The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) Nasdaq PHLX LLC (“Phlx” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend Rule 3101(b) concerning the resumption of trading following a Level 3 market-wide circuit breaker halt.

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange (the “Board”) on September 26, 2018. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

Questions and comments on the proposed rule change may be directed to:

² 17 CFR 240.19b-4.

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The Exchange proposes to amend Rule 3101(b) concerning the resumption of trading following a Level 3 market-wide circuit breaker halt. The Exchange is proposing this rule change in conjunction with other national securities exchanges and the Financial Industry Regulatory Authority (“FINRA”).

Rule 3101 provides a methodology for determining when to halt trading in all stocks due to extraordinary market volatility (i.e., market-wide circuit breakers). The market-wide circuit breaker (“MWCB”) mechanism under Rule 3101 was approved by the Commission to operate on a pilot basis, the term of which was to coincide with the pilot period for the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS (the “LULD Plan”),³ including any extensions to the pilot period for the LULD Plan.⁴ The Commission recently approved an amendment to the LULD Plan for it to operate on a permanent, rather than pilot, basis.⁵ In light of the proposal to make the LULD Plan permanent, the Exchange amended Rule 133 to untie the pilot’s effectiveness from that of the LULD Plan and to extend the pilot’s effectiveness to the

³ See Securities Exchange Act Release No. 67091 (May 31, 2012), 77 FR 33498 (June 6, 2012). The LULD Plan provides a mechanism to address extraordinary market volatility in individual securities.

⁴ See Securities Exchange Act Release Nos. 67090 (May 31, 2012), 77 FR 33531 (June 6, 2012) (SR-Phlx-2011-129) (Approval Order); and 68816 (February 1, 2013), 78 FR 9760 (February 11, 2013) (SR-Phlx-2013-11) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Delay the Operative Date of a Rule Change to Exchange Rule 133).

⁵ See Securities Exchange Act Release No. 85623 (April 11, 2019), 84 FR 16086 (April 17, 2019).

close of business on October 18, 2019.⁶ The Exchange then filed to extend the pilot for an additional year to the close of business on October 18, 2020.⁷

The market-wide circuit breaker under Rule 3101 provides an important, automatic mechanism that is invoked to promote stability and investor confidence during a period of significant stress when securities markets experience extreme broad-based declines. All U.S. equity exchanges and FINRA adopted uniform rules on a pilot basis relating to market-wide circuit breakers in 2012 (“MWCB Rules”), which are designed to slow the effects of extreme price movement through coordinated trading halts across securities markets when severe price declines reach levels that may exhaust market liquidity.⁸ Market-wide circuit breakers provide for trading halts in all equities and options markets during a severe market decline as measured by a single-day decline in the S&P 500 Index.

Pursuant to Rule 3101, a market-wide trading halt will be triggered if the S&P 500 Index declines in price by specified percentages from the prior day’s closing price of that index. Currently, the triggers are set at three circuit breaker thresholds: 7% (Level 1), 13% (Level 2), and 20% (Level 3). A market decline that triggers a Level 1 or Level

⁶ See Securities Exchange Act Release No. 85579 (April 9, 2019), 84 FR 15258 (April 15, 2019) (SR-Phlx-2019-12).

⁷ See Securities Exchange Act Release No. 87206 (October 3, 2019), 84 FR 54234 (October 9, 2019) (SR-Phlx-2019-40).

⁸ See Securities Exchange Act Release No. 67090 (May 31, 2012), 77 FR 33531 (June 6, 2012) (SR-BATS-2011-038; SR-BYX-2011-025; SR-BX-2011-068; SR-CBOE-2011-087; SR-C2-2011-024; SR-CHX-2011-30; SR-EDGA-2011-31; SR-EDGX-2011-30; SR-FINRA-2011-054; SR-ISE-2011-61; SR-NASDAQ-2011-131; SR-NSX-2011-11; SR-NYSE-2011-48; SR-NYSEAmex-2011-73; SR-NYSEArca-2011-68; SR-Phlx-2011-129) (“MWCB Approval Order”).

