly interested if the member or his member organization was invited to participate on the opposite side of a block transaction by another member, member organization or a partner or stockholder therein because the market on the Floor could not readily absorb the block at a particular price or prices; or

(iii) to purchase or sell an option for an account in which the member organization is directly or indirectly interested if the transaction is on the opposite side of a block order being executed by the member organization for the account of its customer and the transaction is made to facilitate the execution of such order; or

(iv) which results from an order entered off the Floor which is executed by a member on the Floor who is a partner of or stockholder of such member organization and who has changed the terms of the order.

(3) Any transaction for the account of an RSQT.

(f) Non-Electronic Orders.

(1) In the event that a Floor Broker or Specialist presents a non-electronic order in which an RSQT is assigned or which is allocated to a Remote Specialist, and/or in which an SQT assigned in such option is not a crowd participant, such Remote Specialist, SQT and/or RSQT may not participate in trades stemming from such a non-electronic order unless such non-electronic order is executed at the price quoted by the non-crowd participant Remote Specialist, SQT and/or RSQT at the time of execution.

(2) Notwithstanding the foregoing, respecting crossing, facilitation and solicited orders (as defined in Section 30) that are represented and executed in open outcry, priority shall be afforded to in-crowd participants (including, for purposes of this rule only, Floor Brokers), over Remote Specialists, RSQTs, out-of crowd SQTs, and out-of-crowd broker-dealer limit orders on the limit order book, but not over public customer orders. Such orders shall be allocated in accordance with Exchange Rules.

(3) The Specialist and/or SQTs participating in a trading crowd may, in response to a verbal request for a market by a floor broker, state a bid or offer that is different than their electronically submitted bid or offer, provided that such stated bid or offer is not inferior to such electronically submitted bid or offer, except when such stated bid or offer is made in response to a floor broker's solicitation of a single bid or offer as set forth in Options 8, Section 24(a)(ii).

(4) For purposes of this Rule, an SQT or Floor Market Maker shall be deemed to be participating in a crowd if such SQT is, at the time an order is represented in the crowd, physically located in a specific "Crowd Area." A Crowd Area shall consist of a specific physical location marked with specific, visible physical boundaries on the options floor, as determined by the Exchange. An SQT or Floor Market Maker who is physically present in such Crowd Area may engage in options transactions in assigned issues as a crowd participant in such a Crowd Area, provided that such SQT or Floor Market Maker fulfills the requirements set forth in this Rule. An SQT or Floor Market Maker shall be deemed to be participating in a single Crowd Area.

(g) Orders given out by an ROT to commission brokers—An on-Floor order given by an ROT to a commission broker, for an account in which the ROT has an interest, is subject to all the Rules restricting ROTs. When an ROT gives out such an order on the Floor to another member, the order must be so marked to indicate that it is for an account in which the ROT has an interest, unless it is exempt from this Rule, in order that the other member may know whether it may be entitled to priority or parity.

(h) Pair-offs before opening—An ROT cannot acquire a "long" option by pairing off with a sell order before the opening, unless all off-Floor bids at that price are filled.

(i) The number of ROTs in a trading crowd who are establishing or increasing a position may temporarily be limited when, in the judgment of an Options Exchange Official, the interests of a fair and orderly market are served by such limitation.

(j) Within each quarter an ROT must execute in person, and not through the use of orders (except that non-streaming ROTs can use orders entered in person), a specified number of contracts, such number to be determined from time to time by the Exchange.

(k) An ROT may not initiate orders from off the floor as a market maker in reliance upon the market maker exemption contained in Section 11(a)(1) of the Securities Exchange Act of 1934.

(l) In the interest of fair and orderly markets, the Exchange may adopt policies affecting the location of members in the trading crowd on a crowd-by-crowd basis.

(m) Floor brokers are able to achieve split price priority in accordance with Options 8, Section 25(a)(2), provided, however, that a floor broker who bids (offers) on behalf of a non-market-maker Phlx member broker-dealer ("Phlx member BD") must ensure that the Phlx member BD qualifies for an exemption from Section 11(a)(1) of the Exchange Act or that the transaction satisfies the requirements of Exchange Act Rule 11a2-2(T), otherwise the floor broker must yield priority to orders for the accounts of non-members.

Section 26. Trading Halts

(a) **Manual Rotations.** Pursuant to the authority in Rule 1047(b) and in accordance with the procedures enumerated in those commentaries, a manual trading rotation may be held on the opening in the event that the Exchange's System is not available, and a closing rotation may be held on the business day of expiration, or, in the case of an option contract expiring on a day that is not a business day, on the trading day prior to expiration where the underlying stock or Exchange-Traded Fund Share did not open or was halted, whenever such action is deemed necessary in the interests of maintaining a fair and orderly market in such class or series of options and to protect investors.

(1) For purposes of this Rule, a trading rotation is a series of very brief time periods during each of which bids, offers and transactions in only a single, specified option contract can be made. An Options Exchange Official may direct that one or more trading rotations be employed on any business day to aid in producing a fair and orderly market and shall specify, for each rotation so employed, the particular option contracts to be included and the sequence of such option contracts in the rotation. Trading rotations, which shall be conducted by the Specialist, shall be conducted in the following manner:

(b) **Opening Rotations.**—In the case of options on stocks or Exchange-Traded Fund Shares, the opening rotation in each class of options shall be held promptly following the opening of the underlying security on the primary market where it is traded. An underlying security shall be deemed to have opened on the primary market where it is traded if such market has (i) reported a transaction in the underlying security or (ii) disseminated opening quotations for the underlying security and not given an indication of a delayed opening. In the case of options on foreign currencies, the opening rotation in each option shall be held promptly following the opening of

trading. In either case, respecting openings conducted manually, the Specialist should proceed in the following manner: Taking each option in which he is assigned in turn, the Specialist should first open the one or more series of such options having the nearest expiration, then proceed to a series of options having the next most distant expiration, and so forth, until all series have been opened. The Specialist shall determine which type of option should open first (i.e., put or call options), and may alternate the opening of put series and call series or may open all series of one type before opening any series of the other type, depending on current market conditions, except as provided below.

(c) Modified Rotations—(1) Modified rotations include reverse and shotgun rotations. A reverse rotation is an opening rotation where the Specialist should first open the one or more series of options of a given class having the most distant expiration, then proceed to the next nearest expiration, and so forth, ending with the nearest expiration, until all series have been opened. A shotgun rotation is an opening rotation in which each option series opens in the same manner and sequence as during a regular trading rotation stated above in paragraph (2), but is permitted to freely trade once all option series with the same expiration month have been opened.

(A) A reverse trading rotation must be employed in connection with openings and reopenings involving a heavy influx of orders, unless exempted by an Options Exchange Official.

(B) A second rotation requires the approval of an Options Exchange Official. In addition, a modified rotation may be employed in connection with delayed openings, halts or suspensions of options trading or other unusual market conditions, but in a different manner and sequence of trading than described above provided an Options Exchange Official determines that such procedure should be implemented.

(C) This Commentary .01(b) shall apply only to manual openings conducted in accordance with the Commentary to Rule 1017.

(d) Closing Rotations at Expiration—On the business day of expiration, or, in the case of an option contract expiring on a day that is not a business day, on the last trading day prior to expiration with respect to expiring stock option contracts a closing rotation in each series of expiring options shall be commenced at 4:00 p.m., or 4:15 p.m. for options on Exchange-Traded Fund Shares where the underlying Fund Shares themselves cease trading at 4:15 p.m., or after a closing price of the stock or Exchange-Traded Fund Share in its primary market is established, whichever is later. Except as otherwise provided by an Options Exchange Official, the Specialist may determine which type of expiring options series should close first, and may alternate the close of put series and call series or may close all series of one type before closing any series of the other type, depending on current market conditions. In any instance where an Options Exchange Official, determines to conduct a closing rotation on the business day of expiration, or, in the case of an option contract expiring on a day that is not a business day, on the trading day prior to expiration in any equity option for which the underlying did not trade, or for which trading was halted as of the normal close of trading in its primary market on that day, the rotation shall commence as immediately as practicable following the time at which the option normally ceases free trading, or at any earlier time

(e) Quarterly Rotations—On the last day of each calendar quarter, a closing rotation for some equity option series may be commenced at 4:00 p.m. or after the closing price of the stock in its primary market is established, whichever is later. Orders will not be accepted at or after 4:00 p.m. Prior notice will be provided to the trading floor regarding which options series will be subject to a closing rotation.

(1) In the event that trading in an underlying stock or Exchange-Traded Fund Share has not opened in the primary market for such stock or Exchange-Traded Fund Share within a reasonable time after the opening of business, or, in the event that current quotations for any underlying foreign currency are for any reason unavailable, the Specialist shall report such delay or unavailability to the Regulatory staff and the appropriate steps will be taken to determine the cause for such delay or unavailability. The opening of trading in such option shall be delayed until the underlying stock has opened or until current quotations for the underlying foreign currency become available, as the case may be, unless an Options Exchange Official, determines that the interests of a fair and orderly market are best served by opening trading in such options.

(2) Stock or Exchange-Traded Fund Share Options Trading after 4:00 p.m. With the prior approval of an Options Exchange Official a trading rotation in any class of stock option contracts may be effected even though employment of the rotation will result in the transaction on the Exchange after 4:00 p.m., or 4:15 p.m. for options on Exchange-Traded Fund Shares where the underlying Fund Shares themselves cease trading at 4:15 p.m., provided:

(i) Promptly after trading in the underlying security opens or re-opens, an opening or re-opening rotation in the corresponding options class is commenced; or

(ii) Such rotation was initiated due to unusual market conditions pursuant to this Rule, notice of such rotation is disseminated to the trading floor and the rotation does not commence until five minutes after the notice is disseminated.

(iii) If prior to 4:00 p.m. a trading rotation is in progress and an Options Exchange Official determines that a final trading rotation is needed to assure a fair and orderly market, the rotation in progress shall be halted and such final rotation begun as promptly as possible after 4:00 p.m.

(f) Index Options Trading after 4:00 P.M.: With the prior approval of an Options Exchange Official, a trading rotation in any class of index option contracts may be effected even though employment of the rotation will result in the transaction on the Exchange after 4:00 P.M. provided, in addition to Rule 1047A such rotation was initiated due to unusual market conditions pursuant to this Rule, notice of such rotation is disseminated to the trading floor, and the rotation does not commence until five minutes after the notice is disseminated.

Section 27. Quoting Obligations and Required Transactions

(a) No Continuous Electronic Quoting Obligation. A Floor Market Maker will not be obligated to quote electronically in any designated percentage of series.

(b) Continuous Open Outcry Quoting Obligation: In response to any request for quote by a Floor Broker, Specialist, Options Exchange Official, or other ROT (including an SQT), Floor Market Makers must provide a two-sided market complying with the quote spread parameter requirements contained in Rule 1014(c)(i) (in the case of equity options and U.S. dollar-settled FCOs). Such Floor Market Maker shall provide such quotations with a size of not less than 10 contracts.

(c) In Classes of Option Contracts to Which Assigned—Affirmative Obligations. With respect to classes of option contracts to which his assignment extends, a Specialist and an ROT, whenever the ROT (except an RSQT) enters the trading crowd in other than a floor brokerage capacity or is called upon by an Options Exchange Official or a Floor Broker, to make a market, are expected to engage, to a reasonable degree under the existing circumstances, in dealing for his own account when there exists, or it is reasonably anticipated that there will exist, a lack of price continuity, a temporary disparity between the supply of and demand for a particular option contract, or a temporary distortion of the price relationships between option contracts of the same class. Without limiting the foregoing, a Specialist and an ROT is expected to perform the following activities in the course of maintaining a fair and orderly market:

(1) Options on Equities (including Exchange-Traded Fund Shares), Index Options, and U.S. dollar-settled Foreign Currency Options.