2 halt after 9:30 a.m. ET and before 3:25 p.m. ET would halt market-wide trading for 15 minutes, while a similar market decline at or after 3:25 p.m. ET would not halt market-wide trading. A market decline that triggers a Level 3 halt, at any time during the trading day, would halt market-wide trading until the primary listing market opens the next trading day.

Today, in the event that a Level 3 market decline occurs, the Exchange would halt trading for the remainder of the trading day, and would not resume until the primary listing market opens the next trading day, which time may currently vary depending on the primary listing market. For example, if the primary listing market is the New York Stock Exchange (“NYSE”), NYSE would resume trading in its listed securities at 9:30 a.m. Eastern Time (“ET”), and the Exchange would not be able to resume trading during its Pre-Market Session.⁹ Alternatively, if the primary listing market is the Nasdaq Stock Market LLC (“Nasdaq”), Nasdaq would resume trading in its listed securities at 4:00 a.m. ET on the next trading day, and therefore, the Exchange could resume trading at the commencement of its Pre-Market Session.¹⁰

Upon feedback from industry participants, the Exchange has been working with other national securities exchanges and FINRA to establish a standardized approach for resuming trading in all NMS Stocks following a Level 3 halt. The proposed approach would allow for the opening of all securities the next trading day after a Level 3 halt as a

⁹ Pre-Market Session means the trading session that begins at 8:00 a.m. and continues until 9:30 a.m. See Rule 3100(b)(2).

¹⁰ The Exchange’s system is opened for order entry and processing at 8:00 a.m. See Rule 3302 for further description of trading in the Pre-Market Session.

regular trading day, and is designed to ensure that Level 3 MWCB events are handled in a more consistent manner that is transparent for market participants.¹¹

As proposed, a Level 3 halt would end at the end of the trading day on which it is declared. This proposed change would allow for next-day trading to resume in all NMS Stocks no differently from any other trading day. In other words, an exchange could resume trading in any security when it first begins trading under its rules and would not need to wait for the primary listing market to re-open trading in a security before it could start trading such security.¹² Accordingly, under the proposal, the Exchange could begin trading all securities at the beginning of the Exchange's Pre-Market Session.

To effect this change, the Exchange proposes to delete the language in Rule 3101(b)(ii) requiring the Exchange to wait until the primary listing exchange opens the next trading day following a Level 3 market decline, and specify that the Exchange will halt trading for the remainder of the trading day.¹³ The proposed rule change would therefore allow each exchange to resume trading in all securities the next trading day following a Level 3 halt at whatever time such exchange normally begins trading under

¹¹ Of note, the U.S. futures markets, which have similar rules for coordinated MWCB halts, normally begin their "next day" trading session at 6:00 p.m. ET (for CFE and CME) or at 8:00 p.m. ET (for ICE). If the U.S. futures markets amend their MWCB rules, as needed, to allow for normal course trading following a Level 3 halt, the futures markets would resume trading in their normal course at 6:00 p.m. ET (CFE and CME) or 8:00 p.m. ET (ICE) the same day as the Level 3 halt.

¹² The Exchange anticipates that the other national securities exchanges and FINRA will also file similar proposals to amend their MWCB rules on the resumption of trading following Level 3 halts, and amend their rules, where required, to have their Level 3 next-day openings happen normally.

¹³ Presently, the Exchange's equities trading day ends at 5:00 p.m. ET. See Rule 3301(g).

its rules, which for the Exchange would be at the beginning of the Pre-Market Session at 8:00 a.m. ET under its current rules. The Exchange also expects that the primary listing exchanges will facilitate this change by sending resume messages to the applicable securities information processor (“SIP”) to lift the Level 3 trading halt message in all securities. The resumption messages will be disseminated after the SIP has started on the next trading day and before the start of the earliest pre-market trading session of all exchanges. If a security is separately subject to a regulatory halt that has not ended, the primary listing exchange would replace the Level 3 halt message with the applicable regulatory halt message.