(A) Quote Spread Parameters (Bid/Ask Differentials)—

(i) Options on equities and index options bidding and/or offering so as to create differences of no more than \$.25 between the bid and the offer for each option contract for which the prevailing bid is less than \$2; no more than \$.40 where the prevailing bid is \$2 or more but less than \$5; no more than \$.50 where the prevailing bid is \$5 or more but less than \$10; no more than \$.80 where the prevailing bid is \$10 or more but less than \$20; and no more than \$1 where the prevailing bid is \$20 or more, provided that, in the case of equity options, the bid/ask differentials stated above shall not apply to in-the-money series where the market for the underlying security is wider than the differentials set forth above. For such series, the bid/ask differentials may be as wide as the spread between the national best bid and offer in the underlying security, or its decimal equivalent rounded down to the nearest minimum increment. The Exchange may establish differences other than the above for one or more series or classes of options.

(ii) Options on U.S. dollar-settled FCO. With respect to all U.S. dollar-settled FCO bidding and/or offering so as to create differences of no more than \$.25 between the bid and the offer for each option contract for which the prevailing bid is less than \$2.00; no more than \$.40 where the

prevailing bid is \$2.00 or more but less than \$5.00; no more than \$.50 where the prevailing bid is \$5.00 or more but less than \$10.00; no more than \$.80 where the prevailing bid is \$10.00 or more but less than \$20.00; and no more than \$1.00 where the prevailing bid is \$20.00 or more. The Exchange may establish differences other than the above for one or more series or classes of options.

(d) In Classes of Option Contracts Other Than Those Which Appointed. With respect to classes of option contracts other than those to which his appointment extends, an ROT (other than an RSQT), whenever he enters the trading crowd in other than a floor brokerage capacity or is called upon by an Options Exchange Official or a floor broker to make a market, shall undertake the obligations specified in paragraph (c) of this Rule. Furthermore, an ROT should not:

(1) Effect purchases or sales on the Trading Floor of the Exchange except in a reasonable and orderly manner.

(e) Except in accordance with paragraphs (c) and (d), no ROT shall:

(1) initiate an Exchange options transaction while on the Trading Floor for any account in which he has an interest and execute as Floor Broker an off-floor order in options on the same underlying interest during the same trading session, or

(2) retain priority over an off-floor order while establishing or increasing a position for an account in which he has an interest while on the Trading Floor of the Exchange.

(f) A Floor Market Maker is required to trade either (a) 1,000 contracts and 300 transactions, or (b) 10,000 contracts and 100 transactions, on the Exchange each quarter. Transactions executed in the trading crowd where the contra-side is an ROT are not included.

(1) In addition, in order for an ROT (other than an RSQT or a Remote Specialist) to receive Specialist margin treatment for off-floor orders in any calendar quarter, the ROT must execute the greater of 1,000 contracts or 80% of his total contracts that quarter in person (not through the use of orders, except that non-streaming ROTs can use orders entered in person) and 75% of his total contracts that quarter in assigned options. Transactions executed in the trading crowd where the contra-side is an ROT are not included.

Section 28. Responsibilities of Floor Brokers

(a) General Responsibility. A Floor Broker handling an order is to use due diligence to cause the order to be executed at the best price or prices available to him in accordance with the Rules of the Exchange. An Options Floor Broker shall ascertain that at least one Registered Options Trader is present at the trading post prior to representing an order for execution. This paragraph (a) shall not apply to a Floor Broker in any foreign currency option if no Registered Options Trader registered in such foreign currency option is present on the Exchange's trading floor at that time.

(b) Contingency order. An Options Floor Broker handling a contingency order that is dependent upon the price of the underlying security shall be responsible for satisfying the dependency requirement on the basis of the last reported price of the underlying security in the primary market that is generally available on the Options Floor at any given time. Unless mutually agreed by the members involved, an execution or non-execution that results shall not be altered by the fact that such reported price is subsequently found to have been erroneous.

(c) Combination orders at the opening or close. A Floor Broker shall not be held responsible for the execution of a single order combining different series of options based upon transaction prices that are established at the opening or close of trading or during any trading rotation.

(d) Orders for Registered Options Traders. An Options Floor Broker must inform the crowd when he is representing an order for a Registered Options Trader and must comply with Options 8, Section 25 (d)(1), (h), (i) and (j).

(e)(1) Options Floor Based Management System. In order to create an electronic audit trail for equity, equity index and U.S. dollar-settled foreign currency options orders represented by Floor Brokers on the Exchange's Options Floor, a Floor Broker or such Floor Broker's employees shall contemporaneously upon receipt of an order and prior to the representation of such an order in the trading crowd, record all options orders represented by such Floor Broker onto the electronic Options Floor Based Management System ("FBMS") (as described in Rule 1080(a)(i)(C)). The following specific information with respect to orders represented by a Floor Broker shall be recorded by such Floor Broker or such Floor Broker's employees: (i) the order type (i.e., customer, firm, broker-dealer, professional) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle), or contingency order as described in Option 8, Section 32; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; (vii) whether the transaction is to open or close a position; and (viii) The Options Clearing Corporation ("OCC") clearing number of the broker-dealer that submitted the order (collectively, the "required information"). A Floor Broker must enter complete alpha/numeric identification assigned by the Exchange for all orders entered on behalf of Exchange Registered Option Traders. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System contemporaneously upon receipt, which may occur after the representation and execution of the order. In the event of a malfunction in the Options Floor Based Management System, Floor Brokers shall record the required information on trade tickets, and shall not represent an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Floor Brokers or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

(2) Pursuant to Options 8, Section 22, Floor Brokers are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Floor Brokers execute orders in the Exchange's options trading crowd pursuant to Options 8, Section 22(a)(3), Floor Brokers shall record the required information on trade tickets, and shall not represent an order for execution which has not been time stamped with the time of entry on the trading floor.

Such trade tickets also shall be time stamped upon the execution of such an order. Floor Brokers or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

(3) Complex Calculator. The FBMS will calculate and display a suggested price of each individual component of a multi-leg order up to 15 legs submitted on a net debit or credit basis.

(4) Execution. FBMS is designed to execute two-sided orders entered by Floor Brokers, including multi-leg orders up to 15 legs, after representation in the trading crowd. When a Floor Broker submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Floor Broker in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced by Options Trader Alert, after which it will be returned to the Floor Broker on the FBMS. The Floor Broker may resubmit the order for execution, as long as the quotes/orders that comprise the cross have not been withdrawn. Floor Brokers are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Options 8, Sections 24 and 25 and 1084.

(5) Snapshot Feature. The Snapshot feature of FBMS may be utilized by Floor Brokers as set forth sub-paragraph (i) below.

(f) Floor Brokers or their employees shall enter the required information (as described in paragraph (e) above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity and index options and U.S. dollar-settled foreign currency options. Floor Brokers or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

(g) A Floor Broker who wishes to place a limit order on the limit order book must submit such a limit order electronically through the Options Floor Based Management System.

(h) Floor Brokers must make reasonable efforts to ascertain whether each order entrusted to them is for the account of a customer or a broker-dealer. If it is ascertained that the order is for the account of a broker-dealer, the responsible Floor Broker must advise the crowd of that fact prior to bidding/offering on behalf of the order or submitting the order for execution. The Floor Broker or his employees must make the appropriate notation on the Options Floor Based Management System when it has been determined that the order is for an account of a broker/dealer.

(i) The Snapshot feature of FBMS records the market prevailing at the time the Snapshot is triggered. It records all information required to determine compliance with priority and trade-

through requirements, including the following: (1) Away Best Bid and Offer; (2) the Exchange Best Bid and Offer; (3) customer orders at the top of the Exchange book; and (4) the best bid and offer of all-or-none orders.

(1) Availability.

(A) A member is permitted to trigger the Snapshot feature only at the time he or she provisionally executes a trade in the trading crowd. For purposes of this provision, provisional execution occurs when either: (1) the participants to a trade reach a verbal agreement in the trading crowd as to the terms of the trade; or (2) a member announces that he is crossing an order in accordance with Options 8, Section 30(a).

(B) A member is prohibited from triggering the Snapshot feature for the purpose of obtaining favorable priority or trade-through conditions or avoiding unfavorable priority or trade-through conditions.

(C) A member may have only one Snapshot outstanding across all options classes and series at a given time.

(D) Surveillance Staff will monitor and enforce proper usage of the Snapshot feature on a post-trade basis.

(2) Snapshot Timer. After triggering the Snapshot feature, the member will have no more than 30 seconds to submit the provisionally executed trade along with the Snapshot into the System. The Snapshot will automatically become unavailable and expire if the member fails to submit a provisionally executed trade along with the Snapshot within 30 seconds after triggering the Snapshot.

(3) Verification. After the member submits the provisionally executed trade along with the Snapshot, the System then determines whether the terms of the provisionally executed trade submitted by the member is consistent with applicable priority and trade-through rules based on the market prevailing at the time of the Snapshot.

(A) If the provisionally executed trade submitted with the Snapshot is consistent with the applicable priority and trade-through rules based on the market prevailing at the time of the Snapshot, the System will report the trade to the Consolidated Tape.

(B) If the provisionally executed trade is not consistent with the applicable priority and trade-through rules based on the market prevailing at the time of the Snapshot, the System will reject the trade.

(C) If an order exists on the Exchange's limit order book that has priority at the time when a member seeks to take a Snapshot, the System will not prevent the member from taking a Snapshot, but the member must clear the order on the book, re-announce and provisionally re-execute the trade, and take a new Snapshot before submitting the

provisionally executed trade to the System or else the System will reject the trade upon submission.

(4) Taking a New Snapshot

(A) A member may take a new Snapshot and trigger a new 30-second timer provided that the member first re-announces and provisionally re-executes the trade in the crowd, as described in paragraphs (1) through (3) above, if: (i) the Snapshot expired before the member submitted a provisional execution to the Trading System; (ii) the Trading System rejected a provisional execution that is subject to a Snapshot; or (iii) the member affirmatively canceled a Snapshot or permitted it to expire in anticipation of the Trading System rejecting the provisional execution that is subject to it.

Section 29. Use of Floor Based Management System by Registered Options Traders and Specialists

(a) *Options Floor Based Management System.* In order to create an electronic audit trail for equity, equity index and U.S. dollar-settled foreign currency options orders negotiated by Registered Options Traders and Specialists on the Exchange's Options Floor, a Registered Options Trader, a Specialist, or their respective employees shall, prior to the negotiation of such an order in the trading crowd, record all options orders negotiated by such Registered Options Trader or Specialist onto the electronic Options Floor Based Management System ("FBMS") (as described in Rule 1080, Commentary .06). The following specific information with respect to orders negotiated by a Registered Options Trader or Specialist shall be recorded by such Registered Options Trader, Specialist, or their respective employees: (i) the order type (i.e., market maker) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle) or contingency order as described in Options 8, Section 32; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; and (vii) whether the transaction is to open or close a position, as applicable (collectively, the "required information"). A Registered Options Trader or Specialist must enter complete alpha/numeric identification assigned by the Exchange for all orders entered. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System contemporaneously upon receipt, which may occur after the negotiation and execution of the order. In the event of a malfunction in the Options Floor Based Management System, a Registered Options Trader or Specialist shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Registered Options Traders, Specialists, or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

(b) Pursuant to Options 8, Section 22(a), Registered Options Traders and Specialists are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Registered Options Traders or Specialists execute orders in the Exchange's options trading crowd pursuant to Options 8, Section 22(a)(2), Registered Options

Traders or Specialists shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Registered Options Traders, Specialists, or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

(c) Complex Calculator. The FBMS will calculate and display a suggested price of each individual component of a multi-leg order up to 15 legs submitted on a net debit or credit basis.

(d) Execution. FBMS is designed to execute orders entered by Registered Options Traders or Specialists, including multi-leg orders up to 15 legs, after negotiation in the trading crowd. When a Registered Options Trader or Specialist submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Registered Options trader or Specialist in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced in an Options Trader Alert, after which it will be returned to the Registered Options Trader or Specialist on the FBMS. The Registered Options Trader or Specialist may resubmit the order for execution, as long as the quotes that comprise the order have not been withdrawn. Registered Options Traders and Specialists are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Rules 1014, Options 8, Section 33 and 1084.

(e) Snapshot Feature. The Snapshot feature of FBMS may be utilized by Registered Options Traders and Specialists as set forth in Rule Options 8, Section 28(i).

(f) Registered Options Traders, Specialists or their employees shall enter the required information (as described in paragraph (a) above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity and index options and U.S. dollar-settled foreign currency options. Registered Options Traders, Specialists or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

(g) A Registered Options Trader or Specialist who wishes to place a limit order on the limit order book must submit such a limit order electronically through the Options Floor Based Management System.

Section 30. Reserved.

Section 31. Discretionary Transactions

(a) No Floor Broker shall execute or cause to be executed any order or orders on this Exchange with respect to which such Floor Broker is vested with discretion as to: (i) the choice of the class of options to be bought or sold, (ii) the number of contracts to be bought or sold, or (iii) whether

any such transaction shall be one of purchase or sale. However, the provisions of this Rule shall not apply to any discretionary transaction executed by a Registered Options Trader for an account in which he has an interest.

(b) No Options Floor Broker shall hold a "not held" market order to buy and a "not held" market order to sell (or orders which have the effect of such "not held" market orders to buy and to sell) the same series of options for the same account or for accounts of the same beneficial owner. Also no Floor Broker shall leg a combination order for a Registered Options Trader or accept opening or discretionary orders for a Registered Options Trader who is associated with the same member organization as such Floor Broker or who is associated with another member organization which is pursuant to Exchange Rule 793 affiliated with the same member organization as such Floor Broker. Holding or accepting such orders can be interpreted as allowing the Floor Broker discretion respecting whether to purchase or sell such options.

(c) An Options Floor Broker may not exercise any discretion with respect to the order of a ROT or the order of an options market maker registered on another exchange.

Section 32. Certain Types of Floor-Based (Non-System) Orders Defined

These order types are eligible for entry by a member for execution through the Options Floor Based Management System ("FBMS").

(a) *Market Order.* A market order is an order to buy or sell a stated number of option contracts and is to be executed at the best price obtainable when the order reaches the post.

(b) *Limit Order.* A limit order is an order to buy or sell a stated number of option contracts at a specified price, or better.

(c) *Contingency Order.* A contingency order is a limit or market order to buy or sell that is contingent upon a condition being satisfied while the order is at the post.

(1) *Stop-Limit Order.* A stop-limit order is a contingency order to buy or sell at a limited price when a trade or quote on the Exchange for a particular option contract reaches a specified price. A stop-limit order to buy becomes a limit order executable at the limit price or better when the option contract trades or is bid on the Exchange at or above the stop-limit price. A stop-limit order to sell becomes a limit order executable at the limit price or better when the option contract trades or is offered on the Exchange at or below the stop-limit price.

(2) *Stop (stop-loss) Order.* A stop order is a contingency order to buy or sell when a trade or quote on the Exchange for a particular option contract reaches a specified price. A stop order to buy becomes a market order when the option contract trades or is bid on the Exchange at or above the stop price. A stop order to sell becomes a market order when the option contract trades or is offered on the Exchange at or below the stop price.

Notwithstanding the foregoing, a stop or stop-limit order shall not be elected by a trade that is reported late or out of sequence.

(3) All or None Order. An all-or-none order is a market or limit order which is to be executed in its entirety or not at all.

(4) Cancel-Replacement Order. A cancel-replacement order is a contingency order consisting of two or more parts which require the immediate cancellation of a previously received order prior to the replacement of a new order with new terms and conditions. If the previously placed order is already filled partially or in its entirety the replacement order is automatically canceled or reduced by such number.

(5) Immediate or Cancel Order. An immediate-or-cancel ("IOC") order is a limit order that is to be executed in whole or in part upon receipt. Any portion not so executed shall be cancelled. IOC Orders are not routable and shall not be subject to any routing process described in these Rules.

(d) Not Held Order. A not held order is an order marked "not held", "take time" or which bears any qualifying notation giving discretion as to the price or time at which such order is to be executed.

(e) Multi-leg Orders. A multi-leg order is any spread type order (including a spread, straddle and combination order) for the same account or tied hedge order as defined below:

(1) Spread Order. A spread order is an order to buy a stated number of option contracts and to sell a stated number of option contracts in a different series of the same option and may be bid for or offered on a total net debit or credit basis.

(2) Straddle Order. A straddle order is an order to buy a number of call option contracts and the same number of put option contracts with respect to the same underlying security (in the case of options on a stock or Exchange-Traded Fund Share) or the same underlying foreign currency (in the case of options on a foreign currency) and having the same exercise price and expiration date; or an order to sell a number of call option contracts and the same number of put option contracts with respect to the same underlying security (in the case of options on a stock or Exchange-Traded Fund Share) or the same underlying foreign currency (in the case of options on a foreign currency) and having the same exercise price and expiration date (e.g., an order to buy two XYZ July 50 calls and to buy two XYZ July 50 puts is a straddle order). In the case of adjusted stock option contracts, a straddle order need not consist of the same number of put and call contracts if such contracts both represent the same number of shares at option.

(3) Combination Order. A combination order is an order involving a number of call option contracts and the same number of put option contracts in the same underlying security and representing the same number of shares at option (if the underlying security is a stock or Exchange-Traded Fund Share) or the same number of foreign currency units

(if the underlying security is a foreign currency). A combination order includes a conversion (generally, buying a put, selling a call and buying the underlying stock or Exchange-Traded Fund Share) and a reversal (generally, selling a put, buying a call and selling the underlying stock or Exchange-Traded Fund Share). In the case of adjusted option contracts, a combination order need not consist of the same number of shares at option.

(4) Tied Hedge Order. A tied hedge order is an option order that is tied to a hedge transaction as defined in Options 8, Section 30(d)(3)(A), following the receipt of an option order in a class determined by the Exchange as eligible for "tied hedge" transactions.

(5) Synthetic Option. A synthetic option order is an order to buy or sell a stated number of units of an underlying stock or a security convertible into the underlying stock ("convertible security") coupled with either (i) the purchase or sale of option contract(s) on the opposite side of the market representing either the same number of units of the underlying stock or convertible security or the number of units of the underlying stock or convertible security necessary to create a delta neutral position, or (ii) the purchase or sale of an equal number of put and call option contracts, each having the same exercise price, expiration date, and each representing the same number of units of stock as, and on the opposite side of the market from, the stock or convertible security portion of the order.

(6) Spread Type Order - A spread type order is a multi-leg order submitted through the Floor Based Management System ("FBMS") involving the simultaneous purchase and/or sale of two or more different options series (up to 15) in the same underlying security, priced as a net debit or credit based on the relative prices of the individual components, for the same account, for the purpose of executing a particular investment strategy. A spread type order may include as one of the legs a stated number of units of an underlying security (stock or Exchange Traded Fund Share ("ETF")) coupled with the purchase or sale of options contract(s). The underlying security must be the deliverable for the options component of that Complex Order and represent exactly 100 shares per option for regular way delivery.

(7) Complex Order. A Complex Order is a multi-leg order that meets the definition of Complex Order in Rule 1098(a)(i).

(8) DNA Order. A DNA Order is an order submitted through FBMS that meets the definition of DNA Order in Rule 1098(a)(viii).

(f) Routing order types. In the System, the following order types will be available and governed by Rule 1080(m): DNR (do not route), FIND and SRCH.

(g) For options on foreign currencies, a multi-spread transaction consisting of spread, straddle or combination orders may be executed. A multi-spread transaction combines any two spread type orders for the same account as defined in Options 8,

Section 32(e), a permissible multi-spread transaction combines any of the following: a two-way transaction with another two-way transaction of the same spread type; a three-way transaction with another three-way transaction of the same spread type; or a two-way transaction with a three-way transaction of the same spread type. In addition, a multi-spread transaction includes the combination of a spread type order with a ratio spread type order. The ratio between the spread type order and the ratio spread type order comprising the multi-spread transaction may range from one-to-one to three-to-one, which will be determined by the Exchange.

Section 33. Accommodation Transactions

(a) A "cabinet order" is a closing limit order at a price of \$1 per option contract for the account of a customer, firm, Specialist or ROT. An opening order is not a "cabinet order" but may in certain cases be matched with a cabinet order pursuant to subsection (a)(iii) below. Only Floor Brokers may represent cabinet orders. Cabinet trading shall be available for each series of options open for trading on the Exchange under the following terms and conditions:

(1) Trading shall be conducted in accordance with other Exchange Rules except as otherwise provided herein or unless the context otherwise requires.

(2) Cabinet orders may be submitted to Floor Brokers and represented by them in the designated trading crowd of the option class. Floor Brokers must use the designated cabinet transaction forms provided by the Exchange to document receipt of a cabinet order and the execution of a cabinet transaction. Options 8, Section 29(e)(i) shall not apply to cabinet orders.

(3)(A) *Floor Broker Holds the Cabinet Order Only.* If a Floor Broker holds a cabinet order but does not hold contra-side interest, he shall follow the procedures set forth in this subsection (3)(A). In the trading crowd, and in the presence of at least one market maker and Nasdaq Market Regulation Floor Surveillance, the Floor Broker shall announce the terms of the cabinet order to the trading crowd to solicit interest to participate on the closing position. All matching cabinet orders shall be assigned priority based upon the sequence in which such orders are received by the Floor Broker. If there is no matching cabinet order, the Floor Broker may match the cabinet order with a matching opening buy or sell limit order priced at \$1 per option contract. If there is no matching cabinet order or opening order, the Floor Broker may seek matching bids or offers for accounts of Specialists and ROTs. Specialists and ROTs can only participate after all other orders have been matched.

(B) *Floor Broker Holds the Cabinet Order and also a Contra-Side Cabinet Order.* If the Floor Broker holds a cabinet order as well as contra-side cabinet order, the Floor Broker shall follow the procedures set forth in this subsection (3)(B). In the trading crowd, and in the presence of at least one market-maker and Nasdaq Market Regulation Floor Surveillance, the Floor Broker shall announce the terms of the cabinet orders to the trading crowd. The cabinet orders shall then be immediately crossed by the Floor Broker.

(C) Floor Broker Holds Cabinet Order and a Contra-Side Opening Order. If the Floor Broker holds a cabinet order as well as contra-side opening order, the Floor Broker shall follow the procedures set forth in this subsection (3)(C). In the trading crowd, and in the presence of at least one market-maker and Nasdaq Market Regulation Floor Surveillance, the Floor Broker shall announce the terms of the cabinet order to the trading crowd. If there is a matching cabinet order, the Floor Broker shall match the two cabinet orders. If there is no matching cabinet order, the cabinet order shall then be immediately crossed by the Floor Broker with the opening order held by the Floor Broker.

(4) Once the cabinet order has been either crossed or matched, the Floor Broker shall submit the designated cabinet form to the Nasdaq Market Operations staff for clearance and reporting at the close of the business day.

(5) Specialists and ROTs shall not be subject to the requirements of Options 8, Section 25 in respect of orders placed pursuant to this Rule. The provisions of Options 8 Section 24(b) and (c) and Rule 1034 shall not apply to orders placed in the cabinet. Cabinet transactions shall not be reported on the ticker.

(b) Any (i) member, or (ii) other person who is a non-member broker or dealer and who directly or indirectly controls, is controlled by, or is under common control with, a member (any such other person being referred to as an affiliated person) may effect any transaction as principal in the over-the-counter market in any class of option contracts listed on the Exchange for a premium not in excess of \$1.00 per contract.

(c) For each transaction executed by a member or affiliated person pursuant to paragraph (b) a record of such transaction shall be maintained by the member and shall be available for inspection by the Exchange for a period of three years. Such record shall include the circumstances under which the transaction was executed in conformity with this Rule.

(d) **Limit Orders Priced Below \$1:** Limit orders with a price of at least \$0 but less than \$1 per option contract may trade under the terms and conditions in Options 8, Section 33 above in each series of option contracts open for trading on the Exchange, except that:

(1) Bids and offers for opening transactions are only permitted to accommodate closing transactions.

(2) These procedures are available for trading in all options classes trading on the Exchange, including options classes participating in the Penny Pilot Program.

(3) Transactions shall be reported for clearing utilizing forms, formats and procedures established by the Exchange.

(e) Pursuant to Options 8, Section 34(h), open FLEX option positions are eligible to be closed in accordance with this Options 8, Section 33 at the minimum increments specified herein. The FLEX option cabinet order may be executed against contra-side interest which closes a FLEX

option position or, to the extent permitted under Rule 1059(a)(iii), against contra-side interest which opens a FLEX option position. Sections (b) and (c) of Rule Options 8, Section 34 shall not apply to FLEX option transactions executed pursuant to Options 8, Section 34(h), and Options 8, Section 33. However, Sections (d) - (h) of Options 8, Section 34 shall apply to any FLEX option position opened pursuant to Options 8, Section 33.