Having a consistent approach for all securities will make the opening process the day after a Level 3 halt more uniform and reduce complexity, which the Exchange believes is important after a significant market event. Based on industry feedback, the Exchange believes that opening in the normal course in all equity securities will be beneficial to the marketplace. By allowing trading to resume after a Level 3 halt in all securities no differently from any normal trading day under the respective rules of each exchange, the proposed rule change would provide greater certainty to the marketplace by ensuring a familiar experience for all market participants that trade NMS Stocks and balances out potential concerns around volatility. While the Exchange recognizes that the impact of this proposal is to permit all securities to be traded in the Pre-Market Session, which does not have certain price protections for volatility such as LULD Bands or MWCB protections, the Exchange nonetheless believes that this outcome is outweighed by the benefits provided by opening in the Pre-Market Session in a manner that is more familiar to the marketplace. Moreover, allowing the resumption of trading to

occur on the Exchange at the beginning of the Pre-Market Session in all NMS Stocks will allow for price formation to occur earlier in the trading day, which in turn allows market participants to react to news that has developed. As such, trading at the beginning of regular hours may be more orderly.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁴ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁵ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The market-wide circuit breaker mechanism under Rule 3101 is an important, automatic mechanism that is invoked to promote stability and investor confidence during a period of significant stress when securities markets experience extreme broad-based declines. The Exchange believes that the proposed rule change promotes just and equitable principles of trade in that it promotes transparency and uniformity across markets concerning when and how to halt trading in all stocks as a result of extraordinary market volatility, and how the markets will resume trading following a Level 3 market decline. As described above, the Exchange, together with other national securities exchanges and FINRA, is seeking to adopt a standardized approach related to resuming trading in NMS Stocks after a Level 3 MWCB halt. In this regard, the Exchange believes that the proposal to resume trading in all securities following a Level 3 halt in the same manner that securities would open

¹⁴ 15 U.S.C. 78f(b).

¹⁵ 15 U.S.C. 78f(b)(5).

trading on a regular trading day (i.e., the beginning of the Pre-Market Session at 8 a.m. ET on the Exchange) will benefit investors, the national market system, Exchange members, and the Exchange market by promoting a fair and orderly market and reducing confusion during a significant cross-market event. By allowing trading to resume after a Level 3 halt in all securities no differently from any normal trading day under the respective rules of each exchange, the proposed rule change would provide greater certainty to the marketplace by ensuring a familiar experience for all market participants that trade NMS Stocks. Based on the foregoing, the Exchange believes the benefits to market participants from the MWCB under Rule 3101 with the proposed standardized process for resuming trading in all securities following a Level 3 halt will promote fair and orderly markets, and protect investors and the public interest.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act because the proposed Level 3 rule change described above would standardize the opening process for all securities on the Exchange, which would make the opening process the day after a Level 3 halt more uniform and reduce complexity. Further, the Exchange understands that FINRA and other national securities exchanges will file similar proposals to adopt the proposed Level 3 rule change.¹⁶

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

¹⁶ See, e.g., Securities Exchange Act Release No. 88360 (March 11, 2020), 85 FR 15240 (March 17, 2020) (SR-NASDAQ-2020-003) ("Nasdaq Proposal").

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)¹⁷ of the Act and Rule 19b-4(f)(6) thereunder¹⁸ in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The market-wide circuit breaker mechanism under Rule 3101 is an important, automatic mechanism that is invoked to promote stability and investor confidence during a period of significant stress when securities markets experience extreme broad-based declines. This proposed rule change will not significantly affect the protection of investors or the public interest because the rule is designed to standardize the opening process for all securities on the Exchange, which would make the opening process after a Level 3 halt more uniform and reduce complexity. The proposed rule change is materially identical to the current implementation on Nasdaq.¹⁹ The proposed rule change will also not impose any significant burden on competition because the Exchange

¹⁷ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁸ 17 CFR 240.19b-4(f)(6).

¹⁹ See supra note 16.

expects other national securities exchanges will file similar proposals to adopt the proposed Level 3 rule change, thereby ensuring consistency across market centers without implicating any competitive issues.