Section 34. FLEX Index, Equity and Currency Options

(a) A Requesting Member shall obtain quotes and execute trades in certain non-listed FLEX options at the post of the non-FLEX option on the Exchange. The term "FLEX option" means a FLEX option contract that is traded subject to this Rule. Although FLEX options are generally subject to the Rules in this section, to the extent that the provisions of this Rule are inconsistent with other applicable Exchange Rules, this Rule takes precedence with respect to FLEX options.

(b) Characteristics:

(1) Underlying interest —

- (A) any index upon which options currently trade on the Exchange. The applicable index multiplier shall be the same multiplier, in the case of U.S. dollar-denominated FLEX index options, that applies to non-FLEX index options on the same underlying index;
- (B) any security which is options-eligible pursuant to Rule 1009; or
- (C) any foreign currency which is options-eligible pursuant to Rule 1009 and which underlies non-FLEX U.S. dollar-settled foreign currency options that are trading on the Exchange.

(2) Type—put, call or hedge order (as defined in Options 8, Section 32).

(3) Exercise price—

- (A) with respect to FLEX index options, may be specified in terms of a specific index value number, a percentage of the index value calculated as of the open or close of trading on the Exchange on the trade date, or a method for fixing such number;
- (B) with respect to FLEX equity options, may be specified in terms of a specific dollar amount rounded to the nearest \$.10 or a percentage of the underlying security rounded to the nearest minimum increment; or
- (C) with respect to FLEX currency options, may be specified in terms of a specific dollar amount rounded to the nearest hundredth of a dollar.

(4) Quote format—

- (A) in the case of FLEX index options and equity options, a bid and/or offer in the form of a decimal price (*e.g.* .10 or .25), pursuant to Rule 1034, a specific dollar amount, or a percentage of the underlying equivalent value, in the case of FLEX index options, or security, in the case of FLEX equity options, rounded to the nearest minimum increment; or
- (B) in the case of FLEX currency options, in the form of dollars per unit of underlying foreign currency in the minimum increments set forth for U.S. dollar settled foreign currency options in Rule 1034(a).
- (5) Exercise style—American or European in the case of FLEX index options and FLEX equity options, and European only in the case of FLEX U. S. dollar-settled foreign currency options;
- (6) Expiration date—
- (A) any month, business day and year within five years for FLEX index options and within three years for FLEX currency options, except that (i) a FLEX index option that expires on or within two business days prior or subsequent to a third Friday-of-the-month expiration day for a non-FLEX option (except quarterly expiring index options) or underlying currency may only have an exercise settlement value on the expiration date determined by reference to the reported level of the index as derived from the opening prices of the component securities ("a.m. settlement") and (ii) all FLEX currency options will expire at 11:59 p.m. eastern time on their designated expiration date; or
- (B) any month, business day and year within three years for FLEX equity options, provided, however, that a Requesting Member may request a longer term to a maximum of five years, and upon the assessment of the Regulatory staff that sufficient liquidity exists among FLEX equity participants, such request may be granted. Regulatory staff are Exchange employees responsible for, among other things, assessing that sufficient liquidity exists among FLEX equity participants requesting a term exceeding three years to a maximum of five years. The Exchange may also designate other qualified Exchange employees to assist the Regulatory staff as the need arises.
- (C) Provided the options on an underlying security or index are otherwise eligible for FLEX trading, FLEX options shall be permitted in puts and calls that do not have the same exercise style, same expiration date and same exercise price as non-FLEX options that are already available for trading on the same underlying security or index. FLEX options shall also be permitted before the options are listed for trading as non-FLEX options. Once and if the option series are listed for trading as non-FLEX options, then (i) all existing open positions established under the FLEX trading procedures shall be fully fungible with transactions in the respective non-FLEX option series, and (ii) any further trading in the series would be as non-FLEX options subject to the non-FLEX trading procedures and Rules. However, in the event the Non-FLEX series is added intra-day, a position established under the FLEX trading procedures would be permitted to be closed using the FLEX trading procedures for the balance of the trading day on which the Non-

FLEX series is added against another closing only FLEX position. For such FLEX series, the Exchange will make an announcement that the FLEX series is now restricted to closing transactions; a FLEX Request for Quotes ("RFQ") may not be disseminated for any order representing a FLEX series having the same terms as a Non-FLEX series, unless such FLEX Order is a closing order (and it is the day the Non-FLEX series has been added); and only responses that close out an existing FLEX position are permitted. Any transactions in a restricted series that occur that do not conform to these requirements will be nullified by the Exchange.

(7) Requesting quotes—to request a quote in FLEX options, an RFQ shall be submitted pursuant to paragraph (c) of this Rule;

(8) Minimum size—

(A) **Opening**—If there is no open interest in the particular series when an RFQ is submitted, the minimum size of an RFQ is:

- (i) One contract in the case of FLEX market index options, and one contract in the case of FLEX industry index options;
- (ii) One contract in the case of FLEX equity options; and
- (iii) 50 contracts in the case of FLEX currency options.

(B) **Opened**—If there is open interest, the minimum size of an RFQ is:

- (i) respecting FLEX index options, \$1 million underlying equivalent value, or the remaining size on a closing transaction, whichever is less;
- (ii) respecting FLEX equity options, the lesser of 100 contracts or the number of contracts overlying \$1 million of the underlying securities in the case of an opening transaction, or 25 contracts or the remaining size in the case of a closing transaction, whichever is less; or
- (iii) respecting FLEX currency options, 25 contracts, or the remaining size on a closing transaction, whichever is less.

(C) **Responsive**—The minimum value size for a responsive quote, other than an assigned ROT or assigned Specialist, is (includes non-assigned ROTs and a non-assigned Specialist):

- (i) respecting FLEX index options, \$1 million underlying equivalent value respecting index options, or the remaining size on a closing transaction, whichever is less. However, an assigned ROT and assigned Specialist are required to respond with at least \$10 million underlying equivalent value respecting FLEX market index options,

and \$5 million underlying equivalent value respecting FLEX industry index options or Alpha Index options, or the size amount requested in the RFQ, whichever is less;

(ii) respecting FLEX equity options, 25 contracts, or the remaining size on a closing transaction, whichever is less. However, an assigned ROT and assigned Specialist are required to respond with at least 250 contracts, or the size amount requested in the RFQ, whichever is less; or

(iii) respecting FLEX currency options, 50 contracts, or the remaining size on a closing transaction, whichever is less. However, an assigned ROT and assigned Specialist are required to respond with at least 250 contracts, or the size amount requested in the RFQ, whichever is less.

(D) "Underlying equivalent value" means the aggregate value of a FLEX index option (index multiplier times the current index value) multiplied by the number of FLEX index options.

(9) Settlement

(A) respecting FLEX index options, the settlement value may be specified as the index value reported at the: (i) close (P.M.-settled); (ii) opening (A.M.-settled) of trading on the Exchange, or (iii) as an average over a specified period of time, within parameters established by the Exchange. American style index options exercised prior to the expiration date can only settle based on the closing value on the exercise date. FLEX index options are settled in U.S. dollars; or

(B) The settlement value for FLEX options on the Australian dollar, the Euro, the British pound, the Canadian dollar, the Swiss franc, the Japanese yen, the Mexican peso, the Brazilian real, the Chinese yuan, the Danish krone, the New Zealand dollar, the Norwegian krone, the Russian ruble, the South African rand, the South Korean won, and the Swedish krona shall be the Exchange Spot Price at 12:00:00 Eastern Time (noon) on expiration day, unless the Exchange determines to apply an alternative closing settlement value as a result of extraordinary circumstances. FLEX currency options are settled in U.S. dollars. FLEX currency options will cease trading at 10:15 a.m. eastern time on their designated expiration date.

(10) Requesting Member—a member of the Exchange qualified to trade FLEX options pursuant to paragraph (d) of this Rule who initiates an RFQ for a FLEX option.

(11) Request for Quotes—the term "Request for Quotes" means the initial request supplied by a Requesting Member to initiate FLEX bidding and offering.

(12) Request Response Time—the term "Request Response Time" means the minimum period of time established by the Exchange, during which Exchange members participating in FLEX options may provide FLEX Quotes in response to a Request for Quotes.

(13) FLEX Quote - the term "FLEX Quote" means (i) FLEX bids and offers entered by Specialists and Registered Options Traders and (ii) orders to purchase and orders to sell FLEX Options entered by Floor Brokers, in each case in response to a Request for Quotes.

(14) BBO—the term "BBO" means the best bid or offer, or both, as applicable, entered in response to a Request for Quotes.

(15) BBO Improvement Interval—the term "BBO Improvement Interval" means the minimum period of time, to be established by the Exchange, during which members may submit FLEX Quotes to meet or improve the BBO established during the Request Response Time.

(c) **Procedure for Quoting and Trading FLEX Options.** FLEX options will not be continuously quoted and series are not pre-established. The Exchange's electronic quoting and trading system will not be available for FLEX options. The variable terms of FLEX options shall be established through the process described in this Rule. All transactions must be in compliance with Section 11(a) of the Securities Exchange Act of 1934 and the rules promulgated thereunder, which may include yielding priority to customer orders.

(1) **Requesting Quotations.** The Requesting Member may initiate a Request-for-Quote ("RFQ") by first announcing all of the following contract terms to the trading crowd of the non-FLEX option and then submitting an RFQ ticket to the post: (1) underlying index, security or foreign currency; (2) type, size, and crossing intention; (3) in the case of FLEX index options and FLEX equity options, exercise style; (4) expiration date; (5) exercise price; and (6) respecting index options, the settlement value. Thereafter, on receipt of an RFQ in proper form, the assigned Specialist or the Requesting Member shall cause the terms of the RFQ to be disseminated as an administrative text message through the Options Price Reporting Authority ("OPRA").

(2) **Responses.** Members may enter at the FLEX post FLEX Quotes responsive to each Request for Quotes. FLEX Quotes must be entered during the Request Response Time. Each FLEX Quote shall refer to a reference indicator as the Exchange determines appropriate from time to time. All FLEX Quotes may be entered, modified or withdrawn at any point during the request response time. At the expiration of the Request Response Time, the BBO shall be identified in accordance with the price and time priority principles set forth by the Exchange.

(3) **Formation of Contracts Following the Process of Initial Quotes.** At the expiration of the Request Response Time, the assigned Specialist, or if none, the Requesting Member shall determine the BBO and the BBO shall be displayed on such market data systems as are available. If the Requesting Member has not indicated an intention to cross or act as principal with respect to any part of the FLEX trade, the member shall promptly accept or reject the displayed BBO: provided, however, that if such a Requesting Member either rejects the BBO or is given a BBO for less than the entire size requested, all FLEX participating members other than the Requesting Member will have an opportunity during the BBO Improvement Interval in which to match, or improve, (as applicable), the BBO. At the expiration of any such BBO Improvement Interval, the Requesting Member must

promptly accept or reject the BBO(s). If the Requesting Member has indicated an intention to cross or act as principal with respect to any part of the FLEX trade, acceptance of the displayed BBO shall be automatically delayed until the expiration of the BBO Improvement Interval. Prior to the BBO Improvement Interval, the Requesting Member must indicate at the post the price at which the member expects to trade. In these circumstances, the Requesting Member may participate with all other FLEX-participating members in attempting to improve or match the BBO during the BBO Improvement Interval. At expiration of the BBO Improvement Interval, the Requesting Member must promptly accept or reject the BBO(s). The Requesting Member has no obligation to accept any FLEX bid or offer. Whenever, following the completion of FLEX bidding and offering responsive to a given RFQs, the Requesting Member rejects the BBO or the BBO size exceeds the FLEX transaction size indicated in the RFQs, members may accept the entire order or the unfilled balance of the BBO.

- (4) **Priority.** The highest bid shall have priority, but where the two or more best bids are submitted at the same price, the bid(s) submitted first in time will have priority. The lowest offer shall have priority, but where the two or more best offers are submitted at the same price, the offer(s) submitted first in time will have priority.
- (5) **BBO Improvement Interval.** In the case of FLEX equity options only and notwithstanding paragraph (c)(4), whenever the Requesting Member has indicated an intention to cross or act as principal on the trade and has matched or improved the BBO during the BBO Improvement Interval, the Requesting Member will be permitted to execute the contra side of the trade that is the subject of the RFQs, to the extent of at least 40% of the trade, provided the order is a public customer order or an order respecting the Requesting Member's firm proprietary account. Notwithstanding the foregoing, all market participants may effect crossing transactions.
- (6) **Reporting Requirements.** RFQs, responsive quotes and completed trades will be promptly reported to OPRA and disseminated as an administrative text message.
- (7) **Trading Rotations.** There will be no trading rotations in FLEX options, either at the opening or at the close of trading.
- (8) **Hours of Trading.** FLEX options trading must be effected during the hours established by the Exchange. Such hours shall be within regular Exchange trading hours (for the non-FLEX option) on each business day, except that the Exchange in its discretion may determine at any time to narrow or expand FLEX trading hours to encompass, but not exceed, the trading hours of the non-FLEX option.

(d) Who May Trade FLEX Options.

- (1) **Assigned ROTs and Assigned Specialists.** An ROT or Specialist may apply on a form prescribed by the Exchange to be assigned in FLEX options. At least two members shall be assigned to each FLEX option. Only the Specialist in the non-FLEX option may be the assigned Specialist in that FLEX option ("FLEX Specialist"). The provisions of Rule

Options 8, Section 27(c) regarding market making obligations shall be applicable to assigned ROTs and assigned Specialists, such that a market must be provided in any FLEX option when requested by an Options Exchange Official.

- (2) **Financial Requirements.** An assigned ROT in FLEX index options shall be required to maintain a minimum of \$100,000 in net liquid assets. An assigned Specialist in FLEX index options shall be required to maintain a minimum of \$1,000,000 in net capital. Floor Brokers shall be required to maintain a minimum of \$50,000 in net capital to qualify to trade FLEX options. Each such assigned ROT, assigned Specialist or Floor Broker shall immediately inform the Exchange upon failure to be in compliance with such requirements. The Exchange may waive the financial requirements of this Rule in unusual circumstances.
- (3) **Letters of Guarantee.** No ROT or Specialist shall effect any FLEX option unless a Letter of Guarantee has been issued by a clearing member organization and filed with the Exchange pursuant to Rule 703 specifically accepting financial responsibility for all FLEX option transactions made by such person and such letter has not been revoked.

(e) **Position Limits.**

- (1) FLEX index options shall be subject to a separate position limit of 200,000 contracts on the same side of the market respecting market index options; 36,000, 48,000, or 60,000 contracts respecting industry index options, depending on the position limit tier determined pursuant to Rule 1001A(b)(i); the same number of contracts respecting Alpha Index options that would apply to such Alpha Index options if they were not FLEX; the same number of contracts respecting MSCI EM Index options that would apply to such MSCI EM Index options if they were not FLEX; and the same number of contracts respecting MSCI EAFE Index options that would apply to such MSCI EAFE Index options if they were not FLEX. Reduced value or mini-size FLEX index option contracts shall be aggregated with full value or full-size FLEX index option contracts and counted by the amount by which they equal a full value contract (e.g. ten (10) one tenth (1/10th) value contracts equal one (1) full value contract). Positions in P.M.-settled FLEX index options shall be aggregated with positions in quarterly expiring options listed pursuant to Rule 1101A(b)(iv) on the same underlying index, if the FLEX index option expires at the close of trading on or within two business days of the last day of trading in each calendar quarter. However, except as provided in subsection (4) of this section (d), positions in FLEX index options shall otherwise not be taken into account when calculating position limits for non-FLEX index options. There shall be no position limits for full value options on the Russell 2000[®] Index ("Full Value Russell 2000[®] Options") and for one tenth (1/10th) value options on the Russell 2000[®] Index ("Reduced Value Russell 2000[®] Options"). There shall be no position limits for full value options on the Nasdaq 100 Index ("Full Value Nasdaq 100 Options") and for the reduced value options on the Nasdaq 100 Index ("Reduced Value Nasdaq 100 Options"). Options on the Full Value and Reduced Value Russell Indexes for the following products (collectively "Russell U.S. Indexes"): Russell 3000[®] Index, Russell 3000[®] Value Index, Russell 3000[®] Growth Index, Russell 2500[™] Index, Russell 2500[™] Value Index, Russell 2500[™] Growth Index, Russell 2000[®] Value Index, Russell 2000[®] Growth Index, Russell 1000[®] Index, Russell 1000[®] Value Index, Russell 1000[®] Growth Index, Russell Top 200[®]

Index, Russell Top 200[®] Value Index, Russell Top 200[®] Growth Index, Russell MidCap[®] Index, Russell MidCap[®] Value Index, Russell MidCap[®] Growth Index, Russell Small Cap Completeness[®] Index, Russell Small Cap Completeness[®] Value Index and Russell Small Cap Completeness[®] Growth Index, are subject to an aggregate position limit of 50,000 contracts on the same side of the market, provided that no more than 30,000 of such contracts are in the nearest expiration month series.

- (2) FLEX equity options shall not be subject to a separate FLEX position limit. Except as provided in subsection (4) of this section (d), positions in FLEX equity options shall not be taken into account when calculating position limits for non-FLEX equity options, or FLEX or non-FLEX index options.

However, each member or member organization (other than a Specialist or ROT) that maintains a position on the same side of the market in excess of the standard limit under Rule 1001 for non-FLEX equity options of the same class on behalf of its own account or for the account of a customer shall report information on the FLEX equity option position, positions in any related instrument, the purpose or strategy for the position and the collateral used by the account. This report shall be in the form and manner prescribed by the Exchange. In addition, whenever the Exchange determines that a higher margin requirement is necessary in light of the risks associated with a FLEX equity option position in excess of the standard limit for non-FLEX equity options of the same class, the Exchange may consider imposing additional margin upon the account maintaining such under-hedged position. Additionally, it should be noted that the clearing firm carrying the account will be subject to capital charges under SEC rule 15c3-1 to the extent of any margin deficiency resulting from the higher margin requirement.

- (3) Positions in FLEX currency options will be aggregated with positions in non-FLEX U.S. dollar-settled foreign currency option contracts for purposes of determining compliance with the position limits established by Rule 1001.
- (4) As long as the options positions remain open, positions in FLEX index options that expire on a third Friday-of-the-month shall be aggregated with positions in non-FLEX index options on the same underlying security ("comparable non-FLEX index options"), positions in FLEX equity options that expire on a third Friday-of-the-month shall be aggregated with positions in non-FLEX equity options on the same underlying security ("comparable non-FLEX equity options"), and shall be subject to the position and exercise limits set forth in this rule, and 1001, 1002, 1001A, and 1002A, as applicable.

(f) Exercise Limits. In determining compliance with Rules 1002 and 1002A, exercise limits for FLEX options shall be equivalent to position limits established in this Rule. Positions in FLEX options shall not be taken into account when calculating exercise limits for non-FLEX options, except as provided in paragraph (d) above. The minimum exercise size shall be the lesser of \$1 million underlying equivalent value for FLEX index options, and 25 contracts for FLEX equity and currency options, or the remaining size of the position.

(g) FLEX equity and currency options shall be subject to the exercise-by-exception procedure of Rule 805 of The Options Clearing Corporation.

(h) Notwithstanding Rule (c)(4) of this rule regarding FLEX Index, Equity and Currency Options minimum increments, open FLEX option positions are eligible to be closed in accordance with Options 8, Section 33, Accommodation Transactions, at the minimum increments specified therein. The FLEX option cabinet order may be executed against contraside interest to close a FLEX option position or, to the extent permitted under Rule Options 8, Section 33(a)(3)(B), against contraside interest which opens a FLEX option position. Sections (a) and (b) of this rule shall not apply to FLEX option transactions executed pursuant to this paragraph and Options 8, Section 33. Sections (d) - (h) of this rule shall apply to any FLEX option position opened pursuant to Options 8, Section 33.

Section 35. Disputes

(a) Disputes occurring on and relating to the Trading Floor, if not settled by agreement between the members interested, shall be settled, if practicable, by vote of the members knowing of the transaction in question; if not so settled, they shall be settled by an Options Exchange Official.

In issuing decisions for the resolution of trading disputes, an Options Exchange Official shall institute the course of action deemed to be most fair to all parties under the circumstances at the time. An Options Exchange Official may direct the execution of an order on the floor, or adjust the transaction terms or participants to an executed order on the floor. An Options Exchange Official may nullify a transaction if the Options Exchange Official determines the transaction to have been in violation of Rules 1014 (Obligations and Restrictions Applicable to Specialists and Registered Options Traders), Options 8, Section 25 (Floor Allocation) or Options 8, Section 24 (Bids and Offers- Premium). This Rule shall not apply to options transactions that are the result of an Obvious Error or Catastrophic Error (as defined in Rule 1092). Options transactions that are the result of an Obvious Error or Catastrophic Error shall be subject to the provisions and procedures set forth in Rule 1092.

(b) All rulings rendered by an Options Exchange Official are effective immediately and must be complied with promptly. Failure to promptly comply with an initial Options Exchange Official ruling may result in referral to the Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement. Failure to promptly comply with other Options Exchange Official rulings issued pursuant to Order and Decorum Regulations (Rule 9216(c)) or Floor Procedure Advices (Rule 9216(b)) and not concerning a trading dispute may result in an additional violation.

(c) Review—Options Exchange Official rulings issued pursuant to Order and Decorum Regulations are reviewable pursuant to Rule 9216(c). Options Exchange Official rulings issued pursuant to Floor Procedure Advices are subject to the Rule 9000 Series. All other Options Exchange Official rulings are reviewable pursuant to paragraph (d) of this Rule.

(d) Review of Options Exchange Official Rulings (Trading Disputes)—All Options Exchange Official rulings are reviewable by the Exchange Review Council.

(i) Regulatory staff must be advised within 15 minutes of an Options Exchange Official's ruling that a party to such ruling has determined to appeal from such ruling to the Exchange Review Council. The Exchange may establish the procedures for the submission of a request for a review of an Options Exchange Official ruling. Options Exchange Official rulings (including those concerning the nullification or adjustment of transactions) may be sustained, overturned or modified by the Exchange Review Council. The Exchange Review Council may act as a panel with a minimum of three Committee members, of which no more than 50% can be engaged in market making activity or employed by an Exchange member organization whose revenues from market making activity exceed ten percent of its total revenues.

In making a determination, the Exchange Review Council may consider facts and circumstances not available to the ruling Options Exchange Official as well as action taken by the parties in reliance on the Options Exchange Official's ruling (e.g., cover, hedge and related trading activity).

(ii) All decisions made by the Exchange Review Council in connection with initial rulings on requests for relief and with the review of an Options Exchange Official ruling pursuant to this paragraph (d) shall be documented in writing and maintained by the Exchange in accordance with the record keeping requirements set forth in the Securities Exchange Act of 1934, as amended, and the rules thereunder.

(iii) A member or member organization seeking review of an Options Exchange Official ruling shall be assessed a fee of \$250.00 for each Options Exchange Official ruling to be reviewed that is sustained and not overturned or modified by the Exchange Review Council. In addition, in instances where the Exchange, on behalf of a member or member organization, requests a review by another options exchange, the Exchange will pass any resulting charges through to the relevant member organization.

(iv) Decisions of the Exchange Review Council shall be final and may not be appealed to the Exchange's Board of Directors.

(v) All decisions of the Exchange Review Council are effective immediately and must be complied with promptly. Failure to promptly comply with a decision of the Exchange Review Council may result in referral to the Phlx Regulation Department, Department of Market Regulation or Department of Enforcement.

(e) Exchange staff may determine that an Options Exchange Official is ineligible to participate in a particular ruling where it appears that such Options Exchange Official has a conflict of interest. For purposes of this Rule, and without limitation, a conflict of interest exists where an Options Exchange Official: (a) is directly or indirectly affiliated with a party seeking an Options Exchange Official ruling; (b) is a participant or is directly or indirectly affiliated with a participant in a transaction that is the subject of a Option Exchange Official ruling; (c) is a debtor or creditor of a party seeking an Options Exchange Official ruling; or (d) is an immediate family member of a party seeking an Options Exchange Official ruling. Exchange staff may consider other circumstances, on a case-by-case basis, in determining the eligibility or ineligibility of a

particular Options Exchange Official to participate in a particular ruling due to a conflict of interest.