Furthermore, Rule 19b-4(f)(6)(iii)²⁰ requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange respectfully requests that the Commission waive the five business day notice of the Exchange's intent to file this proposed rule change.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange respectfully requests that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) so that the proposed rule change may become effective and operative upon filing with the Commission pursuant to Section 19(b)(3)(A)(iii) of the Act and Rule 19b-4(f)(6) thereunder. Waiver of the operative delay would allow the Exchange to immediately standardize the opening process for all securities on the Exchange in the same manner as

²⁰ 17 CFR 240.19b-4(f)(6)(iii).

the Nasdaq Proposal, which would make the opening process the day after a Level 3 halt more uniform and reduce complexity, and is therefore consistent with the protection of investors and the public interest.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

The proposed rule change is based on the Nasdaq Proposal.²¹

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION
(Release No. _____ ; File No. SR-Phlx-2020-11)

March __, 2020

Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Rule 3101(b)

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on March 19, 2020, Nasdaq PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 3101(b) concerning the resumption of trading following a Level 3 market-wide circuit breaker halt

The text of the proposed rule change is available on the Exchange’s Website at <http://nasdaqphlx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 3101(b) concerning the resumption of trading following a Level 3 market-wide circuit breaker halt. The Exchange is proposing this rule change in conjunction with other national securities exchanges and the Financial Industry Regulatory Authority ("FINRA").

Rule 3101 provides a methodology for determining when to halt trading in all stocks due to extraordinary market volatility (i.e., market-wide circuit breakers). The market-wide circuit breaker ("MWCB") mechanism under Rule 3101 was approved by the Commission to operate on a pilot basis, the term of which was to coincide with the pilot period for the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS (the "LULD Plan"),³ including any extensions to the pilot period for the LULD Plan.⁴ The Commission recently approved an amendment to the LULD Plan for it to operate on a permanent, rather than pilot, basis.⁵ In light of the proposal to make

³ See Securities Exchange Act Release No. 67091 (May 31, 2012), 77 FR 33498 (June 6, 2012). The LULD Plan provides a mechanism to address extraordinary market volatility in individual securities.

⁴ See Securities Exchange Act Release Nos. 67090 (May 31, 2012), 77 FR 33531 (June 6, 2012) (SR-Phlx-2011-129) (Approval Order); and 68816 (February 1, 2013), 78 FR 9760 (February 11, 2013) (SR-Phlx-2013-11) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Delay the Operative Date of a Rule Change to Exchange Rule 133).

the LULD Plan permanent, the Exchange amended Rule 133 to untie the pilot's effectiveness from that of the LULD Plan and to extend the pilot's effectiveness to the close of business on October 18, 2019.⁶ The Exchange then filed to extend the pilot for an additional year to the close of business on October 18, 2020.⁷

The market-wide circuit breaker under Rule 3101 provides an important, automatic mechanism that is invoked to promote stability and investor confidence during a period of significant stress when securities markets experience extreme broad-based declines. All U.S. equity exchanges and FINRA adopted uniform rules on a pilot basis relating to market-wide circuit breakers in 2012 ("MWCB Rules"), which are designed to slow the effects of extreme price movement through coordinated trading halts across securities markets when severe price declines reach levels that may exhaust market liquidity.⁸ Market-wide circuit breakers provide for trading halts in all equities and options markets during a severe market decline as measured by a single-day decline in the S&P 500 Index.

⁵ See Securities Exchange Act Release No. 85623 (April 11, 2019), 84 FR 16086 (April 17, 2019).

⁶ See Securities Exchange Act Release No. 85579 (April 9, 2019), 84 FR 15258 (April 15, 2019) (SR-Phlx-2019-12).

⁷ See Securities Exchange Act Release No. 87206 (October 3, 2019), 84 FR 54234 (October 9, 2019) (SR-Phlx-2019-40).

⁸ See Securities Exchange Act Release No. 67090 (May 31, 2012), 77 FR 33531 (June 6, 2012) (SR-BATS-2011-038; SR-BYX-2011-025; SR-BX-2011-068; SR-CBOE-2011-087; SR-C2-2011-024; SR-CHX-2011-30; SR-EDGA-2011-31; SR-EDGX-2011-30; SR-FINRA-2011-054; SR-ISE-2011-61; SR-NASDAQ-2011-131; SR-NSX-2011-11; SR-NYSE-2011-48; SR-NYSEAmex-2011-73; SR-NYSEArca-2011-68; SR-Phlx-2011-129) ("MWCB Approval Order").