Floor Trade Administration

Section 36. Resolution Of Uncompared Trade

(a) When a disagreement between members or member organizations arising from an uncompared Exchange options transaction cannot be resolved by mutual agreement prior to 10:00 a.m. on the first business day following the trade date (in the case of options on stocks or Exchange-Traded Fund Shares) or prior to 8:30 a.m. on the first business day following the trade date (in the case of options on foreign currencies), the parties shall promptly, but not later than 3:30 p.m. on such day (in the case of options on stocks or Exchange-Traded Fund Shares) or 2:00 p.m. on such day (in the case of options on foreign currencies (unless otherwise excused by the Exchange) close out the transaction in the following manner. The member or member organization representing the purchaser in the uncompared Exchange options transaction shall promptly enter into a new Exchange options transaction on the Floor of the Exchange to purchase the option contract that was the subject of the uncompared Exchange options transaction. The member or member organization representing the writer in the uncompared Exchange options transaction shall promptly enter into a new Exchange options transaction on the Floor of the Exchange to sell (write) the option contract that was the subject of the uncompared Exchange options transaction. Any claims for damages resulting from such transactions must be made promptly for the accounts of the members or member organizations involved and not for the accounts of their respective customers. Notwithstanding the foregoing, if either member or member organization is acting for a firm account in an uncompared Exchange options transaction and not for the account of a customer, such member organization need not enter into a new transaction, in which event money differences will be based solely on the closing transaction of the other party to the uncompared transaction.

(b) In the event an uncompared transaction involves an option contract of a series in which trading has been terminated or suspended before a new Exchange options transaction can be effected to establish the amount of any loss, the member or member organization not at fault may claim damages against the other member or member organization involved in the transaction based on the terms of such transaction. All such claims for damages shall be made promptly.

Section 37. Letters of Authorization

(a) Required of each Options Floor Broker. No Options Floor Broker shall act as such on the Exchange unless there is in effect and filed with the Exchange a Letter of Authorization that has been issued for such Options Floor Broker by a Clearing Member.

(b) Terms of Letter of Authorization. A Letter of Authorization shall provide that the issuing Clearing Member shall be responsible for the clearance of the Exchange transactions of the Options Floor Broker when the name of such Clearing Member is given up.

(c) Revocation of Letter of Authorization. A Letter of Authorization shall remain in effect until a written notice of revocation has been filed with the Exchange. If such written notice has not been

filed for at least one hour prior to the opening of trading on a particular business day, such revocation shall not become effective until the close of trading on such day.

Section 38. Communications and Equipment

(a) No member or member organization shall establish or maintain any private wire connection, private radio, television or wireless system, between the Exchange Trading Floor and a non-member without application to and approval by the Exchange.

Every such means of communication shall be registered with the Exchange. Notice of the discontinuance of any such means of communication shall be promptly given to the Exchange.

(b)(1) No member, member organization or person associated with a member organization shall establish or maintain any telephonic communication between the Options Floor and any other location, or between locations on the Options Floor, without the prior written approval of the Exchange.

(2) No member, member organization or person associated with a member organization shall:

(A) establish or maintain any telephonic, electronic or wireless transmitting system or device, including related antennas, on the Options Floor or

(B) operate any other equipment on the Options Floor that creates radio frequency (RF) or other interference with the systems of the Exchange or other members.

(c) The Exchange may remove any telephonic, electronic or wireless equipment that has not received written approval under subsection (b)(1) from any Exchange facility.

(d) The Exchange may remove any telephonic, electronic or wireless equipment that violates subsection (b)(2) from any Exchange facility.

(1) The Exchange may deny, limit or revoke the use of any communication device whenever it determines that use of such communication device: (1) interferes with normal operation of the Exchange's own systems or facilities or with the Exchange's regulatory duties, (2) is inconsistent with the public interest, the protection of investors or just and equitable principles of trade, or (3) interferes with the obligations of a member or member organization to fulfill its duties under, or is used to facilitate any violation of, the Securities Exchange Act or rules thereunder, or Exchange rules.

(2)

(e)(1) *Registration.* Members and member organizations must register, prior to use, any new telephone to be used on the Options Floor. Each phone registered with the Exchange must be registered by category of user. If there is a change in the category of any user, the member or member organization must immediately inform the Exchange in writing on the same day as when the change occurs. At the time of registration, members and member organization representatives

must sign a statement that they are aware of and understand the rules and procedures governing the use of telephones on the Options Floor.

(2) Capacity and Functionality. No person on the Options Floor may use any device for the purpose of maintaining an open line of continuous communication whereby a person not located in the trading crowd may continuously monitor the activities in the trading crowd. This prohibition covers, but is not limited to, intercoms, walkie-talkies and any similar devices, and open mic and web-based communication applications. Speed-dialing features are permitted on any member telephone.

(3) Specialists and Registered Options Traders.

(A) Specialists and Registered Options Traders ("ROT") may use their own cellular and cordless phones to place calls to any person at any location (whether on or off the Options Floor).

(B) ROTs located off the Options Floor may not place an order by calling a Floor Broker who is present in a trading crowd. ROTs located off the Options Floor may not otherwise place an order by calling the Specialist phone in the trading crowd. Any telephonic order entered from off the Options Floor must be placed with a person located in a member organization booth.

(4) Floor Brokers.

(A) Floor Brokers may use cellular and cordless telephones, but only to communicate with persons located on the Options Floor. These telephones may not use a call forwarding or open mic feature on the Options Floor; if a call forwarding or open mic feature is available on the phone then such feature must be disengaged at all times when the phone is on the Options Floor. Headsets are permitted for Floor Brokers, but if the Exchange determines that a Floor Broker is maintaining a continuous open line through the use of a headset, the Floor Broker will be prohibited from future use of any headset for a length of time to be determined by the Exchange.

(B) All orders phoned to Floor Brokers must be received initially at the Floor Broker's booth. Floor Brokers may not receive telephonic orders while in the trading crowd except from their booth. Any telephonic order entered from off the Options Floor must be placed with a person located in a member organization booth.

(5) Clerks.

(A) Floor Broker clerks are subject to the same terms and conditions on telephone use as Floor Brokers.

(B) The Exchange reserves the right to prohibit clerks from using cellular or cordless phones on the floor at any time that it is necessary due to electronic interference problems

or capacity problems resulting from the number of such phones then in use on the Options Floor.

(6) Telephone Records. Members must maintain logs of calls and chats, including their cellular or cordless telephone records and logs of calls placed, for a period of not less than three years, the first two years in an easily accessible place. The Exchange reserves the right to inspect and/or examine such telephone records.

(7) Exchange Liability. The Exchange assumes no liability to members or member organizations due to conflicts between telephones in use on the Options Floor or due to electronic interference problems resulting from the use of telephones on the trading floor.

(f) The Exchange has established a Wireless Telephone System policy. Violations of the Wireless Telephone System policy may result in disciplinary action by the Exchange.

(g) This Rule and any relevant Exchange policy are intended to apply to all communication and other electronic devices on the floor of the Exchange, including, but not limited to, wireless, wired, tethered, voice, and data.

Section 39. Option Minor Rule Violations and Order and Decorum Regulations

A. SPECIALISTS

A-1 Options Floor Based Management System

Options Floor Based Management System. In order to create an electronic audit trail for options orders negotiated by Specialists on the Exchange's Options Floor, a Specialist or such Specialist's employees shall, prior to the negotiation of such an order in the trading crowd, record all options orders negotiated by such Specialist onto the electronic Options Floor Based Management System as described in Options 8, Section 28(e)(1). The following specific information with respect to orders negotiated by a Specialist shall be recorded by such Specialist or such Specialist's employees: (i) the order type (i.e., market maker) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle) or contingency order as described in Options 8, Section 32; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; and (vii) whether the transaction is to open or close a position, as applicable (collectively, the "required information"). A Specialist must enter complete alpha/numeric identification assigned by the Exchange for all orders entered. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System contemporaneously upon receipt, which may occur after the negotiation and execution of the order.

Pursuant to Options 8, Section 22(a) Specialists are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Specialists execute orders in the Exchange's options trading crowd pursuant to Options 8, Section 22(a)(2) (other than for the use of Snapshot, as set forth in Options 8, Section 22(a)(2)(E)), Specialists shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such

trade tickets also shall be time stamped upon the execution of such an order. Specialists or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

Specialists or their employees shall enter the required information (as described above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity, equity index and U.S. dollar-settled foreign currency options. Specialists or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

FBMS is designed to execute orders entered by Specialists, including multi-leg orders up to 15 legs, after negotiation in the trading crowd. When a Specialist submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Specialist in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced by Options Trader Alert, after which it will be returned to the Specialist on the FBMS. The Specialist may resubmit the order for execution, as long as the quotes that comprise the order have not been withdrawn. Specialists are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Rules 1014 and 1084 and Options 8, Section 24.

A Specialist is prohibited from triggering the Snapshot feature for the purpose of obtaining favorable priority or trade-through conditions or avoiding unfavorable priority or trade-through conditions.

A-3 All-or-None Option Orders

An all-or-none option order is a limit order which is to be executed in its entirety, or not at all. Unlike a fill-or-kill order, an all-or-none order is not cancelled if it is not executed as soon as it is represented in the trading crowd. An all-or-none order has no standing respecting executions in the crowd except with respect to other all-or-none orders.

When represented in the crowd, all-or-none orders are not included as part of the bid or offer.

When entered electronically pursuant to Rule 1080 or into Options Floor Based Management System pursuant to Options 8, Sections 28 and 29, an all-or-none order has standing and is eligible for execution in time priority with all other customer orders and all-or-none professional orders (as specified in Rule 1000(b)(14)) at that price if the all-or-none contingency can be met.

B-3 Trading Requirements

(a) An ROT (other than an RSQT or a Remote Specialist) is required to trade in person, and not through the use of orders (except that non-streaming ROTs can use orders entered in person), the greater of 1,000 contracts or 50% of his contract volume on the Exchange each quarter. Also, at least 50% of an ROT's trading activity in each quarter must be in assigned options. No application by an ROT to change options assignments will be approved unless such ROT is in compliance with the above requirements at the time the application for change is made.

FINE SCHEDULE (Implemented on a two-year running calendar basis)

(a)

1. Quarterly requirement to trade the greater of 1,000 contracts or 50% of contract volume in person

<u>1st Occurrence</u>	<u>\$250.00</u>
<u>2nd Occurrence</u>	<u>\$500.00</u>

(b) For any calendar quarter, in addition to the requirements of paragraph (a) above, in order for an ROT (other than an RSQT or a Remote Specialist) to receive Specialist margin treatment for off-floor orders in accordance with Options 8, Section 27(f), the ROT must execute the greater of 1,000 contracts or 80% of his total contracts that quarter in person (not through the use of orders except that non-streaming ROTs can use orders entered in person) and 75% of his total contracts that quarter in assigned options. Violations of this trading requirement are subject to Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement review.

B-4 ROTs Entering Orders from On-Floor and Off-Floor for Execution on the Exchange

An ROT may not enter from off the floor opening orders for his market maker accounts, but may enter from off the floor or on the floor opening orders for his customer account. An ROT may enter from off the floor closing orders for either his market maker or customer account.

However, an ROT who has executed the greater of 1,000 contracts or 80% of his total contracts in a calendar quarter in person and 75% of his total contracts that quarter in assigned options may enter an opening transaction from off the floor for his market maker account if such transaction is for the purpose of hedging, reducing risk of, or rebalancing positions of the ROT. The off-floor orders for which an ROT receives Specialist margin treatment shall be subject to the obligations of Rule 1014(a) and an ROT is responsible for evidencing reliance of these provisions. Violations of this paragraph are subject to Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement review.

An ROT who enters an order from off the floor must advise the person receiving the order that it is an order for an ROT and must state whether the order is opening or closing, for a customer or market maker account, or opening from off-floor pursuant to the previous paragraph.

While on the floor, an ROT may place opening orders for his market maker account with a Floor Broker or with a Specialist which may then be executed even if the ROT has left the floor prior to its execution.

An ROT may cancel from off the floor opening or closing orders for his market maker or customer accounts; but if he wishes to effect a change in the terms of an opening order (e.g., security, price, volume, series, class or contingencies) from off the floor such changed order must be executed in his customer account, except in accordance with the second paragraph of this Advice.

An ROT shall not give discretion to a Floor Broker and shall not give a Floor Broker "not held" orders. With respect to delta orders placed with a Floor Broker for the account of an ROT, such orders may only be placed as day orders and must have the applicable delta legibly recorded on both the broker's floor ticket and the ROT's record of the order.

FINE SCHEDULE (Implemented on a three-year running calendar basis)

<u>1st Occurrence</u>	<u>\$500.00</u>
<u>2nd Occurrence</u>	<u>\$1,000.00</u>
<u>3rd Occurrence</u>	<u>\$2,000.00</u>

B-5 Agency-Principal Restrictions

Except under extraordinary circumstances and with the prior approval of an Options Exchange Official, a member may not act as an ROT and as a Floor Broker during the same trading session in options on the same underlying security. A member has acted as a Floor Broker if he has accepted an order even though such order was not executed. However, an ROT may close out positions held in his customer account in options on the same underlying security while he is acting as an ROT in those options.

FINE SCHEDULE (Implemented on a two-year running calendar basis)

<u>1st Occurrence</u>	<u>\$500.00</u>
<u>2nd Occurrence</u>	<u>\$1,000.00</u>

B-6 Priority of Options Orders for Equity Options, Index Options and U.S. Dollar-Settled Foreign Currency Options by Account Type (EQUITY OPTION, INDEX OPTION AND U.S. DOLLAR-SETTLED FOREIGN CURRENCY OPTION ONLY)

Section A

Exchange Rules 119 and 120 direct members in the establishment of priority of orders on the floor. An account type is either a controlled account or a customer account. A controlled account includes any account controlled by or under common control with a broker-dealer. Customer accounts are all other accounts. Equity option, index option and U.S. dollar-settled foreign currency option orders of controlled accounts are required to yield priority to customer orders when competing at the same price, as described below. Orders of controlled accounts are not required to yield priority to other controlled account orders, except as provided in sub-paragraph (ii) below.

For the purposes of this Advice, "Initiating Order" means an incoming contra-side order.

- (i) Respecting transactions that are executed and allocated in open outcry by a participant other than the Specialist, "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers that are on parity in accordance with this Advice. The Remainder of the Order shall be allocated pursuant to this Advice.
- (ii) An Initiating Order executed manually by the Specialist shall be allocated as follows: first, to customer orders, and next to off-floor broker-dealer limit orders (as defined in Rule 1080(b)(i)(C)) resting on the limit order book. This provision shall not apply to electronically executed contracts, the allocation of which is described in Section F of this Advice. "Remainder of the Order" means the portion of an Initiating Order that remains following the allocation of contracts to customers and to off-floor broker-dealers in accordance with this sub-paragraph (ii).

Section B

Orders of controlled accounts, other than ROTs and Specialists market making in-person, must be

- (1) verbally communicated as for a controlled account when placed on the floor and when represented to the trading crowd and

(2) recorded as for a controlled account by making the appropriate notation in the Options Floor Based Management System.

In any instance where an order is misrepresented in this fashion due to factors which give rise to the concern that it was the result of anything other than an inadvertent error, the Exchange may determine to bypass the fine schedule below and refer the incident to the Phlx Regulation Department, Department of Market Regulation, or Department of Enforcement for possible disciplinary proceedings in accordance with those procedures set forth under the Rule 8000 and 9000 Series.

Section C

The Enhanced Specialist Participation is a percentage of the Remainder of the Order to which the Specialist is entitled.

Enhanced Specialist Participation - In equity option, index option and U.S. dollar-settled foreign currency option classes, when the registered Specialist is on parity with a controlled account, as defined above, in accordance with Exchange Rules 119 and 120 and the number of contracts to be bought or sold is greater than five, the Specialist is entitled to receive an enhanced participation of 30% of the Remainder of the Order ("Enhanced Specialist Participation"), except in the following circumstances:

(1) where there is one controlled account on parity, in which case the Specialist is entitled to receive 60% of the Remainder of the Order; or

(2) where there are two controlled accounts on parity, in which case the Specialist is entitled to receive 40% of the Remainder of the Order.

Section D

Reserved.

Section E

Allocation of the Remainder of the Order Among Specialist and ROTs on Parity. After the application of this Advice to an Initiating Order, the Remainder of the Order shall be allocated by the Allocating Participant (as defined in Options 8, Section 25(c)(4)) as follows:

(A) Entitlement. ROTs and Specialists on parity are entitled to their Defined Participation (as described below), subject to: (1) any Waiver, as described below; and (2) rounding, as described below.

(B) Size. The term "stated size" in respect of an order or electronic quotation shall mean:

(1) in the case of orders handled manually by the Specialist:

(a)(i) if a crowd participant (including the Specialist) has actually stated a size ("Actual Size"), such crowd participant's stated size shall be his or her Actual Size;

(ii) if the Specialist, an SQT or RSQT is disseminating an electronic quotation at the Exchange's disseminated price in a particular series at the time of the execution of an Initiating Order in such series, such Specialist, SQT or RSQT's disseminated size at the Exchange's disseminated price shall be his or her Actual Size, and such Specialist, SQT and/or RSQT shall be deemed a "crowd participant" for purposes of this Advice;

(b) unless the Specialist has an Actual Size, the stated size of the Specialist shall be the amount (if any) by which the disseminated size exceeds the sum of (x) the aggregate size of limit orders included in the disseminated size and (y) the aggregate sizes of all ROTs who have Actual Sizes;

(c) the stated size of an ROT who does not have an Actual Size is zero.

(2) in the case of floor brokered orders, each crowd participant's stated size shall be his or her Actual Size.

(C) *Defined Participation.* Defined Participation is the portion of the Remainder of the Order to which a crowd participant is entitled. Defined Participation is determined as follows:

(1) in the case of a Specialist entitled to an Enhanced Specialist Participation, the Enhanced Specialist Participation, up to the Specialist's stated size, as set forth in C of this Advice, as applicable. The Specialist may decline to receive the Enhanced Specialist Participation, in which case the Specialist shall be entitled to participate as one crowd participant, up to the Specialist's stated size.

(2) except as provided in (1) above, the Defined Participation of the Specialist and ROTs on parity is determined as follows:

(a) where all participants have equal stated sizes, their Defined Participations shall be equal;

(b) where participants have unequal stated sizes, the Defined Participations shall equal their Base Participations (as defined below) plus their Supplemental Participations (as defined below):

(i) the "Base Participations" of all of the participants shall equal the stated size of the smallest participant; to the extent that there remains any excess to be allocated after all participants have been allocated their Base Participations, the smallest participant shall have no Supplemental Participation, and the other participants shall have "Supplemental Participations" as determined under (ii) and (iii) below;

(ii) if the remaining stated sizes (i.e., after taking into account Base Participations) of all participants having Supplemental Participations is equal, then their Supplemental

Participations shall be equal; otherwise the initial Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated their initial Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have further "Supplemental Participations" as determined under (iii) below; and

(iii) if the remaining stated sizes (i.e., after taking into account Base Participations and prior Supplemental Participations) of all participants having further Supplemental Participations is equal, then their further Supplemental Participations shall be equal; otherwise the next Supplemental Participations of such participants shall equal the remaining stated size of the smallest such participant; to the extent that there remains any excess to be allocated after all participants have been allocated the next Supplemental Participations, the smallest participant shall have no further Supplemental Participation, and the other participants shall have successive further Supplemental Participations determined in the same manner as provided in this clause (iii).

The process described in clause (iii) shall be followed to determine successive further Supplemental Participations until the sum of the Defined Participations equals the amount of the Remainder of the Order.

(iv)(a) If the sum of the Base Participations pursuant to sub-paragraph (i) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive Base Participations, subject to rounding.

(b) If the sum of the Supplemental Participations pursuant to sub-paragraph (ii) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive Supplemental Participations, subject to rounding.

(c) If the sum of the further Supplemental Participations pursuant to sub-paragraph (iii) above exceeds the number of contracts remaining to be allocated, such contracts shall be divided equally among crowd participants who are entitled to receive further Supplemental Participations, subject to rounding.

(3) Participation in additional contracts in excess of the Exchange's disseminated size among willing crowd participants shall be allocated under the applicable provisions of this Advice. Notwithstanding the limitation set forth in sub-paragraph (C)(1) that limits the Specialist's entitlement to his/her stated size, for all contracts executed in excess of the disseminated size, the Specialist shall be entitled to receive the Enhanced Specialist Participation as set forth in Section C of this Advice, as applicable, but not to exceed the Specialist's Actual Size (if the Specialist has an Actual Size) in such excess contracts.

(D) Waiver. (1) Any ROT (other than an RSQT) or Specialist may, in his or her sole discretion, offer to waive, in whole or in part, any part of a trade to which they were entitled to be allocated (an "Offer to Waive").

(a) Any Offer to Waive shall be made by stating it in a loud and audible voice to the other members of the trading crowd and the Allocating Participant.

(b) If the Allocating Participant has determined that the other crowd participant(s) then on parity is willing to take the number of contracts that are subject to the Offer to Waive, the Allocating Participant may (but shall not be required to), accept such Offer to Waive by (i) allocating the Remainder of the Order in accordance with this Advice, taking into account the Offer to Waive; or (ii) otherwise indicating, following the execution of the Remainder of the Order, that such Offer to Waive will be accepted (in which case, it shall be referred to as a "Waiver"). No Offer to Waive shall be an effective Waiver until the Allocating Participant has allocated the order or otherwise indicated that it is accepted.

(c) (i) In the case of an option which is not subject to an Enhanced Specialist Participation, as set forth in Section C of this Advice, if the Specialist or an ROT effects a Waiver in the manner provided above, the number of contracts to which such Specialist or ROT is entitled under this Advice shall be reduced by the number of contracts waived, and the entitlements of the other participants on parity shall be determined by redistributing the waived number of contracts to willing participants (including the Specialist) in accordance with this Advice.

(ii) In the case of an option which is subject to an Enhanced Specialist Participation, as set forth in Section C of this Advice, and one or more ROTs effect Waivers of their entire entitlements ("Total Waivers"), the number of ROTs with whom the Specialist is deemed to be on parity for purposes of determining the Enhanced Specialist Participation shall be reduced by the number of ROTs effecting Total Waivers and the following additional Rules shall apply:

(A) in the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with three or more ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Advice, as if the Specialist had been on parity with three ROTs.

(B) in the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with two ROTs, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Advice as if the Specialist had been on parity with two ROTs.

(C) In the event that one or more ROTs on parity with the Specialist effect a Total Waiver of their respective entitlements such that the Specialist is on parity with one ROT, the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the maximum number of contracts to be allocated to the Specialist shall be that which the Specialist would be entitled to receive under this Advice as if the Specialist had been on parity with one ROT. In no event shall any non-waiving ROT be required to participate in fewer contracts than he/she would have received absent the Waiver(s).

(iii) Partial Waiver. In the case of an option which is subject to an Enhanced Specialist Participation, in the event that one or more ROTs effect a Waiver of a portion of their respective entitlements, but not a Total Waiver, in the manner provided above (a "Partial Waiver"), the number of contracts to be allocated to each crowd participant shall be determined as provided in sub-paragraph (c)(i) above, provided that the Specialist shall not be entitled to receive a number of contracts that is greater than 40% of the Remainder of the Order except in the situation referred to in the following sentence, unless all remaining crowd participants on parity have waived their entitlements or have been satisfied. In the case of the Specialist being on parity with only one ROT, the Specialist shall not be entitled to receive a number of contracts that is greater than 60% of the Remainder of the Order unless all remaining crowd participants on parity have waived their entitlements or have been satisfied.

In no event shall any non-waiving ROT be required to participate in fewer contracts than he/she would have received absent the Partial Waiver(s).

(iv) In no event shall two or more crowd participants enter into any agreement regarding the number of contracts to be waived by any crowd participant (i.e., subject to the provisions of sub-paragraph (D)(1)(b) above, any decision by a crowd participant to waive all or a portion of such crowd participant's entitlement must be an individual decision, and not the subject of an agreement among crowd participants).