Pursuant to Rule 3101, a market-wide trading halt will be triggered if the S&P 500 Index declines in price by specified percentages from the prior day's closing price of that index. Currently, the triggers are set at three circuit breaker thresholds: 7% (Level 1), 13% (Level 2), and 20% (Level 3). A market decline that triggers a Level 1 or Level 2 halt after 9:30 a.m. ET and before 3:25 p.m. ET would halt market-wide trading for 15 minutes, while a similar market decline at or after 3:25 p.m. ET would not halt market-wide trading. A market decline that triggers a Level 3 halt, at any time during the trading day, would halt market-wide trading until the primary listing market opens the next trading day.

Today, in the event that a Level 3 market decline occurs, the Exchange would halt trading for the remainder of the trading day, and would not resume until the primary listing market opens the next trading day, which time may currently vary depending on the primary listing market. For example, if the primary listing market is the New York Stock Exchange ("NYSE"), NYSE would resume trading in its listed securities at 9:30 a.m. Eastern Time ("ET"), and the Exchange would not be able to resume trading during its Pre-Market Session.⁹ Alternatively, if the primary listing market is the Nasdaq Stock Market LLC ("Nasdaq"), Nasdaq would resume trading in its listed securities at 4:00 a.m. ET on the next trading day, and therefore, the Exchange could resume trading at the commencement of its Pre-Market Session.¹⁰

⁹ Pre-Market Session means the trading session that begins at 8:00 a.m. and continues until 9:30 a.m. See Rule 3100(b)(2).

¹⁰ The Exchange's system is opened for order entry and processing at 8:00 a.m. See Rule 3302 for further description of trading in the Pre-Market Session.

Upon feedback from industry participants, the Exchange has been working with other national securities exchanges and FINRA to establish a standardized approach for resuming trading in all NMS Stocks following a Level 3 halt. The proposed approach would allow for the opening of all securities the next trading day after a Level 3 halt as a regular trading day, and is designed to ensure that Level 3 MWCB events are handled in a more consistent manner that is transparent for market participants.¹¹

As proposed, a Level 3 halt would end at the end of the trading day on which it is declared. This proposed change would allow for next-day trading to resume in all NMS Stocks no differently from any other trading day. In other words, an exchange could resume trading in any security when it first begins trading under its rules and would not need to wait for the primary listing market to re-open trading in a security before it could start trading such security.¹² Accordingly, under the proposal, the Exchange could begin trading all securities at the beginning of the Exchange's Pre-Market Session.

To effect this change, the Exchange proposes to delete the language in Rule 3101(b)(ii) requiring the Exchange to wait until the primary listing exchange opens the next trading day following a Level 3 market decline, and specify that the Exchange will

¹¹ Of note, the U.S. futures markets, which have similar rules for coordinated MWCB halts, normally begin their "next day" trading session at 6:00 p.m. ET (for CFE and CME) or at 8:00 p.m. ET (for ICE). If the U.S. futures markets amend their MWCB rules, as needed, to allow for normal course trading following a Level 3 halt, the futures markets would resume trading in their normal course at 6:00 p.m. ET (CFE and CME) or 8:00 p.m. ET (ICE) the same day as the Level 3 halt.

¹² The Exchange anticipates that the other national securities exchanges and FINRA will also file similar proposals to amend their MWCB rules on the resumption of trading following Level 3 halts, and amend their rules, where required, to have their Level 3 next-day openings happen normally.

halt trading for the remainder of the trading day.¹³ The proposed rule change would therefore allow each exchange to resume trading in all securities the next trading day following a Level 3 halt at whatever time such exchange normally begins trading under its rules, which for the Exchange would be at the beginning of the Pre-Market Session at 8:00 a.m. ET under its current rules. The Exchange also expects that the primary listing exchanges will facilitate this change by sending resume messages to the applicable securities information processor (“SIP”) to lift the Level 3 trading halt message in all securities. The resumption messages will be disseminated after the SIP has started on the next trading day and before the start of the earliest pre-market trading session of all exchanges. If a security is separately subject to a regulatory halt that has not ended, the primary listing exchange would replace the Level 3 halt message with the applicable regulatory halt message.

Having a consistent approach for all securities will make the opening process the day after a Level 3 halt more uniform and reduce complexity, which the Exchange believes is important after a significant market event. Based on industry feedback, the Exchange believes that opening in the normal course in all equity securities will be beneficial to the marketplace. By allowing trading to resume after a Level 3 halt in all securities no differently from any normal trading day under the respective rules of each exchange, the proposed rule change would provide greater certainty to the marketplace by ensuring a familiar experience for all market participants that trade NMS Stocks and balances out potential concerns around volatility. While the Exchange recognizes that the impact of this proposal is to permit all securities to be traded in the Pre-Market

¹³ Presently, the Exchange’s equities trading day ends at 5:00 p.m. ET. See Rule 3301(g).

Session, which does not have certain price protections for volatility such as LULD Bands or MWCB protections, the Exchange nonetheless believes that this outcome is outweighed by the benefits provided by opening in the Pre-Market Session in a manner that is more familiar to the marketplace. Moreover, allowing the resumption of trading to occur on the Exchange at the beginning of the Pre-Market Session in all NMS Stocks will allow for price formation to occur earlier in the trading day, which in turn allows market participants to react to news that has developed. As such, trading at the beginning of regular hours may be more orderly.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁴ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁵ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The market-wide circuit breaker mechanism under Rule 3101 is an important, automatic mechanism that is invoked to promote stability and investor confidence during a period of significant stress when securities markets experience extreme broad-based declines. The Exchange believes that the proposed rule change promotes just and equitable principles of trade in that it promotes transparency and uniformity across markets concerning when and how to halt trading in all stocks as a result of extraordinary market volatility, and how the markets will resume trading following a Level 3 market decline. As described above, the

¹⁵ 15 U.S.C. 78f(b)(5).

Exchange, together with other national securities exchanges and FINRA, is seeking to adopt a standardized approach related to resuming trading in NMS Stocks after a Level 3 MWCB halt. In this regard, the Exchange believes that the proposal to resume trading in all securities following a Level 3 halt in the same manner that securities would open trading on a regular trading day (i.e., the beginning of the Pre-Market Session at 8 a.m. ET on the Exchange) will benefit investors, the national market system, Exchange members, and the Exchange market by promoting a fair and orderly market and reducing confusion during a significant cross-market event. By allowing trading to resume after a Level 3 halt in all securities no differently from any normal trading day under the respective rules of each exchange, the proposed rule change would provide greater certainty to the marketplace by ensuring a familiar experience for all market participants that trade NMS Stocks. Based on the foregoing, the Exchange believes the benefits to market participants from the MWCB under Rule 3101 with the proposed standardized process for resuming trading in all securities following a Level 3 halt will promote fair and orderly markets, and protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act because the proposed Level 3 rule change described above would standardize the opening process for all securities on the Exchange, which would make the opening process the day after a Level 3 halt more uniform and reduce complexity. Further, the

Exchange understands that FINRA and other national securities exchanges will file similar proposals to adopt the proposed Level 3 rule change.¹⁶

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁷ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

¹⁶ See, e.g., Securities Exchange Act Release No. 88360 (March 11, 2020), 85 FR 15240 (March 17, 2020) (SR-NASDAQ-2020-003) ("Nasdaq Proposal").

¹⁷ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁸ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-Phlx-2020-11 on the subject line.

Paper comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-Phlx-2020-11. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing

also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-Phlx-2020-11 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

J. Matthew DeLesDernier
Assistant Secretary

Rules of the Exchange

* * * * *

Rule 3101. Trading Halts Due to Extraordinary Market Volatility

This Rule shall be in effect during a pilot period that expires at the close of business on October 18, 2020. If the pilot is not either extended or approved permanently at the end of the pilot period, the prior version of this Rule shall be in effect.

(a) No change.

(b) Halts in Trading.

(i) No change.

(ii) If a Level 3 Market Decline occurs at any time during the trading day, the Exchange shall halt trading in all stocks for the remainder of the trading day[until the primary listing market opens the next trading day].

(c) – (d) No change.