(E) Rounding. In situations where the allocation of contracts pursuant to this Rule result in fractional amounts of contracts to be allocated to crowd participants, the number of contracts to be allocated shall be rounded in a fair and equitable manner.

(F) Just and Equitable Principles of Trade. (1) It shall be considered conduct inconsistent with just and equitable principles of trade for a member:

(a) to allocate initiating orders other than in accordance with this Advice;

(b) to enter into any agreement with another member concerning allocation of trades; or (c) to harass, intimidate or coerce any member to enter into any Waiver, or to make or refrain from making any complaint or appeal.

(2) A pattern or practice of waiving all or a portion of a crowd participant's entitlement, with the result that such crowd participant receives no allocation or a lesser allocation than he or she

would otherwise have been entitled to, may be considered conduct inconsistent with just and equitable principles of trade.

(G) Notwithstanding the first sentence of this Advice, neither Rule 119(b) and (c) concerning precedence based on the size of bids on parity, nor Rule 120 (insofar as it incorporates those provisions by reference) shall apply to the allocation of orders covered by this Advice.

Section F

Allocation of Automatically Executed Trades. After public customer market and marketable limit orders have been executed, trades automatically executed in such options shall be allocated among the Specialist and crowd participants with orders or quotations at the Exchange's disseminated price in the following manner:

(i) If the Specialist or any crowd participant is quoting alone at the disseminated price and their quote is not matched by another market participant prior to execution, such Specialist or crowd participant shall be entitled to receive a number of contracts up to the size associated with his/her quotation.

(ii) *Parity.* Quotations entered electronically by the Specialist or an SQT that do not cause an order resting on the limit order book to become due for execution may be matched at any time by quotations entered electronically by the Specialist and/or other SQTs, and by ROT limit orders entered and shall be deemed to be on parity, subject to the requirement that orders of controlled accounts must yield priority to customer orders as set forth in Options 8, Section 25(c)(1)(A).

(A) if the Specialist is quoting at the Exchange's disseminated price:

(1) orders for 5 contracts or fewer shall be allocated first to the Specialist, provided, however, that on a quarterly basis, the Exchange will evaluate what percentage of the volume executed on the Exchange is comprised of orders for 5 contracts or fewer allocated to Specialists, and will reduce the size of the orders included in this provision if such percentage is over 25%. In order to be entitled to receive the 5 contract or fewer order preference set forth in this sub-paragraph (ii)(A)(1), the Specialist must be quoting at the Exchange's disseminated price, and shall not be entitled to receive a number of contracts that is greater than the size that is associated with its quote.

(2) Respecting orders for greater than 5 contracts, the Specialist shall be entitled to receive a number of contracts that is the greater of: (i) the proportion of the aggregate size associated with the Specialist's quote, SQT quotes, and non-SQT ROT limit orders entered on the book at the disseminated price represented by the size of the Specialist's quote, or (ii) 60% of the contracts to be allocated if the Specialist is on parity with one SQT or one non-SQT ROT that has placed a limit order on the book at the Exchange's disseminated price; (iii) 40% of the contracts to be allocated if the Specialist is on parity with two SQTs or non-SQT ROTs that have placed a limit order on the book at the Exchange's disseminated price; and (iv) 30% of the contracts to be allocated if the

Specialist is on parity with three or more SQTs or non-SQT ROTs that have placed a limit order on the book at the Exchange's disseminated price. In order to be entitled to receive the number of contracts set forth in this sub-paragraph (ii)(A)(2), the Specialist must be quoting at the Exchange's disseminated price, and shall not be entitled to receive a number of contracts that is greater than the size that is associated with its quote.

(3) Thereafter, SQTs quoting at the disseminated price and non-SQT ROTs that have placed limit orders on the limit order book at the Exchange's disseminated price shall be entitled to receive a number of contracts that is the proportion of the total remaining aggregate size associated with SQT quotes and non-SQT ROT limit orders on the book at the disseminated price represented by the size of the SQT's quote or, in the case of a non-SQT ROT, by the size of the limit order they have placed on the limit order book. Such SQT(s) and non-SQT ROTs shall not be entitled to receive a number of contracts that is greater than the size associated with their quotation or limit order.

(4) If any contracts remain to be allocated after the Specialist, SQTs and non-SQT ROTs with limit orders on the limit order book have received their respective allocations, off-floor broker-dealers (as defined in Rule 1080(b)(i)(C)) that have placed limit orders on the limit order book which represent the Exchange's disseminated price shall be entitled to receive a number of contracts that is the proportion of the aggregate size associated with off-floor broker-dealer limit orders on the limit order book at the disseminated price represented by the size of the limit order they have placed on the limit order book. Such off-floor broker-dealers shall not be entitled to receive a number of contracts that is greater than the size that is associated with each such limit order.

(B) If the Specialist is not quoting at the Exchange's disseminated price, SQTs quoting at the disseminated price and non-SQT ROTs that have placed limit orders on the limit order book which represent the Exchange's disseminated price shall be entitled to receive a number of contracts equal to the proportion of the aggregate size associated with SQT quotes and non-SQT ROT limit orders on the book at the disseminated price represented by the size of the SQT's quote or, in the case of a non-SQT ROT, by the size of the limit order they have placed on the limit order book. Thereafter, off-floor broker-dealers that have placed limit orders on the limit order book which represent the Exchange's disseminated price shall be entitled to receive a number of contracts as specified in paragraph (ii)(A)(4) above.

(iii) Notwithstanding the first sentence of Options 8, Section 25(c)(1) neither Rule 119(a)-(d) and Options 8, Section 23(f), nor Rule 120 (insofar as it incorporates those provisions by reference) shall apply to the allocation of automatically executed trades.

Options Floor Based Management System. In order to create an electronic audit trail for options orders negotiated by Registered Options Traders on the Exchange's Options Floor, a Registered Options Trader or such Registered Options Trader's employees shall, prior to the negotiation of such an order in the trading crowd, record all options orders negotiated by such Registered Options Trader onto the electronic Options Floor Based Management System as described in Options 8, Section 28(e)(1). The following specific information with respect to orders negotiated by a Registered Options Trader shall be recorded by such Registered Options Trader or such Registered Options Trader's employees: (i) the order type (i.e., market maker) and order receipt time; (ii) the option symbol; (iii) buy, sell, cross or cancel; (iv) call, put, complex (i.e., spread, straddle) or contingency order as described in Options 8, Section 32; (v) number of contracts; (vi) limit price or market order or, in the case of a multi-leg order, net debit or credit, if applicable; and (vii) whether the transaction is to open or close a position, as applicable (collectively, the "required information"). A Registered Options Trader must enter complete alpha/numeric identification assigned by the Exchange for all orders entered. Any additional information with respect to the order shall be inputted into the Options Floor Based Management System contemporaneously upon receipt, which may occur after the negotiation and execution of the order.

Pursuant to Rule 1000(f), Registered Options Traders are not permitted to execute orders in the Exchange's options trading crowd (subject to certain exceptions). In the event that Registered Options Traders execute orders in the Exchange's options trading crowd pursuant to Rule Options 8, Section 22(a) (other than for the use of Snapshot, as set forth in Options 8, Section 22(a)(2)(E)), Registered Options Traders shall record the required information on trade tickets, and shall not negotiate an order for execution which has not been time stamped with the time of entry on the trading floor. Such trade tickets also shall be time stamped upon the execution of such an order. Registered Options Traders or their employees shall ensure the required information that is recorded on such trade tickets is entered into the Exchange's electronic trading system by DETs for inclusion in the electronic audit trail.

Registered Options Traders or their employees shall enter the required information (as described above) for FLEX options, or ensure that such information is entered, into the Exchange's electronic audit trail in the same electronic format as the required information for equity, equity index and U.S. dollar-settled foreign currency options. Registered Options Traders or their employees shall enter the required information for FLEX options into the electronic audit trail on the same business day that a specific event surrounding the lifecycle of an order in FLEX options (including, without limitation, orders, price or size changes, execution or cancellation) occurs.

FBMS is designed to execute orders entered by Registered Options Traders, including multi-leg orders up to 15 legs, after negotiation in the trading crowd. When a Registered Options Trader submits an order for execution through FBMS, the order will be executed based on market conditions at the time of execution and in accordance with Exchange rules. FBMS execution functionality will assist the Registered Options Trader in clearing the Exchange book, consistent with Exchange priority rules. If the order cannot be executed, the System will attempt to execute the order a number of times for a period of no more than one second, which period shall be established by the Exchange and announced by Options Trader Alert, after which it will be returned to the Registered Options Trader on the FBMS. The Registered Options Trader may resubmit the order for execution, as long as the quotes that comprise the order have not been withdrawn. Registered Options Traders are responsible for handling all FBMS orders in accordance with Exchange priority and trade-through rules, including Rules 1014, Option 8, Section 24 and 1084.

A Registered Options Trader is prohibited from triggering the Snapshot feature for the purpose of obtaining favorable priority or trade-through conditions or avoiding unfavorable priority or trade-through conditions.

E-2 Allocation, Time Stamping, Matching and Access to Matched Trades

(a) In order to facilitate timely tape reporting of trades, it is the duty of the persons identified below to allocate, match and time stamp trades executed in open outcry and to submit the matched trade tickets to an Exchange Data Entry Technician ("DET") located on the trading floor immediately upon execution. When executing trades electronically, it is also the duty of the persons identified below to enter and submit trade information to the Trading System using the Options Floor Based Management System. Trades executed electronically via the System and through the Options Floor Based Management System are automatically trade reported without further action required by executing parties:

(i) in a trade involving a Floor Broker, the Floor Broker shall do so, provided that a Floor Broker may delegate this responsibility to the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) if the Specialist agrees to accept such responsibility, and, in the event of such delegation, the Specialist (or an assistant to the Specialist under the Specialist's direct supervision) shall do so:

The person responsible for trade allocation (the "Allocation Participant") shall, for each trade allocated by such Allocating Participant, circle his or her badge identification number on the trade tickets, identifying himself or herself as the Allocating Participant in the particular trade. If the Allocating Participant is not a participant in the trade to be allocated, he/she shall identify himself/herself/ by initialing the trade tickets. In the case of a trade, executed using the Floor Based Management System, such member shall allocate the trade using the Options Floor Based Management System.

(b) A member or member organization initiating an options transaction, whether acting as principal or agent, must report or ensure that the transaction is reported within 90 seconds of the execution to the tape. Transactions not reported within 90 seconds after execution shall be designated as late. A pattern or practice of late reporting without exceptional circumstances may be considered conduct inconsistent with just and equitable principles of trade.

(c) Execution times must be recorded on the reverse side of one or more of the tickets to a matched trade.

(d) Once a trade has been matched and submitted to a DET located on the trading floor for reporting, the respective parties to the trade must preserve the matched tickets, or copies thereof, for a period of not less than three years.

(e) Member access to tickets comprising a matched trade is available to any participant of that trade, as well as the respective Specialist and any Options Exchange Official acting in his capacity as an Options Exchange Official. Options 8, Section 24(d), also requires the participant to ensure that at least one leg of the order is executed at a better price than the established bid/offer for that option and that no leg is executed at a price outside of the established bid/offer for that option.

Options 8, Section 24(g) governing ration spread type orders in foreign currency options permits the size of the respective legs of such orders to be either equal in size or related by a permissible ratio (two-to-one, three-to-one, and three-to-two). In combining spread type orders to create a multi-spread transaction, each individual spread must meet the execution requirements of Options 8, Section 24(h) at least one leg of each spread must be executed at a price better than the established bid/offer for that option and no leg of any spread may be executed at a price outside of the established market for that option.

Customer interest includes institutional (Firm), corporate or customer interest expressed directly to the Exchange or through the customer's Floor Brokerage unit, but not interest expressed by an ROT with respect to trading for the ROT's own account. Only strike prices which are consistent with the provision in Rules 1012 and 1101A imposing a "reasonably related" standard for listing additional strike prices may be added intra-day pursuant to this Advice.

In each instance where such approval has been granted, prior written disclosure of each strike price to be added shall be disseminated to the trading floor and electronically to the options members. No trading may occur in any such series until such dissemination has taken place.
